Sung Ch'uan Tien

Hui Wu (hao)

(1928)

My dear Smith
7/2/28

Sung Ch'uan Tien was born in I Tu hsien twenty li southwest of Tsingchoufu fifty-four years ago. He was the eldest of three brothers and had two younger sisters. His family was in dire poverty and could do nothing for their ambitious son, so he went himself to a nearby village in order to attend a little school. Each night, he slept on a narrow wooden bench in the schoolroom and a blind beggar shared his meagre hoard of food with the young lad.

After some years the boy entered Mr. Couling's school, showing unusual aptitude in Algebra. Mrs. Couling taught him English and such was his desire to learn that after the school lights were out, he studied by the feeble flare of a stick of incense, unfortunately impairing his eyesight for life. His father and brother were at the time employed as cooks in this school.

After graduating from this school, Ch'uan Tien was engaged to continue as teacher, at the same time teaching in a small school in the Manchu colony in the north city of Tsingchou. At first, he went to and from the two schools in a wheelbarrow, but finding that he spent too much time in transit, he bought the first bicycle ever seen in the city.

When the Baptists and Presbyterians united their college work in the "Kuang Wen" School at Weihsien, Mr. Sung was invited to become a member of the staff, having previously helped Mr. Couling translate a standard work on Zoology. Later, Mr. Sung returned to Tsingchoufu, again teaching in both Mission Middle School and Government Higher Primary.

At the time of the founding of the Republic, there was very bad feeling between the Chinese and the Manchus of the city and Mr. Sung and a Mr. Li were sent to act as peacemakers. Their overtures were not received and they returned with ~~broken~~^{broken} heads, as the Manchus had greeted them with stones.

Mr. Sung became principal of a government higher Primary where he stayed for four years. During these years, Mr. Sung became interested in the lace-making industry which Mrs. Couling had started in western Shantung. He originated many new patterns and added embroidery and hair-nets to the business, deciding to move to Tsinan. Here he added rug-making and at one time had as many as one thousand employees. Due to unfavorable trade conditions, he now has four hundred employees, specializing in oriental rugs. To this end he bought his own spinning machines which make up the sheep wool, he also dyes the wool, so manages the whole process himself. Mr. Sung has an export and import office in New York City and imports motors, jewelry, etc. in exchange for oriental rugs.

Mr. Sung is an outstanding figure in industrial welfare work for his workmen. He maintains a hospital and resident physician to care for them. The head workmen must needs attend night school, while basket ball is provided for their leisure. Regular field meets with prizes are held for the employees. A record is kept of the individual work of each man and praise or blame is awarded according to the degree of excellency attained.

Every Saturday, movies are provided, while on Sunday a lecture on some virtuous topic is held. Employees are urged to attend the Y.M.C.A. lectures and other forms of entertainment.

After the return of Tsingtao to the Chinese a Government University was opened at that city and Mr. Sung was elected first president. The government contributes \$2000 a month, the Chiao-Tsi Railroad \$1000 a month and the Tsingtao Chamber of Commerce \$1000 a month, towards its financial upkeep. There are three departments in the University, that of Commerce, Architecture, and Railway Instruction.

Mr. Sung has been generous in his charities, not forgetting the blind beggar who shared his crust with the little hungry boy. He gave the money for the erection of Hui Wa Hall at Tsingchou Middle School. Among other offices now held by Mr. Sung we may mention that he is director of the Y.M.C.A., director of the Red Cross, director of the Blind School and also of the Leper Hospital. He has recently been elected one of the three Chinese members of the Board of Governors of Shantung Christian University.

In 1920, Mr. Sung was elected president of the Shantung Provincial Assembly. He is also head of the Shantung Ch'uan Sheng Chiao Yi Chi Chiu Hui.

In the fourth year of the Republic, the President of China sent Mr. Sung a black "pai" bearing the four characters "Shih Yeh Hsueh Jung" and also conferred upon him the decoration of the 6th degree, all in token of his industrial accomplishments.

