

after long monkey business, it is clear that this will reach Shang
hai Sat. night 23 by Mr. Christian Kröger of Carlowitz & Co. 670
Szechuen Rd. on Creek. But in an Embassy sealed envelope
addressed to Consulate. So you won't get it before 24 or
14 Jan. 1938.

Dearest:- 25, I fear.

Notes on a few material items. British gunboat starting up
Sunday. Through Wilbur of YMCA or Pettit Foreign Y or Boynton
you can find out how to get stuff on it. Of course everything
that you are able to write or supply in printed matter, even if
comment must be deferred. We have had no papers or magazines,
with insignificant exceptions, since dates of early November.

All pajamas in rag bag save one heavy white and one pair summer.
Need one or two heavy at once, and summer when convenient - two or
three of latter. (A) Also 2 rolls Kodak Panatomic Film or other
medium film for Retina or Leica type (cost \$2 for 36 exposures when
I bought in September). Am enclosing one roll exposed, which may
have been ruined in taking out; have it developed on trial basis.
Am sending you copy of address list used for Christmas letter and
for letter of 10 Jan. which I tried to get through to Indianapolis
with instructions to handle as another of same sort and quantity.

Please get from Boynton-Rees copies of any stuff they have from
me, just to be sure you have seen whatever I have written; and report
to me the list of them, so that I can replace or supplement as needed.
Also settle accounts with them and with Turner girls at convenience.
I do not need or want more money I here for a long time, as I have
\$400 from Marx's last check beyond my expectations. But I'd better
have by next boat a checkbook for possible transfers, with information
on banking rules. You can use SC SB & NC freely. Marx in Hongkong.
Don't build up big Mex. balances. P.T.O.

④ Cod liver oil. The Megane
used in Japan was convenient.
but will take plain or any
economical form. Megane
500 tablets a bottle.

Japanese changed minds ^{32nd} again. Krüger to arrive Sun. night.

As to C.I. oil - Wilson of St. Luke's said he found concentrate of halibut or cod with capsules self-filled by dropper was a good, economical method. He can tell you by phone where & how much & dosage.

⑤ Also, at your leisure, a brief case much like old one now fragmenting. Iron strip to riveted into handle; catch as good as possible, tho lock per se not very important. No hurry. S.

Don't mean to have you send bulk of printed matter. Only items of special interest & value, for time seems limited in ratio to reading available, even now. Many good books lying idle. Read "We or They" (Armstrong) if you get a chance. S.
