REPORT

of the

WORK OF THE TSI-NAN-FU INSTITUTE

1912

The work of this institution has been carried on during the year on the same lines as formerly. The attitude of the visitors has been more than usually encouraging. The reports that have come to hand from time to time from Europeans and Americans, with regard to the influence of the work of the institution have also been very encouraging; this is all the more so as in some cases these reports come from people residing at some distance from Tsi-nan-fu.

The whole work has been described as an attempt "to awaken and educate the minds of men and women to a sense of the greatness of the universe, the oneness of mankind, the relationship of their own country to other countries, the proportionate wealth of different countries in physical products and the proportionate measure in which these products are being utilized, the mental and moral status of the different races of mankind, and a presentation of some of the causes which have operated for the uplift and degradation of mankind."

The Institute in its social, educational and evangelistic work, while recognising to the full all that is good in China and the Chinese people and avoiding mere negation and controversy, thus aims to show by appealing to eye and ear what has been accomplished through the influence of the christian faith on civilization and progress in all departments of human life.

While one of the main objects of the institution is to seek to influence the educated classes, especially officials and stud-

From

x

ents of Shantung province, it at the same time endeavours to reach all classes, and its doors being freely open to all, people of all sorts and conditions have been daily met.

The educational museum of the Institute which has been described as containing "exhibits of civilization", occupies less than half of the buildings of the institution. It is open every day and during good weather the visits paid have been from four hundred to a thousand daily. The largest number of visitors in any one day was three thousand two hundred and ninety one (3,291). In it are exhibited natural history specimens, geographical globes and models, historical charts and diagrams, models and diagrams giving elementary instruction in physiography, geology and astronomy, working models illustrating means of communication, apparatus demonstrating practical application of science, specimens of manufactures, diagrams illustrating progress in education, commerce etc, models and pictures of churches, asylums, hospitals, schools and other institutions, illustrating the direct results of Christianity in the West.

The other buildings of the Institute consist of two lecture halls, the larger seating six hundred (600), the smaller two hundred (200), the former being used mainly for lectures to students and others, the latter being used several times daily for evangelistic addresses; Reading Room and Library; Reception Rooms for social work, a separate room being provided for women visitors; Workshops and Assistants Room etc.

A number of additions have been made to the Historical Section of the Museum. The main object of this section is to illustrate through letter press, maps, diagrams and models the influence of religion on national life and development. Diagrams and models with letter press explanations have also been added to the Hygienic Section giving instruction on the cause and prevention of diseases which are specially prevalent such as Malaria, Cholera, Tuberculosis and Plague. This section has been found to be of special interest and value.

One of the principal additions to the educational exhibits

is a large model of the bridge over the Yellow River at Lo-Kou near Tsi-nan-fu. This model, six meters long, was built to scale by Chinese assistants in the Institute from plans kindly lent by G. Borkowetz Esq. Chief Engineer of Bridge Construction. The whole of the substructure under water level is shewn. Much interest has been taken in this model.

The Institute is again indebted to the British and Foreign Bible Society for the addition, through the Rev. G. A. Bondfield of Shanghai, of a number of new specimens of portions of the Bible in various languages. The object of the Biblical section is to illustrate the origin and teachings, as well as the translation and distribution of the Christian scriptures throughout the world.

With additions recently made to the building the total floor space in use for the educational exhibits amounts to eleven thousand three hundred square feet, while that of the whole buildings of the Institute amounts to twenty four thousand square feet.

The number of visits to the Institution during the year amounted in all to two hundred and thirty one thousand, one hundred and seventeen. Of these about fifty thousand were paid by members of the educated classes. Twenty one thousand, three hundred and ten visits (21,310) were paid by women. While there have been fewer visits from ladies of the official class, on account of so many families having left Tsi-nan-fu during the revolution, still on more than one occasion Mrs. Whitewright has personally met as many as thirty ladies of this class as well as many others during the course of a day. One day per week is set apart, as formerly, for women visitors.

The Reading Room and Library has been well used, the number of readers during the year being about twenty seven thousand. A valuable gift of books from the Christian Literature Society has been added to the library.

Short addresses of an evangelistic and educational character have been given in the small lecture hall every hour during

those parts of the day in which there are many visitors. Nine hundred and thirty one (931) such addresses were given by trained Chinese assistants and foreigners during the year. The attendances at these addresses have varied from forty to over two hundred at a time and the interest and attention shewn have been, on the whole markedly good.

The special lecture course which was interrupted owing to the unrest following the revolution was resumed during the latter part of the year, one lecture being given every week. These lectures were principally for the benefit of students of the government colleges. The attendances as a rule have been good, varying from one hundred to five hundred at a time. Several lectures were given on Hygiene, the first two of the series being given by Dr. J. B. Neal, Principal of the Union Medical College. Lectures on other subjects were on "The History and Work of the Red Cross Society", "Institutions for the care and teaching of the blind in western countries", "The value of railways to the state", etc.

In addition to the above the Institution has had the advantage of visits from the Rev. Timothy Richard, D. Litt. and Professor C. H. Robertson each of whom had specially good audiences.

During the year there were one hundred and eighty seven visits paid by Europeans and Americans. The cordial sympathy shewn by these visitors has been of no little help to those who direct the work of the Institution.

A Branch Institute for the use of the garrison of seven thousand soldiers stationed near Tsinanfu has just been completed and though not yet formally opened, numbers of soldiers have made use of the Institution. It consists of a lecture hall seventy five feet by thirty six feet, reading room, recreation room, class rooms etc. It is hoped that this Institution will be of valuable service to the soldiers of Tsi-nan-fu.

On account of the unrest, especially in the earlier part of

the year visits to and from officials and their families have been fewer than usual, still a number have been paid and cordial relations maintained.

It may be interesting to note that during the seven years the Institute has been at work in its new buildings there have been in all about a million and a half visits paid. It may also be worth noting that not only have visitors been met from all parts of the province but merchants, officials and others from other provinces have also, while visiting Tsi-nan-fu, come under the influence of the Institution.

It is to be hoped that the work of the Institution is thus having more than a local influence; that its endeavour to enlighten and educate, to remove misconceptions and misunderstanding, to bring East and West together in friendly and helpful understanding; and still more in its efforts to shew how permanent progress can be brought to pass for China, may all be of some real and lasting service.

MINUTES OF COUNCIL
FINANCIAL REPORTS
ESTIMATES

ANNUAL MEETING OF THE UNIVERSITY COUNCIL.

The Eighth Annual Meeting of the University Council was convened at Wei Hsien on the evening of Tuesday, February 27th, 1912.

Present:—

Councillors W. B. Hamilton, J. S. Whitewright, F. Harmon. **T. C. Paterson.** **Heads of Colleges,** Drs. Bergen, Bruce and Neal. **Other members of Faculties,** Messrs. Hayes, Luce, Burt, Whitcher, Cousens, Chandler and Schultz. Messrs. Fisk, Ellison, Heeren and Mills also attended Meetings by invitation of the Council.

The following were elected as officers for the ensuing year;

<i>Chairman.</i>	F. Harmon.
<i>Vice Chairman.</i>	W. B. Hamilton.
<i>Sec. and Treas.</i>	F. H. Chalfant.
<i>Minute Sec.</i>	E. W. Burt.

Actions of the English Baptist Mission concerning the Removal of the Theological College and Normal School were reported, as also certain recommendations of the Faculty of Arts College re Special Students.

College Reports were presented by Drs. Bergen, Neal and Bruce.

Berlin Mission: Application to enter Educational Union.

A sub-committee, consisting of Dr. Hayes and Dr. Bergen brought in the following report, which was unanimously adopted.

Having learned informally from the Field Superintendent of the Berlin Mission, Rev. C. J. Voskamp, that his Mission is considering the advisability of uniting with us in higher educational work, Resolved 'That we extend to that Mission a cordial invitation to join with us in all the constituent colleges of the University, or in any one or more of the same, and hereby express our pleasure at this prospective enlargement of the Union. In case this in-

visitation is accepted, it is hoped that the Berlin Mission may furnish one or more members on the University Staff. The Secretary is hereby instructed to acquaint the Superintendent of the Berlin Mission with our action, send him a copy of the revised Basis of Union, and furnish him with any other information that may be asked for.

Control of University Property.

The sub-committee's report was submitted and adopted as follows:— The sub-committee unanimously recommends that the existing and prospective University property at Tsinan and repairs thereon be under the control of one Standing Property Committee of the Council, the members of which shall be representative of the Missions owning the property.

That for the present this Property Committee shall consist of five members in all—two elected members of the Council, viz., Messrs Whitewright and F. H. Chalfant (with W. B. Hamilton as alternate to the latter), and the Heads of the three Colleges, and that Dr. Bergen act as convener.

That the duties of this Standing Property Committee shall be the same for Tsinan as those of the Property Committee for Wei Hsien and Tsing Chow Fu respectively, and shall also include those of the present Removal Committee, which is hereby discharged.

That the plans of the University Compound at Tsinan and of the buildings connected therewith be submitted to the Council for endorsement before being acted upon.

Purchase of Land for University.

The sub-committee's report was submitted and adopted as follows:—

1. That Mr Whitewright, subject to the approval of his Mission in co-operation with Dr. Neal, both residing in Tsinan, should conduct for the present the negotiations for the purchase of the University site.

2. That a competent firm of Architects in the U. S. A. or Great Britain be commissioned to draw a general and unified plan, designed to meet the needs of future growth, for the campus and buildings of the University at Tsinan, and that, during the erect-

ion of the buildings, the Building Committee be free, if it so desire, to ask further advice from this firm.

3. That we recommend the Presbyterian China Council to assign Mr. Keller - the architect lately appointed to the Presbyterian Missions in China - to Wei Hsien or Tsinan, for the purpose of learning the language and of consultation in the making of plans for the proposed University Buildings.

University Sanatorium at Tsinan.

Resolved that the Council approves of Dr. Roys raising \$3,000 gold, while at home on furlough, for the purpose of establishing a tuberculosis sanatorium in connection with the Union Medical College in Tsinan.

Removal of Theological College and Normal School to Tsinan.

The sub-committee appointed to consider the E. B. M. recommendations on this subject, brought in the following report which was adopted unanimously, except clause No. I, which was carried with one voting against.

1. That we approve of the reaffirmation of the E. B. M. of the desirability of removing the Theological College and Normal School to Tsinan, so that the three Colleges, comprising the University, may be united on one site.

2. That we also heartily approve of the recommendation of the E. B. M. that Mr. Bruce be requested to raise the sum of £5,600 during his furlough for the removal of the Theological College and Normal School to Tsinan.

3. As to the practicability of providing temporary quarters for the Theological College and Normal School in Tsinan, pending the erection of permanent buildings, we think such arrangements can be made.

Communication between Chinese Church and Council.

Resolved that any member of the Council, on such occasion as he deems expedient, may inform our Chinese fellow-workers that the Council will be glad to receive any authoritative communication they wish to send in and that such communication will receive careful consideration.

Relations between Chinese and Foreign Members of Teaching Staff.

Resolved that a committee consisting of Messrs Luce and Burt be appointed to investigate and report on the relations between the Chinese and Foreign members of the Teaching Staff of the University.

Editorial Committee.

Resolved that the Editorial Committee on the Annual Register consist of the Registrars of the three Colleges and that the Registrar of the Arts College act as Convener of this Committee.

Uniform Rates of Board in Arts and Theological Colleges.

The Committee in this matter was instructed to report at the next Annual Meeting of the Council and Mr Whitcher was appointed Convener of the Committee.

Normal School Modified Course.

Resolved that the Faculty of the Normal School be empowered to make such changes in the Modified Course as will admit of its being taken in three years.

Admission to the University by Certificate.

In order to test the efficiency of the proposed plan of admission to the University by certificate as well as by examination,

Resolved.

I. That Middle Schools which are under the supervision of a foreigner and which have a course of study that will *as a minimum* include the subjects required for the entrance examination of the Arts College, shall upon application have the privilege (during the next two years) of sending students on certificate to the first year of the Arts College, or to the third year of the Normal Department under the following conditions:

1. A certificate grade shall be determined upon, which is considerably in advance of the passing grade of the Middle School, constituting an "honor" grade.

2. A certain standard of conduct shall be required for a certificate, dependent upon the number of conduct marks not being in excess of the standard determined upon.

3. The continuation of the certificate privilege for any school shall depend on its success in preparing students for the work of the college or normal school as shown by the records of the students admitted on certificate during their first year in the college or normal school. A certain percent of "conditions" during the first year shall place the school on probation for one year. If the "conditions" are repeated by the men sent the following year, it indicates that the school course is not up to the required standard, and the school shall lose the certificate privilege, until it shall be shown to the satisfaction of the University authorities that the course has been brought up to the standard.

For a school sending 5 or less students in one year, two students receiving "conditions" shall place the school on the probation list for one year.

For a school sending 10 or less students in one year, three students receiving "conditions" shall place the school on the probation list for one year.

For a school sending over ten students in one year, if one fourth or more of these students receive conditions the school shall be placed on the probation list for one year.

II. For schools that are not on the accredited list, or for students in accredited schools who are not up to certificate grade, the present system of entrance examinations shall be continued.

Further resolved, that a committee shall have in charge the details of the above general plan and shall make a report on the working of the plan, at the annual meeting of the University council in 1914.

Messrs. Luce, Fisk and Chandler were appointed the above Committee.

University Hymnal.

Resolved that a Committee be appointed to compile a Union Hymnal to be published by the University and combining those now in use by the Uniting Missions. That the Committee consist of Messrs Bruce, W. P. Chalfant, Luce and Fisk, and that they be empowered to fill temporary vacancies.

That the following be the instructions to the Committee:—

1. The financial interests of Hymnals already published by the

Uniting Missions shall be safeguarded.

2. The following shall be the guiding principles in the selection of hymns:—

a. In the case of the hymnals already published by our Missions, hymns from either book desired by the representatives of the Mission publishing the book to be included in the New Hymnal.

b. Desirable hymns from other books to be added so that Hymnal may be as comprehensive as possible.

c. The New Hymnal to contain reference numbers referring to the Hymnals in use by our Churches.

3. The Music Edition shall comprise Diatonic and Pentatonic tunes mainly based on the music editions now in use by the respective missions; the guiding principles followed by the Committee to be similar to those adopted for the Word edition.

4. The following shall be the guiding principles in the use of terms:—

a. The term Sheng Ling to be used for Holy Spirit and Shang Ti and other terms for God according to the context.

b. The transliterated name "Yehsu" to be used as a general rule when "Jesus" is used in the English original.

c. The personal pronoun "Ni" to be omitted, when Chinese composition or spiritual tenderness do not require it.

Resolved that Bishop Iliff be invited to join the Hymnal Committee and that as many hymns as possible be adopted from the Anglican Hymnal.

Arts College Special Students.

Resolved on the recommendation of Faculty of Arts College, that, in addition to the cost of their food, special students in the Arts College be required to pay a fee of \$5. Mex. per term towards the cost of tuition.

Arts College Minimum Fee for Regular Students.

Resolved that at the beginning of A. D. 1913, the minimum fee towards cost of food be \$15. Mex. per annum for all regular students in the Arts College.

University Staff: Additions and Transfers.

I. Resolved, on the recommendation of the Arts College Faculty,

that Mr. E. J. Ellison B. Sc., of the English Baptist Mission, Shensi, be appointed a member of the Faculty of the Arts College during his stay in Shantung.

II. Resolved, on the nomination of the English Baptist Mission in Shantung,

1. That Dr William Fleming, M. B., Ch. B., D. T. M., F. R. C. S. E., be appointed on the staff of the Medical College—such appointment to take effect on the return of Dr. J. R. Watson from furlough.

2. That Rev. George Fisk, B. D. be appointed on the staff of the Theological College and Normal School.

3. That Rev. E. W. Burt, M. A. be appointed Acting-Principal of the Theological College and Normal School during Mr. Bruce's impending furlough.

III. Resolved, on the nomination of the Shantung Presbyterian Mission that Rev. W. B. Hamilton, D. D. be appointed to take the place of Dr. Hayes on the staff of the Theological College for the ensuing Spring Term.

Auditors.

Resolved that we request Mr. J. S. Harris of the English Baptist Mission, Choutsun, to audit the accounts of the three Colleges for the year just closed, and that Dr. Neal audit the accounts of the University.

Illness of Dr. F. H. Chalfant.

Resolved to convey to Dr and Mrs. Chalfant an expression of sympathy at the illness of Dr. F. H. Chalfant, and, further, that Dr. W. B. Hamilton be appointed to serve as acting Secretary and Mr. H. Chandler as Assistant Treasurer during Dr. Chalfant's incapacity to fulfil the duties of those offices.

Minutes were read, corrected and approved, and the Council adjourned on Feb. 29th, 1912 at 9. 30 p. m. to reconvene at the call of the Secretary.

SPECIAL MEETING OF THE COUNCIL.

This meeting was called to consider:—

- (1) University Estimates for the ensuing year.
- (2) Relation of the University Finances to the Uniting Missions.
- (3) Removal to Tsinanfu;— Possible further arrangements as to purchase of site, and B. M. S. action re removal of the Gotch-Robinson College.

Present:—*Representing the Missions*, Messrs. Harmon, Whitewright, Corbett, Johnson, F. H. Chalfant. *Presidents of Colleges*, Messrs. Bergen, Bruce, Neal. *Members of Faculties*, Messrs. Hayes, Luce, Whitcher, von Werthern, Schultz.

Estimates of the three colleges were presented and referred to the Finance Committee for preliminary consideration.

On motion, Messrs. Whitewright and Bergen were appointed as a committee to bring in a minute upon the relation of University finances to the Uniting Missions.

The Finance committee recommended a change of date for the Annual Meeting of Council. This was laid on the table till the next regular meeting in January 1912.

This committee further reported upon the Estimates for the ensuing year, which, after discussion and modification, were adopted as recorded hereafter.

On motion, it was ordered that all itemized estimates be made out in *totals*, and that the several shares of the Uniting Missions be indicated only in the apportionment of the *total* amount for each College.

On motion, it was ordered that the Faculties of the Arts College and Gotch-Robinson College confer with regard to uniform rates for board of students, and if possible agree upon a rate satisfactory to both Colleges.

Resolved, that the action of Feb. 2, 1910 in regard to students' fees in the Arts College be interpreted to apply to all students whatever, and not merely to the entering men.

Notice of Motion offered by Dr. Neal: That at the next

Annual Meeting a change in the Bye-laws will be proposed, to provide for semi-annual meetings of Council, one in the winter vacation, and one in the summer.

On motion, it was ordered that the minimum tuition fee for all departments of the Gotch-Robinson College, except the Theological Department proper, be fixed at \$5.00 Mexican.

On motion, the original Committee on Plans for removal was discharged, and upon further motion, Messrs. Bergen, Bruce, Neal, and Whitewright were appointed as a new committee to take under consideration all matters relating to purchase of site, and to building plans.

The following ad interim letters were read by the Secretary:—

Letters from Dr. Brown Secretary of Presbyterian Board, dated April 18th and June 20th 1911, expressing the hope that the removal of the Colleges be accomplished as speedily as possible.

Letter from Mr. Wilson, Secretary of the Baptist Missionary Society stating certain difficulties in the way of the early removal of the Gotch-Robinson College.

The Committee on Removal recommended that Mr. Whitewright be requested to carry on the negotiations for purchase of site. Adopted, subject to the approval of the Baptist Mission.

Adjourned with prayer.

(Signed) F. H. Chalfant.

Secretary.

THE ANNUAL
REGISTER AND REPORT
OF THE
Shantung Christian University

山東基督教共合大學

SHANTUNG CHINA

1912

ISSUED BY THE UNIVERSITY COUNCIL

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for ensuring the integrity of the financial statements and for providing a clear audit trail. The text notes that any discrepancies or errors in the records can lead to significant complications during an audit and may result in legal consequences.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps involved in the accounting cycle, from identifying the transaction to posting it to the appropriate ledger accounts. The text stresses the need for consistency and accuracy in the application of these procedures to ensure that the financial data is reliable and comparable over time.

3. The third part of the document addresses the role of internal controls in the accounting process. It explains how well-designed internal controls can help prevent and detect errors and fraud, thereby reducing the risk of financial loss and reputational damage. The text provides examples of common internal control activities, such as segregation of duties and regular reconciliations, and discusses how these can be effectively implemented within an organization.

4. The fourth part of the document discusses the importance of transparency and communication in the accounting process. It highlights the need for clear communication between the accounting department and other departments within the organization, as well as with external stakeholders such as auditors and investors. The text emphasizes that providing timely and accurate financial information is essential for building trust and supporting informed decision-making.

5. The fifth and final part of the document concludes by summarizing the key points discussed and reiterating the importance of a strong accounting system for the success of any business. It encourages the reader to take the time to review and refine their accounting processes to ensure they are up-to-date and effective in meeting the organization's needs.

HISTORICAL NOTE

The Shantung Christian University consists of three colleges at three important centres of the province, viz; **The College of Arts and Science at Weihsien, The Gotch-Robinson Union Theological College at Tsingchowfu, and The Union Medical College at Tsinanfu.**

While the Colleges of the University are at present established at these three centres, plans are in progress for concentrating the work of the University at the provincial capital Tsinan, where the Medical College is already located. The property of the Colleges at Weihsien and Tsingchowfu is needed for other Mission purposes. The union of the University work at Tsinan will form an epoch in the history of higher Christian education in Shantung, facilitating a wider educational union amongst the Missions of the province, leading to increased economy and efficiency, bringing us into contact with the most influential Chinese and placing us at the Junction of the two important railways of the province.

The University was established by the American Presbyterian and English Baptist Missions, and is governed by a representative Council subject to the ultimate control of the home societies. Other Missions of Shantung and contiguous provinces are cordially invited to enter the union, either wholly or in part on terms of equality with the original uniting Missions. Some of the Missions are now negotiating with this in view, and it is hoped that ultimately our union may include all the Protestant Missions of the province.