Mr. Sung's family is a most delightful one, whose children are an honor to their illustrious father. His eldest son graduated at Peking University and then studied in America and now is in charge of his father's business, carrying it on in a most exemplary fashion. His daughter graduated from Yenching in 1926 and after an extended tour of the world came to Tsinan as the wife of Dr. Ts'ui, a member of the staff in the School of Theology. A younger son and daughter are now studying in America while the youngest son is still at home.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

I have traveled more than 1,000 miles by foot in Sikiang, West China during the war time. Sometimes no food can be found for several days. There are only few qualified medical doctors in the whole province except about 10 doctors I brought in from Szechuan.

Cheeloo Medical graduates have given a great contribution in helping the sick people. They want to do the actual work & they are not ambitious to be big head. Cooperation of Cheeloo with their graduates is insufficient especially the medical college. They (teaching staff members) don't see what they ought to do & they have no definite policy.

Sorry I didn't answer your question but I think this is my opportunity to say a few lines to remind Cheeloo friends who are interested with Cheeloo University.

Ten years teaching in Cheeloo School of Theology; organizer and 1st Chairman of the North China Christian Rural Service Union; co-organizer of Christian Service Union to the Wounded; Co-organizer and General Director of Border Service Work of the Church of Christ in China-- preaching and practising Christianity to the backward and minority groups of China.

27. WHAT TYPE OF WORK WAS IT? _____

The first two are normal Christian activities, which I consider most basic and in which I have a natural interest, and to which I would return as soon as possible. The third is a War time necessity, in which all Christian forces in China participated until the end of the war against Japan. The last, which is my present engagement, though born of the War necessities, is of more permanency nature, combining the functions of Christian missions with that of the Mass Education Movement, and such like social reconstruction movements.

29. HOW WOULD YOU CLASSIFY YOURSELF - BANKER, EDUCATOR, LAWYER, BUSINESS MAN, ETC.? _____

An Educator and Church worker.

30. WHAT ARE YOUR HOBBIES? _____

31. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR? _____

1. Captain of Cheeloo University War Time Service Corps, July-October, 1937
2. Captain of Tsinan Christian Wartime Service Corps, October-November, 1937
3. Co-organiser and Field Director of Christian Service Union to the Wounded from January 1938 to August 1939, in which capacity I visited and organized local unions and service teams in 9 of the 10 War zones in China.
4. Helped Reconstitute Cheeloo University in Chengtu, 1938, served as Dean of the Arts College until summer of 1943.
5. Attended Madras Conference in 1938
6. Organized Border Service work in latter part of 1939, and has been General Director of the work ever since.
7. Served as Chairman and Executive Secretary of the Provisional Council of the Church of Christ in China after Pearl Harbour Incident.
8. A member of the Border Education Commission of the National Government since its inception in 1940.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

1. ~~On May 23rd, 1939, was buried in the ruins when the headquarters of the Christian Service Union to the Wounded was directly hit by Japanese bombs-- in Chungking.~~
2. ~~Miraculously spared in June, 1940, when hundreds died in the immediate neighbourhood of the Border Service headquarters in Chengtu and shrapnel rained all over the court yard, some missing me only by a few inches.~~
3. ~~When the first teams of service to the Wounded was being organized at Chengchow, our whole group of 20, who had been working at the railway station, left and scattered barely soon enough before the Japanese planes wiped out the whole station and several blocks around it. This was in February 1938.~~
4. ~~On a trip to Kweichow in 1939 in connection with preparation of the Border Service work the bus went down an embankment of 20 feet and turned over in the rice field. I was half thrown out of a window with my head entirely buried in the mud; but for a few light bruises I suffered no serious injury.~~
5. ^{April} ~~In 1944, after getting the Rescue teams for American Airmen in the Lololand started, I had another bus accident on my way back. At an altitude of 9000 feet something went wrong with the bus while climbing a steep grade. The passengers managed to get out of it before it slid back and went over a precipice of 500 feet. Then in freezing coldness and down pouring rain and foodless I walked for 10 hours to the nearest place for shelter; there I waited for four full days before getting on to another vehicle to proceed on the journey.~~
6. What I feel most keenly, however, is the news from Cheeloo last March that everything of worldly possession-- books, manuscripts, personal effects, and household furniture-- all being in Cheeloo, has been lost for good.
In spite of all the above experiences I and my family are happy that we are all safe and engaged in causes well worth doing.

