My dear Dr. North,

Can you tell me what you have
heard from Mr. and Mrs. M. S. Bates of Nanking
University? Mrs. Bates is one of my old and
dear friends and naturally I am thinking of her
and wondering if the baby is all right.

I would also inquire about Mrs. Eunice Jones.
A young boy whom I know, sent magazines to her
and her letters of thanks to him made him feel
that Mrs. Jones was a personal friend. The
little fellow is very anxious and wants me to
ask if she has children of her own to care for
during this dreadful time.

In fact Walter took this so much to heart that
the other Saturday he was not with the other
boys and his mother asked what was the matter.
He reply was "How can I play when a very dear
friend of mine is in such trouble?"

If you can advise me when the Bates or Mrs. Jones
reach this country, if they come home, giving
their addresses I would thank you. It may be
so that we can send them a small check.

Yours truly,

Etta Horton

My dear Mrs. Horton:

Responding to your inquiry concerning Mr. and Mrs. Bates, I have to report that Mr. and Mrs. Bates are reported to be well and in Japan. Their exact location and address can no doubt be secured from the United Christian Missionary Society, 425 De Baliviere Ave., St. Louis, Mo., of which they are missionaries.

We believe that Mr. and Mrs. Jones have by this time reached the United States and are probably to be addressed care R. B. Jones, Selma, Cal. We do not have specific word that the Jones have arrived but the boat on which we have understood they were coming has by this time reached port.

My dear Mrs. Horton:

We appreciate very much your sending the little note indicating that you were directly helping Mrs. Bates. This is very gratifying to us, as of course, they are one of us and in very great need.

You will be glad to know that I saw Mrs. Bates in Yokohama and I was surprised, after having seen her two or three weeks before in Shanghai, to see how much better she looked. She really looked very well indeed. Mr. Bates was out in the country so I did not see him, but he is doing some teaching in the Mission College in Tokyo, but no doubt is getting some very needed rest. Mr. Bates was one of our very strongest men, perhaps our best teacher and scholar on the staff, and was doing most excellent work.

Thanking you very much indeed for your interest in them and in our work,

Cordially yours,

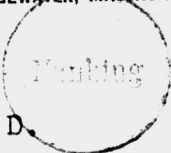

President.

Dear Sir,

Mrs. W.S. Bates of Wankling University is one of my old friends. For a long time I mailed to her magazines and papers. I have not heard from her for a long time except the last two Christmas letters.

Do you know if mail is going thro all right? Several times when I have been mailing the post office clerk has said that he doubted if such postal matter would get to her. I know that she needs these papers in her work and if they do go thro I want to send them. On the other hand, if they do not I do not feel that I ought to waste the postage.

Maybe you can tell me what is best.

Dear Mr. Garside,

In the 1920-21 famine in China large sums of money were given by Americans and at the end of the period a major portion of the balance in hand was divided between Yenching University and Nanking University.

Can you let me know what statements have appeared from these two Universities in regard to the use of these funds made available for them? I should like to see any published statement.

With thanks and best wishes,

My dear Dr. Rums:

I am acknowledging your letter of August 21 addressed to Mr. Garside who is away during the month of August on a very much deserved vacation.

The China Famine Fund was not made available for use in Yenching and Nanking until 1923. Since that time it has been used to bolster up the Agriculture Departments in these two universities. The last bulletin from Nanking which we have in our office on page 17 refers to the China Famine Fund, and you will notice there are references which in turn give more extended explanation of the different interests of the College of Agriculture and Forestry. We are sending you a copy under separate cover.

Relative to Yenching University, however, there is no similar publication and reports regarding this work are confined largely to the field and we find in the report of the China Famine Fund Committee dated April 1929 that reports from Yenching for the previous year were received together with a report for the current year and the proposed budget for 1929-30, and that all were received and placed on file in the office of the Secretary in Shanghai, who is Mr. Charles E. Patten. These minutes, however, do not have any of these reports attached thereto.

We will bear your request in mind and should our office receive anything which we think will be of interest we will gladly pass it on.

Dear Mr. Evans,

Thank you for your kind note of August 22nd in regard to agricultural work at Yenching and Nanking Universities. I hope you will find in the President's report or the Treasurer's report for these two universities some definite and comprehensive statement as to the use made of the famine funds provided in such large amount for these two universities.