The College of Arts and Science has been formed by a union of what was known for many years as the Tengchow College, situated at Tengchowfu, and the Tsingchow High School (Gwang Deh Shu Yuan) of Tsingchowfu. The Tengchow College, founded by the late Dr. C.W. Mateer in 1864, which continued long under his direction as president, and later under that of Dr. W.M. Hayes, has sent its graduates into many of the provinces of China as teachers and evangelists. This fact, together with the text-books prepared by Dr. Mateer, Dr. Hayes, and other members of the faculty, has

made the college widely known as an institution where a thorough Christian and scientific education is given. The Tsingchow High School, for many years under the charge of Rev. S. Couling, M.A., assisted by Mrs. Couling, has been characterized by high ideals, strict discipline, and thorough instruction.

These two institutions were united in 1904 to form the College of Arts and Science, the buildings being erected by the Presbyterian Mission, both Missions being represented on the teaching staff.

As indicated in the Basis of Union, the aim of the College is, "To give a liberal education of a distinctively Christian character to young men, chiefly from Christian families." As a result of these principles there are at present studying in this institution, 320 young men of college grade (there being no preparatory department), who with few exceptions are Christian.

Comparatively few of these young men stop short of graduation to engage in commercial pursuits. There exists a strong ambition to win the diploma and afterward to live for spiritual and intellectual aims as pastors, evangelists, teachers or literary assistants. It is highly gratifying that no inconsiderable proportion of them have successfully discharged the responsibility of leadership for which they were trained.

The Gotch-Robinson Union Theological College originated in the Theological Training Institute commenced in 1885, in rented premises at Tsingchowfu, by the Rev. J. S. Whitewright of the English Baptist Mission.

After a five years' course six students were ordained pastors, of whom three still remain in active service honoured by all who know them for their many years of faithful work. In 1887 a training school for elementary school teachers was added. In 1893 the institution was transferred to its present home in the southern part of the city, and considerably enlarged. New buildings to accommodate sixty-four students, with chapel and museum, were erected by the generosity of Mr. and Mrs. Edward Robinson of Bristol, in memory of their parents Dr. Gotch and Mr. Elisha Robinson of the same city. The institution continued to prepare students for the English Baptist Mission till 1905 when it became a union institution. During the whole period from 1885 to 1905 over a hundred

students passed through the College. Thirty-one were trained as pastors or evangelists, of whom six are deceased and twenty-two are still in active service. Thirty-seven were trained as school teachers of whom twenty are still serving the Mission in that capacity. Thirty-three others received irregular courses, chiefly as lay-preachers.

In the Presbyterian Mission, previous to the establishment of the Union Theological College, candidates for the ministry were taught for the most part in Chefoo and Tengchow, the earlier classes being in charge of Drs. Nevius, Corbett, Mateer, and Mills. In later years the classes were held at Weihsien and Ichowfu, as well as at the above named stations, and Dr. Haycs, Dr. Bergen, Rev. W.P. Chalfant, and Dr. Elterich also took prominent part. This method was continued for some twenty years, in the course of which five classes, with a total of twenty-seven students, most of whom had taken a full or partial course in the Tengchow College, were thus instructed. The greater number of these students are now in the active ministry, or work closely allied thereto.

In the beginning of 1905 the Gotch-Robinson College entered upon the third stage of its existence by the union of the two missions in higher educational work, and became one of the constituent colleges of the Shantung Christian University.

The college has two departments viz: the Theological Department and the Normal School. The aim of the former "is to provide theological training for pastors and evangelists in accordance with evangelical truth". The Normal School is for the training of school teachers, and provides, for those who need it, a course of study preparatory to the theological course. There is also provided a Bible Institute course for lay preachers and other Christian workers.

The Union Medical College. There has been medical teaching in Shantung for a number of years, by physicians of the English Baptist and American Presbyterian Missions. In 1890, Dr. Neal finished four years of instruction, supplemented by two years of hospital work, of a class of three men. This was the first of a series of eight classes, within all some forty students, that have been trained by Dr. Johnson, Dr. Neal, Dr. Paterson, and Dr.

Watson, at Ichoufu, 'Tsinan, 'Tsowping, and 'Tsingchoufu. The last two of these classes were carried on as union peripatetic classes of the Union Medical College, pending the erection of the college buildings. The Union Medical College was formed in 1906, as the Medical Department of the Shantung Christian University, by the union of the English Baptist and American Presbyterian Missions. A grant having been made by the trustees of the Arthington Fund, a site was purchased in 'Tsinan in 1908. On March 15, 1910, students were received into the partially completed buildings and teaching was begun. On April 17, 1911, the formal opening took place in the presence of the governor and high officials of the province. The college is a union institution and is under the joint control of the two uniting missions, through the University Council. It is confidently anticipated, however, that other protestant missions in Shantung, and possibly in some of the adjoining provinces, will share in this union undertaking for the training of Christian doctors for China.

The aim and policy of the College is, "To give a medical education, under distinctively Christian influences, to young men chiefly from Christian families." In accordance with this aim, every effort will be made to maintain the distinctively Christian character with which the institution starts out, and it will be the endeavor of those in charge to turn out not only well trained doctors, but earnest Christian men as well. At the same time young men from non Christian families are admitted, provided that they are able to meet the entrance requirements, are of good character, and are willing to abide by the rules of the institution.

PLANT.

The Arts College is situated on a commodious compound, the Main Building occupying a central place. This building is largely given up to recitation or lecture rooms, and meeting halls for Literary Societies, Y.M.C.A. and Student Volunteer Band. The Converse Science Hall is devoted to the study of chemistry, physics, geology, and biology. The laboratories, now four in number, are well-equipped with the necessary apparatus for under-graduate

work, and in some degree for post-graduate study. In connection with the biological department there has been formed a zoological collection of several hundred specimens, illustrating the fauna of the province, also skeletons and other illustrative material for comparative anatomy. There is also a geological collection of about two thousand specimens, showing the typical Shantung rocks and also many fossils from the different strata of the province. A small Observatory is situated in the college grounds containing a 10, telescope. There are dormitories, dining rooms and kitchens for 400 students. In addition there are buildings devoted to the University Press and Workshop. Outside the compound is a small athletic field.

The Gotch-Robinson College is situated in the city of Tsingchowfu, with its front entrance on the main street, while large open fields, the site of an ancient feudal palace of the Ming dynasty, lie on its western side. The college compound consists of three large courts, the buildings of which are built in semi-Chinese style. The first and outermost court comprises the Assembly Hall, the Normal School preparation room, and dormitories for the Bible Institute. Approached from the outer court is the central quadrangle, surrounded by class-rooms, laboratories, and dormitories for the Normal School. Beyond this quadrangle is the third court, built in 1904, containing theological students' dormitories and additional class-rooms. To the west of the compound are the professors' houses, and within easy reach is the recreation ground.

The plant of the Union Medical College and Hospital is situated in the south suburb of Tsinan, in the most rapidly growing section of the city. The main three storied building provides ample accommodation for lecture rooms and laboratories for the practical study of anatomy, physiology, histology, and pathology. There are also special facilities for a thorough study of materia medica and practical pharmacy. A hospital and dispensaries, with modern equipment, give opportunity for practical instruction in clinical medicine and surgery. There are two dormitories with accommodation for forty-eight students, two students sharing each room.

Religious Life

The University, as its name implies, is a distinctly religious institution, and aims to infuse such a spirit of reverence and comradeship that all may find a congenial atmosphere of friendly intercourse and mutual helpfulness.

All students are expected to attend the regular college religious services, the Sunday services, and the mid-week prayer meeting.

The Y.M.C.A. is well established, in each of the three colleges and students are encouraged to become members.

On Sundays the older students go out singly or in bands for evangelistic work or to conduct services in country churches.

Students entering the university must give an undertaking to conform to all rules and regulations laid down by the Council or Faculties of the respective college.

DEPARTMENTS

Diplomas are granted by the University in the departments of Arts and Science, Theology, Medicine, and Normal Training. The diplomas are of two grades, viz: College Diplomas and Higher Diplomas, as follows:

College Diplomas

1. The Diploma of Arts and Science for students who have completed the prescribed four years' course of study in the College of Arts and Science.
2. The Theological Diploma for students who have completed the prescribed course of study in Theology in the Gotch-Robinson College.
3. The Medical Diploma for students who have completed the prescribed course of study in Medicine in the Medical College.
4. The Normal School Diploma for students who have completed the prescribed course of study in the Normal School Department of the Gotch-Robinson College.

Higher Diplomas

1. Post Graduate Arts and Science. A post graduate Course in Chemistry is provided in the College of Arts and Science, and others are projected in Chinese Literature, Mathematics, Physics, Biology, Philosophy, History and Economics, in which students may take the Higher Diploma of the University.

2. Arts and Theology. Higher Diplomas are granted to students who, having previously obtained the College Diploma of Arts and Science, or Normal School Diploma, have also completed the course of study required for graduation in Theology.

3. Arts and Medicine. Higher Diplomas are granted to students who, having previously obtained the College Diploma of Arts and Science, have also completed the course of study required for graduation in Medicine.

- College Registrar, Rev. H.W. Luce assisted by Mr. Yü Shu Jung (于樹榮)
- College Treasurer, Mr. Harold Whitcher.
- Instructor in Gymnastics and Physical Drill, Mr. H.S. Cousens.

Entrance Requirements

Students desiring to enter the first College class must be previously examined in the following subjects:—

1. Repetition and elementary exposition of the Four Books.
2. Repetition *only* of the abridged Books of History and the Book of Odes. (Information concerning the required portions may be had on request.)
3. Elementary Old and New Testament History.
(A Syllabus has been prepared indicating the work to be covered in preparation for the examination in Scripture. A copy of this Syllabus will be sent on application.)
4. Outlines of Universal History. (Wu Chou Shih Lueh or equivalent.)
5. General Descriptive Geography. (Chapin's or equivalent.)
6. Arithmetic. (Liu Kuang Chao's or equivalent.)
7. Algebra through quadratics.
8. Simple essay in Wen-li on topic assigned at the time.
9. Physical Geography. (Commercial Press Eclectic Physical Geography or Equivalent.)

The examinations are held at the secondary schools or Mission stations, toward the close of the calendar year and in the presence of a resident missionary. The papers are forwarded to the Registrar, College of Arts and Science, Wei Hsien, Shantung, for examination by the faculty.

Students unable to take these examinations at the time specified may under exceptional circumstances, sit for them at the College at the beginning of the Spring term.

A Student failing in only one subject may be admitted to the class provided that the general average of his grades is not less than 66, but he must make up the condition at the end of the first college year.

The privilege of admission of students by certificate, and without examination, is granted to Middle Schools which comply with the requirements of the University Council, details of which may be obtained on application.

Students will be received for advanced standing on the following conditions:—

1. Students seeking admittance to the second year are required to pass both the entrance examination and the examination of the

first year.

2. Students seeking to enter classes above the first year, must be examined on the studies of the year previous to the one to which entrance is sought, and the examiners must fully satisfy themselves that the work in previous studies of the curriculum has been covered sufficiently to justify the student entering the said class.

Special Students who wish to elect certain studies in the college are admitted on passing an examination on exposition of the Four Books. Their studies will be arranged in consultation with the faculty, and a certificate given for work done, but in no case can they be granted a diploma of the college, unless they successfully pass in all subjects required in the regular course.

Courses of Study

There is a four years' course, at the conclusion of which students will receive a college diploma. Students who desire to continue their general course of study for a year longer are given an opportunity through the provision of a fifth year, at the conclusion of which they will be given a special certificate showing extra work done.

At the end of the four years' course, or after completing the fifth year, students may enter one of the courses for post-graduate work.

(Numerals refer to number of forty-five minute periods per week).

FIRST YEAR.	
<i>Spring.</i>	<i>Autumn.</i>
Book of Odes - - - - 4	Book of History - - - - 4

Analytical Geometry 5	Calculus 5
Logic 3	International Law 3
Apostolic History 3	Apostolic History 3
English 5	English 5

Advanced Experimental Physics for students not taking English, four times a week throughout the year.

Post Graduate Courses

In addition to the foregoing curriculum there have been arranged advanced courses of study covering different departments and extending over two years. These are for post-graduate work and lead to what would be the equivalent of a Master of Arts degree in Western lands. They are outlined in the following branches ;

- I. Languages and Literature.
- II. Mathematics and Astronomy.
- III. Chemistry.
- IV. Physics.
- V. Philosophy and History.
- VI. Economics and Law.
- VII. Biology and Geology.

Instruction in Post-graduate Chemistry is now being given and courses will be begun in other branches as soon as a sufficient number of suitable candidates make application.

Semi-annual written examinations taken by all the students are held at the end of each term. In October of each year, on three successive Saturdays, there are also general written examinations in arithmetic, algebra and geography. These are taken by all students in the regular classes, and are intended to keep these subjects fresh in the minds of the students during their whole course.

Each dormitory room is shared by two students and is furnished with heavy furniture, beds, table, stools and clothes boxes. All bedding and utensils, such as brooms, dustpans and basin, are provided by the students themselves.

Fees and Regulations

The cost of educating a student in the College amounts to \$54.00 Mexican a year, exclusive of the salaries of the foreign members of the Faculty. Students are expected to pay this sum annually or to sign a contract which obliges them to repay it in installments after graduation.

The people of Shantung, owing to the congested population of the province, are poorer financially than those of central and southern China, and the fees are therefore very moderate. Moreover it has been the deliberate policy of the Missions to educate Christian students irrespective of their ability to pay, it being considered that a body of educated Christian leaders devoting themselves to Christian work, was a higher end to keep in view than a larger income from fees. Most of the 550 students now in the University are Christian. Nevertheless it is gratifying to note that each year there is a substantial increase in the fees received from the students, every one of whom is expected to pay as much toward his full fee as his circumstances permit.

Religious Activities

Students are required to attend morning and evening chapel, the Wednesday evening prayer meeting and two services on the Sabbath. As will be seen from the course of study all students receive regular religious instruction based on the historical method throughout the entire course.

The College Y. M. C. A. is a flourishing organization; membership and attendance on the meetings being voluntary. There are about two hundred and fifty members. In connection with the association is a plan for voluntary Bible study; nearly the whole college being enrolled; the students meeting in dormitory groups once a week for conference over the readings of the past days. These groups are led by students who meet once a week in the normal

Bible classes conducted by two professors. Each Sunday a few students are sent out by the association for evangelistic work in neighboring villages or for preaching in the city chapel.

There is a large band of Volunteers for the Ministry which meet once a month. The members of this Band are frequently addressed by experienced pastors on themes of practical and inspirational value to their coming life-work.

Literary Societies

There are six of these, meeting each Saturday evening, and conducted by the students themselves. Every student is expected to be a member of one of them. Essays, orations, debates and practice in Parliamentary usage are features of these societies.

The annual literary contest takes place at the end of the Spring Term.

Physical Drill

All students are required to take military drill for forty minutes daily (excepting Saturday and Sunday). There are also competitive sports and gymnastic exercises. One day in the autumn of each year is set apart as a general field day for athletic contests.

Other disciplinary rules and regulations are printed in detail in Chinese, a copy of which may be obtained on request.

THEOLOGICAL COLLEGE

Faculty

Rev. J. Percy Bruce, M.A. President
Rev. W.M. Hayes, D.D.,
Rev. William P. Chalfant, M.A.
Rev. George Fisk. B.D.

Entrance Requirements.

1. Students wishing to enter the Theological department must have a letter of recommendation—in the case of Baptist students, from the Provincial Conference or from the Shantung Baptist Union; and in the case of Presbyterian students, from the Station or Presbytery to which they belong.

2. Except as provided in the next paragraph, students entering this department must have the B.A. diploma of the College of Arts and Science, or the Normal School diploma of this college, or an equivalent.

3. Other students who have exceptional gifts and sufficient Chinese scholarship may be received on the recommendation of the station to which they belong. Such students will be examined by the faculty as to their ability to take this course, on the completion of which they will receive a diploma showing the work done.

Course of Study

The length of the theological course is three years, each year comprising two terms of sixteen weeks each. The following is the course of study:—

GOTCH ROBINSON THEOLOGICAL COLLEGE DORMITORIES

FIRST YEAR.

Spring Term.

5. Life of Christ and Introduction to Synoptic Gospels.
5. Exegesis of Exodus and Leviticus with Introduction to Pentateuch.
5. Systematic Theology.
5. Homiletics.
Sermon Criticism. Singing.

Autumn Term.

5. Life of Paul and Introduction to the Pauline Epistles.
5. Introduction to, and Exegesis of Psalms.
5. Systematic Theology.
5. Church History
Sermon Criticism. Singing.

SECOND YEAR.

Spring Term

5. Exegesis of Romans.
5. " " , , Isaiah.
5. Systematic Theology.
5. Church History.
Sermon Criticism. Singing.

Autumn Term.

5. Exegesis of Philipians and Colossians, with Introduction to Cath. Ep. (except John's).
5. Synoptical Lectures on Books of Wisdom.
5. Systematic Theology.
2. History of Missions.
3. Comparative Religion.
Sermon Criticism. Singing.

THIRD YEAR.

Spring Term.

5. Exegesis of Hebrews.
5. Synoptical Lectures on the earlier Prophetical Books.
5. Systematic Theology.
5. Apologetics.
Sermon Criticism. Singing

Autumn Term.

5. Exegesis of John's Gospel and Introduction to Johannine Books.
5. Synoptical Lectures on the later Prophetical Books.
5. Systematic Theology.
5. Pastoral Theology.
Sermon Criticism. Singing.

For Students who are sufficiently advanced in the study of English, classes are arranged in Biblical and Exegetical English.

Regulations

Students are expected to defray their own travelling expenses to and from college and to contribute, as far as they are able, towards defraying the cost of their board, text-books, stationery, and other expenses of their course.

As students are received into this department in the confidence that they are actuated by an earnest desire to serve the church and win men to Christ, it is assumed that they will seize every opportunity to preach the Gospel to the heathen, and as far as can be arranged, conduct services in the churches of the two Missions.

NORMAL SCHOOL Faculty and Instructors

Rev. J. PERCY BRUCE, M. A.,
Rev. W. M. HAYES, D. D.,
Rev. WILLIAM P. CHALFANT, M. A.
Rev. GEORGE FISK, B. D.
Mr. CHEN GI-HSIEN, Graduate of Gwang Deh Shu Yuen,
Rev. SWEN PENG-SIANG, Graduate of Gwang Deh Shu Yuen,
B. D.
Mr. LIU GWANG-DJAO, B. A.
Mr. DJANG MU-DEH, B. A.
Mr. WANG BAN-HOU, Gungsheng.
Mr. YAO CHENG-LIEH, Siutsai.
Rev. LIU YEN TING, B. A., B. D.

Entrance Requirements

1. Students entering this department must be eighteen years of age (Chinese reckoning), except that a candidate who has finished his course in the elementary school, and cannot be accommodated in an academy, may be received at seventeen years of age.

2. Candidates must pass an entrance examination in the following subjects; the time and place of the examination to be arranged by their station or by the college faculty:—

- (1). Old and Now Testament History (Elementary).
- (2). Arithmetic (to Factors).
- (3). Repetition of the Four Books and explanation of the Analects, Great Learning and Doctrine of the Mean.
- (4) Chinese Readers (文學初階) I-IV, or an equivalent.

The examination questions will be issued in due course by the faculty, and the answers must be returned promptly to the president, who will notify the missionary or pastor concerned of the results.

3. Students entering a higher class will be examined by the faculty as to their previous attainments, and their class determined accordingly.

4. Students of the first year will be considered on probation for the first two months after entering, at the end of which time they will be further examined as to the progress made and their ability to continue the course.

Courses of Study

FIRST YEAR.

Spring Term.

5. Expository Lectures on Old Test. History (Pentateuch).
5. Geography.
5. Arithmetic (from Factors).
5. Explain Mencius I.
5. Chinese Reader (half periods).
Recitation, Analysis of Characters. Dictation and Penmanship.
Singing.

Autumn Term.

5. Life of Christ.
5. Geography (Western Hemisphere and Bible Lands)
5. Arithmetic (to end).
5. Explain Mencius II.
5. Chinese Reader (half periods).
Recitation, etc.
Singing.

SECOND YEAR.

- | | |
|---|---|
| 5. Apostolic History. | 5. Old Testament History (to Solomon). |
| 5. Ancient History. | 5. Modern History. |
| 5. Algebra. | 5. Algebra (through Quadratics),

Modified Normal School Course

Students who have entered the Normal School, but whose ability in the judgment of the faculty is insufficient for the regular course, may take, after the first year, and if the faculty approve, a modified course as set out below.

FIRST and SECOND YEARS:—The same as in the regular course, except that Algebra is optional.

THIRD YEAR.

Spring Term.

5. Old Test. Hist. (to Captivity).
5. Elementary Theology.
4. Chinese History.
3. Explain Shuking.
3. Review Analects.
3. Theory of Teaching.
Essays.
Singing.

Autumn Term.

5. Theology of New Testament.
5. Elementary Theology and Christian Evidences.
4. Chinese History.
3. Explain Shuking.
3. Review Analects.
2. Hygiene.
Teachers' Criticism Classes.
Essays
Singing

5. In addition to the semi-annual examinations at the end of each term, all students above the first year are required, at the beginning of the autumn term, to sit for review examination in geography, arithmetic, and the Four Books.

Fees and Regulations

All students are expected to defray the cost of their board, either wholly or in part, according to their financial ability. Each student, when applying for entrance, must state what sum he is prepared to contribute towards his board and other expenses. The minimum fee is five dollars a year.

All fees must be paid at the time of enrollment at the beginning of each term.

Text-books (except such as are provided by the college) and all stationery must be provided by the student.

Students must defray their own travelling expenses, provide their own clothing, and refund the cost of any damage which may be done to college furniture, apparatus, etc.

Except in very urgent cases students cannot be allowed to return home during term time.

There are three literary societies in the school, conducted by the students themselves, providing practice in public speaking, debating, and parliamentary usage. All students are expected to join one or other of these societies.

Gymnastic exercises and athletics are arranged for, in which all students are expected to take part.

Bible Institute

Provided that there are vacancies, and subject to the following provisions, students may be received for a course of Biblical instruction as set out below. Students taking this course must be not less than twenty-three years of age (Chinese reckoning), must be able to read fluently the Old and New Testaments in Mandarin, understand an Easy Wen-li text-book, and show some familiarity with Old and New Testament History. The following is the course of study:—

FIRST YEAR.