30. WHAT ARE YOUR HOBBIES? Traveling is my hobby.

31. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR? In Oct. 1937, when the Japanese troops reached not far from Tsinan, the University was closed because of the critical war condition. So a group of my schoolmates were left Tsinan for Chungking where we continued our study as refugee students in West China Union University. In the next year, as Tsinan had already been captured by the Japs then the University was moved to Chungking. After my graduation in 1939, I was working in my alma mater as assistant, resident and instructor in Obstetrics + Gynecology until 1946 one year after the surrender of Japan. Then the University was moved back to Tsinan. Because the poor condition of transportation, I was stopped in Chungking and worked in this hospital for nearly one year. I hope to go back to Tsinan to serve my alma mater in the near future.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

Cheung had been heavily raided for many times during the war time. In two occasions I was nearly being injured by the explosive bomb shells during air raid. Once I was hidden in a small cave outside the city wall. A bomb was dropped down just in front of the cave but fortunately this bomb did not bombard. So I was so lucky and have to thank God for He saved my life.

I don't think I can tell you all what I experienced during the war time. Only thing I am satisfied is that the Lord always with me ~~at~~ elsewhere and all the time. During I stay in Chungking, the Japs plane came to bomb every day and nite for which cause serious damage in the whole city. Of course the big damage influenced near all the people including my family in the city. 50% of my property was lost and damaged due to the Japs air raad.

I was ordered to go to Changsha by the National Health Administration in July 1942 for inspecting the situation of medical supplies using at the front medial centers. When I got down Changsha, and the Japs big invasion started for southward. Changsha was a big fighting and after 10 days fighting Chines Force drove all the Japs out which is one of the famous victories between the fighting of Japs and Chinese. I was Captured by Japs for 5 days and got escaped on one nite. I donit think there were a little false announcement of the news papers about the cruelty of for prsonners made by the Japs. They treated the Chinese People even much Worse than treating any of the white peoples.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES. At the time of Pearl Harbor, our income stopped and there was no money to buy food. The patients were hungry and discouraged and started, one by one, leaving for their homes. Japanese gendarmes came and asked me why I had instructed the patients to leave. I answered that they had no food, no hope, and so they were drifting off of their own accord. The gendarmes again accused me of instructing the patients to leave, and repeatedly slapped me. They said no more patients were to go. When I asked what we could do about food, they told me to go to their own Special Affairs Bureau, where plans had been made for this hospital. I went there, but they had no plan. I returned to the hospital and we all prayed about the situation. Within a short time, instructions came from the Japanese that Dr. Smyly, the hospital superintendent, and I were to come to the provincial government headquarters. There we were told that the provincial relief department would take responsibility for the hospital. From that time on the patients had food which, though inadequate, kept them from starving.

When in West China, I spent a lot of

time with the wives and children of the military men. We

planned a place where we could take care of the children,

even tiny babies, while the mothers worked or were students

in the Mothercraft school. Some of these mothers became

Christians and when their husbands returned they were

influenced to become church members.

I was in Changhi, while the war was on between Japan and America. Communication between Chinese and missionaries was not allowed by the Japanese. I tried to help the missionaries to get money and other things to do this. I travelled to Sien-Tsin, Tsi-nan, Hwei-Guen, Nanking and Shanghai. On one trip I was held and questioned for two hours because they did not want me to be friends with Americans.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD -
FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE
EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

In the years 1940 and 1941, when I was working in the
United Hospital of the Associated Universities at Chengtu, Japanese
planes bombed the city including the hospital and the various
colleges seriously. It was so impressive to me that the raids
were so frequent that our habits of living changing a great deal.

In the hospital, the surgical cases were so much crowded
that we could hard find way to accommodate them. We had to
operate upon day and night. Sometimes the bombs ^{were} dropped
down just near our house that we thought better for us to
find shelter in a further place to the hospital. But as we
saw the big number of wounded lying there, we couldn't but
stay with them no matter how horrible the bombing were.
As a Christian and I know that God has blessed
me during that time especially that I have nothing but
but only ~~some~~ part of my house slightly damaged. The
convalescence of the so many victims has soothed our hearts
unconsciously.

