Dear Mr. Garside:

As you probably know, the American Medical Association publishes biennially, the American Medical Directory, which contains the names and addresses of more than 150,000 physicians in the United States and Canada, together with additional lists of hospitals, medical colleges, libraries, etc.

We hope to include in our next Edition of the Directory all the Medical Missionaries who have gone from America.

Would you be in position to furnish us with the information under the headings listed on the attached sheets for all the American Medical Missionaries of the:

{ North American Joint Board, Shantung Christian Coll.
{ Trustees of Fukien Christian University
{ Trustees of Peking University
{ Trustees of the University of Nanking
{ West China Union University

The revision of the Directory is now in process and anything you can do to help us in this work will be appreciated and we trust that it will be contributing at least a little thought toward the work of the missionary in general.

Very truly yours,

AMERICAN MEDICAL ASSOCIATION

Gentlemen:

We are returning to you herewith the blanks sent in your letter of August 24th, 1928, asking for information concerning medical missionaries who have gone out from America to the following institutions:

Fukien Christian University
University of Nanking
Peking University
Shantung Christian University

We have no medical missionaries at either Fukien or Peking so both of these forms are blank. We have given all the information available in our office in regard to those who are at Nanking and Shantung. I regret that certain details with respect to some of those listed are incomplete. It would, however, in most cases, require correspondence with China to secure the information needed to supply these missing facts and that would require more time than is available. Our office does not have any information as to the licenses of any of our medical missionaries.

In the Shantung Christian University list we do not have the home addresses of Dr. E. B. Struthers and Dr. Wm. McClure. Both of these can, however, be reached by addressing them in care of the United Church of Canada, 299 Queen St. W., Toronto.

We do not have the home address of Dr. R. A. Slater of the Nanking list but he can always be reached in care of the United Christian Missionary Society, 425 De Baliviere Ave., St. Louis, Mo.

I am sending to Dr. Frank Anderson, Secretary of the Board of Governors of West China Union University, the blank you supplied for this institution and trust that Dr. Anderson will be able to promptly send you the facts you need.

Very sincerely yours,

B. A. Luside
Secretary

Dear Mr Scott

I have been long intending to
write to you but thought I would
wait till your travels were finished.
And now I think I cannot do better
than commence the New Year by
giving myself a treat, and at
the same time wishing you all
the compliments of the Season.
You really are a good fellow;
you have simply delighted me

with the account of your visits
to Coover, & China ^{not to mention}
the Western States of U.S.A. May
I say the humour of some of your
reports has not been the least
attractive feature. Your description
of the peaceful ^{unimpaired} condition
at Tsinanfu exemplified by the
High Church of England lies bying
down side by side with the Norwegian
Lutheran lamb tickled my fancy
immensely, especially as I knew
what a lesson the contrast must

have taught the Baptist bull dog
and the American Presbyterian
Bloodhound who were eyeing each
other with somewhat mixed
peaceful sentiments. But joking
apart I have had many accounts
of Tsinanfu from many sources and
amidst all the differences there is
one point on which all seem agreed
and that is that you did the right
thing and the only thing to end
the friction - When you have a
few minutes to spare will you
write me what you think of the
prospects of interesting the

Chinese especially the Shantung
Chinese in the University. The Shantung
Chinese seem to be rising to the occasion
and the account of the evangelistic
work of the existing students among
the new comers is most encouraging.
I had been looking forward to seeing
you at New York this winter, but I have
privately made up my mind that I
ought not to come for two reasons
1) There is nothing very important and
it does not seem fair to put the
China Medical Board to the expense
of my passage etc -
2) And this is after all the important
reason. Things are moving very
fast here in England towards real

a real good man, but he does not

that I ought to be at my post and keep
the flag flying - I expect you know

SECRETARIES

March 26, 1920.

J. Auriol Armitage, M.D.,
Netherwood, St. Helen's Park,
Hastings, England.

My dear Dr. Armitage:

Your beautiful New Year's letter was one of the most welcome and cheerful pieces of correspondence among the correspondence awaiting me upon my return from the Far East and I have read it more than once with a great deal of pleasure. I want you to know how grateful I am that you wrote me so generously and frankly.

Before I refer to the matters in your letter let me speak of the great pleasure I had of travelling on the train from Pyeng Yang to Seoul, Korea, with one of your S.P.G. missionaries in Seoul who informed me that he was a roommate of your son in the University. Needless to say he was deeply devoted to your son and feels the loss of him keenly. He is doing a very interesting piece of work in Seoul but as you doubtless know the young gentleman well, you can readily imagine that there were a number of points on which we were compelled to agree to disagree. We did not give each other our names but I believe his name is Arnold.

Your questions regarding Shantung University will have been answered for you by Dr. Moorshead and Dr. Ingle before you receive this letter. I certainly wish that you might have been the senior member of the Deputation to the University at the very momentous meetings of the Field Board last September and December. The people on the field are making a new and decided effort to increase the interest of the Chinese in the Institution. However, the Chinese must have a larger place in the Institution both in its field management and on its administrative and teaching staff if we are to expect them to take a much larger interest. I believe on the whole that Americans are more ready than the Britishers to give the Chinese prominence in church and missionary affairs. But this question was not decided on national lines. In fact the differences between the British and the American point of view were very seldom an issue in the many conferences.

I am very sorry to hear from your letter that you will not be coming to New York this April for the China Medical Board and other Board meetings. We will certainly miss you very much. However, I fully appreciate the reason which you give for being in England uninterruptedly during this spring and I pray for the success of the movements looking toward interchurch cooperation. I am greatly interested in your report of your interview with the Archbishop of Canterbury.

It was mighty kind of you to send me your January "East and West". As yet I have had a chance only to glance at the articles, somewhat fully at the ones you marked, but hope to study them carefully before long.

With warmest personal regards to you and kindest remembrances to any of the other good friends that you may run across, I am

GTS/R

Sincerely yours,

G. T. Scott