Spring Term.

5. Old Test. History [Pentateuch].
5. Apostolic History.
2. Philosophy of the Plan of Salvation.
3. Hints for Preachers [Ballar].

Autumn Term.

5. Old Test. Hist. [to Solomon].
5. Life of Christ.
5. Evidences of Christianity.

SECOND YEAR.

Spring Term

5. Old Test. Hist. [to Captivity].
5. New Testament Exegesis.
5. Elementary Theology.

Autumn Term

5. Old Test. Hist. [to end].
5. John's Gospel.
5. Elementary Theology and Comparative Religion.

THIRD YEAR.

- | | |
|--|--------------------------------|
| 5. Exodus and Leviticus. | 5. Psalms [selected]. |
| 5. Romans. | 5. Hebrews. |
| 5. Natural Theology.
Sermon outlines. | 5. Ethics.
Sermon outlines. |

The fees and regulations as given above for the Normal School, excepting only the requirements as to literary Societies and athletics, apply to students in this department.

MEDICAL COLLEGE

Faculty and Instructors

James Boyd Neal, M.A., M.D., President.
E. Freiherr von Werthern, Dr. Med. et Chir.
W. M. Schultz, B.A., M.D.
Wu Chao Siang (武兆祥)

Associate Professors

C. F. Johnson, M.D.
James Russell Watson, M.B., M.R.C.S., D.P.H., Tsing-
chowfu.
Thomas C. Paterson, M.B., C.M., Tsowping.

Besides the teaching force already arranged for, it is confidently expected that other qualified medical men belonging to neighboring stations, will consent to give short courses of instruction to the students.

In the Union College of Arts and Science at Weihsien the medical students during their first year will be under the direct personal instruction of the following teachers:

PAUL D. BERGEN, M. A., D. D.
HAROLD G. WHITCHER, B. Sc.
H. S. COUSENS, B.A.

Entrance Requirements

Graduates of the college of Arts and Science may enter the second year of the Medical Course and, on graduation, receive the Higher Diploma of the University.

All other candidates must pass the entrance examination to the College of Arts and Science, in which College he must take the first year of their Medical Course. The entrance examination to the College of Arts and Science is as follows:

UNION MEDICAL COLLEGE TSINANFU

1. Repetition and elementary exposition of the Four Books.
2. Repetition *only* of the abridged Books of History and the Book of Odes. (Information concerning the required portions may be had on request.)
3. Elementary Old and New Testament History. (A Syllabus has been prepared indicating the work to be covered in preparation for the examination in Scripture. A copy of this Syllabus will be sent on application.)
4. Outlines of Universal History. (Wu Chou Shih Lueh or equivalent.)
5. General Descriptive Geography. (Chapin's or equivalent.)
6. Arithmetic. (Liu Kuang Chao's or equivalent.)
7. Algebra through quadratics.
8. Simple essay in Wen-li on topic assigned at the time.
9. Physical Geogaphy. (Commercial Press Eclectic Physical Geography or Equivalent.)

The examinations, are held at the secondary schools or Mission stations, toward the close of the calendar year and in the presence of a resident missionary. The papers are forwarded to the Registrar, College of Arts and Science, Wei Hsien, Shantung, for examination by the faculty.

Students unable to take these examinations at the time specified may, under exceptional circumstances, sit for them at the College at the beginning of the Spring term.

A Student failing on only one subject may be admitted to the class provided that the general average of his grades is not less than 66, but he must make up the condition at the end of the first college year.

The privilege of admission of students by certificate, and without examination, is granted to Middle Schools which comply with the requirements of the University Council, details of which may be obtained on application.

Course of Study

The curriculum, which consists of a six years' course, is divided into two parts as follows:—

- A. One year of scientific study in the Union College of Arts and Science at Weihsien in the following subjects:

1. Physics—Experimental Lectures and Laboratory work.
 2. Chemistry—Gillison's whole volume, Laboratory work in Inorganic Chemistry.
 3. Biology—elementary.
 4. Botany—elementary.
- B. Five years of purely professional work in the Union Medical College in Tsinan. The studies to be pursued in this course are as follows:

FIRST YEAR.

<i>First Term.</i>	<i>Second Term.</i>
Anatomy—First part.	Anatomy—Second part.
Physiology.	Physiology.
Normal Histology—Laboratory	Normal Histology—Laboratory.
Pharmaceutical Chemistry—Laboratory.	Physiological Chemistry—Laboratory.
	Dissection of Animals.

SECOND YEAR.

<i>First Term.</i>	<i>Second Term.</i>
Anatomy—Special.	Anatomy—Surgical.
Embryology.	Pathology—General.
Physiology.	Practice of Medicine.
Pharmacy—Practical work.	Pharmacy—Practical work.
Materia Medica.	Materia Medica, Therapeutics and Toxicology.
Physiological Laboratory.	Hygiene.
Bandaging.	

THIRD YEAR.

<i>First Term.</i>	<i>Second Term.</i>
Practice of Medicine.	Practice of Medicine.
Surgery—General.	Surgery General.
Therapeutics.	Physical Diagnosis.
Diseases of the Eye.	Dermatology.
Pathology—Special.	Pathology—Special.
Pathological Histology.	Clinical Laboratory—Blood, Urine.
Physical Diagnosis.	Bacteriology, etc.
Clinic.	Laryngology and Otology.
	Clinics.

FOURTH YEAR.

<i>First Term.</i>	<i>Second Term.</i>
Surgery Special.	Surgery Special.
Obstetrics.	Diseases of Children.
Gynecology.	Medical Jurisprudence.
Mental Diseases.	Clinical Conferences.
Ward Service.	Ward Service.
Clinical Conferences.	Clinics.

FIFTH YEAR.

Medical Ethics, Ward Service, Clinical Conferences, Out-patient department and other practical training.

Fees and Regulations

Each student, during his five years residence in Tsinan, will be required to pay a tuition fee of five dollars per term (\$5 Mex.) in advance; there being two terms of approximately four months each in the year, making ten dollars Mexican per year. These fees do not include board, books, travel, etc. Board costs in Tsinan at present rates three or four dollars a month so it is estimated that apart from travel, it will cost each student sixty or seventy dollars a year for all expenses, including tuition, board, books, and incidentals.

For the year of preliminary scientific study in Weihsien, each student sent to the College from a Mission outside the Union will be required to pay a fee of \$54. inclusive of board. Students from the Missions participating in the Union will be required to pay a tuition fee of \$5 per term. They will also be required to provide the full cost of their board (\$25.00)

Dormitories will be furnished for the students, also kitchen accommodation. Students will be expected, however, to provide and make arrangements for their own food. All students will be expected to room in the dormitories, unless by special permission they are allowed to live outside of the College.

PRESIDENTS' REPORTS

COLLEGE OF ARTS AND SCIENCE

During the past year the College has had to contend with difficulties of an extraordinary character.

Owing to the plague which lingered on in different districts of the province after the opening of Spring, it was not deemed advisable to convene the College at the date previously fixed. When it became evident that the plague was no longer to be feared, the rainy season was approaching, and as students were widely scattered, it would have been impossible to get them together much before the time for the usual summer vacation. It was therefore thought best to delay assembling the students until the 17th of August, to combine the two terms (both being necessarily shortened), and teach through the rest of the year with practically no intermission, so that the year's work could be completed in as nearly a normal manner as conditions permitted.

This was done, and the work belonging to the Spring term successfully completed. But about the middle of October, when the Revolution began with the taking of Wuchang by the Revolutionaries, the students became restless and there were soon manifested two different states of mind. Some of the students wished to leave because they were afraid the College might be attacked, and others that they might join the revolutionary movement. In the meantime it proved increasingly difficult to prevent the College from becoming a centre for the revolutionary propaganda. It was explained to both Chinese Teachers and students that this could not be allowed, even though we were in sympathy with the effort of the people to achieve their liberties. Early in November it was finally decided to give leave of absence to all students who wished to go. This was not wholly satisfactory to the agitators, as they wished the whole

College to disband, otherwise those going would miss a year while those remaining would retain their place.

After some difficulty, about two hundred students left, but half of them did not go voluntarily and returned to College after a few days, so that we suffered a net loss of about one hundred men.

Most of those who have remained away have been engaged in assisting the revolutionary movement in some capacity, either as officers, agents, soldiers, secretaries or clerks. We hope and pray that an over-ruling Providence will cause this great movement to hasten the advance of the Christian church and Christian education in China.

Highly disquieting rumors toward the end of January made efficient study impracticable. Moreover the continued sessions of the College were attended with some risk owing to the threatened severe measures to be taken against revolutionaries. Students active in the propaganda often returned secretly to the College in spite of our precautions, so that it was deemed best to disband. The Senior class stayed on and completed their examinations, also the class preparing for medicine. The rest of the students scattered, it having been arranged that they take the final examinations of the winter term during the second week of the coming Spring term.

Personnel

All the members of the Chinese and Foreign Faculty here last year were this year also on the ground. In addition, Mr. Bergen returned from furlough.

We have had the pleasure also of welcoming Dr. J. J. Heeren and Mr. Samuel Mills who are studying the language with a view to joining in the work of the College.

We now have the largest and best equipped faculty in the history of the College.

Attendance

Medical candidates numbered 11. Special students 30. The first class numbered 40, the second 46, the third 44, the fourth 70, the fifth 42, the sixth 32. Total 314. Eighteen students came from outside of the province.

Work of the Senior Class

Of this class of 32, one member Liu Be Djang did not graduate as he joined the revolutionary movement before the close of the term.

Shu Dao Chang, Nie Yung Sheng, Wang Shou Ngei, Djang Ping, Li Sze Hai and Han Chi expect to enter the Theological College this Spring to study for the Ministry.

Liu Djiu Ching, Liu Fu Dzeng, Feng Wen Tsan, Pan Tien Djue remain in the College for two years post graduate work in Chemistry.

Djang Kwei Yuan and Djiao Wen Bin will have work in connection with the station at Putai.

Nie Tung Liang will teach in Chouping.

Pan Ming Do joins the staff of the College.

Yuan Djing Tang goes to the American Baptist College at Shanghai.

An Ching Yun will teach in Siang Yang, Hupeh.

Chiao Dji Tang will teach at Kia ying chow, Kwangtung province.

Feng Wen Shuan and Shih Yung Gwang become teachers in the Anglican Mission at Taian and Ping-yin.

Dju Djing Dseng goes to the Swedish Baptist Mission, Kiaotschou.

Djiang Sien Cheng goes to the American Presbyterian Mission, Hsiangtan, Hunan.

Li Shu Feng will teach in the Girls' School of the same Mission and city.

Djao Shu Kwan becomes assistant to Mr. Cousens in his Zoological work.

Yuan De Djan, Shu Shue Kung and Djia Hsin Yen become teachers in the American Presbyterian Mission, Chefoo.

Sung Hua Feng goes into business in Tsingchow.

Chin Wen Bing will teach near his home in Shantung.

Li Shou Gwang though appointed to a school in Hunan has to remain home for a time through the death of his mother.

Li En Cheng (Shue Meng) remains in the service of the University Press, as the forman.

There are several reasons for satisfaction in considering the prospective work of this class.—

First. Six of its members are entering the ministry and they are men who give us reason to hope that they will prove faithful and efficient Pastors.

Second. A larger proportion of the class than usual remains in Shantung. In fact all but eight will continue in the province.

Third. All the members of the class are Christians and all but two or three will be engaged in Christian work.

Fourth. We are glad to see four of the class resolved to press on to post graduate work. This will mark the initiation of our post graduate instruction which we hope to gradually organize into several departments as our staff increases.

In connection with these four men our only regret is that three of them were members of the Volunteer Band, and while they stoutly maintain that they have not given up their resolve to enter the ministry, yet their entering upon a post graduate course in Chemistry makes the prospect of their ever becoming Pastors uncertain.

The new University diplomas were given out to the graduating class for the first time. There had been strong objections urged against these by members of the Chinese Faculty and of the graduating class, so that it had been arranged that the Council should be requested to allow this class, which had completed the former six years' curriculum, to receive the old diplomas. But as the Council was unable to meet before the closing of the College, the class, rather than leave the matter unsettled, finally decided to accept the

diplomas. After they had seen them and heard them explained they were very well satisfied, and we have heard many expressions of admiration. In addition to the diploma, each member of the class was given a certificate stating that he had completed the six years' course.

Work of Individual Members of the Faculty

Mr. Burt's department includes Psychology, Logic, Ethics, Economics, International Law and Apostolic History. Instruction was given to the three upper classes in these subjects. Mr. Burt feels that the department is too large to be worked by one man efficiently and hopes that some assistance will soon be forthcoming. Mr. Burt has had in charge the selection of the Bible Readings for morning Chapel, and of the College Library and Reading Room. Books are given out once a week. The Reading Room has been well patronized owing to the eager interest taken in the progress of the Revolution. In night inspection of dormitories Mr. Burt has received help from Messrs. Cousens, Chandler and Mills.

Mr. Luce has taught some of the classes in his department of History and Pedagogy, as well as given attention to some of the problems connected with the more efficient development of these subjects. In the department of religion he has continued his course in the Life of Christ. Some time was given to the oversight of the Y.M.C.A. and Student Volunteers for the Ministry.

Mr. Cousens has taught two divisions of the fifth class in Zoology, and also a daily class in English. He has led a weekly service for the Anglican students and in other ways looked after their welfare. He has also had charge of the main building and seating of the students in chapel, together with collecting and handing in reports of absence from the religious services of the College.

Mr. Whitcher taught throughout the year the general chemistry for the candidates for Medicine. During the spring term he taught two divisions of the sixth class in Qualitative Analysis. He has also devoted considerable time to training a large choir of 72 students not only in singing but in the theory of music. A delightful concert

COLLEGE OF ARTS AND SCIENCE CONVERSE SCIENCE HALL AND MAIN HALL

was given by this choir on Christmas day. Mr. Whitcher is also in charge of the University Press, the College shop, and is Treasurer of the College.

Mr. Chandler has taught two divisions of the second class in Physics and a daily class in English. He has had charge of the Dormitories and taken the accounts of the Equipment Fund. He has also continued his study of the language. He has been in charge of the electric light plant which has required much attention, including rewiring the Main Building, wiring the church and several rows of dormitories. The engine is now temporarily out of commission awaiting a new part which has to come from the U.S.A. It is hoped the plant will be in operation again by the beginning of next term.

In May Mr. Chandler visited some of the institutions in Tientsin, Peking, Tungchow and Paotingfu.

From July 1st. to August 1st. in the absence of Mr. Whitcher he had charge of the University Press and College Shop.

Mr. Bergen in addition to administrative duties has taught classes in Natural History, Ethics and the English language.

Religious Life

We have been favored with two brief visits from Pastor Ding Li Mei, who while preaching with his accustomed power, was at the same time overflowing with enthusiasm for the revolutionary cause, and consequently the effect of his presence was diminished spiritually.

Rev. J. Walter Lowrie, D.D. Chairman of the Presbyterian China Council, visited us in January spending several days and speaking to us repeatedly in both Chinese and English. Particularly his addresses in Chinese made a deep impression upon all who heard them.

The College Y.M.C.A. has not been in so satisfactory a condition as usual, owing no doubt in part to the press of other college work and the strain of the political situation. Still, the work of the Committees was kept up under the oversight of Mr. Luce who is President of the Society, and much good work accomplished.

The private voluntary Bible study has been continued, Mr. Luce preparing lessons for this, and meeting the Leaders.

The Volunteer Band has numbered 78 active members. Special meetings have been held occasionally.

Of the Senior class 13 were members of the Band, and of these six expect to enter the Theological College this spring. The other seven men while not going directly into Theological study declare their firm purpose of sooner or later entering upon the work of the Ministry. We hope that this Volunteer Band may prove a permanent spiritual force in the College and in the Church at large.

A number of the students have done some voluntary religious work during the year, such as teaching Sunday school classes, or assisting in services in the villages or in the city chapel.

Members of the College faculty, Chinese and Foreign, have all had part in our religious life, conducting meetings or Sunday School classes. At morning chapel we have gone over portions of the Proverbs and Isaiah. Each morning a very brief address was made by the leader. Some of these were really fine in both thought and expression.

We have nothing of a special nature to chronicle of our religious life, but we believe that it permeates the whole College, and that its force is continually felt for good.

Candidates for Entrance

A total of about seventy students sat for the entrance examinations held at different centres from January 18-20. Up to time of writing we have examined the papers of fifty six candidates of whom forty nine have passed. The examinations in Chingchow were interrupted by the disorder in the city, and we have not yet received their papers. Of the schools having successful candidates the list is headed by

Weihhsien with	21, other schools as follows,		
Chimeh sends	3	Taian sends	2
Tsinan sends	5	Chouping sends	2
Peidjen sends	1	Laichow sends	1
Tengchow sends	3	I Chow-fu sends	6
Specials from College	5		

There will be an opportunity given those unable through the disorders to take the examinations at the fixed time to sit for them at the opening of the Spring term.

Literary Societies

The work of the six Literary Societies has continued through most of the year. They are far from exercising the influence that we could wish, yet we are convinced that their continuance is well worth all the attention and time which they require.

University Press

It has been a busy year for this department. Considering the small amount of equipment and limited force, the work done reflects great credit on the energy and judgment of Mr. Whitcher who has developed the work and borne the responsibility. The chief issues have been, Bible Portions for the American Bible Society, Presbyterian and Baptist Mission books and tracts, Mr. White-wright's "Introduction to Mandarin", Baptist Hymnbooks, Reports of University Council of Shantung Mission, and University Register, Prof. Liu Gwang Djao's "Surveying". In all, about ten million pages have been printed. There are also limited facilities for foreign binding and stereotyping.

The College shop has had on an average ten men employed during the year. A large amount of iron work has been turned out for the new buildings of the Baptist Mission, a new windmill constructed, a large metal tank of 5,000 gallon capacity: some physical apparatus and a great deal of miscellaneous repair work. An unusual amount of casting has been done.

New Chinese foremen for both the Press and Shop have been engaged who will relieve Mr. Whitcher of a considerable amount of detail. These foremen are both graduates of the College and Christian men.

Assistance Rendered College

Dr. Roys, as in former years, has continued to act as Medical Adviser. We record our appreciation of his efficient services. His assistant Dr. Yang has done excellent work and is much liked

by the students. Half of Dr. Yang's salary is met by the College. Mrs. Whitcher and Mrs. Chandler have given valuable assistance in typewriting College correspondence and in other incidental ways for which we are sincerely grateful. Mrs. Chandler has also copied each month the weather report for the German Government.

The sudden outbreak of the Revolution last October put an end to negotiations for the University site in Tsinan, which is a matter for great regret. We are most thankful however that the successful termination of the revolution seems to have been reached and that in Shantung at least, it has been attended with comparatively little disorder and bloodshed.

There is a general impression, which we believe fully warranted, that upon the restoration of confidence, and of a stable and popular government, we may look forward to a new and larger development of our work. It is of great importance therefore that we purchase our site and establish ourselves upon it, at the earliest possible date.

With devout thanks to Almighty God for His continued goodness throughout a year attended with exceptional difficulties and risks, we close this report.

GOTCH-ROBINSON THEOLOGICAL COLLEGE

The year 1911, the third of Hsuan Tung, and the last of the Manchu dynasty must be for ever memorable in Chinese history. The three most terrible of all scourges—War, Famine, and Pestilence,—have each made up their tale of sorrow and death; while Revolution has opened the door of hope to a people emerging from the darkness of centuries. Such a year could hardly fail to be eventful in the history of our College.

The opening of the Spring term was delayed for six weeks on account of the Pneumonic Plague which came within 12 miles of our doors. The closing of the Autumn term was precipitated by the development of a Revolutionary plot in our own city. But the anxieties by which we have been beset make us realise the more the signal mercy of God which the year records.

Taking our latest experiences first:—the outbreak of the Revolution in October, not unnaturally, caused considerable excitement among the students of both the Theological and Normal School departments. The excitement grew with the passing weeks, though it varied in its character with a suddenness which, to say the least, was bewildering. The position was one full of difficulties for the Faculty. Our Colleges are Missionary Institutions, bound to political neutrality, and indeed to loyalty toward the governing authorities. And yet our own sympathies could not but be on the side of liberty, while our students, were red-hot with enthusiasm. The situation arising out of such conditions could hardly fail to have its humorous side. The first effect of the outbreak of the Revolution was something of the nature of panic, requiring strong authoritative pressure to prevent the students making a stampede for their homes. This was followed by reckless daring, cutting off of queues, electing representatives for the short-lived Republican Assembly in the Provincial Capital, and other similar manifestations of enthusiasm, all with a student-like disregard of the consequences of their youth-

ful heroism to others. The difficulties of the Faculty during this earlier heroic era, as we may call it, were considerably increased by a visit from our friend Pastor Ding, whose intense enthusiasm for the cause of liberty, fired to white heat the enthusiasm of many of the students. Nor was this to be surprised at if we remember that he was the channel through which they had received their spiritual liberty. The heroic era, however, was followed by a return of panic, which in its turn gave place to reckless zeal. Twelve students had determined to go to Shanghai and volunteer for the Republicans. Seven of these were persuaded to give up the project. The other five stole away and reached the station, when they were overtaken and induced to return. Once more we settled down with the satisfying assurance that all was peace. Not more than a few days passed, however, before the excitement was renewed. A band of upwards of a hundred Revolutionaries had suddenly entered the city. They had bombs in their possession, and plotted to destroy the Yamens of both Prefect and Magistrate. The Manchus of the Camp in the North City were said to be preparing to possess the Southern (Chinese) city, and massacre all revolutionary sympathizers, especially Christians. On the 19th of January the Prefect in a personal interview informed us that the whole band of conspirators were in their hands; that they were quietly sending them out of the city under guard; and that three hundred Manchu troops and one hundred Imperial troops had been brought in to patrol the city. We were finally begged to urge all our people to have nothing to do with the Revolutionaries. With such a request made to us, we felt we could do no other than close the College at once, a week before the date previously announced. Accordingly, we gave orders that evening for all students to leave the next day, and for those who had cut off their queues to leave by the first train under our personal escort. Visiting the dormitories in the early morning to see that our instructions were being followed we were not a little chagrined, and, it is to be feared, amused, to find half-a-dozen obvious conspirators hiding in the rooms of our senior students themselves! So ended our Autumn term! If our experiences are paralleled, as we believe they are, in other parts of the country, in Government Schools as well

as Missionary institutions; this Revolution will surely go down to history as the "Students' Revolution"!

