REPORT OF THE COMMITTEE ON PERSONNEL AND EDUCATIONAL ADVICE

Miss Griest reported for the work of the Committee in regard to staff as follows:

New Members of the Staff.

Miss Alice Settlemyer, under appointment to the English department, sailed July 13th. Word has been received from Chengtu of her safe arrival there.

Miss Li Man-kuei, at President Wu's request, was secured for the department of English and sailed on August 9th. She has a B.A. from Yenching, an M.A. from the University of Michigan in English, and while there won two of the Hopgood prizes. She has worked both in the Chinese division of the Congressional library and in the Chinese library at Columbia University.

Miss Yung Hsiao-yun, at President Wu's request, was secured for the new work in Home Economics and sailed on August 9th. She has a B.A. from Yenching, majoring in Home Economics, an M.A. in that field from Columbia University, and in 1939-40 studied at the Merrill-Palmer School and at Cornell University.

Matthew Yang, at President Wu's request, was secured for the department of Music. He will teach both at the University of Nanking and at Ginling. He is a graduate of the University of Nanking, doing his major work in the field of Music at Ginling College. He received an M.A. in music at the University of Michigan in 1940.

Esther Rhodes, under appointment to the Music Department of Ginling College in 1937, has gone to the Music Department at Chengtu under a special appointment for one year to meet the emergency need of that department (see E 177, June 19, 1940). She will transfer to a three-year term provided conditions here make it possible and there warrant it.

Furlough Members of the Staff - Returning to the Field.

Liu En-lan sailed on August 9th after successfully concluding her graduate work in Geography at Oxford University.

Catharine Sutherland, assigned by the Board in June to Nanking to meet the emergency there, sailed on August 9th. A summary of the involved correspondence was presented. The Executive Committee continued to believe in the wisdom of its June decision, but decided that final authority belonged to the field. Voted: to cable the field, placing the matter in Dr. Wu's hands for decision. The Committee disapproved of placing the burden of the decision upon Miss Sutherland.

Furlough Members of the Staff - Returning from the Field.

Miss Minnie Vautrin. In mid-August Miss Vautrin was permitted to leave the hospital in Iowa City, but after a brief trial returned to the hospital. The doctors, however, are not discouraged.

Miss Eva Spicer, sailed from New York en route to her home in London on August 27th. A cable from London reached New York on September 7th, telling of her safe arrival. Miss Hodge reminded us of the daily prayer at 9 A.M. for Miss Vautrin's recovery and suggested that we include a prayer for Miss Spicer's safety.

GINLING COLLEGE

Faculty Needs, September 1943

English: At least 2 (one of them for teaching English as a language)

Miss Lamberton will go back to St. John's after the war.
Miss Causer came from L.M.S. on a temporary basis.
Miss Chang wants to return to Honolulu as soon as possible.

Music: At least 2 (one for piano and one voice)

Lucy Yeh's husband has gone to work in Kunming.
Miss Hu wants and should be given the opportunity to come to the States for advanced study.
Miss Graves should have her furlough in 1944 after a term of 6 years.

Physical Ed: One experienced person to head up the department, preferably a Chinese, and one for activities.

Ettie Chin definitely wants to come to America in 1944, and our own graduates in P.E. have all married.

Sociology: One experienced person for a term of two or three years.

Home Eco: One interested in adapting to needs in China.

Geography: One, interested in physical geography.

November 3, 1943

To the Members of the Personnel Committee

Dear Friends:

Since it seems impossible to get the Personnel Committee together again before the Board meeting on November 12th, we would like to have you consider the following candidates, and write us your thoughts about them.

For College Secretary:

Miss Adeline Bucher. She is 42 years old, has a high school diploma, but no college degree. Courses taken at night in French, German, English, Economics and Accounting are the equivalent of three years of college work.

She has held various secretarial positions, including that of private secretary to Pearl Buck. She was office secretary and assistant treasurer for the United Church Missionary Society in Nanking for the period 1930-32.

She is at present employed as the office Executive Secretary with the Medical Society of the County of New York. I have a letter of recommendation from Dr. Cutler under whom she is now working.

Mr. Higdon of the U.C.M.S. gives a somewhat qualified recommendation. I believe his reservations, as far as he has any, are based on health considerations.

