Dear Miss Griest,

I spoke quite casually the other day of having the office send you the list of board members, but failed to follow it through, so I fear you may not have had it. I shall ask definitely that you receive it.

The more I think of it, however, the more doubtful I am of the wisdom of sending a quantity of material to the average board member. I recall the attitude of many of them to our office doing that. Those of us who are very close to the work, of course, do not share this feeling. Just now they are all receiving regularly China bulletins which report the China colleges. Also the Associated Boards send out occasional reports, so I fear a number of Ginling letters might seem like a little too much to some and I fear the expense of the process might be questioned. Not all receive the Associated Boards material but much of it is incorporated in the Board Bulletins.

I am terribly sorry that I am not able to get to any of the meetings this fall.

Cordially yours,

Minnie J. Sears

Dear Miss Griest:

I am sure that you already know that every member of the Ginling Board appreciates deeply the excellent service which you have rendered for several years on behalf of the College. This service should be recognized, and we all take pleasure in attempting to do so.

This is to confirm the plan which we presented recently at the Executive Committee meeting when you were present. I hope you have had time to think it through and to give your consent to serving as Secretary of the Committee. You will recall that we outlined the work that day under three heads, namely:

1. All official correspondence for the Board, both with the field and with the members of the Board here in America.
2. Personnel work.
3. Promotion work.

It was the thought of the Committee that two strong committees within the Board- one on promotion and one on personnel- would be of great assistance to you in carrying on this big task which we have asked you to undertake.

We have written to Mrs. Cushman asking if she will consent to become Chairman of the Promotion Committee, and you heard me give my consent to serve as Chairman of the Personnel Committee.

There is a great deal that I might write you, both in appreciation of your fine service and in anticipation of the future, but I think that is not necessary. I do hope that you will see your way clear to accept this position permanently as Secretary of the Committee.

I hope that you will find it possible to get away for a good long rest this summer for Miss Tyler will be able to carry the details

until fall, when she leaves the country. It was our thought that this plan need not become operative until September at least.

With kind personal regards, I am

My dear Mrs. Sears:

Thank you very much for sending me such a clear statement of the Nominating Committee's report as it referred to me. I have asked Miss Hodge if I might see this in writing. I feel that it was pretty clearly photographed on my mind, but I thought before I made a decision I should see just how the plan was written.

I am facing some very difficult problems in relation to making a decision, and I hope you will have patience with me, if I take a little more time.

I earnestly hope that Mrs. Cushman will accept the chairmanship of the Promotion Committee. She will be a most excellent one.

I think you know that I have always enjoyed working with you, so that the delay is not colored by any fear of the arrangements with relation to the Personnel Committee.

Unlike Herman Liu, I am not "the first to write in times of joy or sorrow", but I do want to tell you how proud I was to be a member of a Board which has you on it, as I listened to you on Monday night at the Memorial service for Dr. Liu. Your tribute was beautifully phrased, and beautifully presented, and you were lovely to look at.

Ginling College, Chengtu, China, 5/13/42.

Dear Mrs. Sears:

I wish to acknowledge the receipt of your reply of March 10th in regard to faculty needs for the year 1942-43. Just as you said, the situation is so different from what it was in November that the whole aspect of affairs has changed. I understand how you would hesitate to go ahead with the candidate work. It is a splendid suggestion from you in regard to the possibility of securing missionaries now on furlough, and I shall certainly write you if I can find out about available people that would meet our needs. At the same time could I ask you to write to the mission boards and make inquiries right there in New York? It seems to me this is a more direct way of getting accurate information, because the available missionaries must be fairly numerous, who are connected with institutions in occupied China and will be unable to return to their posts. Our most urgent needs are in the geography, sociology, and home economics departments. Now since Miss Wu Mao-i is not likely to return next summer, we shall need an additional professor in the chemistry department.

In regard to Chinese students now in America, it seems to me that approaches should be made to them notwithstanding the uncertainty of travel. This is because other universities may make approaches ahead of Ginling. Take Miss Ai-li Sung for instance. Our sociology department would like very much to secure her any time that she is able to return. She seems a splendid scholar and a fine woman, and we should approach her as soon as possible. I fully realize that travel is difficult these days, but if we can get the candidate settled, we can arrange for the travel as soon as conditions permit. Perhaps it will be easier if you write through Miss Mary Treudley of Wellesley College. She started the sociology department in Ginling and so knows the conditions here, and Miss Sung was a student of hers at Wellesley. I shall also write to Miss Treudley and tell her about the present conditions of the sociology department at Ginling and of the splendid openings for social work in the country. Anything you will be able to do to help in approaching Miss Sung will be greatly appreciated.