In such circumstances as we have thus outlined, it is a matter for thankfulness that no tragedy occurred, and that in spite of distractions we are able to report a practically complete year of satisfactory work. For this we owe much to the loyalty and unity of our Chinese teaching staff. The help of Messrs. Liu, Chen, and Swen were invaluable at more than one extremely critical juncture. We were assisted also by timely visits of Mr. Pettus, of the Y. M. C. A., and Dr. J. W. Lowrie, of Peking, the former just before the Revolution began, and the latter just before the close of the term.

At the beginning of the year we enrolled:—

In the Theological Department.	21.
" " Normal School "	150.
" " Bible Institute "	31.
	<hr/>
	202.

These numbers, however, were considerably reduced by the Plague and consequent delay in opening the College. Our final numbers were 153 in all three departments. Eighty-four new candidates have been accepted which with old students will make a total of 211 for the ensuing year.

Our staff suffered serious loss in the Autumn term through the furlough of Mr. Chalfant, the whole of the regular Theological work falling upon two men who had each to take classes in the Normal School as well. We are very grateful for the assistance given to us by Mr. Fisk in the English Exegesis class in the Theological Department, and also in the athletics of the whole college. We gladly welcome the prospect, which we trust will be realised at this meeting of the Council, of the appointment of Mr. Fisk as a member of our staff, an addition that has long been urgently needed.

Outside Mission work has entailed the absence of the respective members of the Staff for longer or shorter periods. Dr. Hayes was called to Shanghai twice to attend meetings of the China Council of the Presbyterian Mission; both Dr. Hayes and Mr. Chalfant were called away by business in connection with their Mission executive Committees; and towards the end of the year Mr. Bruce had to pay

a visit to Tientsin in connection with Baptist Mission matters.

We must here record our extreme regret at the loss of Rev. Liu Szi I who leaves us to take the Principalship of the new High School at Tsingtau. Mr. Liu has been a member of our staff since his graduation in 1906, and a source of strength to us in every way. We cordially wish him success in the new and responsible post to which he has been appointed.

In the Theological Department the year began with 21 students. Of these two have been compelled by illness to relinquish their studies. Three, Li Dwen Hou, Li Ko Feng, and Dzing Lung Dji, have graduated this year. The last named, it is expected, will be called to a pastorate in the Eastern Association of the Baptist Church. The other two will serve as stated supply in the churches of the Presbyterian Mission in the eastern part of the province. Two of the junior year, owing to poverty, leave for twelve months hoping to enter again for the session of 1913. Twelve new candidates have been accepted for the ensuing year making, with the old students a total of 25 in this department for 1912.

It may be of interest here to mention that, as the newly published University Register will show, twenty-seven students have graduated from this department since the beginning of the Union in 1905, and of these 18 are now in the Pastorate, 5 are evangelists, two are tutors in religious subjects in our own college, one is Principal of a High School in the Presbyterian Mission, and one is in a similar position in the American Baptist Mission in Honan.

The work of the year has been steady, and the purpose of the students to enter the Ministry has, we believe, increased in steadfastness. Mr. Pettus' visit, above referred to, contributed much to this end. He had specially valuable talks with those who were formerly members of the Volunteer band at the Arts College, Wei Hsien, with the result that they formed themselves into a continuation band to strengthen each other in their life purpose by joining together in some active evangelistic effort of their own, and also to help their former fellow students in the Arts College in like resolves. The work of Mr. Pettus was followed up by a series of meetings and class talks by Dr. Lowrie. It would be difficult to express how much we

owe to this visit of our friend. Coming at the time he did, we believe the students have returned to their homes in a frame of mind very different from what it would have been without Dr. Lowrie's heart stirring addresses.

The class work in this department comprised:-

In New Testament, the exegesis of Colossians and Thessalonians in the Spring, and the Life and Teachings of Christ in the Autumn. Church History A. D 100-1294, by Dr. Hayes.

In Old Testament, the exegesis of Selected Psalms in the Spring by Mr. Chalfant, and of Exodus and Leviticus, with Introduction to the Pentateuch, by Mr. Bruce in the Autumn.

In Theology, under Mr. Bruce, the study of Theism in the Spring, and the Doctrine of Sacred Scripture, and the Attributes of God, in the Autumn.

In addition to the above, the class studied, under Mr. Chalfant, the theory of Homiletics, coupled with some valuable drill in preparation of sermon outlines.

As in previous years, the students in turn have conducted the College week evening service, their addresses being subsequently criticised by the class and members of the faculty.

The study of English, commenced in 1910 by Mrs. Chalfant, was continued this spring up to the time of Mr. and Mrs. Chalfant's furlough. In the Autumn the work was resumed by Mr. Fisk, taking as the text book the "Cambridge Bible for Schools" Commentary on Matthew.

In the Normal School and Bible Institute departments the usual courses of study have been followed. The teaching has been by the Chinese teachers, with the exception that Dr. Hayes has taught the *Theory and Practice of Teaching*, and Mr. Bruce, with the help of Mr. Swen, Psychology. The religious subjects in both these departments have been taken by Revs. Liu Szi I and Swen Peng Siang. Mr. Liu has also taught Physics and Ethics, and Mr. Swen; Logic. The senior class in Physics and Chemistry was in charge of Mr. Liu Gwang Djao, and the Mathematics divided between Messrs. Liu Gwang Djao; Chen Gi Hsien, Djang Mu Deh; and two Theo-

logical students. The Chinese Literature classes were conducted by Mr. Wang Ben Hou and Yao Cheng Lieh.

The Literary Societies and Singing Classes have been continued as heretofore. We are indebted to Mr. Fisk and Dr. Fleming for the energy with which they have organized the Drilling and Athletics. We trust that this indispensable department of College life will be still further developed in the coming year.

Owing to the delay in opening the Spring term caused by the plague, Dr. Hayes was able to give more time than usual to preparing text books used in the institution. In the winter vacation his books on Comparative Religion and Theory of Preaching were revised and the second edition published. In the Winter and Spring he issued the first edition of his Life and Teaching of Christ of which the MS. has been in preparation since 1903. This was revised in the latter part of the year for the second edition now in the press. In the late spring the Pastoral Theology was revised and the second edition issued, and in the summer vacation the first edition was printed of a work on Church History (A.D. 100-1294)

Looking to the future we are confronted by the proposal, made since our last report, to move the Arts and Theological Colleges to Tsinan, so that all departments of the University may be concentrated at the Capital of the Province. For some time it has been felt by many that the present geographical separation of the three colleges results in serious loss of power and cohesion, and that concentration at the Capital would pave the way for still wider union, embracing all the Missions in the province. When the Kennedy Fund made it possible for the Arts College to remove, it was inevitable that the question should be raised whether our own College should not move also. The Council has twice declared itself in favor of this proposal. The English Baptist Mission, who own the property at Tsingchowfu, referred the matter for consideration by their Shantung Mission Conference, which body has three times expressed its endorsement of the plan, the existing plant to be used for a much needed High School. It is felt that it is in itself desirable that all three departments should be together at the Capital; but that if the

Arts College goes it is more than desirable, it becomes imperative, that ours should go too, if the Union, for which so many sacrifices have been made, is to be conserved and developed. The sole obstacle at present is one of money. To provide buildings and plant for a Theological and Normal College in Tsinan we need £5600. We recommend that a public appeal be made by the Council for this purpose, in the hope that the response will be such as to make possible the consummation of the Union by the coordination of all branches of the University at one centre.

UNION MEDICAL COLLEGE

Notwithstanding the fact that in the beginning of the year the plague, and, at the end, the Revolution, have both interfered somewhat with the regular work of the institution, the past year has been not only interesting but fairly successful in the work accomplished.

We were three weeks late in beginning the spring term, so that it was the 16th. March before we got started, but this loss of time was partly made up by the first year class by staying a little later than had been planned for in the summer, while the second year class made it all up by coming back three weeks earlier in the autumn and taking a course in Pharmacy with Dr. Roys in Wei Hsien, before coming to Tsinan for the autumn term.

The second term was planned to end on January 18th, beginning on the 22nd. September, but, unfortunately, by the 13th. December there was so much unrest and so many rumors of what was likely to happen in Shantung, that the students begged to be allowed to disband, for fear that something serious would occur and the railways be interrupted so they could not reach their homes. After giving them two days to think the matter over, and after exhausting all the arguments at our command in trying to persuade them that there was no danger in sight, inasmuch as we could not guarantee that nothing would happen to endanger their safety, and we could not ensure them protection, we were reluctantly compelled to allow them to go, with the understanding however that all the time lost should be made up hereafter. The term accordingly closed five weeks ahead of time.

During the year there have been seventeen students in the regular classes, eight in the second year class and nine in the first year, and in addition we have had two of the members of the last peri-

patetic class with us, acting as student assistants and taking a year of practical work. Beside these there have been eleven young men at Weihsien taking the preliminary course, preparatory to entering here the coming year, so the prospect is that we shall have about twenty five in attendance next year.

Teaching Force.

During the spring term Dr. von Werthern taught the subjects of Embryology and Bandaging to the second year class, and during the autumn term took this same class in Surgical Anatomy.

Anatomy was taught throughout the year by Mr. Wu Chao-hsiang, who was assisted for a few weeks by one of the student assistants, Li Yun-teng. During the autumn term Mr. Wu also taught a class in Therapeutics.

Dr. Schultz began his work of teaching in September, by taking the second year men in Physical Diagnosis and Pathology, the former subject being finished by the time the students disbanded, and the latter well begun.

Dr. Neal taught Physiology throughout the year and in the spring term also had the first year class in Histology and in the autumn term taught Practice to the second year men.

As mentioned above the second year students went to Weihsien in the beginning of September for a three weeks course in practical Pharmacy with Dr. Roys. We hope this is only the beginning of such regular course to be given by Dr. Roys either in Weihsien or here in our own laboratory, which is admirably fitted for the teaching of this branch.

Dr. Johnson was prevented from doing any teaching during the spring term by his absence in Ichowfu, and was delayed in beginning in the autumn by various Mission engagements, so that by the time he was ready to engage in stated classes the revolution made it impossible to go on with regular work. He accordingly, much to his sorrow and ours, has been able to meet his class only a few times, when he started them on the study of one of the branches of Practice.

Hospital Work and Plague Prevention

With the exception of about six weeks in the winter, when the hospital was closed, partly because of the regular Chinese holidays and partly because of the plague, medical work has been carried on every day but Sunday throughout the year. In October Dr. Schultz began regular daily work in the dispensary and hospital, taking as his share the care of medical and skin cases, leaving the surgical cases to Dr. von Werthern, and the eye cases to Dr. Neal. Up until October Dr. von Werthern had charge of all cases but those of the eye, and at this writing, Dr. von Werthern having left for an eight months vacation in Germany, Dr. Schultz now has charge of the same departments.

During the prevalence of plague in the north, those in charge of the Bureau of Plague Prevention in Tsinan were most cordial in their relations to us here and very desirous of securing our help in their fight to prevent the plague from entering the city. We were of course only too glad to do all we could to help in the matter and for weeks were in constant communication with the authorities and assisted them in establishing an Isolation Hospital outside the east suburb, in which Dr. Schultz spent several weeks during the time of greatest alarm, when he examined hundreds of travellers coming into the city from the east, detaining those who showed any symptoms of serious disease.

Dr. von Werthern trained a Sanitary Corps, for use in case the plague reached the city but fortunately their services were not needed.

As a result of our services during the plague scare, for which of course we accepted no remuneration, the Governor, at the time of our formal opening in April, presented us with one thousand taels with which we have erected an additional dormitory for students, the money being nearly sufficient for this purpose.

The Statistics of the medical work for 1911 are as follows:

.. Medical and Surgical Dispensaries:

New Patients:

Male, including 91 hospital patients, 4070

Female	14	1307
Return Visits:		
Male		5490
Female		1723
Eye Dispensary:		
New Patients:		
Male, including 49 hospital patients,		888
Female	17	266
Return Visits:		1802
Outcalls, about		75
	Total	15621
Operations including 66 on the eye,		394

In December we were honored by having His Excellency, Sun Pao-chi, Governor of Shantung, come into hospital for treatment for half a month, during which time he occupied the rooms furnished in foreign style, his meals being provided for him from the kitchens of the foreign staff and many times eaten at our own tables. We greatly enjoyed his stay with us, as he proved himself a refined Chinese gentleman, truly appreciative of all that was done for him. When we parted with him, we felt we had made a genuine friend whom we shall long remember for his courtesy and kindness and for his generous support of our work here.

Red Cross Work

Toward the end of the year a Red Cross Society was organized in Tsinan, and on being approached by the officials we promised to do all in our power to assist in the work, should fighting take place in the vicinity of the city, and also promised to admit to our hospital any Red Cross patients, who might be sent to us.

Most of the medical students joined the society and when we disbanded in December, seven of them remained behind awaiting developments, but as nothing took place for some weeks the majority scattered to their homes. When however fighting occurred in the eastern part of the province, two of our present students besides several trained in former peripatetic classes were at the front helping in the care of the wounded.

Evangelistic Work

Throughout the year an ordained pastor, Mr. Nieh, has been in charge of the evangelistic work in connection with the hospital. He has conducted morning prayers with the assistants and patients and has been in the Men's Waiting Room every morning preaching to the patients, while waiting to be treated. He also sells religious books to those wishing them at a nominal price. In addition to this the medical students have done some evangelistic work among the patients.

The Medical Students have continued their Y.M.C.A. organisation, meeting twice a week in evening meetings.

Rev. Frank Harmon has continued to meet the medical students each Wednesday and Saturday morning during term time to spend a half hour in Bible study, for which we feel most grateful to him. On other mornings of the week the regular morning prayers have been conducted by the faculty.

Formal Opening

On April 17th, 1911, the formal opening of the Medical College took place in the presence of the Governor and all the high officials of the province. Though regular work had been going on for over a year in the teaching departments, and medical work had been in operation since the preceding September, it had been found impracticable to arrange for a formal opening until the above date, owing to unfortunate miscarriage of orders for furnishings for the operating room and to other circumstances.

The day chosen proved to be a beautiful day and the ceremonies passed off very satisfactorily. H.E. Sun Pao-chi, Governor of this province of over 3,000,000 of people, took occasion in his speech to emphasise the value of preventive measures in combating disease, and showed his wish to help along in the training up of a body of educated physicians by contributing a thousand taels, which, as mentioned above, has been devoted to the erection of a much needed dormitory for students.

April 18th was devoted to a reception for ladies, both Chinese

and foreign, and proved quite as great a success as the first day.

April 19th, was given up to receiving our neighbors and any others who chose to come, but unfortunately did not prove so successful as the preceding days, owing to the crowds of men, women, and irresponsible children, who overran the buildings, so that we were compelled to close before the day was ended.

Conclusion

We cannot conclude this report without expressing our gratitude to the American givers, whose generosity has enabled us to clear off the balance due at the end of last year on the equipment of our laboratories. This account is now square and in addition, owing to the same generous givers, we have in hand a small fund of about \$500 gold for further expenditures for the same purpose.

However, while we greatly rejoice at being free from debt on our laboratories, and in having something in hand for further purchases, and in the possession of an additional dormitory, without which it would have been almost impossible to go forward next year, yet we feel very much the need of more money to put our laboratories and our whole plant into really good shape for the work we have to do, and to make our grounds and roads more attractive and usable.

We are very anxious to put in a more effective heating plant, and to introduce electricity for the lighting of the buildings, and to pave our roads, so that in wet weather they will not be the quagmire they now are.

We feel that notwithstanding the uncertainty about health conditions prevailing at the beginning and the political uncertainty of the end of the year we have very much to be grateful for in the peace and freedom from serious illness which have prevailed throughout the year, and for the measure of advance we have made. So that even though the year closes in greater uncertainty than ever we look forward with confident hope to the future and in firm confidence in Him, whose work we trust this is, in which we are engaged.

BASIS OF UNION IN EDUCATIONAL WORK IN SHANTUNG.

Adopted 1904. Amended 1909.

With grateful acknowledgment of God's goodness and mercy extended to us in the past, and with prayer for His continued blessing upon our work, we, the members of the American Presbyterian Mission and of the English Baptist Mission in Shantung agree to unite in organising three colleges, namely, an Arts College at Weih sien, a Theological College at Tsingchoufu, and a Medical College at Tsinanfu, subject to the provisions hereinafter set forth.

We also invite other evangelical Missions in Shantung or adjacent provinces to enter this Union, either fully or partially, subject to the same provisions.

ARTICLE I.—NAME.

The United Colleges shall be styled "The Shantung Christian University."

ARTICLE II.—AIM AND POLICY.

Sec. 1. The aim of the United Colleges shall be first and foremost the furtherance of the cause of Christ in China.

Sec. 2. The purpose of the Arts College shall be to give a liberal education of a distinctively Christian character to young men chiefly from Christian families.

Sec. 3. The purpose of the Theological College shall be to provide theological training for pastors and evangelists; the instruction given therein shall be in accordance with evangelical truth.

Sec. 4. In connection with the Theological College there shall be a preparatory course of study for those who need it and a normal school for training of elementary school teachers. In so far as special denominational instruction is required, it shall be separately provided for by the respective Missions.

Sec. 5. The purpose of the Medical College shall be to give a medical education, under distinctively Christian influence, to young men chiefly from Christian families.

Sec. 6. Apart from the teaching of Foreign languages, the medium of instruction in the University, shall be the Chinese language.

ARTICLE III. MANAGEMENT.

The Colleges shall be under the management of a University Council, which shall be elected by the uniting Missions and responsible to them, and shall be under the ultimate control of the Home Boards and Societies of the said uniting Missions.

ARTICLE IV. CONSTITUTION OF THE UNIVERSITY COUNCIL.

Sec. 1. The Council shall consist of representatives of (a) those Missions taking full share in the Union and (b) those Missions taking part share in the Union, as follows:

Each Mission taking full share in the Union, i.e., providing at least one foreign teacher, together with residence (see Article VII Section 4) in each of the three Colleges, taking its proportionate share in current expenses (see Article VIII Section 2), and providing for the increased cost of University property involved in its entering the Union (Article VII Section 5), shall appoint three members of the Council who shall serve for three years, one to retire annually and his place to be refilled. In the first election one shall be chosen for one year, one for two years and one for three years.

Any Mission entering the Union in respect of two only of the constituent Colleges, i.e., providing at least one foreign teacher, together with residence, in each of two Colleges, taking its proportionate share in the current expenses of the two Colleges and providing for the increased cost of property involved in its entering the Union, shall appoint two members of the Council.

Any Mission entering the Union in respect of one only of the constituent Colleges, i.e., providing at least one foreign teacher, together with residence, in such college, taking its proportionate share of the current expenses of the college, and providing for the increased cost involved in its entering the Union, shall appoint one member of the Council.

In cases where it is so desired by the Mission entering the Union, or by the Council, a financial equivalent may be arranged for in lieu of a resident foreign teacher, such financial equivalent to be agreed upon in consultation with the Council.

Sec. 2. Members of the Council shall be entitled to vote only on matters directly pertaining to the colleges, in respect of which the Missions appointing them enter the Union.

Sec. 3. Members of the faculty shall have the privilege of attending the meetings of the Council for the purposes of consultation but without voting power, save that the president of each College and one member of its faculty, elected annually by the faculty as its delegate, shall be allowed to vote on all matters coming before the Council with the exception of appointments to the foreign teaching staff and estimates of University expenditure.

In the election of faculty representatives only members of the faculty who have been on the field at least five years shall be eligible, and due regard shall be given to the desirability of the Uniting Missions being equally represented.

Sec. 4. Whenever a member of the Council is absent on furlough, he shall be considered to have resigned, and his Mission shall at once elect a successor to complete his unexpired term.

ARTICLE V. MEETINGS AND FUNCTIONS OF THE
UNIVERSITY COUNCIL.

Sec. 1. The Council shall meet for general business at least once a year.

Sec. 2. Two-thirds of the members of the Council shall constitute a quorum for the transaction of business, and no motion shall be declared carried unless two-thirds of the entire Council vote in the affirmative.

Sec. 3. Full minutes of all meetings of the Council, and all reports of work, shall be presented without delay to the Home Boards and Societies and to the secretaries of the Missions on the field.

Sec. 4. The Council shall elect all foreign members of the

teaching staff, but the election of presidents shall be endorsed by the Home Boards and Societies. Candidates for positions on the teaching staff of the Theological College, to be eligible, must represent one of the communions participating in the said College, and their election on the teaching staff, before becoming final, must require confirmation by the Mission, which they represent, in such manner as that body may elect, failing which their election shall be null.

Sec. 5. The Council shall consider and decide upon the curriculum of each college, which shall be submitted by its president on behalf of the Faculty.

Sec. 6. The Council shall consider and pass upon the estimates of college expenditure, which shall be prepared and presented by the Faculty of each college; shall determine the share to be borne by each Board and Society; and shall forward the estimates to the said Boards and Societies.

Sec. 7. The Council shall receive applications for entrance into the Educational Union, and shall enter into negotiations with the Mission applying. Any preliminary agreement which they may arrange shall then be submitted to the Mission concerned for their approval, as specified under Article IX.

Sec. 8. All the acts of the Council shall be subject to the review and control of the Home Boards and Societies.

ARTICLE VI. TEACHING STAFF.

Sec. 1. The Teaching staff of the University shall consist of:

(a). The President and foreign professors of each college appointed by the Council and constituting the Faculty.

(b). Foreign associate professors and lecturers appointed by the Council.

(c). Chinese professors and instructors appointed by the president in consultation with the Faculty and subject to the endorsement of the Council.

Sec. 2. The Missions taking full share in the Union shall be, as far as possible, equally represented on the teaching staff of each college.

Sec. 3. No member of a Faculty shall be eligible for election by a Mission as its representative on the Council.

ARTICLE VII. OWNERSHIP OF COLLEGE PROPERTY.