The sentence which you point out on page 17 of the Thirteenth Annual Report of the Nanking Agricultural School, says, "no attempt has been made to designate separately that part of the work..... which is supported by famine funds, the expenditure of which is approved each year by the China Famine Fund Committee of five members". It would be of the greatest value if there could be indicated in a total expense account the receipts from all sources including the famine grants, as well as the expenditures for the various items. The problem is not one of unwise expenditure but rather one of making public a detailed accounting.

My dear Doctor Hume

Your letter of August 23 in response to my communication of August 22 was received last Saturday morning, it having been forwarded to Nanking, China. You have probably been wondering why some reply has not been received.

As soon as we received inquiries regarding the use of the Famine Fund, we communicated with the Field and have received a reply indicating that Nanking is about to publish a rather detailed statement showing the exact expenditures together with a statement regarding the work accomplished. This report would have been printed before this had it not been delayed because of illness on the part of the one who is compiling it.

No word has been received from Yenching, but that is not surprising as the dedication ceremonies without doubt absorbed most of the attention during the latter part of September. However, we expect Dr. Stuart in the States within the next six weeks and shall be glad to take the matter up at that time with him.

We shall be glad to take the matter up just as soon as more definite data comes to hand.

Glendora, Cal., U. S. A.

My dear Mr. Hummel:

We were all delighted to get your good long letter of December 3 and to know where you were living and what you are doing. It would seem to me your practical work there at the Glendora school would be a very fine experience and it must be a delightful place for Mildred and the Children to be, and no doubt they are all enjoying it immensely.

Kindly give my best regards to Dr. Hartshorne. You will have received a copy of my annual report. After you get through with it I shall be pleased if you will show it to Dr. Hartshorne.

We have not yet come to any final conclusions about a man to take Mr. Twinem's work. I have had in mind trying to get Mr. Robson but I am not sure whether that is advisable, or if it is whether it can be consummated. So far as he is concerned I have no question. I am a little concerned about his wife. She is not a pleasing personality and a man in the work that he would be doing should necessarily have students in the home a very great deal, very much as Mr. and Mrs. Twinem did, and she might not work into that part of it very happily. He is a first-class fellow and his training would be all right for that work, but we will move slowly in the matter as we want to get the right type of man for that most important position. If we could get a Chinese of the type of T. T. Lew it would be all right to have a Chinese for it, but I am afraid there are very few Chinese who have the background to teach the Bible most helpfully. If you know of any one please write immediately to Moss and Williams and to us here. I should think it would be an excellent plan to have a Chinese in that department, but he will need to be an unusual fellow, and unusual Chinese in the teaching profession are not numerous.

A great deal is being done in China, chiefly by South-eastern University and by Yenching, and possibly the government university at Peking, in tests and measurements. Shanghai College is doing something also. Of course we are miles behind everything in education, so far as tests and measurements and actual courses in education are concerned. In spite of this, however, I have the impression we are training as useful teachers as most any other institution, but we cannot be doing it long. We must get at least

0873

Jan. 9, 1924.

two first-class men in education for our ordinary arts and science work, if for nothing else. I haven't so much faith in the tests, per se, as I might have. However they are very good if they are checked up in other ways. For example, to illustrate: Mr. Terman was here last fall and gave tests to ten or twelve thousand students here, including our own Middle School. In our own Middle School and Model School the student who made the highest average or record was one who was rated zero in intelligence, one who has hookworm and two or three other diseases and who did moderately well in achievement and so was rated high, while C. F. Liu's boy, who is one of the brightest boys in school rated high in intelligence but not so high in achievement and got the lowest grade of the whole bunch. Of course this is an extreme illustration of the value of tests but it does illustrate dangers in them. I think on the whole that Terman's tests here were fairly successful. Anyway we all felt that we were engaged in a good cause helping Terman to get his Ph. D., which brings me to your Ph. D.