Sincerely yours,

(signed) Yi-fang Wu

My dear Miss Bau:

Thank you very much for your response to Miss Moore's recent request for information and a photograph of yourself. We have noted your request that we return the photograph as soon as we have used it. We shall surely return it to you. We feel that it will be very interesting to the friends of Ginling to have a composite picture of the Ginling alumnae at present in the United States, and to know what they were doing in China before they came to this country and what they plan to do when they return. What you have told us is very helpful except you do not say when you hope to finish your study in America, and what you expect to do when you return to China. If you can give us the further information about your experiences in China, and your future plans, we shall be grateful. We shall use only the briefest statement about each one of the Ginling women now in this country, but we should like to have the statements as comprehensive and interesting as possible. I hope you can take time to give us these further details.

We have sent out requests for information about Wei-Sui-djen, 1923, and as soon as we receive such information, we will send it on to you.

With very best wishes, and the hope that the Christmas vacation will be a very happy one, I am

Dear Mrs. MacMillan,

I am grateful to know that
you representing college at times
are interested to know more about
my future work etc. As I said in
my earlier letter that I am the
physiotherapist to Mr. Fred. B. Suite
of the ⁱⁿ the Iron Lung; who brought
me to this ~~state~~ country from P. U.
N. E. Peiping, China to Northwestern
University for a 10 months course
1937 Sept. - 1938 July. I have gone

[27] back to work on him since July
'38. Recently I have decided
to go home for a short visit and I
am sailing Jan. 13 '39 by S.S.
President Coolidge from San
Francisco. I shall expect to
return to the country by Sept. '39
to resume my studies in Northwest
in order to obtain a M.S. degree in
Physiotherapy course; if all goes
well. Since my trip is entitled first
to Peiping, China. I shall land at
Kobe, Japan; by rail to Tientsin, China.
Then to Peiping. If I should have
a chance to visit Shensi where
the present war base hospital is located

12-18-38

Thus continue the trip Hongkong
where my home is en route Nanking
and Shanghai. Also, I had a
intention to visit the present location
of Qinghai College, Szechuan.
Incidentally if there is anything I
can do for you or college, I shall
be more than glad to render my
service.

I am fully interested in
institutional work, therefore when
I should finish my studies here
in 1940 summer, I'll be to the
look out for an institutional work.

I am leaving Miami on
the night of Jan. 6 '39. If my

Dear Mrs. MacMillan,

once again I am going
to trouble you.

In the coming fall, I
am expecting to enter Northwest
University; as I do not
have a transcript of my
credit here and before I
could have them sent from
China. I wonder if you
could give me a University
Catalogue or may I borrow
one from you as a reference
to the courses. For that will
help me in time saving.

Today, I am writing

catalogue. Trusting they
will be here before the
September semester starts.

Please send the
catalogue by air-mail and
you may put on collect
if you wish.

Thanks very much.

Sincerely yours,

P.S. How many of these girls
are going to camp with
you? Will there any be
going back to China? Give
my regards to whom you might see.
Thanks. M. Ban.

Confirmation Copy

Ginling College, Chengtu,
December 27th, 1939.

Dear Miss Bau,

Your Clipper letter arrived while I was in the country at our Rural Service Station. After my return to College it was the busy season for Christmas so I have not been able to write to you earlier.

In regard to your request for a certifying statement from me, I have discussed it with Miss Chester who is the acting dean in Ginling. We both understand that from your point of view you wish to have the status of a College graduate. Yet from the viewpoint of keeping up the College standard, neither the President nor the dean ^{can} change the decisions of the faculty. It is, therefore, impossible for me to send you any statement as you suggested to say that you are a graduate from Ginling or that a B.S. degree has been granted. You know yourself that this was not done in 1931 nor in 1934. I am rather surprised that you could have asked for such a statement from the College.

In regard to your certificate from the P.E. department, I am quite ready to give you a statement and herewith I am enclosing a copy. Perhaps you remember that this decision was reached in 1934 because of the teaching that you had done in P.E. When you left the College you had not taken the course of supervised teaching in P.E. so the department was not able to grant you the certificate at that time. After you left College you taught P.E. and the department heard of the difficulty you had in securing a position of teaching P.E. without the certificate. The department, therefore, recommended to the faculty to give you the certificate and it was accepted. This certificate, however, is not the diploma from the College and it could not be used to indicate that you had graduated from Ginling. You should tell the North-Western University about the actual conditions and ask for consideration to be taken as a special student in order to go into that special field of training. The different forms of statements which I sent you in Hong-kong can serve the purpose and you should not have to receive any other statement from the College.

I am sorry not to be able to do more to help you, but I thought I explained the situation very clearly to you when you were here in Chengtu.

Sincerely yours,

YFW/k

Dear Miss Bau:

Your note of June twenty-fifth, asking for a copy of the Ginling Catalog, reached this office at a time of such congestion of work that it was impossible to give it attention. When the time of special stress, connected with the end of our fiscal year, had passed, I knew that you would have ceased to need the Catalog for reference. I hope that the registration in which you were then involved went forward smoothly and that your work for next year is now completely arranged. Do let me have news of you.

Miss Eva Spicer is in New York at the moment en route from Chengtu to her home in England for furlough. We had a gathering last evening which included Miss Deng Yu-dji and Miss Li Gwan-yuen, and a few former members of the Ginling faculty.