Sec. 1. The initial plant of the Arts College at Weih sien shall remain the Property of the Board of Foreign Missions of the Presbyterian Church in the United States of America.

Sec. 2. The initial plant of the Theological College at Tsing-chowfu shall remain the property of the Baptist Missionary Society in London.

Sec. 3. The initial plant of the Medical College at Tsinanfu shall remain the property of the Baptist Missionary Society in London.

Sec. 4. Each Board or Society shall provide residences for its own representatives on the faculty, either by building its own houses or by payment of rent as may be arranged in consultation with the Council.

Sec. 5. While it is not made a condition of entrance into the Union that the uniting Missions should contribute to the cost of existing University property, plant, or equipment, nevertheless each Board or Society shall provide for the increased cost of such property as is involved by its entering the Union, the amount of this increased cost to be determined by the Council.

Sec. 6. Any additional property or plant which may be contributed to the respective colleges by any of the uniting Missions shall be vested in the Board or Society providing it.

Sec. 7. In case of any Mission withdrawing from the Union, the Board or Society owning the initial plant shall have the option of purchasing the property of the withdrawing Mission.

Sec. 8. Any endowment shall be vested in the Board or Society raising it, and the income thereof shall be applied to the expenses or equipment for which that Board or Society is responsible.

ARTICLE VIII.—FINANCE.

Sec. 1. The salaries of the foreign teachers shall ordinarily be paid by their respective Boards and Societies.

Sec. 2. The current expenses of each college shall be shared by the uniting Boards and Societies in proportion to the average number of students sent by each Mission. Current expenses shall be defined to include travelling expenses of members of Council and of Faculty in attendance on Council meetings, repairs and upkeep of apparatus, salaries of Chinese teachers, heat, light, attendance, and such other items as the Council may determine. All cost of repairs and upkeep of property shall be borne by the owner.

Sec. 3. The distribution of items of expense other than those already mentioned in this article, shall be determined by the Council.

Sec. 4. The uniting Missions, heartily approving the principle of self-support, urge the Council to extend its application as far as practicable.

ARTICLE IX — ADMISSION TO THE EDUCATIONAL UNION.

A Mission desirous of entering the Educational Union, with respect to any or all of its Colleges, shall make application for admission to the University Council, with which it shall negotiate a preliminary agreement that shall be submitted by the Council to those Missions which are members of the Union in respect of the College or Colleges with which it desires to unite. The approval of a majority of those Missions and of the Boards and Societies concerned shall be necessary for admission to the Union.

ARTICLE X.—AMENDMENTS.

Sec. 1. Amendments to the agreement may be made on the initiative either (a) of the University Council, (b) of any of the uniting Missions, or (c) of any of the Home Boards or Societies; provided that such amendments receive a three-fourth majority of the Council voting in the affirmative, the approval of three-fourths of the uniting Missions on the field, and finally the ratification of the Home Boards and Societies having a full share in the Union.

Sec. 2. In the event of any Mission desiring to withdraw from the Union, notice of not less than two years shall be given to the other Missions.

RULES OF PROCEDURE AND ORGANIZATION OF THE UNIVERSITY COUNCIL.

I. The officers of the Council shall be a chairman, a vice-chairman, and a secretary and treasurer in one person, who shall be elected annually.

The duties of the chairman and the vice-chairman shall be those usually pertaining to those offices.

The duties of the secretary and treasurer shall be to keep the records of the Council meetings, to forward the reports required by the Basis of Union to the Missions, and to the Committee in London, and to the Board in New York; to issue notices at the instance of the chairman; to draw bills on the Home Societies, pay out to the college treasurers all monies required by the respective colleges, except personal allowances, coordinate the accounts, present them in one statement to the University Council at its annual meeting, and then forward them to New York and London.

II. There shall be one regular annual meeting of the Council the date of which shall be fixed at the previous annual meeting.

Special meetings of the Council may be called by the chairman upon the written request of half the number of members. A month's notice shall be given, specifying in writing the business to be considered, except in cases of emergency, and no other business shall be considered.

III. The following power and duties are recognized as belonging to the Council.

I. Those directly specified in the Basis of Union.

(a). To elect all members of the teaching staff.

(b). To determine the curricula of the colleges.

(c). To pass upon estimates, apportion expenses between the Baptist and Presbyterian Societies, and to forward estimates to London and New York.

(d). To propose amendments to the Basis of Union.

II. The following implied powers:-

(e). To review the minutes of the formal meetings of the foreign teaching staff of each college.

(f). To audit the accounts of each college.

(g). To pass upon all general regulations devised by the faculties for the management of the institutions.

IV. The standing Committees of the Council shall be:-

1. A Finance Committee, which shall consist of two members.

The duties of the Finance Committee shall be to receive and consider estimates, and if necessary confer with the faculties concerning them before the meeting of the Board; to present estimates to the Board; and, after appropriations have been made in London and New York, to authorize transfers within the total of the appropriations.

2. An Auditing Committee, which shall consist of two members. The duty of the Auditing Committee shall be to audit annually the accounts of each of the colleges.

V. The president of each college shall present annually in writing a report on the work of his institution for the past year, which shall be based upon individual reports from the professor in charge of each department as to his work and its results, and such a report shall also include a general report from the president relating to the quality of class work, religious life, moral tone, and physical health of the students, cases of discipline, prospective occupation of graduating class, and such other matters as the president may consider necessary.

The foreign teaching staff of each college shall appoint a registrar, whose duty shall be to keep records showing where the students come from, whether Christian or non-Christian, character and attainments while at college, their settlements after leaving it, and any other items which may seem desirable.

VI. Each institution shall have a local treasurer appointed by the University Council on the recommendation of the Faculty, who shall keep the college accounts and be responsible for the same to the University Council.

VII. The permanent order of business for Council meetings shall be:-

- | | |
|---|--------------------------|
| 1. Minutes of last meeting. | 2. Election of officers. |
| 3. Ad interim communications received by the secretary. | |
| 4. Reports of Committees. | |
| a. Standing. | b. Special. |
| 5. Unfinished business. | 6. New business. |

MINUTES OF SPECIAL
MEETINGS OF COUNCIL
ESTIMATES FOR 1914-'15.

SPECIAL MEETING OF THE SHANTUNG CHRISTIAN UNIVERSITY COUNCIL

On May 29th and 30th, 1913, the University Council held a special meeting at the Medical College in Tsinanfu.

Dr. Bergen opened the meeting with prayer. The Council then invited Mr. Frank Harmon to act as a voting member of the Council in the place of Dr. Watson. The following were

Present.—Councilors, J. S. Whitewright, F. Harmon (alternate), H. G. Romig, R. C. Wells and F. E. Field (alternate).

Heads of Colleges, E. W. Burt, J. B. Neal and P. D. Bergen.

Voting members of faculties, W. P. Chalfant and H. G. Whitcher.

Other members of faculties, H. Balme, W. M. Schultz and H. E. Chandler.

Minutes of last Special Meeting.—The minutes of the special meeting of the Council, held on April 14-15, were read and approved.

Report of the Committee on Securing Government Recognition for the University.—Mr. Whitcher reported as follows,—

“Your committee feels that the time has not yet come to secure Government recognition for the University.”

This report was accepted.

Report of the Committee on Salaries of Chinese Teachers.—Mr. Wm. P. Chalfant handed in the following report which was adopted,

“The committee has requested its chairman to correspond with Peking, Tungchou and Nanking, inquiring what rates of salaries are paid to Chinese teachers in the Arts, Theological and Medical Colleges there, and if any distinction is made between Professors and Instructors.

Letters Read.—The letter of Mr. R. C. Wells to Dr. Wm. P. Chalfant re the Acting Presidency of the Arts College, and the letter of Dr. Chalfant accepting the post were read to the Council. Letters from the home Boards re the minutes of the last annual meeting of the Council were also read.

Changes in the Standing Property Committee.—It was Voted, that Dr. Neal be elected chairman of the Standing Property Committee, and also that Mr. W. P. Chalfant be appointed a member of this committee.

Report of the Standing Property Committee.—Mr. Burt read the report of the Standing Property Committee on the plans of the new University Compound at Tsinan, as drawn up by Messrs. Cady & Gregory and sent out from New York thru Mr. Luce. The report was considered, item by item, and was finally adopted as follows:-

"The Committee met at Tsinan on Wednesday and Thursday, May 28th and 29th, 1913.

Present.—Dr. P. D. Bergen, (Chairman), Dr. J. B. Neal, Messrs. J. S. Whitewright, R. C. Wells and E. W. Burt. Mr. Burt was appointed Secretary. Dr. Wm. P. Chalfant was invited to sit with the committee. Several letters from Mr. Luce, regarding the plans for the University were read by Dr. Neal.

Recommendations.—I. The committee recommends that Council give Mr. Luce a hearty vote of thanks for the pains he has taken with regard to the University plans.

II. Subject to the modifications contained in this report, the committee approves the architects' general plans for the University, but without committing itself to the approval of departments not yet decided upon by the Council. Attention is also hereby called to the fact that these plans do not fit the land as shown on the map prepared from the most recent and accurate survey.

III. The committee recommends that the following buildings be erected as soon as possible:-

- General Recitation Hall (Main Building).
- 2 Science Halls.
- Dormitories for 600 students.
- Residences for twelve missionary families.
- Separate residences for fifteen Chinese professors and families.
- Theological school for pastors and evangelists.
- College chapel.

Y. M. C. A. building.

Observatory.

Building for departments of Education and Teachers' Training.

Hospital wards.

The athletic field shall also be prepared as soon as possible, as well as provision for heating and lighting the buildings, and for an adequate water supply. (Electric current for the buildings shall be direct generators which can supply either direct or alternating current, or both varieties at once, i. e. "double current generators" are desirable and the voltage is to be 120 volts).

IV. The committee would make the following recommendations with reference to the Heating, Lighting and Water Supply:

1. That for the present we plan for the individual heating of each building by steam, but so arranged that connections could hereafter be made with a central heating plant if that desirable.

2. That we recommend lighting the University with electricity, to be provided from its own plant.

3. That we favor the location of the power house, shop and printing press, in the northwest corner of the property; and that the committee be authorized to buy a piece of land outside the west boundary of the compound, for the accommodation of workmen employed by the University, provided the funds in hand are sufficient.

4. That we favor the digging of an artesian well at the south end of the site, but that one or more ordinary wells be sunk in different parts of the land for building purposes.

5. That we ask Mr. Luce to secure information as to the feasibility of installing the Kewanee Water System to supply the whole compound and also to ascertain its relative merit and expense as compared with the method of elevated tanks.

V. Dining rooms for students.

We recommend that there be a basement under each dormitory, and that this basement be used as a dining-room. Either special arrangements should be made for the ventilation of the kitchen, or an outside kitchen should be provided.

VI. Style of dormitory buildings.

At the request of the committee, the Council, by a majority vote, decided that both types of dormitories shall be adopted, as follows :-

1. One-room-deep buildings facing south, with wings as per plan of architects.
2. Two-room-deep buildings with rooms facing east and west, as per architects' plan.

VII. That in endorsing the general plan we do not necessarily commit ourselves to the place shown thereon for the opening in the suburb wall, but that the place for this be left for future consideration.

VIII. Boundaries.

1. That we authorize the purchase sufficient galvanized iron, barbed wire and posts, to fence in half of the University site, and that Mr. Chandler be responsible for the purchase of the same. Sufficient should be purchased to build a fence about five feet high, consisting of six strands.

2. That for the present, only those portions of the land be enclosed where building operations are in progress.

3. Further, that during the spring of 1914, acacia and other trees be planted round the whole property to serve as a hedge, and that the architect-builder in charge be requested to take charge of this matter.

4. That a ten-foot road be allowed for all around the compound, just inside the boundary fence, to serve as a back alley for the delivery of coal, provisions, etc.

IX. Extension of present site.

That, after the completion of the purchase of the whole present site, we approve of extending the purchase of land to the East and South of the present site.

X. That a committee consisting of Messrs. Chandler, Ellison and Rankin be appointed to secure plans of the houses known as the Neal, Luce and W. P. Chalfant houses, and to forward these plans to Mr. Luce as suggestions for the architect as to the general style of residences desired for the foreign professors.

XI. Chinese residences.

That the architects be requested to prepare two sample plans for dwelling-houses for Chinese teachers and their families, on the following lines:-

Two-storied double houses, facing South, with five rooms (excluding kitchen) in each half; smaller in size than the foreign professors' houses, but in general style and appearance, conforming, as far as possible, to the latter; average size of rooms to be 12ft. by 14ft.; the kitchen not to be an integral part of the house, also,

That we ask the architects for a plan for a two-storied, single dwelling, for a Chinese teacher and family.

That on receipt of these plans for Chinese teachers' residences, the Standing Property Committee shall reconsider them in consultation with Chinese teachers.

XII. Tsinanfu Institute.

The committee recommends that the Tsinanfu Institute become an integral part of the University on the same basis as the other departments of the University.

That the University Council pledge itself to carry on the social, educational and evangelistic work carried on during the last eight years in Tsinanfu, (and previously in Tsingchoufu) by the Institute.

That the University pledge itself to assist in all ways in its power the further development of the work of the Institute.

That the Institute be the centre for the University extension work on social, educational and evangelistic lines.

That the missionaries in charge of the Institute become members of the teaching staff of the University.

Outline of Principles and Methods of the Tsinanfu Institute.—The work of the Institute is mainly social, educational, evangelistic; and, while primarily for the purpose of reaching the Official and Student classes and bringing them under Christian influence, reaches thru its agencies all classes of the community, both men and women. Its doors are open freely to all.

In the Reception Rooms, and in all parts of the buildings, visitors are met on a social and friendly basis, and the objects and teaching of the Institution explained.

Friendly relations are cultivated between the leading people of the city and those who work in the Institute, visits being paid to them in their homes and return visits received. Social gatherings of various kinds are arranged for in the Institute.

In the Museum, among other educational exhibits, are natural history specimens, geographical globes and models, diagrams and models giving elementary instruction in physiography, geology and astronomy; working models illustrating use of machinery; apparatus demonstrating practical applications of science, specimens of manufactures, diagrams and letter press, illustrating progress in education, commerce, etc., models and pictures of churches, asylums, hospitals, schools and other institutions manifesting the direct results of Christianity in the West.

The Biblical section gives instruction with regard to the origin, distribution, translation and teaching of the Christian scriptures.

The Historical section, by means of models, diagrams and descriptive letter-press; illustrates the influence of religion on national life and character, and especially demonstrates the influence of the Christian Faith on the development and progress of mankind.

The recently added section on Hygiene, in similar manner, teaches how diseases common in China may be avoided and health maintained.

In the preaching hall in the centre of the buildings, an evangelistic address is given every hour during those times of the day when there are many visitors.

Special evangelistic efforts are made on behalf of the great numbers of pilgrims who, during festivals and other times, come from all parts of the province and other provinces to visit the temples in the vicinity.

The Lecture Hall is used for evangelistic work and for the giving of lectures, mainly for the benefit of students of the Government schools and colleges, on science, history, education, hygiene and other topics of special value.

The Ladies' Reception Rooms provide accommodation for wo-

men visitors, the Institution being open one day per week to women visitors only.

The influence of these efforts is carried beyond the immediate locality; officials, students, merchants and others from all over the province and from other parts of China are met in the Institute.

The object of the whole work of the Tsinanfu Institute is thus to help to dispel misunderstanding, to enlighten as to all that makes for the welfare of China, to assist in bringing East and West together in helpful and friendly understanding, to make plain the true nature of Christianity and its influence on life, and to show how progress of a permanent character can alone be made. With its motto "Scientia Ancilla Fidei" the attempt is made to show God as manifest in His works and in His government of mankind; it endeavors to attract and interest all, to multiply points of contact with all. The supreme aim is to bring men to the knowledge of Him who is the Way, the Truth and the Life, Jesus Christ the Saviour of all Mankind.

XIII. Finances of the Tsinanfu Institute.

It is recognized that the incorporation of the Tsinanfu Institute with the Shantung Christian University will considerably increase the English Baptist Mission share in the University equipment, and that the annual budget of the University will also be considerably increased. Inasmuch as the work is to go on in the Institute as before, we would consider it an equitable arrangement that the Baptist Missionary Society at least continue its former annual appropriation for the running expenses of the Institute, administering these funds thru the University Council, and that efforts be made both in England and America to supplement these grants by additional grants, gifts or endowment so that the influence of this branch of the work may be enlarged, extended and placed on a stable foundation.

(Note:- The value of the Institute, inclusive of site, buildings and equipment, is just over L 9,000 or \$45,000 Gold.)

XIV. Transposition of buildings on the site.

We recommend,

1. That buildings "2" and "4" (Science Halls) be transposed

to positions "18" and "19" on the plan.

2. That the Theological College be transposed from position "5" to "12" on the plan.

3. That the four dormitories numbered "16", "17", "20" and "21" on the plan be erected first.

4. That the Y. M. C. A. building "9", be transposed to position "14".

5. That the chapel, "14" be moved to "13".

6. That the building for the department of Education and Teachers' Training be transposed from position "1" to "15".

XV. Order of building operations.

That residences and college buildings at the south end of the site be first erected.

XVI. Location of Foreign and Chinese professors' houses.

That the nine plots on the east side of the compound be reserved for foreigners' residences; that the three southern plots on the west side be left vacant for the present; and that the remaining plots on the west side be assigned for the residences of married Chinese professors and their families.

XVII. University Press.

That we refer the question of the size of the press to the Council. The Council agreed that the press might be transferred to Tsinanfu, the size and equipment to be as in the following statement by Mr. Witcher :-

"The requirements at Tsinanfu for the accommodation of the University Press will be a floor space of approximately 3,000 sq. ft. The floor space covered at present in Weihsien is 2,000 sq. ft. The number of employees at present is 20. The maximum number in future required will be 25 and the minimum 15. The number depends upon the skill of such employees. The following rooms would be required :-

1. Chinese typesetting,
2. English typesetting with press.
3. Press room,
4. Small general store-room.

5. Paper store-room.

6. Office,

7. Chinese Bindery,

8. Foreign Bindery,

9. Plate and Type casting,

10. Book store-room.

Dwellings for employees will also be required.

These requirements are for the work of the press in doing Shantung Mission work, with occasional work for outside Missions, giving the preference to University orders. No work beyond Mission work is sought for."

XVIII. Medical College Hospital Wards.

That Mr. Luce be informed that the item for Medical College should be \$10,000 (Gold) for Hospital Wards and should be inside the suburb wall, not the Medical dormitory shown on plan.

XIX. That the Chapel with gallery fills the need of an Assembly Hall for the immediate present.

XX. That the interior plans of the Main building and of the two Science Halls be referred to the Arts College faculty, and of the Theological College building, to the Theological College faculty. Both of these faculties will write directly to Mr. Luce.

XXI. That we accept the sheet giving the estimates for property as a basis for use in asking for contributions.

XXII. Purchase of remaining lots.

That we authorize Mr. Whitewright to purchase the remaining lots of the University site (first 50 acres) at the best terms obtainable, not to exceed 500 diao per mou.

XXIII. Sale of New College land at Weihsien.

That we favor the sale of the new College land at Weihsien at the best possible terms, and that Messrs. Chandler, Wells and Witcher undertake this matter.

The discussion of the above report, also gave rise to the following actions of the Council.

Voted, that the discussion of the question of providing quarters for the families of married servants, either inside the Compound or in a model village outside of it, be postponed until the next meeting

of the Council.

Voted, that we request Mr. Luce to have a copy of the general layout plan sent to Mr. Percy Bruce.

Resolved, that the faculty of the Medical College, together with Dr. C. F. Johnson, Dr. T. C. Paterson, and Dr. J. R. Watson, be requested to prepare an estimate of sufficient amount to cover the immediate needs of the Medical College. This estimate shall be submitted to the Standing Property Committee, and after being approved, shall be forwarded to New York and London with the report of the Standing Property Committee. Dr. Balme is requested to act as convener of the committee of physicians.

Voted, that Dr. Neal (Chairman of the Standing Property Committee) be requested to send to the architects, information regarding building materials available on the field; roofing materials preferred; and a proposed sewerage system. Also that he recommend fireproof construction in the dormitories if the cost is not prohibitive.

Voted, that the Standing Property Committee be empowered to secure, thru Mr. Chandler, as soon as possible, an adequate set of surveying instruments for use in resurveying, laying out, and grading the new compound, and in the erection of the new buildings at Tsinanfu. These instruments may be charged to the Building and Removal Fund.

Basis of Representation on the University Council.—Resolved, that Mr. Wells and Mr. Burt be appointed a committee to bring in to the next meeting of the Council, a minute regarding a new pro-rata basis for the representation on the University Council, of missions, societies or churches taking a share in the Educational Union.

Also, Voted, that this minute be circulated among the members of the Council and their alternates before the next meeting is held in the autumn.

Payment of Board of Members of the Council when attending Meetings.—Resolved, that the board expenses of members of the University Council and faculty, when they are away from home on University business, may, for this year, be distributed among the three colleges in proportion to the amounts of their estimates for

current expenses.

Notice of motion for next meeting.—Resolved, that the preparatory course of Medical students in the Arts College be extended to cover two years instead of one year.

Date and place of the next meeting of the Council.—Voted, that the next meeting of the Council be called for the 21st of August, 1913, at 8 P. M., in Weihsien.

Adjournment.—The meeting adjourned on the evening of May 30th, with prayer by Mr. Whitewright.

MINUTES OF SPECIAL MEETING OF THE
UNIVERSITY COUNCIL.

Weihhsien, August 23-26, 1913

A special meeting of the University Council was held at Weihhsien, from August 23rd to August 26th, 1913.

Present.—Councilors, J. S. Whitewright, J. R. Watson, E. C. Nickalls, (alternate), H. G. Romig, W. O. Elterich (alternate) and R. C. Wells.

Heads of Colleges, - E. W. Burt, W. P. Chalfant and J. B. Neal.

Voting members of faculties, - H. Balme, W. M. Hayes and H. G. Whitcher.

Other members of faculties, - G. Fisk, W. M. Schultz, E. J. Ellison and H. E. Chandler.

The session was opened with prayer by Dr. Elterich.

The minutes of the special meeting held May 29th and 30th, 1913, were read and approved.