You will note that she is seven years beyond the age limit the Committee set for new appointees at the meeting on September 7th. If, in spite of this fact, you wish to give further consideration to her application, I can send you fuller information about her training and experience.

For Librarian and part-time English teacher:

Miss Pauline Starn. She is 33 years old, has a B.A. degree from Bethany College and a B.S. in Library Science from Western Reserve University Library School.

Miss Starn spent 1931-34 as a missionary in Japan and remained at home when she returned on furlough through no fault of her own.

She was librarian in Wicliffe, Ohio, from 1937-40; reference librarian at Denison University in Granville, Ohio, 1940-41; and a cataloger at the Wooster Public Library, 1941-42.

She entered the Yale University Divinity School in the fall of 1942 and has been associated with Dr. Morris in the library there. She has done this work as a student assistant. She plans to spend another year at Yale in order to secure her B.D. degree, and if she cannot get to China in the summer or fall of 1944, she will go to Berkeley to study in the California College of Chinese Studies.

To the Personnel Committee

-2-

November 3, 1943

Dr. Searle Bates suggested that she would make an excellent addition to the faculty of Ginling College where she might devote part of her time to the library and the remainder to teaching.

Dr. Wu has had an interview with Miss Starn and was most favorably impressed. Both Dr. Bates and Mr. Higdon recommend her highly.

Some action should be taken as soon as possible with regard to Miss Bucher's application, but since Miss Starn will not be ready to go to China before next summer at the earliest, there is not the same urgency in her case. However, her application should be considered and the Committee should be ready to make some recommendation, especially in view of the fact that Dr. Wu has already seen her and expressed to her the hope that she may go to Ginling.

I have talked over these two applications with Mrs. Roys and, at her request, am sending you this letter. I hope that you will give it your most careful consideration and let me hear from you within the next two or three days, so that your thought can be incorporated in the report that must go from the Personnel Committee to the Board at the meeting on November 12th.

Sincerely yours,

Mrs. W. Plumer Mills

* Under this heading give the number of individuals regardless of how large or small a teaching load each carries.

** Part-time teachers should be included on the basis of teaching load rather than as individuals. For example, 5 part-time teachers may constitute the equivalent of only 1 1/2 full-time.

notes to be attached to Faculty and Administrative Staff

1. Dean of Students: The large number of part time staff here is due to the fact that we count the Dormitory Counselors as giving one half of their time to the dorms. Both Dr Chang Siao-sung and Mrs Kao Yang Bao-yu, Extra-curricular Counselor, are giving part of their time to teaching.
2. Department of Physical Ed: This department has a total staff of 9. This is because it offers a college major as well as the two year short course for the training of P.E. teachers for Middle school work. Furthermore, it includes one person serving part time on the Health Committee.
3. Those subjects not listed as of a certain department indicate courses offered but without program for a major.

FACULTY HOUSING
Ginling College

HISTORY. Plans for a Faculty House for a group of about 16 women were made in 1919 when the whole scheme of College buildings was worked out by Mr. Henry Killam Murphy. This plan had a central living room and dining room for the whole group with smaller parlors and reception rooms. There were several suites of two rooms--bed-room and sitting-room--and some larger study-bedrooms. This plan was revised in 1925-1926 to meet the needs of a growing faculty, and to satisfy as far as possible their ideas of how members of a college faculty should live. There were always some who preferred smaller houses and these were taken for granted as part of the finished scheme. The money to build the larger house at the same time as the new chapel and library buildings was sent out in the spring of 1927 but conditions in China that year made building impossible and changes of administration and college personnel made some rethinking necessary.

LOCATION. The ideal location of the large faculty house was not clear when building was begun on the new campus in 1921 and it seemed wiser to build an additional student dormitory which might be used temporarily for faculty. The 1919 plan showed faculty houses north of the Arts Building and south of the Science Building and these general localities, flanking the main quadrangle and outside the more important group, were always thought of as suited for faculty houses. Delay in completing purchase of land to north and south was in part responsible for delay in building faculty residences. Now the land to the north is gone, taken over by the city for the new residential district and the land known as the Gwoh land is still in process of negotiation although the College could use parts of it even now for faculty residences. Other land which might be suitable is the strip along the south slope of the west hill, and the Wade-Jones land (high hill-top west of campus).

