

Apr. 30.

Dearest:-

Remind Dr. Wu of her material and errand, if you still have opportunity. Plummer's historical survey of our activities might go well with my briefer statement and present emphasis.

Hope the stamp will be coming through soon and we can get the University account straightened up at the Bank. Suppose Mac will bring pictures. If not, you might try sections by mail.

Papers O.K. Not much word from you for a while.

Sent University budget and explanatory stuff yesterday by boat.

Library cleared out, and painful process
going on at Short Course (Rural Leaders')
and Sericulture.

Some proposals for tennis on courts next
Swasey. Too many Squatters' huts above
the others, plus incidental damage to
fences and so on. Have it looked for
shoes here, and may need to send to you.

Hankow's experience yesterday must
have tragic and exciting, according to
reports.

I love you dearly, and appreciate
your good spirit in these hard times -
Searle