Elections.—Dr. Watson was unanimously elected University Secretary and Mr. Chandler was requested to continue to act as University Treasurer until the arrival on the field of Mr. Lazear, the new Treasurer and Registrar recently appointed by the Presbyterian Board of Foreign Missions.

Mr. Wells and Mr. J. S. Harris were elected *Auditing Committee* for the ensuing year.

Mr. Wells and Mr. Whitcher were elected *Finance Committee* for the remainder of this year.

Communications Received Since the Last Meeting.—Letters from the Home Boards, the English Baptist Mission and Mr. Luce were read and referred to committees to be reported upon later at this meeting.

Report of Standing Property Committee.—Dr. Neal, chairman of the Standing Property Committee, reported as follows, and his report was approved:—

— 13 —

“Your committee has to report that since the last meeting of the University Council, five additional pieces of land have been purchased on the new site in Tsinan, bringing the plot that much nearer to the point where building operations may be begun.

It has also authorized Dr. Balme, acting in consultation with Mr. Whitewright and Dr. Neal, to purchase certain building materials for the erection of new wards for the hospital in connection with the Union Medical College, two thousand pounds having been granted for this purpose by the B. M. S. in London. It has had considerable correspondence with Mr. Luce, and in order to consider certain communications from him held a meeting in Weihhsien, August 22nd, the minutes of which meeting are as follows:—

Resolved, that we ask Mr. Chandler to try to secure for Mr. Luce the approximate price of steel girders in Shanghai, Tientsin, Tsingtau and Hankow and to write directly to Mr. Luce.

Resolved, to request the Council to allow the question of plans for Chinese professors' houses to remain in abeyance until after further consultation with the Chinese.

Voted, to recommend to the Council to approve the principle of a model village for the employees of the University.

Voted, to refer the question of the style of architecture to the Council for further consideration.

Voted, to ask the Council to approve the suggested visit of the American Architect to the field.

Voted, that the Committee deems that basements are practicable in the new University buildings

Voted, that the Committee does not consider a change in the recommendations of the Council at the last meeting re dining rooms is desirable.

In answer to Mr. Luce's question regarding the library building, the Committee recommends that the library building be included on the list of buildings desired, but does not deem this need as urgent as other buildings on the “Urgent list”.

Voted, that the building of the necessary Arts College build-

ings take precedence of the other colleges in Tsinanfu.

Voted, that Mr. Luce's question re roofing materials and the use of concrete be left for Mr. Perriam to consider.

Voted, that the chairman write to Mr. Luce the reasons for the location of the power house at the northwest corner of the site."

In connection with the consideration of this report the following actions were taken by the Council :-

Styles of Architecture of new Buildings at Tsinanfu.—Voted, that we reconsider our former action deciding upon a purely foreign style of architecture for the new University buildings at Tsinanfu, and defer final action until the arrival of the American architect who we hope will visit the field.

Visit of the American Architect to China.—Resolved, that we urgently favor the contemplated visit of Mr. Fellows, the Chicago architect, to China, with a view to his studying the architectural question on the field. We also stand prepared to bear, if necessary, half the expense of Mr. Fellows's trip.

Model Village at Tsinanfu.—Resolved, that we approve of the principle of a model village in connection with the new University compound at Tsinanfu, for the accommodation of the employees of the University, and the servants of the University staff.

Mr. Luce's Campaign in America.—Resolved, that the Council highly appreciating the success of his efforts in behalf of the University since reaching America, would earnestly urge Mr. Luce to remain at home and continue his campaign in its behalf for at least another year if necessary.

Chinese Representation on the University Council.—Resolved, that we reconsider the action taken by the Council in January, 1913, on the question of Chinese representation on the University Council.

Resolved, that we reaffirm our former action (of January 1913) stating that the time has come when the Chinese should be represented on the University Council.

Messrs. Burt and Wells, who were appointed a committee in May, to draw up a plan of pro-rata representation in connection with these two plans, the Council voted to adopt the following plan.

CHINESE REPRESENTATION ON THE UNIVERSITY COUNCIL

In accordance with the request of the American Presbyterian Board in New York, the Council has reconsidered the question of equal Chinese representation and now submits to the approval of the uniting missions on the field and of the Home Boards the following revised plan,-

I. That two Chinese representing each church in the Union (that is two Presbyterians and two Baptists) be elected members of the University Council by the proper ecclesiastical bodies of their respective churches.

II. That each faculty elect two members to the Council, one Chinese and one foreigner.

III. That one member of the Council, who shall be a graduate of at least five years' standing, may be elected by the alumni association of the University as soon as such an association has been properly organized.

Resolved, that we regard the actions taken in regard to Chinese representation on the University Council as suggestions for amendments to the Basis of Union. If these actions are finally approved by the uniting missions and the Home Boards, they shall immediately go into effect and be incorporated in the Basis of Union. Messrs. Wells, Burt, and Watson (ex-officio) were appointed to make the necessary alterations in the Basis of Union should the occasion to do so arise.

Release of Mr. Samuel J. Mills for Y. M. C. A. Work.—A committee, consisting of Dr. Hayes, Mr. Burt and Dr. Neal, was appointed to confer with Mr. Mills regarding his future work, and their report was adopted as follows :-

"The committee appointed to confer with Mr. Samuel Mills reports that Mr. Mills, while willing to remain at Weih sien and assist in the Arts College, regards the continuance of his present work at Tsinan highly advisable. At the same time he wishes to retain his proposed connection with the University and in course of time take up University Y. M. C. A. and Extension work, together with Biblical teaching in the University.

It is therefore voted that the Council recommend the American Presbyterian Mission to appoint Mr. Mills to the work which he is now carrying on at Tsinan in connection with the Y. M. C. A. with a view to future assignment to the University staff; and that steps be taken by the Council to fill the position that he would soon have taken on the teaching staff of the Arts College."

Report of the Committee Appointed to Review Letters Received Since Last Meeting:—The report of the committee, viz. Messrs. Hayes, Nickalls and Wells, appointed to review the communications received by the Council since its last meeting, was adopted, as follows:-

"We heartily concur in the recommendation of the English Baptist Mission, that Nurse Logan be appointed to the Union Medical College, under the conditions set forth in the action of the English Baptist Mission at their June Conference, 1913, (The action of the E. B. M. was as follows;

'We recommend the appointment of Nurse Logan to the Union College Hospital, Tsinanfu, to work under the Medical staff in the nursing of female patients both inside and outside the Hospital until such time as suitable wards are erected and the training of female nurses can be undertaken. This resolution is not to prejudice the right of the E. B. M. to require Nurse Logan's services from Tsinanfu in case of serious illness other than ordinary confinement.'

We approve the recommendation of the E. B. M. that no member of the faculties be responsible for the oversight of the erection of the proposed new University buildings at Tsinanfu. We further suggest that the Standing Property Committee endeavor to secure the services of competent Chinese overseers to work under the supervision of the architect in charge of the building, and also make provision for the keeping of proper detailed building accounts.

We recommend the Council to appoint representatives to visit the various mission bodies in the province, together with the Canadian Presbyterian Mission in Honan, and endeavor to secure the cooperation of these bodies in the University either in whole or in part.

We recommend to the Home Societies the formation of a joint

Board of Trustees for the University. It shall have charge of and promote the interests of the University in the homelands, especially to secure suitable men for the staff of the University, funds for the maintenance and expansion of the work, and cooperate with the University Council in the development of the University. That we appoint Mr. Bruce and Mr. Luce to take this matter up with the Home Societies, see what practical plan can be worked out and report the plan to the University Council.

That in view of the increased amount of English teaching to be done in the University and the success of the plan of getting men on short term contracts in various parts of India, China and other countries we recommend the appointment of two suitable men for teaching English in the University for a term of from three to five years.

That in line with the Continuation Committee's suggestion, we propose that each mission be requested to appoint one Chinese and one missionary to promote a conference on the unification of educational activities in Shantung, the conference to meet about the time of the next meeting of the Shantung Church Federation."

In accordance with the recommendation in the third paragraph of the above report, the Council *appointed* the following members to visit the respective missions as designated below:-

Mr. Nickalls, to visit the American Southern Baptist Mission.

Dr. Hayes, to visit the Berlin Mission, Tsingtau.

Mr. Burt, to visit the English Methodist Mission.

Dr. Chalfant, to visit the American Methodist Episcopal Mission.

Dr. Chalfant, to visit the A. B. C. F. M. Mission.

Mr. Nickalls, to visit the Swedish Mission.

Dr. Neal, to visit the Canadian Presbyterian Mission of Honan.

Greek in the Theological College and the Arts College.—Voted, that we favor the principle of introducing Greek into the curriculum of the Theological College; and into that of the Arts College, for students who are volunteers for the ministry; and that we leave the arrangement of the details to the faculties of the respective colleges.

Representatives of the Anglican Mission.—Resolved, that it is the sense of the Council that the Anglican Mission in Shantung, is

entitled to a seat on the University Council, and that we cordially invite them, hereafter, to appoint a delegate to attend the meetings of the Council.

Furlough of Dr. Schultz.—Resolved, that we approve of Dr. Schultz's taking short furlough from the end of the present year, permission for this step having been already granted by the Presbyterian Mission.

Requests for Reinforcements on the Teaching Staff.—Resolved that we authorize Dr. Schultz while on furlough, to procure a man in America to teach physiology in all its branches in the Medical College, this man to be on the field for language study by the autumn of 1914.

In view of the present serious depletion of the Arts College staff, the prospective removal of the College to Tsinaifu, and the campaign which Mr. Luce is carrying on in the United States,

Resolved, that we unanimously request the Shantung Mission (Presbyterian) and the Presbyterian China Council, to ask for the following new men to be sent out to the Arts College from America as soon as possible :-

I. Mr. and Mrs. J. Wilbur Koch, of Columbiana, Ohio, to teach Mathematics, Science and English.

II. Another man to assist in the department of Physics. This man is needed because of the large number of Physics courses already taught in the College, and the prospective addition, within the next year or two of special laboratory work for Medical students, who take a preparatory course in the Arts College.

Resolved, that in view of the satisfactory work that Mr. E. J. Ellison has been doing in the Arts College, and the depleted condition of the staff, we would respectfully request the English Baptist Mission to assign him permanently to the University for this College.

Resolved, that the University Council, subject to the consent of Weihsien station, hereby invite Mrs. C. W. Mateer to assist in the teaching work of the Arts College for at least the Autumn term of the present year.

Particularly, in view of the loss of Mr. Mills from the Arts

College, **Resolved**, that we request the Presbyterian Shantung Mission to appoint Mr. and Mrs. Paul P. Faris to the teaching staff of the Arts College for one year.

Shantung Christian University and the China Continuation Committee.—In view of the statements contained in Mr. Luce's letters and also of the report brought back by Mr. Burt from the National Conference at Shanghai in March 1913, and fearing that, unless immediate steps are taken to more fully represent the interests of the Shantung Christian University to the home constituencies, its prospects may be seriously jeopardised,

Resolved.—that the Council appoint a committee consisting of Mr. Burt, Dr. Hayes and Dr. W. P. Chalfant, to take all possible steps to ensure that the interests of the Shantung Christian University are duly recognised by the China Continuation Committee.

Estimates for 1914-15.—The estimates of the three Colleges and the University Treasurer were read and approved. They were then handed to the Finance Committee for slight revisions and to be placed upon the proper forms for being sent to the home societies. (A copy of these estimates will be appended to these minutes.)

Gift of Mrs. McCormick.—Resolved, that Dr. Hayes be instructed to write to the Presbyterian Board concerning the gift of Mrs. Cyrus McCormick, of \$1500. Gold, toward the current expenses of the Theological College for the present year.

Increased funds Needed by Medical College.—Voted, that Drs. Balme and Schultz be requested to write letters and take whatever other steps they find possible to secure the increased funds needed by the Medical College for 1914-15 over the amount granted for 1913-14.

Fees of Students not sent by the Uniting Missions.—Voted, that after 1913, a new student not connected with the uniting missions, entering any department of the University, whether supported by other missions than those in the Union, or by individuals shall, in addition to his board, also pay the full cost of his tuition as decided upon for the department which he is entering.

Board of Theological Students.—Resolved, that the action of the Council, last January, requiring all students of the University

to pay at least the full amount of their board, shall not apply to the students in the regular Theological course.

Requirement of English.—Resolved, that all students entering the Arts College and the Normal School from the Middle schools, be required to study English, and that, for the present, no fee be charged for the same. In case any student, maintaining a fair grade in his other studies, is unable to make satisfactory progress in English, he shall not be required to continue it.

Emergency aid for poor Students in Paying their Board.—Resolved, that, for the coming year, a supplementary amount be added to the estimates of the Arts College, and the Normal school at Tsingchoufu, to assist poor students in paying their board, and that the mode of administering this fund be referred respectively to the uniting missions.

Reconsideration of the "Entrance by Certificate" Plan.—The Council received a petition from the faculty of the Arts College, requesting a reconsideration of the "Entrance by Certificate" plan. After voting to accede to this request, the Council took up the petition *seriatim*, and

Voted, that Chinese principals are hereby accorded the same privileges as foreign principals in the matter of giving certificates to Middle School students desiring to enter the Arts College.

Place of next Annual Meeting.—An invitation to Tsingchoufu, for the next annual meeting, was accepted with thanks by the Council.

Notices of Motions for the next Meeting.—Mr. Fisk gave notice of the following:—Proposed, that in the Basis of Union, Article IV, section 3, the words from "Members of the faculty", to "without voting power save that", be deleted.

Dr. Schultz gave notice of the following:—Proposed that in the Basis of Union, Article IV, section 3, the following clause be deleted, "with the exception of appointment to the teaching staff, salaries, and estimates of University expenditure."

Dr. Watson gave notice of the following:—Proposed, that in Article X (Amendments) of the Basis of Union, the words "After six months notice in writing" be reinserted before "Amend-

ments the agreement may be made".

Reading of Minutes and Adjournment.—The minutes of all the sessions were read and approved as a whole.

The meeting adjourned with prayer by Dr. Balme.

A meeting of the Special Medical Committee, appointed by the University Council, was held at Tsinanfu, June 16-17, 1913.

Present.—Drs. Neal, Paterson, Johnson, Schultz, Fleming and Balme.

The following resolutions were passed:—

1. That we consider the further requirements of the Union Medical College to be as follows:

a. Hospital-4 In Patient blocks and enlarged out Patient Department,	(Estimated cost) £ 4,900
b. Hospital-Future extension of above,	2,000
c. Doctors' Houses-4 Houses, (land for two only)	3,000
d. Nurses' House, with land,	800
e. College-Dormitories (to accommodate 100 students in all with Dining Room, Kitchens, etc.,	800
f. Laboratory Equipment,	1,000
g. Steam Heating Plant for College building,	300
h. X Ray Plant,	200

TOTAL £ 13,000

2. "That we approve of the In Patient blocks as suggested by Mr. Perriam, with slight modification so as to ensure a fitting Northern elevation, such blocks to consist of two stories only; that we consider the pressing needs of the Hospital will not be met without the erection of four such blocks, giving accommodation for one hundred patients; that the final location of these blocks be postponed until the arrival of Mr. Perriam; and that in addition to such In Patient premises this hospital urgently needs an enlarged and extended Out Patient Department, with a suitable architectural treatment of the whole Northern frontage, both lots and buildings, from East to West boundary of the College property."

BASIS OF UNION IN EDUCATIONAL WORK IN SHANTUNG.

Adopted 1904.

Amended 1909.

With grateful acknowledgment of God's goodness and mercy extended to us in the past, and with prayer for His continued blessing upon our work, we, the members of the American Presbyterian Mission and of the English Baptist Mission in Shantung, agree to unite in organizing three colleges, namely, an Arts College at Weihsien, a Theological College at Tsingchowfu, and a Medical College at Tsinaufu, subject to the provisions hereinafter set forth.

We also invite other evangelical Missions in Shantung or adjacent provinces to enter this Union, either fully or partially, subject to the same provisions.

ARTICLE I.—NAME.

The United Colleges shall be styled "The Shantung Christian University."

ARTICLE II.—AIM AND POLICY.

Section 1. The aim of the United Colleges shall be first and foremost the furtherance of the cause of Christ in China.

Sec. 2. The purpose of the Arts College shall be to give a liberal education of a distinctively Christian character to young men chiefly from Christian families.

Sec. 3. The purpose of the Theological College shall be to provide theological training for pastors and evangelists; the instruction given therein shall be in accordance with evangelical truth.

Sec. 4. In connection with the Theological College there shall be a preparatory course of study for those who need it and a normal school for training of elementary school teachers. In so far as special denominational instruction is required, it shall be separately provided for by the respective Mission.

Sec. 5. The purpose of the Medical College shall be to give a medical education, under distinctively Christian influence, to young men chiefly from Christian families.

Sec. 6. Apart from the teaching of foreign languages, the medium of instruction in the University shall be the Chinese language.

ARTICLE III.—MANAGEMENT.

The Colleges shall be under the management of a University Council, which shall be elected by the uniting Missions and responsible to them, and shall be under the ultimate control of the Home Boards and Societies of the said uniting Missions.

ARTICLE IV.—CONSTITUTION OF THE UNIVERSITY COUNCIL.

Section 1. The Council shall consist of representatives of (a) those Missions taking full share in the Union and (b) those Missions taking part share in the Union, as follows:

Each Mission taking full share in the Union, *i.e.*, providing at least one foreign teacher, together with residence (see Article VII, Section 4) in each of the three Colleges taking its proportionate share in current expenses (see Article VIII, Section 2), and providing for the increased cost of University property involved in its entering the Union (Article VII, Section 5), shall appoint three members of the Council who shall serve for three years, one to retire annually and his place to be refilled. In the first election one shall be chosen for one year, one for two years, and one for three years.

Any Mission entering the Union in respect of two only of the constituent Colleges, *i.e.*, providing at least one foreign teacher, together with residence, in each of two Colleges, taking its proportionate share in the current expenses of the two Colleges and providing for the increased cost of

property involved in its entering the Union, shall appoint two members of the Council.

Any Mission entering the Union in respect of one only of the constituent Colleges, *i.e.*, providing at least one foreign teacher, together with residence, in such College, taking its proportionate share of the current expenses of the College, and providing for the increased cost involved in its entering the Union, shall appoint one member of the Council.

In cases where it is so desired by the Mission entering the Union, or by the Council, a financial equivalent may be arranged for in lieu of a resident foreign teacher, such financial equivalent to be agreed upon in consultation with the Council.

Sec. 2. Members of the Council shall be entitled to vote only on matters directly pertaining to the Colleges, in respect of which the Missions appointing them enter the Union.

Sec. 3. Members of the faculty shall have the privilege of attending the meetings of the Council for the purposes of consultation but without voting power, save that the president of each College and one member of its faculty, elected annually by the faculty as its delegate, shall be allowed to vote on all matters coming before the Council with the exception of appointments to the foreign teaching staff and estimates of University expenditure.

In the election of faculty representatives only members of the faculty who have been on the field at least five years shall be eligible, and due regard shall be given to the desirability of the Uniting Missions being equally represented.

Sec. 4. Whenever a member of the Council is absent on furlough, he shall be considered to have resigned, and his Mission shall at once elect a successor to complete his unexpired term.

ARTICLE V.—MEETINGS AND FUNCTIONS OF THE
UNIVERSITY COUNCIL.

Section 1. The Council shall meet for general business at least once a year.

Sec. 2. Two-thirds of the members of the Council shall constitute a quorum for the transaction of business, and no motion shall be declared carried unless two-thirds of the entire Council vote in the affirmative.

Sec. 3. Full minutes of all meetings of the Council, and all reports of work, shall be presented without delay to the Home Boards and Societies and to the secretaries of the Missions on the field.

Sec. 4. The Council shall elect all foreign members of the teaching staff, but the election of presidents shall be endorsed by the Home Boards and Societies. Candidates for positions on the teaching staff of the Theological College, to be eligible, must represent one of the communions participating in the said College, and their election on the teaching staff, before becoming final, must require confirmation by the Mission, which they represent, in such manner as that body may elect, failing which their election shall be null.

Sec. 5. The Council shall consider and decide upon the curriculum of each college, which shall be submitted by its president on behalf of the Faculty.

Sec. 6. The Council shall consider and pass upon the estimates of college expenditure, which shall be prepared and presented by the Faculty of each college; shall determine the share to be borne by each Board and Society; and shall forward the estimates to the said Boards and Societies.

Sec. 7. The Council shall receive applications for entrance into the Educational Union, and shall enter into negotiations with the mission applying. Any preliminary agreement which they may arrange shall then be submitted

to the Mission concerned for their approval, as specified under Article IX.

Sec. 8. All the acts of the Council shall be subject to the review and control of the Home Boards and Societies.

ARTICLE VI.—TEACHING STAFF.

Section 1. The teaching staff of the University shall consist of:

(a) The President and foreign professors of each college appointed by the Council and constituting the Faculty.

(b) Foreign associate professors and lecturers appointed by the Council.

(c) Chinese professors and instructors appointed by the president in consultation with the Faculty and subject to the endorsement of the Council.

Sec. 2. The Mission taking full share in the Union shall be, as far as possible, equally represented on the teaching staff of each college.

Sec. 3. No member of a Faculty shall be eligible for election by a Mission as its representative on the Council.

ARTICLE VII.—OWNERSHIP OF COLLEGE PROPERTY.

Section 1. The initial plant of the Arts College at Weihsien shall remain the property of the Board of Foreign Missions of the Presbyterian Church in the United States of America.

Sec. 2. The initial plant of the Theological College at Tsingchowfu shall remain the property of the Baptist Missionary Society in London.

Sec. 3. The initial plant of the Medical College at Tsinanfu shall remain the property of the Baptist Missionary Society in London.

Sec. 4. Each Board or Society shall provide residences for its own representatives on the faculty, either by building its own houses or by payment of rent as may be arranged in consultation with the Council.

Sec. 5. While it is not made a condition of entrance into the Union that the uniting Missions should contribute to the cost of existing University property, plant, or equipment, nevertheless each Board or Society shall provide for the increased cost of such property as is involved by its entering the Union, the amount of this increased cost to be determined by the Council.

Sec. 6. Any additional property or plant which may be contributed to the respective colleges by any of the uniting Missions shall be vested in the Board or Society providing it.