From 1943 to the end of the Global war, I went to the
northwest as there are short of people of surgical field. I
worked with my wife, who is a graduate of ~~Chubu~~ Medical
School of 1942 there in the National Northwest Hospital.
We encountered great difficulties there as the people of Kansu
Kansu, were not so well civilized.

After war ended we came to Shanghai and are trying
chance to go to United States for further study along our line,
since we have found ^{ourselves} not well equipped yet to meet the
great need of China.

Please pardon me in presenting so bad
handwriting as I am having
no typewriter at hand available. (The End)

On a clear day of July 1938 I was in a small town called Lo Ho in Honan. The Japanese airplanes came to bomb this town. I hid myself in an earth cave. Hundreds of bombs dropped around the place where I was. I was buried in the earth for some time but not wounded. There were about 300 casualties and about the same number were wounded. This was my duty to help the wounded people. We had worked hard for days and nights.

Many unusual experiences when I worked as a medical officer in guerilla forces. Generalissimo Chiang Kai-sek sent a special mission in 1928 to the guerrilla troops of Honan-Kiangsu-Shantung area. I was the only medical man in the mission. The group started out from Chungking in January and returned in October of the same year. We passed over snow mountains, travelled in hilly areas & grass plains. For almost six months the group was chased by Japanese troops, several were injured but none was captured. I entered several key cities in the area which were occupied by the Japanese under the cover of merchant and a false name. Only once I had raised some suspicion of the Japanese special service but fortunately I got the information early in time and fled away. Guerilla battles are poetical, especially when the experience reflects in memory.

I was staying in Tientsin. I was the dean of Nankai Middle School at the beginning of the war, then I became the dean of the Cantonese School. The president of the Cantonese School and I were members of an organization of many educators who were anti-japanese. The organization was directed and supervised by the government.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

The Tientsin Japanese garrison considered that Nankai University and Nankai School were the centre of anti-Japanese movement, so they immediately bombed Nankai when they started the war. At that time, I was in the middle school. They dropped about ten bombs in the school ground. The nearest bomb dropped was about 100 yards from us. The staff and some students withdrew to the station of the Tramcar company. The Japanese soldiers occupied the school in evening and took away all the movables. We stayed at the station for one day and withdrew to the ex-British Concession.

26. WHAT DO YOU CONSIDER THE MOST IMPORTANT WORK YOU HAVE DONE SINCE LEAVING COLLEGE? _____

Research of Philosophy, because it my give me the ultimate knowledge. And if this gives me a firm hold, I shall, by means of it, solve the actual problems.

27. WHAT TYPE OF WORK WAS IT? As a graduate student's work: Chiefly,

I entered National Associated University from 1941 to 1944. Before this, from 1939 to 1941, I was in Chee Loo University. Afterwards, I was a Lecturer of National South-western Associated University, and my research work continued.

28. GIVE NAME OF FIRM _____ DATES _____
(From) (To)

ADDRESS OF FIRM _____

29. HOW WOULD YOU CLASSIFY YOURSELF - BANKER, EDUCATOR, LAWYER, BUSINESS MAN, ETC.? _____

student of philosophy

30. WHAT ARE YOUR HOBBIES? Travel

31. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR? At the beginning of the war,

I made my mind to join the army. But owing to the bad condition of communications, I could not go to the front. Then I went to Chang-sha (长沙), and entered the National Associated University to study philosophy in general, as a particular graduate student. In the following year, I moved westward to Chengtu (成都). In the graduate school of Chee Loo University, I devoted myself to the study of Chinese philosophy. Two years later, I travelled to Kunming (昆明), and continued my research work on and on for five years running. During this period, the former three years, I stayed in the graduate school of the National Peiking University; the later two years, I became a lecturer in the National South-western Associated University.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE

YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY

ACTIVITIES. One night, I ran at full speed through a forest, and sat down by the side of a river in the dark. The Japanese aeroplanes, that used to attack with bombs upon the innocent citizens, were far up above me. In the previous days, I occupied my attention with researching, it would seem that whatever dangerous did matter nothing to me. But my room had just been destroyed by bombs, then I could not help quivering with terror. I was buried in meditation, thinking that, in days to come, I had rather give up the revenge upon the enemy than reward them as such a cruelty. The mountain stream murmured beneath the shade, complaining about the loss of reason of human being. Suddenly, I saw a big star in the sky, its unusual brightness was penetrating right through my heart. The ship of my thought was directed by the lighthouse from a distance in the ocean, and reached the harbor immediately. I had an insight into the universe. The essence of the world is an indivisible whole, and the change and flux are only an appearance, which depends upon our sensation but not reason. Virtue corresponds to the world's essence, rather, they are the same. For to love others comprises that one of the rational being coincides with another. Vice is due to man's going astray. As one can return to one's originality, one may correct what one has done wrong. So, to do good is but an easy thing, depending upon a momentary change of the mind. He, who enjoys himself to do much injury to his neighbors, will be imposed a heavy penalty as a criminal by his own judgement of pure reason. Then, to gain peace is to call back the reason of the aggressor, reason is just like the star on the sky in the dark. Such idea encouraged me through the long horrible period of about eight years, and throws much light on my further study of human's ideals after the war. I hope, I can have full time to read, and compose a complete system, that will last the democracy and peace forever.

Three years ago I have accompanied Lt Gen. Chu Zhao Liang (朱昭良) (Former Chief staff of the Generalissimo Chiang) to a trip to Di-Hwa Hsin-Kiang Prov. a secret place as it was formerly called. Gov. Sheng Shih Tsia (程世燾) the famous murderer was in power of that place. I had the risk during riot to get the place with General Chu which was a remarkable accident in the history in the great far north west. This place during the old time was famous for war but now is becoming a very safe territory. It is also getting well known as international gate. Because Misses Willkie and Wallace had been visited here.

26. WHAT DO YOU CONSIDER THE MOST IMPORTANT WORK YOU HAVE DONE SINCE LEAVING COLLEGE? _____
I founded two middle schools and one district middle school. I was once a district governor, a commander of mobile units in China Japan War, a commissioner of the political-party committee, a superintendent of the party department of the same committee, etc.
27. WHAT TYPE OF WORK WAS IT? (1) In the school I lead the instructors to reform the secondary education. (2) In military, I organized peasants to be armed to resist the Japanese. (3) In politics, I trained the leaders of lower grade for them to train the masses and guide them.

ADDRESS OF FIRM _____
29. HOW WOULD YOU CLASSIFY YOURSELF - BANKER, EDUCATOR, LAWYER, BUSINESS MAN, ETC.? _____
Educator, Administrator and Evangelist
30. WHAT ARE YOUR HOBBIES? Like to Read and Sport
31. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR? During the war, I spent my whole time in stirring, training, organizing and leading the masses to fight against the Japanese in the Shan-tung-Kiang-su War zone. At that time, I was ashamed to flee for my own safety and leave my people alone. I knew that was the very time the people need more of my help. So, I determined to sacrifice myself for my country and my people. I would rather to help those who were more in need of my help.
I was once a local governor, a standing committee and secretary of the association of the mass movement of west Shan-tung, a commander of the mobile, and the head of the party department of the party-politic-committee of Shan-tung-Kiang-su war zone.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE

YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY

ACTIVITIES. In the autumn of 1927, I suggested to the superintendent of the war zone to set two big party-politic-military stations at west Shantung and was appointed to take the very charge and to be the representative to General Shi yuo San. ON the Returning, I was arrested and imprisoned for three months by the Japanese (as I disguised myself as a civilian on the train.) Firstly, the Japanese questioned me and said "Why do you anti-japan?" I said "Because I am a Chinese. I Love my mother country China. But you Japanese come to invade China, therefore you become my enemy. So I have the natural duty to fight against the Japanese. I Love my country just as well as you Love yours. You hate those ^{who} invade your country and make friends with those who help you. So I am Japanese said "We come not to invade, but to help you to put out communist." I told them "Your purpose may be right but the fact is opposite. Before this war, there were not more than thirty thousands of Communists surrounded to our central government. Now they became ten times than before. After three more years, your country will also be sure poisoned. The communist said "The Japanese come to China to ^{purposely} take the Chinese political authority to give us. The Japanese forces are the cleaners of our road. This is a true saying. Indeed, the Chinese C.P. had a good development in the past three years. Under the flag of anti-Japanese, the Chinese C.P. develops so rapidly as the germs in the warm atmosphere of spring and summer. There is no C.P. force in our field, but the more where your forces are, the more communists develops well. If you were wise you would hire to stop to invade China." I gave them many reasonable criticism they agree to what I said. They said they have no power to end the war. I did determine to starve to death for twice, first for four days, second for three days, but was founded by the Japanese. At last, three districts leaders about thirty in number, united together to be guarantee to ask for my freedom. I was thus released. At that time I pray every day. I really knew that God saved me from to be killing.

None -

At one time our School premises were occupied by the Japanese - forcing part of the students to move to other quarters. Later, the intruders left, and the students returned - School finances were most difficult to manage -

Teachers and students lived on the same basis, eating the coarsest food, enduring great hardships -

From 1937 to Pearl Harbor, I stayed in Cheeloo to carry on the usual work until the institution was occupied by Japanese Army. At that time, a special ^{secret} meeting was called by Dr. R. T. Shields appointed Dr. C. T. Chao and myself to do whatever we think necessary to watch the institution. The whole staff members, including most of the workmen, went out by force and we set up the Tsinan Municipal Hospital. Among them, there were four foreign women doctors, i.e. A. V. Scott, A. S. Gault, M. Gell and M. Tavis. Only Dr. Gault could carry on for a longer period of time of less than 2 years, and then she was put in concentration camp of Weichien. The other three went back home on exchange of prisoners shortly after started their work. I was the superintendent. Considerable amount of instruments, furnitures, medicine etc were taken over from Cheeloo to Municipal Hospital, the most valuable things was X-Ray machines-whole set, nice operating tables, microscopes, lab. instruments even animals - Guinea pigs + sheeps, by the permission of Japanese after repeated negotiations. The government gave very small amount of financial help and the hospital was practically self supported. The number of patients was grand and the hospital was known as a New Cheeloo Hospital. Some people even call it as a Christian Hospital because only two or three staff members were not Christian. The reputation has been very good throughout.

Cheeloo University reopened since July 1946. Most of the valuable things as X-Ray lab. instruments, etc. were taken back to Cheeloo, leaving some plus those bought by the Municipal Hospital itself quite enough to continue as a branch hospital of Cheeloo. Only three senior members including myself had return back to Cheeloo since this spring. The Municipal Hospital is now running by the rest of them in good order and will surely be prosperous. The Superintendent is now Dr. Sun Ming-tien formerly was the Head of Medical department, also a Cheeloo graduate of course.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

When the Japanese started to bomb Si-Yuan near Peiping in the morning of July 28, 1937, I was at Tsing Hua Univ. to prepare some demonstrations on modern physics (x-rays, radioactivity, etc.) for the summer refreshing session for the middle school teachers.

Had been captured on August 18, 1937, at the railroad station at Tientsin by the Japanese when I was trying to go to Chefoo to visit my family. I was put in jail till September 13, 1937. Had some shocking experiences there. I suffer from the rheumatism that I have contracted during that period even at the present moment.

Had experienced several close calls of death at Kunming when the Japanese attacked that city.

Had been held as captive ^{by the Japanese} overnight early in 1940 when I disguised myself as a business man to go back to my hometown to visit my parents and my family. At that time, practically all our properties, except the farm lands and the houses, were lost. One of our houses was put on fire, which was fortunately put off shortly by the neighbors.