Dear Miss Tyler:

I have found the following information about Miss Marguerite Bao (Bao Siu-djen), after looking through our office records and through her correspondence file.

Miss Bao studied Physical Education at Ginling College for four years, but did not graduate. She was a physiotherapist at Peiping Union Medical College, and Mr. Frederick E. Snite, Jr. ("iron-lung" patient) brought her to the United States with him from P.U.M.C. She took a 10 months' course (Sept. 1937 to July 1938) in Physiotherapy at Northwestern University, and then went back to work on the Snite case in July 1938. She was still with the Snite family in Dec. 1938, but we know she is not on the case at the present time. (Just when she left this work, we do not know).

She intended resuming her studies at Northwestern in Sept. 1939, in order to obtain a M.S. degree in Physiotherapy, but we do not know anything definite about this.

Miss Bao's present address is 1952 West Monroe Street, Chicago, Illinois.

This is all the information about Miss Bao that I have been able to turn. I cannot seem to find the exact years she spent at Ginling, and I hope this is not too important.

Sincerely yours,

Mrs. Alfred Foster,

Dear Dr. Wu—

Your arrival to this country has meant so much to all of us who are long to see you here for a change of air at least. Much to my regret that I have not been able to see you other than that day at Girding Luncheon.

Thank you for the news letter you sent out. You have brought us a step closer to the actual existence in China. Ever since 1939 I have been trying to enlarge the scope of my field of work. Try to correlate Physiotherapy with its allied subjects. I took occupational therapy when I was at Harvard working in Children's Hospital Hospital. Then I came to Presbyterian Hospital, New York City took X-Ray course. In the hope that I will be able to do a better

Dear Miss Bau:

I found your letter of August 9th waiting when I returned from my vacation.

Of course I would like to see you and hear about your plans for your work when you return to China. Just now I am afraid I am rather pressed with work before I go to Washington.

Since what you have in mind to talk about with me is concerning your plans for after the war, there may not be the necessity for our talking about it right away. It would be more convenient for me if you can wait until October. I'll let you know then as to the time when you may come to see me.

Dr. Wu's Statement Regarding Miss Marguerite Bau

In regard to her college transcript, I am not in a position to put my signature on any list which she can work out from memory only, after consulting the catalog.

If she remembers that the College sent any official transcript to Northwestern University, the best way is for her to write to the Registrar's office and secure a copy from there.

The other question about certifying that she graduated from Ginling, I would wish to read over Dr. Chester's letter to her on that question. I know definitely that we decided to permit her to graduate from Ginling on the condition of completing certain courses from Northwestern or from some other institution. This is why I need to refresh my memory by Dr. Chester's letter and any official letters she can show me that she has fulfilled the conditions Dr. Chester asked her to fulfill.

Paragraph from Dr. Wu's letter of May 3, 1944, to Mrs. W. P. Mills

"I wish to thank you for your inquiry regarding Bao Siu-djen. Her case was rather complicated and I am sorry that our records were not corrected up to date. In fact, that list of Alumnae in English was made by Mrs. Thurston in Shanghai and she had no way of knowing of the recent decision made up here in Chengtu regarding Bao Siu-djen. What Dr. Chester wrote you is her final correct status, that is, she is considered a graduate from Ginling in 1940. This was done after receiving some of the credits she made when she studied in Northwestern University. We shall appreciate it if you will please add her name to the official list of Alumnae in your office. If she has not come to you, herself, perhaps you should send her a note to tell her that Dr. Chester has sent you her official transcript. If she wants to enter any institution as a regular graduate student, she should write you and you can send her a copy of Dr. Chester's record. The original one better be kept in your office. Or, if you wanted to be very cautious about it, you might send the transcript directly to the university and not through Bao Siu-djen herself. However, I'll leave this to you to decide according to the circumstances at the time."

New York 13, New York

Dear Siu-djen:

In sending you the circular letter I wish to add a personal note. First of all, I wish to express my many thanks for all the things you have done for me. I have received the typewriter, the vitamin pills and the "si-yang-sen" which you so thoughtfully presented to me. I have also received your Christmas greeting and your request that I give you time for having dinner together again. I have just talked with Mrs. New and most likely we can arrange to have Sunday noon free. Since I saw you last at the dinner I have taken two trips to New England and one trip to Washington and attended different meetings in New York. I have been kept rather busy but I do feel sorry not to have written to you earlier. Now that I expect to leave New York within a few days, I am giving today for letters.

Li Gwan-Yuen has turned over the contributions from the alumni to the college office and the official receipt has been sent to you. I wish now to express my personal appreciation for your generous gift in building this alumni fund. The enthusiastic response of the alumni expresses their loyal spirit toward the alma mater and the gift will mean a great deal in building up the health of the faculty and students. I am much encouraged by such expressions and I shall have more confidence in going back to take up the difficult task of reestablishing the college on our permanent campus.

With best wishes to you and to your husband for the new year.

sincerely yours,

pr