Sec. 7. In case of any Mission withdrawing from the Union, the Board or Society owning the initial plant shall have the option of purchasing the property of the withdrawing Mission.

Sec. 8. Any endowment shall be vested in the Board or Society raising it, and the income thereof shall be applied to the expenses or equipment for which that Board or Society is responsible.

ARTICLE VIII.—FINANCE.

Section 1. The salaries of the foreign teachers shall ordinarily be paid by their respective Boards and Societies.

Sec. 2. The current expenses of each college shall be shared by the uniting Boards and Societies in proportion to the average number of students sent by each Mission. Current expenses shall be defined to include travelling expenses of members of Council and of Faculty in attendance on Council meetings, repairs and upkeep of apparatus, salaries of Chinese teachers, heat, light, attendance, and such other

tems as the Council may determine. All cost of repairs and upkeep of property shall be borne by the owner.

Sec. 3. The distribution of items of expense, other than those already mentioned in this article, shall be determined by the Council.

Sec. 4. The uniting Missions, heartily approving the principle of self-support, urge the Council to extend its application as far as practicable.

ARTICLE IX.—ADMISSION TO THE EDUCATIONAL UNION.

A Mission desirous of entering the Educational Union, with respect to any or all of its Colleges, shall make application for admission to the University Council, with which it shall negotiate a preliminary agreement that shall be submitted by the Council to those Missions which are members of the Union in respect of the College or Colleges with which it desires to unite. The approval of a majority of those Missions and of the Boards and Societies concerned shall be necessary for admission to the Union.

ARTICLE X.—AMENDMENTS.

Section 1. After six months' notice in writing, amendments to the agreement may be made on the initiative either (a) of the University Council, (b) of any of the uniting Missions, or (c) of the Home Boards or Societies, provided that such amendments receive a three-fourths majority of the Council voting in the affirmative, the approval of three-fourths of the uniting Missions on the field, and finally the ratification of the Home Boards and Societies having a full share in the Union.

Sec. 2. In the event of any Mission desiring to withdraw from the Union, notice of not less than two years shall be given to the other Missions.

RULES OF PROCEDURE AND ORGANIZATION OF THE
UNIVERSITY COUNCIL.

I. The officers of the Council shall be a chairman, a vice-chairman, and a secretary and treasurer in one person, who shall be elected annually.

The duties of the chairman and the vice-chairman shall be those usually pertaining to those offices.

The duties of the secretary and treasurer shall be to keep the records of the Council meetings, to forward the reports required by the Basis of Union to the Missions, and to the Committee in London, and to the Board in New York; to issue notices at the instance of the chairman; to draw bills on the Home Societies, pay out to the college treasurers all monies required by the respective colleges, except personal allowances, co-ordinate the accounts, present them in one statement to the University Council at its annual meeting, and then forward them to New York and London.

II. There shall be one regular annual meeting of the Council the date of which shall be fixed at the previous annual meeting.

Special meetings of the Council may be called by the chairman upon the written request of half the number of members. A month's notice shall be given, specifying in writing the business to be considered, except in cases of emergency, and no other business shall be considered.

III. The following powers and duties are recognized as belonging to the Council.

1. Those directly specified in the Basis of Union:—
 - (a) To elect all members of the teaching staff.
 - (b) To determine the curricula of the colleges.
 - (c) To pass upon estimates, apportion expenses between the Baptist and Presbyterian Societies, and to forward estimates to London and New York.
 - (d) To propose amendments to the Basis of Union.

II. The following implied powers:—

(e) To review the minutes of the formal meetings of the foreign teaching staff of each college.

(f) To audit the accounts of each college.

(g) To pass upon all general regulations devised by the faculties for the management of the institutions.

IV. The standing committees of the Council shall be:—

1. A Finance Committee, which shall consist of two members.

The duties of the Finance Committee shall be to receive and consider estimates and, if necessary, confer with the faculties concerning them before the meeting of the Board; to present estimates to the Board; and, after appropriations have been made in London and New York, to authorize transfers within the total of the appropriations.

2. An Auditing Committee, which shall consist of two members. The duty of the Auditing Committee shall be to audit annually the accounts of each of the colleges.

V. The president of each college shall present annually in writing a report on the work of his institution for the past year, which shall be based upon individual reports from the professor in charge of each department as to his work and its results, and such a report shall also include a general report from the president relating to the quality of class work, religious life, moral tone, and physical health of the students, cases of discipline, prospective occupation of graduating class and such other matters as the president may consider necessary.

The foreign teaching staff of each college shall appoint a registrar, whose duty shall be to keep records showing where the students come from, whether Christian or non-Christian, character and attainments while at college, their settlements after leaving it, and any other items which may seem desirable.

VI. Each institution shall have a local treasurer appointed by University Council on the recommendation of the Faculty, who shall keep the college accounts and be responsible for the same to University Council.

VII. The permanent order of business for Council meetings shall be :—

1. Minutes of last meeting.
2. Election of officers.
3. Ad interim communications received by the secretary.
4. Reports of committees.
a. Standing. b. Special.
5. Unfinished business.
6. New business.

THE ANNUAL MEETING OF THE COUNCIL.

The Annual Meeting of the Council was held in the Theological College, Tsingchowfu, January 13th, 1914.

Present :

Councillors :—T. C. Paterson, H. G. Romig, J. R. Watson, R. M. Mateer (alternate), E. C. Nickalls (alternate), Chas. H. Lyon (alternate), and Bishop Iliff.

Head of Colleges :—W. P. Chalfant, E. W. Burt, J. B. Neal.

Voting Members of Faculties :—W. M. Hayes, E. J. Ellison.

Other Members of Faculties :—George Fisk, H. E. Chandler, J. J. Heeren.

The following were elected office bearers for the ensuing year :—

<i>Chairman</i>	Dr. T. C. Paterson.
<i>Vice-Chairman</i>	H. G. Romig.
<i>Secretary</i>	J. R. Watson.
<i>Minute Secretary</i>	J. J. Heeren.

The following communications to the secretary were read :—

(a) Letters received by the secretary from the New York and London Home Boards were presented and referred to Messrs. Romig and Ellison to examine and bring forward resolutions in connection therewith.

(b) Letter from Mr. DeHaan of the A. B. C. F. Mission, Pang Chia Chuang, expressing the hope of their mission to join ultimately in the University through the aid of the Grinnell College educational scheme.

The following resolution, passed by circulation, was re-affirmed.

Normal Training Department.

Resolved, That in view of the urgent need of a specially trained man to take charge of the Normal Training Department of the Theological College in place of Mr. E. B. Greening who has returned home invalided, we earnestly request the Mission Boards in London and New York to send such a man without delay.

Rev. E. W. Burt presented the report of the Theological College.

Rev. W. P. Chalfant presented the report of the Arts College.

Dr. J. B. Neal presented the report of the Medical College. The above reports were all received and adopted.

Committee on Reports.

Messrs. Lyon and Fisk were appointed to examine the recommendations made by the presidents of the three Colleges, and report.

Entrance Examination.

Resolved, That hereafter there be the same entrance requirements either by certificate or examination, for the Arts College at Weihsien and for the Normal School at Tsingchowfu, and that each institution make out its own examination papers.

English in Normal School.

Resolved, That all students entering the Normal School be given the opportunity of studying English, and that, for the present, no fees be charged for the same.

Normal School. Third Year.

Resolved, That a third year, as outlined below, be added to the course of the Normal School for students intending to enter the Theological College.

<i>Spring Term.</i>	<i>Autumn Term.</i>
5 Ancient History to 1200 A.D.	5 Modern History 1200 A.D. to present time.
2 Chinese Grammar and Composition.	2 Chinese Grammar and Composition.
1 Essays.	1 Essays.
3 Spherical Geometry and Trigonometry.	3 Astronomy.
3 Ethics.	2 Geology.
5 Greek and English.	5 Greek and English.
5 Messianic Prophecy.	5 1st Epistle of Peter.
24	23

Auditors' Reports.

Resolved, That we adopt the two following reports of the auditors.

WEIHSIEN, September 25th, 1913.

To the University Council,

We have audited the financial statements of the three Colleges, the University treasurer's accounts, and the apportionment accounts, for the period from February 1st, 1912, (January 1st, in the case of the Medical College) to March 21st, 1913, and find them correct. We note the balance of the "Safe" account of the Arts College consists largely of accounts due to the University Press, as yet uncollected, but we understand some of this is already paid on the current year's accounts, and the remainder will be collected before Mr. Whitcher leaves on furlough.

Signed: { RALPH C. WELLS,
 J. S. HARRIS,
 Auditing Committee.

WEIHSIEN, September 25th, 1913.

To the University Council,

The Auditing Committee of the University Council has received from the University Press the account books. The passbooks and check stubs show balances in the two banks. The ledger containing transactions with individuals is in an incomplete condition, and lacks any summary accounts or yearly balance sheets. We are therefore unable to make an audit of these accounts. The shop accounts are wholly in the hands of the Chinese foreman, are wholly in Chinese, and no systematic summary was available and consequently no audit could be made.

Signed: { RALPH C. WELLS,
 J. S. HARRIS,
 Auditing Committee.

University Press.

The original intent of the University Press being to do university printing, and it having developed to such an extent that it has become a serious embarrassment both to the Missions and to the Arts College,

Resolved, That

1. Henceforth the control and accounts of the Press be entirely separated from all other affairs and accounts.
2. That only such plant shall be retained as is required for the University work.
3. That a committee of three be appointed to determine what plant is required by the University, and that this committee be empowered to dispose of the balance of the plant and stock; also that this com-

mittee be put in charge of the Press, with power to act. Further, that this committee endeavor to secure the services of Mr. Mason Wells for three or four months so that he may give his whole time to this work under the direction of the above named committee; it being understood that the members of the faculty of the Arts College who are conversant with the working of the Press render what assistance they can.

Mr. Ralph Wells, Dr. Hayes, and Mr. Fisk were appointed to form the above committee.

4. That this Council requests the Weibhsien Station to appoint one of its members to assist in the re-arrangement of the Press business.

5. That the committee be instructed that all funds arising from the sale of books and stock be applied to reducing the liabilities of the Press, and that the disposition of money realized from the sale of plant be referred to the Council for its decision.

Rescinding of Former Action.

Resolved, That the action with regard to the University Press taken last May (See Council Minutes for May 1913, page 8, Article XVII.) be and is hereby rescinded.

Post-Graduate Course in Arts College.

Resolved, That in view of the present depletion of the Arts College faculty, the Post-graduate courses be suspended during the year 1914.

Student Pastor.

Resolved, That in the judgement of the Council it would be for the best interests of the Arts College to have a student pastor, who should devote, at least, the greater part of his time to the spiritual and moral welfare of the student body.

It is hoped that such a man will be secured who will be able by his personal intercourse with the students and life among them, to strengthen their Christian character, and lead a goodly portion of them to devote their lives to the direct advancement of the cause of Christ.

Study of English.

Resolved, That, in view of the present depletion of the foreign faculty of the Arts College, the action of the Council,

taken in May, 1913, requiring all students in the Arts College to study English and remitting the usual fees for English instruction, be suspended till the spring term of 1915.

Election of Chinese to the Council.

Resolved, That in case the Presbyterian Board approves the proposed plan for introducing Chinese members to the University Council that we request the Chinese bodies concerned to elect their members so as to be represented at the Council Meeting in January, 1915.

Medical College.

Inasmuch as the surgical work of the Union Medical College Hospital has increased to such an extent that the surgeon on the staff is greatly overburdened by his clinical and didactic duties:

Resolved, That we approve of the request of the faculty of the Medical College that a second surgeon be appointed to the staff of that institution, and express the hope that the Anglican Mission may see its way clear to provide such a man in the near future.

Inasmuch as no one in the present faculty of the Medical College has time to devote to the practical teaching of anatomy;

Resolved, That we approve the request of the faculty of the Medical College that an Anatomist be secured for the College (either from abroad or on the field) who shall have charge of the teaching of this most important branch.

Resolved, That the University Council gratefully acknowledges the generosity of the E. B. M. in assigning Miss Logan to work in the women's wards of the Medical College, and

Resolved, That we approve of the request of the faculty of the Medical College that a second nurse be appointed to work in connection with that institution.

Resolved, That the University Council approves the report of the Medical Committee as found on page 21, of the Council Minutes for 1913, according to which £ 13,000 will be needed in the near future for the development of the Medical College.

(Note: £ 6,000 have already been granted by the B. M. S. in London, leaving £ 7,000 yet to be raised.)

Resolved, That inasmuch as the B. M. S. is furnishing the needed money for wards, we approve of the \$10,000 gold asked for from America for the hospital wards (see page 9 of the Council Minutes for 1913), being raised in America for the equipment of the Hospital and Medical College with steam heat, water, and electricity, and for the equipment of the laboratories.

A. B. C. F. Mission, Shantung.

1. *Resolved*, That we invite both committees of Grinnell alumni—the one in Grinnell and the other in China—to consider the possibility of providing a professor in one or more of the colleges of the Shantung Christian University, and if possible also to provide a residence for each.

2. *Resolved*, That Dr. Chalfant be asked to write the A. B. C. F. Mission, Pang-chia-chwang, expressing our gratification with the position of their Mission on union with this University, and hoping that the way may be opened to them for complete union in this higher educational work.

3. *Resolved*, That Dr. Heeren and Mr. Ellison be appointed a Committee to continue conference with the American Board Mission in Shantung regarding union in the University.

Telegram to Canadian Presbyterian Mission.

Resolved, That the secretary of the Council be instructed to transmit a telegram to Dr. Leslie, Weihweifu, Honan, cordially inviting the Canadian Presbyterian Mission to unite with us in our Shantung Educational Union.

Anglican Mission.

Resolved, That the desire of the Anglican Mission to establish a Theological College in connection with their proposed Hostel be acceded to, and that the Standing Property Committee be requested to apportion a site sufficient for Hostel and College in a suitable position with reference to the other buildings of the University, such site to be purchased by the Anglican Mission.

Rules as to Property.

Resolved, That the chairman appoint a committee of three to bring in a minute to the next meeting of the Council, laying down rules of procedure and regulations in regard to the holding of and the control of property, belonging to Missions in the Union, or to others who may wish to join.

Dr. Neal, Mr. Whitewright, and Dr. Balme were appointed.

Shensi Mission and Mr. Ellison.

Resolved, That the secretary of the Council be instructed to write the Shensi Mission (E. B. M.) to express our sense of the generosity of their action in releasing Mr. Ellison and thus allowing him to remain in the College of Arts and Science, Weihsien.

Transfer of Estimates.

Resolved, That we approve the request of the A. P. M. to transfer a sum of \$850.00 from the Board of Students in Tsingchowfu, and \$450.00 from the same item in the Arts College, Weihsien, to the estimates of the Presbyterian Mission, for the aid of needy students.

New University Site.

Resolved, That the location of a roadway through the existing property in Tsinan leading to the new University site be referred to the Property Committee for decision; we suggest that the new road should enter the new site as near the center

as possible, and also that the Governor should be approached about the proposed gateway as soon as the committee deems it is suitable.

Resolved, That the matter of the Artesian well be left to the judgment of the Property Committee.

Basis of Union.

Resolved, That the words "After six months' notice in writing" be re-inserted in Article X, Section 1, of Basis of Union, and that this be added without being sent to the Home Boards for their action.

Resolved, That the motion to deprive the ordinary members of faculty from attending the meetings of Council be laid on the table.

Summer Meeting.

Resolved, That the summer meeting of the Council take place in Tsinan, beginning at 8:00 p.m. September 1st, 1914.

The minutes were read and approved; and the Council adjourned on the evening of January 14th, 1914.

COLLEGE OF ARTS AND SCIENCE, WEIHSIEN.

Report for the Year ending December 31st, 1913.

The departure in June, after the close of the spring term, of President P. D. Bergen and Mrs. Bergen, on health leave, and the consequent necessity of appointing an acting President for the Arts College, together with the departure of several foreign members of the Faculty, as related below, renders it difficult to render a comprehensive report.

Speaking generally, we may say that the College has had a very prosperous year with a student body numbering 350 and a combined graduating class of 73 of whom 17 belonged to the new Fourth Class and 56 belonged to the old Sixth Class. Besides these there were three men receiving the diploma in the department of post-graduate Chemistry and 21 students completing the preparatory course to fit them for entrance into the Medical College at Tsinanfu. All the members of the graduating class were, as usual, professing Christians.

The occurrence of the insurrection in the Yangtze Valley made it once more a matter of grave concern that anti-government demonstrations on the part of the students should be discouraged. The students were solemnly warned at the beginning of the autumn term against the expression of disloyal sentiments and, as a body, they took it to heart especially as two or three young men, formerly connected with the College, were tried and executed at Tsinanfu for implication in secret plots against the Government. Unfortunately for the reputation of the College, the doomed men appealed to their connection with the institution in their plea for life and thus brought the College to the unfavorable notice of the powers that be. It is rumored that the names of several of our students are now on the lists of the proscribed.

On October 23rd an aeroplane from Tsingtau passed over our compound and descended at the military barracks west of the

ity. We gave the boys a holiday to inspect the novel object and, after securing permission from the Commandant of the garrison, the students marched out in a body, accompanied by several teachers. All went well until a few minutes before it was time to come home when several of the soldiers picked a quarrel with the students and precipitated a sharp scrimmage in which the students got the worst of it. The Commandant sent an officer out to apologize and it was ultimately arranged that representatives of the soldiery and College should meet in the city and that the Commandant should put out a suitable proclamation, thus terminating what might have been a serious affair.

It is now evident that the Utopian dreams cherished by many of the students at the time of the Revolution are giving place to a more sober and practical view of the political situation.

Changes in the Faculty.

The greatest draw-back under which the College has labored this year is the unparalleled depletion of the foreign Faculty. The departure of Mr. Henry Cousens for England on health leave, in March, was a serious blow to the department of natural science. Fortunately, his place as representative of the Anglican Mission was taken by the Rev. J. W. Hunter whose pleasing personality, ability, and enthusiasm have made him a valued member of the Faculty. We regret that he, in turn, was withdrawn at the end of the autumn term, his place being taken by the Rev. A. C. Judd from whom we have every reason to expect great things but who has been only a few months upon the field. The absence of Dr. Bergen involves a heavy loss to the teaching staff and to the councils of the Faculty.

Then, at the beginning of the autumn term, we reluctantly surrendered our claim upon Mr. Samuel Mills to assist in the Y. M. C. A. work among students at Tsinanfu.

Mr. Mills, however, still retains his connection with the University. Finally, at the end of the autumn term, the furlough of Mr. and Mrs. H. W. Whitcher fell due and they departed for England leaving the Press, the Shop, the College Treasury as well as Mr. Whitcher's work in Chemistry and in the College routine to be divided among the remaining members of the Faculty. It is true that Dr. Heeren is now prepared to take a full hand in the College work and that Mr. Rankin will begin to assume some responsibility after the New Year but, what with the continued absence of Mr. Luce, the foreign members of the Faculty will be burdened as never before.

Four members of the Chinese Faculty have been, for various reasons, dropped, namely: Messrs. Ch'i Fêng Ch'in, Swen Fêng Dzi, Dzo Hsüeh Kwan, and Li Tao Djêng. The engagement with the student-teacher, Mr. Shêng Yung Ching, was also terminated. Of these five men, three, Messrs. Li, Djao, and Shêng, have, through our good offices, found excellent positions elsewhere.

On the other hand, we have taken on to the Faculty, from the graduating class, Messrs. Wang Han San, Ch'in Hwa T'ang, and Chang Tsun I and, from the post-graduates in Chemistry, Mr. Liu Fu Tsêng.

We have also secured the services of a well-qualified teacher of the Chinese Classics.

Work of Members of the Faculty.

Owing to the changes in the foreign Faculty we have been unable to get full reports from several of the departments. The burdensome routine work of the College has been divided as equitably as possible and need not be detailed.

Mr. Whitcher, besides looking after the Press and the Shop, did his share of the work in Chemistry, giving special attention to the work with the graduating class. He also conducted, during the autumn term, a normal course for the

graduating class in which lectures were given by several members of the Faculty, foreign and Chinese, on their respective subjects treated from a pedagogical standpoint. These lectures were much appreciated by the students and were, we hope, useful in giving them some special preparation for the work of teaching.

Mr. Chandler continued, throughout the year, his class work in the several branches of Physics. In the spring term the absence of Mr. Mills made it necessary for Mr. Chandler to take a class in English instead of in Experimental Physics, but in the autumn term things were so arranged that the class in English could be dropped and the work in Experimental Physics resumed. The students were taken over the entire course so far as it has been prepared in Chinese. The result has been highly gratifying, the students having shown marked improvement in the ability to handle apparatus, make careful observations, and record results.

Mr. Chandler, besides taking a large share in the routine work of the College, has been, until recently, acting as the treasurer and secretary of the University. In the spring term he finished the reading and revision of the proofs of Mr. Liu Kwang Chao's translation of Millikan and Gale's Physics.

Mr. Ellison taught post-graduate Chemistry 12 hours per week, studying the important parts of "Cohen's Theoretical Organic Chemistry" and Blount and Bloxam's "Chemistry for Engineers and Manufacturers" (Vol. II).

Besides sharing in the routine work, Mr. Ellison acted as secretary of the foreign Faculty and registrar of the College. With the able assistance of Mr. Li Hwei Ch'un, efforts are being continued to get the records of the College into a more complete and systematic form.

Mr. Hunter, besides sharing in the routine work and acting as chaplain for the Anglican students taught Western and Old Testament History.

In the former subject he took the Fourth Class over the period of the French Revolution, a period full of lessons for the Chinese at the present hour. He also gave several lectures on the teaching of History before the normal class and prepared, in Chinese, a valuable chronological table of world history.

Dr. Heeren, in addition to language study and routine duties, attended the recitations in Political Economy and delivered a series of lectures on the History of Education, to the normal class.

Mr. Rankin has made marked progress in the language, especially in the autumn term, and rendered good service in the way of "bull-dog" work at the examinations.

Messrs. Hunter, Ellison, Heeren, and (in the spring term) Mr. Chandler, taught classes in English. Mrs. Chandler and Mrs. Chalfant also took part in the English instruction, the latter usually taking two periods a day.