During the first 2 years, 1937 - 1939, I was isolated in Pei-fing - at the Pei-feng Union Medical College where I served as a teacher in Orthopedic Surgery. From 1939 to Pearl Harbor in Cheeloo Med. School as a teacher in Surgery. After that, Cheeloo was occupied by Japanese soldiers. I went to Tsinan Municipal Hospital with all the other colleagues as a Surgeon to look after great amount of sick people because of the closure of Cheeloo Hospital and all other Missionary Hospitals (and the accumulation of the people from country due to the war. There was nothing could be done besides that and nothing was allowed to do by the Japanese. Further more we were mostly followed by spies for over a period of more than one year but we did not notice and was learned from others later on. This Municipal Hospital of Tsinan go a good reputation of Cheeloo Hospital the second.

25. EXTRA-CURRICULAR ACTIVITIES

26. WHAT DO YOU CONSIDER THE MOST IMPORTANT WORK YOU HAVE DONE SINCE LEAVING COLLEGE?

My wife who is also a Chebo graduate, and I have been teaching in National Kweiyang Medical College right at the start of the war when the college was established. As young people who have just left the college for one or two years, she built up her biological laboratory and I built up my parasitology laboratory from nothing but our own hands and brain. For almost nine years we were there tried to furnish our laboratories and taught as much as we could. I think our students who could finish their medical training might be more than a hundred, considering a total of around 200 graduated from the college.

27. WHAT TYPE OF WORK WAS IT? In spite of all the difficulties during war time each of us could still do some research works and resulted in each of us a few published papers. Besides we could collect the local parasites for future study. War time teaching was so difficult I don't think ordinary people could imagine. For instance the textbook that I used in college has been used as reference book for students every year. Now though I am in the States for advanced studies my wife is still in Kweiyang.

30. WHAT ARE YOUR HOBBIES? Traveling, Hiking, Tennis, Stamp collecting, Reading, all
are so expensive that I am not able to enjoy them now except the second named.

31. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR?

As stated in 26. we were in Kweiyang, Kweichow Province from April 1938. We left the city only twice, 1. in 1941 my wife & I attended the Annual meeting of the American Association. 2. the evacuation of the city during the Japanese invasion of Kweichow in Dec. 1944 when my wife moved to Peichieh & then to Chungking while I myself walked ^{about 100 miles} with the students from Kweiyang to Tungkai where we hitch-hiked to Chungking, we lived in Chungking for 8 months & then went back to Kweiyang.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD -
 FOR EXAMPLE: WERE YOU IMPRISONED, CAPTURED, BOYSCOUT, ETC? THESE
 EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

The experience of living in southwest China during wartime could ^{not} be imagined by American people. In the year 1942 we lived in a 4-room shack which was considered to be a luxury. Each room was 8' x 12'. These included the kitchen & a closet. Our lovely rooms which we paid 20% of our total income (the rest for our food etc & if still a little left there were for our clothes), were built with mud wall plastered with clay outside & lime inside, dirt floor with wood boards which the owner kept there & we used them as ceiling. There were two ^{wooden} windows (2' x 2') in each room, on which I fixed ^{screen} some paper in the winter & gauze in summer.

I would like to give you an example in our daily life during those days. Early at 6 o'clock I got up & lighted the fire (not gas nor electric stoves, but an old fashioned coal stove, if you do not have any experience, I am sure you would stand sadly before it ~~from~~ ^{dreaming} of a gas or electric stove). Then I put a pan of water on it with a kettle (we use that for boiling water) of water beside it (it could become warm enough for washing) and after I cleaned up our dirt floor & myself I went out for market for our daily food. (we did not have ice box (of course not refrigerator) & if we did have one there were no ice in Kweichow, so we have to go to the market daily). My wife got up a little later than I did, she would clean the baby (fortunately we had only one at that time) make the bed, put rice in the pan & made cereal & all the household duties. Then by the time I got back with basket full of food, ~~our~~ ^{my} breakfast was ready. After breakfast & cleaning up the dishes I carried my lovely daughter, with my wife beside me & walked to the nursery which was at neighborhood of our school. At 11 AM one of us ~~must~~ had to get back to check the fire & prepare the food then the other came back at around 12. Our daughter had her lunch & nap at the nursery. After lunch we could have our hour rest. Then at 5 PM we came back with my daughter on my shoulder and prepare our dinner. Usually we could finish our washing at 7 P.M. & went to bed before 9 P.M. My wife slept a little later than I did because she had some sewing work to do.

