Dean of Medicine

Chengtou, Szechwan

INFORMATION RE DR. Y. T. BEH (Beh Yin-tsai)

Graduated in Science, W. C. U. U. in 1932 and in Medicine, M. D. 1935.

Present age is 30, married with two children.

Has been on the staff of our university ever since graduation in the Department of Anatomy, except for the one year 1938-39, when he held a government fellowship for work in the National Central University in microscopic anatomy.

He did work in anthropology under Dr. Morse, has taught gross anatomy, but his interests are in histology and embryology, to which he has devoted his time during the past three or four years.

He has a fine personality; he uses English quite freely (not as well as Dt. Tsao, but quite above the average for our men); he has good administrative ability for during most of the time since Dr. Morse went home he has been acting as head of the entire anatomy department.

He is our logical head for the Anatomy Dept., and is a loyal member of our staff in every way. I am extremely anxious that he too should get a fellowship.

P. S. If others are available we have excellent men for Surgery, Bacteriology, Otolaryngology, ready to go abroad, in addition to the two whom I have detailed here.

WEST CHINA UNION UNIVERSITY

Seven families including Graham
(Dye, Graham, Kennard, Lenox, Moncreaf, Moore, Phelps)
Two single women (Downer, Nelson)

A dentist is the last official request through our mission - a doctor has been urgently requested who might possibly go to W.C.U.U.

4. What plans, if any, does your Board now have for strengthening its personnel on the West China staff?

The possible transfer to Chungking of a family is being considered