THE PROBLEM. For several years there have been over 30 women in residence on the college campus. Of these more than half are Chinese. For the past three years they have lived mainly in two groups in Faculty House and East Court. Cost of living in the two houses has been a factor in the choice, chiefly a question of heat and service. The College has furnished light and water. For the large faculty house this has cost the College about _____ yearly. Four of the Chinese women have lived in student dormitories and this year three of the foreign faculty have lived in privately owned houses on the campus.

The foreign group of 16 represents 147 years of work (average over 9) in Ginling. Seven of the foreign faculty have been here ten or more years. The Chinese group is younger and has changed more from year to year (average term less than 4 years); but for both groups this change of personnel creates a problem, and houses need to be standard and adaptable in their arrangements to different combinations.

There is a senior group, ranking higher and carrying heavier responsibilities, and a junior group; a foreign group, and a Chinese group; a more or less permanent group, and a transient group; a group eating Chinese food, and a group eating foreign food; and these groups are overlapping, which complicates the problem. There was never any thought of making distinction between Chinese and foreign members of having them separately housed; but it is true that the two groups

make different demands and have different ideas about living together in a house. The need of two kitchens if both Chinese and foreign food are served in the same houses; the difference in the amount of heat desired; the attitude toward taking responsibility for running the house and furnishing it; these are a few of the questions that have to be faced.

The recent meeting of the Building Committee recommended the preparation of plans for a house for fifteen persons to cost \$30,000, and plans have been drawn up for such a house. The unit room is 130 - 135 square feet plus closet, which is not larger than the unit room in the present faculty house. The number of bedrooms is the same. Six small studies (9' x 10') and a guest suite, two small parlors and common rooms, in area about equal to the Living Room and Dining Room of the present Faculty House, are shown on the ground floor. The house is planned to face south so that rooms would get the maximum of winter sun. Service rooms in a basement under the dining room and storage space in the attic are also provided. The estimate for the house is just under \$30,000, including Arcola heat and plumbing (6 bath tubs, etc.) The first floor would be cement, the upper floors wood, with walls built to guard against white ants. The house would not be fireproof but with heater in basement the risk would be small.

This house seems to be what will satisfy a majority of the present Chinese group, an improvement on East Court; and, in some respects the house would be more attractive than Faculty House. It would not satisfy those who are tired of living with a large group, "prefer houses for three or four" or "a house for two or three". A large house will not run itself and the cost of living in it would be increased if the group had to support a housekeeper. Only half of the resident women will be provided for by this house.

A definite request for a small house has come in from one of the senior members of the faculty who carries a very heavy load and feels the need of a house where she can do her work more efficiently and more easily than in a large house; meet with small groups with whom she has conferences and would find it an advantage to entertain in a simple and informal way. Practice School faculty, students, Day School faculty and members of school boards, neighborhood calling groups, etc.

The Executive Committee is recommending that one house for 2 or 3 persons, with provision for complete independence in the matter of service, food, heat, light and water be built to meet this need outlined by Miss Vautrin; or that the second item be a double house which could be used either by two groups of three each, or by a group of six; and that the smaller house or houses be added later.

Mr. Creighton is proposing what he calls "row houses" instead of a lot of small detached houses, and sends two very interesting plans for consideration. His claim is that "Bed-rock economy is had in row houses". Flexibility of use and inter-use is easy, and changes inexpensive. A single large house is easier to handle in the matter of design. With single houses of minimum size it is next to impossible to avoid the "boxy result". The Wellesley faculty housing scheme makes very effective use of this idea. Central heat and some economy in service, cooperative kitchen and laundry, some large, common rooms, etc., etc., are suggested in Mr. Creighton's scheme.

The crowded living of the past few years has lowered our efficiency in many ways. On the faculty side it has made very difficult the personal work which a Christian College should do. If a teacher has only her bedroom and an "office", perhaps sharing that with another person, she has no place for quiet, uninterrupted talk with a student who may need personal help. She has also no chance to express herself in the way of creating her own personal atmosphere. For those who are more or less permanent members of the faculty something of this is needed, either in a sitting-room or study--not an office; or in small unit houses where a living-room would be available and the life would be free from the strain of living with a large group and having to adjust to the demands of so many persons.

Two members of the faculty have been allowed to build on the campus but for others the College must make provision; and the plans made at this time should meet this long-felt need.