This gives an idea of what a life we had in those "good old days". Though life was hard yet it was pleasant. It was pleasant when you had a good spirit. It was pleasant when you know what you live for. Materially I do have a good living in this country but while my family is not here with me I do dream of my "good old days".

If you want to have any information please write me I would like to try my best to help you.

Mr. Yung-lo Shang,
Municipal Middle School
Taichung, Taiwan

Dear Mr. Shang:

Recently there was mailed to you by ordinary postage a copy of the history of Cheeloo University or "Shantung Christian University." This is for the use of the Cheeloo alumni in Taichung. A similar copy has been sent to Mr. Bee in Taipei.

I hope eventually to have some copies of the pictures taken of our group during your visit to the campus. The copying has been done through another office where the person in charge is on vacation. It looks as if I may have to wait for the pictures but shall send them as soon as they are ready.

Your letter has been before me and I have read it several times. While I would like very much to help you I do not think that any further word from me would have a useful effect. Having made the introduction the matter has to rest with the administrative authorities concerned. A university position is somewhat different in nature from that of a high school teacher. While teaching experience and skill is valuable the college work calls for advanced specialization in the field to be taught. One cannot be away from a profession very long and a college teacher should have had all possible training for an advanced degree in the field. I know there are exceptions but the pressure is constantly in the direction of specialized study and degrees.

I make the above comment so that you will not feel personally slighted if President Tseng and Dean Wu make other selections for the University position. For a beginning department it is especially important that the people chosen will be specialists in their field.

Sincerely yours,

Arthur L. Garson

Dear Dr. Carson,

Three weeks have elapsed since you left here. I guess you have already reached home & have the pleasure of reunion with your family which is one of the happiest things in our Chinese eyes. I sincerely hope all of your family are enjoying good health & pray for the quick recovery of your beloved grandson who got hurt last year.

After your departure I went to Tunghai University two more times to attend the English teachers' class sponsored by the English Department of the Tunghai University & keep in touch with some of the faculty & staff members hoping that they may help me in one way or another to get a job in that university. Now, I am convinced they can do but a little for me in that respect. So I am obliged to write you this letter asking for your big help because you are the only person I can rely upon.

I am well aware of the fact that you are not willing to infringe on the administrative power of others but can you do it in a personal way? It has been rumored that only one assistant will be needed in the newly established Social Scientific College. As a student of political science & economics I believe I can fill the position successfully. Will you write to president Tsung or some other persons concerned? I like to do any kind of work that is fit for me.

Mr. Lin, Mr. Tsang & I meet at the church regularly. We are all looking forward to the day that you will come here again.

Yours sincerely,
Shang yung-lo

Dear Dr. Carson:

The news of your presence at Tunghai University gives me a pleasant surprise for I have not had the pleasure of seeing you again since 1937 and I have not even dreamed of your coming to Taiwan before Mr. Liu Teh-tsun told me in his letter. Being so much pleased to hear from Mr. Liu, I cannot help expressing my hearty welcome to you and wishing you a happy sojourn here.

I am very sorry for that some trifles have prevented me from visiting you at Tai-chung, but several Cheloo alumni in Taipei of whom I am one expect to see you here before your departure from this country. Would you please let me know when you come to Taipei and when you leave for America?

With very many best wishes,

Very sincerely yours,

Charles H. Sun

Dear Dr. Liu:

The United Board of Higher Education in Asia is planning to make an up-to-date list of those alumni of the Christian Colleges in Mainland China, who are now in this country. I have been assigned to do this work.

Dr. Arthur Carson suggested that I write to you for help in obtaining the names of Cheeloo alumni.

If you have such a list, would you be good enough to allow us to duplicate it? It would not be necessary for us to keep it very long. If you could see your way clear to helping us in this way, we would be deeply appreciated.

Sincerely yours,

(Mrs.) Dju S. Ing