I think it will be extremely difficult for us to spare you next fall. Even if we get a first-class man for the Bible and religious education he will be absolutely new and should be in the Language School at least part time. Bill Sanders is going to give full time teaching next term, and that is going to be a great help, but we would not know how we could possibly handle the religious education if you did not return next fall. I am sure you will have great difficulty, in view of Mr. Twinen's death and our needs, in persuading the Trustees to approve of your remaining for a second year. The Methodist Board and the Trustees would probably grant it on the same conditions that they granted Illick's, which would be that your salary if you stayed should be paid to the University and you would have to finance yourself through scholarships or grants from other sources. Illick has a fellowship of \$700 from Princeton, granted for the second year, and then the China Medical Board gave him a scholarship, which yielded \$1,000 gold, on the strength of his science work here and his coming back to us, so he was in this way enabled to finance himself for the second year, but the action of the Trustees was against it, even though he had this financial backing and we had considerable correspondence and cabling before they finally allowed him to stay. We could handle his courses with Nelson Chen, Gibbs, and Steward for this year in a fairly adequate way, but I do not see how we could handle yours. I sympathize very much with your desire to get your doctorate and hope that you can get far enough along so that you can do some of it out here perhaps, but it seems to me that it will be impossible for us to arrange your work.

You may be interested in the tale of calamities which I enclose, which will give you some of the local news - mostly bad.

With very best wishes to the family, as ever,

My dear Mr. and Mrs. Hummel:

We are glad to have word that you are at home with your friends or are soon to be there. Every bit of information about your experiences and plans has been eagerly seized and shared. Anxiety, inquiry, relief, and concern have been our recurring emotions. We have endeavored to inform your relatives as promptly as possible of news about you.

Plans must now be made for adjusting ourselves and the University to the new conditions. Some of these we hope to announce shortly. It is clear that some form of emergency campaign will be necessary to secure funds to carry us along. President Bowen has cabled approval. Some members of the staff will be called on for active help. All will be rendering assistance by the spirit in which the past experiences and present policies are interpreted in such contacts as you may have with the press and public. The situation changes rapidly and the tendency of the press to seize the sensational or controversial or to represent (accurately or inadequately) the opinions of the one as typical of the many makes difficult keeping a fair and well-balanced view before the public. The public especially needs to understand the good-will and self-sacrificing spirit displayed by so many of the Chinese students and staff and others.

You will confer a favor on us if you will keep us advised of your correct address.

You will be interested to note the following arrivals:

At Vancouver, April 17th, Mr. H. G. Robson and family, Miss Van Vliet, Miss Hunt.

At San Francisco, April 21st, Mr. Alexander Breda and family, Mr. E. C. Lowdermilk and family, Mr. S. J. Mills and family, Mr. and Mrs. E. V. Jones.

My dear Miss Hunt:

I write to convey to you the fact that you have been duly appointed as a nurse to the hospital at Nanking by the Board of Trustees. I am very glad to congratulate you upon this appointment and am sure that you will greatly enjoy your work there. The people at Nanking are a most delightful group to know, and I am sure you are anticipating the privilege of getting out this summer.

I think we have not taken up with you two or three matters that should now be raised. I am not entirely clear from your papers whether you have been successfully vaccinated and inoculated for typhoid recently. If this has not been done it should be attended to right away. You ought also to take steps to secure your passport. I imagine that you and Miss VanVliet might very well go together to the custom house in New York City and at the passport department there you can make your application. You will understand that the university will reimburse you for the cost of securing this passport, which will be \$10.00. It is not too early for you to make application for your clergy certificate, and I enclose two blanks herewith for you to fill out and return to us. You do not need to bother about securing the signature of a minister, nor of the railroad agent; we can attend to these here, and will see that the certificates are secured for you. Do not fail to let us know if there is any question that arises in your mind. I am very sorry that I did not have more opportunity to become acquainted with you the other day, and hope that you will be in the office sometime again soon, so that we may get to know each other a little better before you leave.

My dear Miss Hunt:

We are enclosing a check for the balance of your outfit money, \$150.00. I am sorry I was not in the office yesterday when you called. We would have paid this some time ago if we had known that you wanted it; we were simply waiting for you to ask for it.

With regard to the date when you should leave New York, I think probably about August 2nd. We will have to buy your railroad tickets for you, and that can be done some time during July when we have your clergy tickets secured. I will write you again when we have this ready to attend to. In the meantime if there are any questions that you have please feel perfectly free to ask them.

With very best wishes, I am,

Sincerely yours,

My dear Miss Hunt;-

I enclose three copies of a form of agreement which we sign with our appointees to the various Universities. We have three copies to provide one for yourself, one for the University in China, and one for our office here. If you will sign these on the bottom line at the right hand side of the page, and have someone witness your signature on the bottom line at the left hand side, and then please return the copies to me, I will have Mr. Williams sign them. I would have him do it first but he is away just now. Then I will see that you get one copy before you leave.

I hope you are having a good rest. I believe it would be best for you to plan to leave New York August first so that you will surely have time enough to make your connections. You and Miss Van Vliet will travel across country together I suppose. Have you any particular route you would rather go? The cost is the same on all I think, so that you go directly.

With kindest regards, I am

My dear Miss Hunt:-

I am enclosing your eastern clergy certificate which you will take with you when you buy your railroad ticket to Chicago. I am also enclosing the pullman ticket to Chicago for yourself and Miss VanVliet. I secured a section for the two of you so that you will not need to be mixed up with anyone else. I suppose you have received your western clergy certificate with which you will buy your railroad ticket in Chicago to Vancouver. I am enclosing your pullman ticket for that trip. I have written Miss VanVliet that you have these pullman tickets. We have made a change in the date of your leaving New York. We arranged it for August first. Then we found that would land you in Vancouver on August sixth so we have changed it leaving New York Grand Central Station at 2 P.M. Aug. 2nd. You arrive Chicago Aug 3rd at 5 P.M. and leave Aug. 3rd at 9.45 P.M. The Canadian Pacific train leaves from a depot about two blocks from where you get into Chicago. The information man will tell you how to get there.

Dr. and Mrs. Earl will be in the section opposite to yours when you leave Chicago. He is going to be dentist at the hospital in Nanking.

I am also enclosing a check for \$175. It will take about \$70-75 to buy your railroad tickets, and I have allowed you \$100 for meals, hotel bills, tips, and baggage transfer charges. I do not think you will need this much but it is best to have it in case you do. Also I am sending under separate cover some labels for your baggage and a travel expense account blank. When this is filled out at the end of your journey it should be turned over to Dr. Hutcheson together with any balance of money from this \$175 I am sending you.

When you get to Vancouver you should go either to the Dunsmuir Hotel at 500 Dunsmuir Ave., or to Miss McQuillan's at 1110 Butte St. I am telling Dr. Hutcheson I am sending you there and he will look you up before sailing time. If there is any question in your mind about what should be done go to the Canadian Pacific offices and they will tell you what needs to be done. You will have to see that your trunks are transferred to the steamer, and you will have to have your passport vised. Dr. Hutcheson will be able to give you any needed information too.

You are entitled to 350 lbs of baggage from New York

0883

to Vancouver without paying any excess rates. It is possible the baggage agent may not give it to you since you do not have your railroad ticket from Chicago to Vancouver, but if you show him your steamer ticket and your clergy fare certificate and the pullman ticket he will probably allow it.

If you have any further questions that are not clear to you be sure to let me know. I am glad to help you in every way I can.

I hope you will have a fine trip to Nanking. I know you will enjoy it out there. The people are most delightful and there is great work to be done. With the best of wishes for success I am

My dear Miss Hunt:

We are sending you herewith a statement of your account with the University of Nanking from the date of your departure for America to the present. We are also enclosing a check for \$75. in payment of your August salary.

I note in your letter of June 24th that you state you have accepted a position in this country beginning August 1st. You do not specify whether you expect this securing of other employment to affect the furlough allowance provided you by the Trustees. The action of the Trustees in providing for the contingencies of furlough allowances for members of the staff stated that the payment of the salary would to some extent be affected by the date at which other employment in this country might be secured. A number of the members of the Nanking staff, for whom a six months furlough allowance was provided, have already secured other employment and have voluntarily requested that the furlough allowance be discontinued. The Trustees are anxious to handle the financial adjustment with members of the staff as equitably and generously as possible, but since they are facing a deficit of something more than \$20,000. because of