Mrs. Chandler and Mrs. Whitcher also rendered valuable clerical assistance.

The Acting President, Mr. Wm. P. Chalfant, besides that part of the administrative work which fell to his share, taught Comparative Religion to the Sixth Class and Old Testament History to the Elective Class, averaging two periods a day. It should be said that in most branches, the classes were so large that they had to be taught in two divisions, adding greatly to the labor of teaching.

We may here record our satisfaction in receiving a visit from Mr. and Mrs. Edward T. Lazear, the lately appointed Treasurer of the University who is now studying the language at Chefoo. Mr. Lazear kindly consented to take over the work of University Treasurer, thus relieving Mr. Chandler of one of his burdens.

The Chinese members of the Faculty have done their work faithfully and, in most cases, with ability and enthusiasm. Messrs. Li Hwei Chwen, Go Wei Chang and Fêng Chwan

Hsiu took entire charge of divisions of students in Experimental Physics under Mr. Chandler. The subjects of Light, Magnetism and Electricity were wholly taught by the experienced teachers Wang Hsi En and Go Wei Chang.

Government and Discipline.

The College is practically governed by vote of the entire Faculty, foreign and Chinese, although questions having to do with the personnel and salaries of the Chinese teaching staff, the teaching of English, and a few other matters are tacitly left to the decision of the foreigners who, according to the Basis of Union, really constitute the Faculty.

So far as the writer has observed, there is not only no desire upon the part of the Chinese teachers to assume more responsibility but there is only too great a tendency to shift responsibility to the shoulders of the foreigner, especially where the issue is personal in its nature.

Nevertheless it is the wish and the hope of the foreign teachers that some way may be speedily found to give certain chosen men from the Chinese teaching staff equal standing on the Faculty with the foreigner.

It is an interesting fact that it practically never occurs that divisions of opinion in full Faculty meetings coincide with either racial or denominational lines.

In the few cases where discipline has been necessary it has been administered firmly but temperately. In this delicate matter we have received invaluable aid from the student "Self-Government Society," formed in the spring term, which has undertaken to secure the bulletin-boards from defacement and to look after certain matters of deportment and cases of petty misdemeanor. It imposes and, what is more to the point, it collects fines and is a veritable terror to evildoers. It submits its Minutes from time to time to the Faculty for revision.

The Committees on Dormitories and Demerit Marks report an increasing prevalence of a law-abiding spirit. The growth of courtesy in the bearing of the students toward their teachers and toward each other is marked.

The New Reading-room.

In view of our impending move to Tsinanfu no additions have been made to the College plant. Under the direction of Mr. Ellison, a neat and commodious Library and Reading-room has been opened in a northern section of the dormitory buildings. Mr. Ellison reports that the new institution is well patronized.

The Printing-press and Shop.

No report on the work of the Press has been received but, under the direction of Mr. Whitcher, it has been in full operation, often day and night, throughout the year. Nearly all the work now done is such as is called for by the needs of the University or the Missions. Several Mission reports have been printed in English, in excellent style. The American Bible Society lately placed \$2,000 worth of printing in Mr. Whitcher's hands and the work done is pronounced to be not only cheaper but better than that done in Shanghai. A recent examination of the finances of the Press show it to be on a more than self-supporting basis.

Upon the departure of Mr. Whitcher, the Press was placed under the care of Mr. Ellison.

The Shop has continued to perform its useful function in manufacturing and repairing apparatus and doing odd jobs of all kinds. It has recently been doing a thriving business in casting church bells for congregations in the out-stations who have begun to erect church buildings.

The bells are not large nor musical but they make a more or less joyful noise and seem to please the purchasers. The Shop is also self-supporting. On his departure, Mr. Whitcher handed it over to Mr. Chandler.

The Health of the Students.

There has been comparatively little illness among the students during the year aside from the daily quota of visits at the station dispensary where Dr. Yang, in the absence of Dr. Roys, has rendered faithful and valuable service. There were a few cases of severe illness and two or three of the boys were sent home on account of bad health. In the early autumn Mr. Witcher had the latrines of the College and of the entire compound thoroughly over-hauled and put into ideal condition, arrangements being made for daily disinfection. Another great factor in securing the health of the students has been the daily military drill. Two-thirds of the students have now provided themselves with uniforms and it has been decided to require all students to do so. The students have also indulged, with more or less regularity, in football and athletic sports.

In October, 70 of the students, under the leadership of Mr. Witcher and two of the Chinese teachers, travelled to An Ch'iu city and engaged in field-sports with the students of the local government schools, to the benefit and delight of all concerned.

Later, Dr. Balme, of the Medical College, visited this College and delivered two admirable lectures one of which was upon Tuberculosis.

The boys were deeply impressed and went from the lecture to pull out the stoppings with which they had laboriously stuffed up the ventilators of their rooms!

Religious Life.

The religious atmosphere of the institution has been good but not, perhaps, as warm as it has been at certain times in the past. The meetings of the Y. M. C. A. and the Student Volunteers have been only moderately well attended. One or two of the graduating class have spoken of studying for the ministry but nothing definite has yet come from such talk.

On the other hand there can be no doubt that the ideals of Christian manhood and service, emphasized, as they are, by the members of the Faculty, both foreign and Chinese, at every suitable opportunity, are getting a deeper and deeper hold on the minds of the students. The talks of the teachers at daily morning prayers are, as a rule, most helpful and are listened to with real interest. As one who has recently come into the institution, the writer takes this opportunity to testify that the atmosphere of the College is distinctly and influentially evangelical.

No student can pass a single term here without having the claims of Christianity pressed upon him in a score of ways not only by teachers and preachers but by earnest fellow-students. The great majority of the student body are professing Christians.

Attendance.

The attendance at the close of the Autumn term was as follows:—

Class.	Presbyterian.	Baptist.	Anglican.	Other Missions.	Non-Christian.	Total.
6th (Graduating)...	35	16	4	1	0	56
5th ...	22	28	0	0	0	50
4th (Graduating)...	9	6	0	2	0	17
3rd ...	27	14	5	6	0	52
2nd ...	35	15	2	2	0	54
1st ...	27	11	3	3	0	44
Preparatory ...	6	0	0	8	40	54
Medical ...	14	2	2	1	1	20
Totals ...	175	92	16	23	41	347

Destination of Graduates.

For some reason, the number of applications from Mission stations for the services of the graduates has been, this year, unusually small.

Aside from the four men retained as teachers in the College only twelve positions were filled through the President's office and that in spite of widespread previous notice,

including advertisements in the Shanghai papers and the *Recorder*. Of course there were a number of men arranged for directly; it is impossible to say just how many.

Men were sent to Chefoo, Kiaochow, Choutsun, and Tsinanfu in this province and, in other provinces, to Hwaiyuan and Nansüchow (Anhwei), Weihweifu (Honan), Yuncheng (Shensi), and Foochow. Negotiations are in progress for several other places, all outside of Shantung. The most of the above requests were for teachers for middle schools. The three teachers who left this College took such positions at Chefoo (English School), Hsüchowfu (Kiangsu), and Kai-fengfu (Honan).

Three good positions could not be filled owing to the fact that they called for men of modern education specially versed in Chinese literature.

There were only two men among all our seventy-five graduates whom the Chinese teachers were prepared to recommend for these positions and these two men were afraid to undertake the task. This is a truly humiliating confession to have to make. This new demand points to the fact that the pendulum is swinging back to a more rational point as regards Chinese literature. It is only fair to say that the Faculty of the Arts College have long since recognized the advisability of laying more stress upon the teaching of the Chinese language and literature. Several steps have been recently taken in this direction. The chief difficulty is to get teachers of modern education who have high attainments in Chinese and who can command the respect of the students.

Prospects for the Incoming Class.

It looks at present writing as though we should have a very large Freshman class. The entrance examinations were unusually severe, perhaps, in some instances, too severe. The following table will speak for itself:—

Result of Entrance Examinations.

<i>School.</i>	<i>Number Sitting.</i>	<i>Number Passed.</i>	<i>Number Failed.</i>	<i>Received on Certificate.</i>
College Preparatory ...	17	9	8	0
Weih sien ...	15	7	8	8
Tsinanfu... ..	9	2	7	0
Tsingchowfu ...	9	9	0	0
Peichen	2	2	0	0
Djouping	4	2	2	0
Pingyin	7	3	4	0
Tengchowfu ...	3	3	0	0
Ichowfu	8	1	7	0
Chefoo	0	0	0	6
Chiaochow	2	2	0	0
Tehchow (Pangchwang ...	2	2	0	0
Hwanghsien	0	0	0	4
Hwaiyuan (Anhwei) ...	0	0	0	1
Totals	78	42	36	19

This indicates that 61 students have been admitted to the Freshman class up to the present writing. We do not know how many candidates there will be for the Preparatory and Medical classes but if we have as many as we have had this past year the incoming students will number at least a hundred. Of course many will also drop out.

Recommendations.

No change is deemed advisable in the policy of the Arts College and no change has been made in its administration except such minor adjustments as its development have rendered desirable. Our watch-word is quality rather than quantity, but that does not mean that we are afraid of growing. We have few recommendations to make.

One of these has been sufficiently indicated by what we have already said concerning the necessity of strengthening our instruction on the side of the Chinese language and literature. It would be very desirable, did our budget admit of it, to secure the services of one or two highly qualified teachers in Chinese. Perhaps, then, a post-graduate course in Chinese literature might be offered.

Another suggestion is in the line of the policy long since laid down for this College, namely, that steps be taken at once to develop several practical post-graduate courses. The Chinese teachers, as well as the foreign members of the Faculty feel strongly that this is imperatively called for. The most trusted members of the Chinese teaching staff urge us to take steps to inaugurate post-graduate courses (now confined to chemistry) in civil and mining engineering and especially in railway construction as well as a course in political science. Unless there be a change in the attitude of the government schools toward our graduates it is clear that we cannot depend on placing all our graduates as teachers. This suggestion calls, of course, for an increase of the foreign staff. It is more and more evident that even the best of our Chinese teachers yet need the stimulus and support that can be secured only from the presence of the qualified foreigner with his profounder knowledge, his wider out-look and his disciplined energy.

It is the opinion of the writer and, I believe, of all the foreign members of the Faculty, that the curriculum of the College needs strengthening on the philosophical side. We do not wish less natural science but rather more. But we sadly need more consideration of the great principles and ideas that underlie the best civilization of the world. We want more acquaintance with vast and decisive movements in the world of human thought, both past and present. Psychology, sociology, political and economic science, the history of philosophy and the philosophy of history, these and similar branches forming the higher side of the curricula of our home institutions, are barely represented if represented at all in the course of this College. Steps should be taken to remedy this state of affairs.

The writer cannot close this report without hearty acknowledgment of the loving consideration and sympathetic help which he has received from his colleagues of the Faculty

of the Arts College, both foreign and Chinese, in the trying position in which he has suddenly found himself as Acting President. Nor must we fail to ascribe to God heartfelt thanks for manifold mercies throughout the year. We invoke His continued blessing upon this institution which utterly fails in its purpose if it do not reflect glory on His great Name.

Signed: WM. P. CHALFANT,

Acting President.

WEIHSIEN, January 7th, 1914.

THE GOTCH-ROBINSON THEOLOGICAL COLLEGE,
TSINGCHOWFU.

Report for the Year ending December 31st, 1913.

In the nature of the case the annual report of a theological college offers no scope for purple patches. The details of the work are necessarily of a somewhat tame and monotonous character and the record of one year is much the same as that of any other. The ordinary routine goes on from day to day and term succeeds term without any stirring incident calling for special mention. The stream of college life during 1913 flowed on smoothly and quietly without dangerous rapids or sudden cataracts. A good spirit prevailed among teachers and students. The twenty theological students went out on Sundays in rotation to take services in the country churches and also spent their vacations in preaching. Under the earnest leadership of one of the Presbyterian teachers—the Rev. Liu Yen T'ing—the normal students also did good evangelistic work in the city and neighborhood. The College Y. M. C. A., held regular meetings for Bible study on Sunday mornings and evenings, in which Dr. Hayes and others gave personal help. The physical health of the men has been better than in former years and this we attribute largely to the daily compulsory drill. We have, however, to mourn the death of one student from rapid consumption. Another had to undergo a serious operation at short notice. Special continuous prayer was made for him by his fellow-students and we are grateful to God that the operation performed by Drs. Watson and Roys was successful and that the boy has gone home with every prospect of complete recovery. On Mr. Fisk has fallen the chief burden of superintending the Normal School, though I am glad to say that in the autumn term Dr. Hayes found time to teach Astronomy and I took a large daily class through the Teaching of Our Lord. And

here I desire to make grateful mention of Mrs. Hayes' kind services in relieving me of the senior English class. Without her timely aid, it would have been impossible for me to teach these 70 young men who aspire to become teachers of our village schools.

In the spring term, Dr. Chalfant took the theological students through a thorough course of Apologetics with special reference to the new difficulties now confronting the awakening mind of Young China. He also gave a course of introductions to the Earlier Prophets with Exegesis of selected passages. I took the work of the SPIRIT in Systematic Theology together with the Exegesis of St. John's Gospel. In the autumn term the class finished Pastoral Theology and the Epistle to the Hebrews under Dr. Hayes and Eschatology and the Later Prophets under myself. Sermon classes were held four times a week in the spring and twice a week in the autumn. The mid-week prayer meetings, in which the students themselves take part, have been particularly helpful in fostering their religious life. The year closed with a total number of 143 students on the roll—88 Presbyterian and 55 Baptist. Of these, twenty-four graduated from the Normal School (15 Presbyterian and 9 Baptist) and have found positions in their respective missions, four as high school and the others as village school teachers. From the theological class two only graduated this year (as against ten last year). Both were Baptists—*viz.*, Sun Yüan Shan, a former graduate of Normal School, who becomes pastor in North Pinchow, and Chang Mu Teh, a former graduate of Weihsien, who for the past four years has been acting as one of the teachers in Normal Department.

Next term we expect to admit several new men to the theological class, from the ranks of those who were formerly in Normal School and who have been out since acting as evangelists or teachers. Also two students from the English Baptist Missions in Shansi and Shensi respectively and these,

we hope, will be the fore-runners of many others from those provinces in years to come. For the second year in succession we record our deep disappointment that—notwithstanding the unusually large number of men graduating from the Arts College, among whom are not a few who volunteered for the ministry during Ting Li Mei's meetings at Weihsien in 1909—not a single one is entering the Theological College. Many, it is true, hold out vague promises of coming to study for the ministry eventually, after earning money and gaining experience, but this is an old story and takes us back to the situation long before Ting's memorable meetings. We were fain to believe those meetings, followed by the Students' Volunteer Movement, meant something more than this—a new era, many hoped. Experience, alas, has taught us to discount the promises now made as illusory and unlikely of fulfilment, unless indeed these men come under a deep and new constraint of the SPIRIT OF CHRIST.

We rejoice to hear from time to time of the good work being done by the men who once lived in our cloisters, and we note with satisfaction that one graduate, Yin Hsüan Ts'ung, who taught a school in Manchuria last year, is now returning to his vocation and is to be pastor at Choutsun, where his friend and class-mate, Chang Ssü Ching, has already done a year's earnest evangelistic work in connection with the new Institute.

In 1914 the study of New Testament Greek will be introduced in the Theological College, in obedience to the action of last Council. A third year will be added to the two years' Normal Course for all who wish to go on to the theological class. The study of English is also being thrown open to all for the first time. These additions to the curriculum all point the same moral—the urgent need of increasing the missionary staff of the Theological College. The temporary emergency at Weihsien, which robbed the Theological College of the services of Dr. Chalfant, is much to be

deplored, and we hope circumstances will soon allow him to return to the work he loves and for which he is so well fitted.

Our principal, whose stay in England has been prolonged by the illness of Mrs. Bruce, has been hard at work seeking recruits, and raising funds for the removal of Theological College to Tsinan. In the latter endeavour we gratefully recognize the splendid response which his advocacy has called forth. Together with the balance of the Emergency Fund, Mr. Bruce has now secured a total of £6,500 or only £500 less than the sum originally asked for. We hope the way will soon open for Mr. Bruce's return and that he will be equally successful in his QUEST FOR MEN, without whom the work cannot be worthily done.

There seems likely to be a glut of teachers in the near future, but the demand for evangelists reaches us from all sides, and it would seem wise for the College and the Missions to concentrate more closely in the selecting and training of men for the work of preaching rather than teaching. We know that only GOD can call and make the preacher, but we can all do much by precept and example to exalt the preacher's vocation and to lead the thoughts of our young men in this direction.

Respectfully submitted,

Signed: E. W. BURT,
Acting Principal.

January, 1914.

UNION MEDICAL COLLEGE, TSINAN.

Report for the Year ending December 31st, 1913.

The past year has been not only the busiest year in the history of the Medical College, but has also been marked by the largest gifts in both men and money.

In February our hearts were rejoiced by the arrival of Dr. and Mrs. Harold Balme, both of whom having seen service in Shansi were ready immediately on arrival to take up work, so that throughout the year we have had the benefit of Dr. Balme's experience in surgery both in didactic teaching and in clinical work, he having taken sole charge of this department.

In June Dr. and Mrs. Fleming arrived, and were given a warm welcome, Dr. Fleming taking up in the autumn the department of Materia Medica, Therapeutics, and Pharmacy, including the oversight of the daily dispensing.

Including these two new arrivals we have now four men on the ground, giving their whole time to the work of training medical students, besides one fairly well trained Chinese assistant, and Dr. Johnson, who has given six hours a week to the teaching of Practice and Obstetrics. Miss Logan has also joined us as nurse, to our very great joy.

Dr. Schultz, who leaves for a short furlough at the end of the year, has been commissioned while at home to find a suitable man to come out and take up the teaching of Physiology in all its branches, while we have great hopes of also securing a fully qualified man soon from the Anglican Mission, as an addition to our staff.

The most notable gift during the year is a grant of six thousand pounds sterling by the Baptist Missionary Society of London for the erection of a hospital of a hundred beds, the entire rebuilding of our Out-patient Department, the

erection of another foreign dwelling house and the installation of a steam heating plant in the College building. Plans are now being made and materials gathered for the erection of these much needed buildings in the spring. We are very fortunate in having a competent architect, Mr. Perriam, on the ground, who, together with his assistant, Mr. Edmunds, will take entire charge of the work, so that we who are responsible for the conduct of the College will be entirely free to go on with our regular work.

Besides this large gift of the B. M. S. which will more than double their original investment here, a gift of a thousand dollars gold has been received from Mrs. John F. Keator, of Philadelphia, for a memorial building to her husband, John Frisbee Keator, who was an intimate friend of the present Dean of the College. It is proposed to use this money for the erection of a Dining Hall and Reading Room for the students, with accommodations at present for sixty men, but with possibilities of enlargement hereafter to hold a hundred.

Sixty dollars gold have been received from the Women's Missionary Society of Northumberland Presbytery, Pennsylvania, for the maintenance of a scholarship, and with this money we propose to establish a scholarship for a graduate of the Arts College in Weihsien, who will enter the Medical College next spring.

Through the generosity of various American givers, the largest of whom during 1913 was the Pasadena Presbyterian Church which gave us \$500 gold, we are gradually increasing and improving our laboratory equipment, the most notable addition during the past year being four new microscopes with latest improvements, which add greatly to the efficiency of our Clinical Laboratory.

We are gradually building up a small library of English medical books for reference, and in this connection we desire to thank Messrs. Saunders & Co., of Philadelphia, for a gift of most acceptable books, which, added to a previous con-

tribution by Messrs. P. Blakiston & Son, of the same city, makes a good beginning.

Besides the above a special grant of a hundred pounds was made by the Medical Missionary Auxiliary of the B.M.S. for surgical equipment and various gifts toward the equipment of the hospital have come from British friends, the largest being one of £ 50 from an anonymous giver, for all of which we are sincerely grateful.

The Student Body.

The entering class at the beginning of 1913 was the smallest we have yet had, consisting of only three young men, but rather than break the regular succession of classes and thus discourage intending candidates, we concluded it would be wise to go on with their instruction, even though entailing much extra work for a very small number of men. There have, therefore, been four regular classes under instruction during the year, with a total of 27 students enrolled. Of these, two were dropped at the end of the summer term, owing to lack of mental ability and at the end of the winter term one other of excellent ability, but lacking in stability of character, was publicly expelled for neglecting his work in the wards, disobedience of rules and worst of all engaging in outside medical work after having been warned that such practices would lead to expulsion.

This leaves us at the end of the year with 24 students on the rolls, but as the incoming class amounts to over twenty men, we shall have nearly fifty in the five classes next year. We are considerably exercised as to how to accommodate such a large incoming class, especially in the laboratories which were arranged with the idea of teaching classes of only about twelve men each at a time. The only possible way will be to divide the class into two sections and have them in the laboratories at different hours, a plan which will considerably increase the labor of training them. We, however, hope to

combine the training of this large class with that of the small class of three, which can also take some work with the class just ahead of them, so that we shall still not be doing more than train five classes.

During the year the advanced class has entered upon its duties as dressers of patients in hospital and assistants in the operating theater and for the most part have shown much interest in their work, and an appreciation of the importance of this practical training. With the one serious exception noted above, the discipline and the spirit of the school during the year has been very good, the advanced class especially showing itself ready to accommodate itself to the exigencies of the work during the summer vacation, and staying in relays to help attend to the patients. We are now establishing the custom of allowing the two advanced classes only a month or six weeks' holiday in the summer, so as to give them more clinical experience and also not disarrange the work of the hospital.

As to the religious spirit of the school, while much remains to be desired, there is also much to encourage one. The students have been regular in their attendance upon the daily morning exercises and at the Sunday evening meeting, and they have held also Bible classes twice a week, at which about half the total number have usually been present. Six or seven of them have helped regularly in the evening evangelistic services in the hospital, and two or three have taught in one of the street Sunday-schools.

During the first term Dr. Balme took the morning meeting on Wednesday and Saturday mornings, this meeting being of a more formal character than on other mornings and consisting of a regular course of Bible teaching, and during the second term Rev. Frank Harmon, on his return from England, again took charge of it, as he has so kindly done ever since the opening of the school four years ago. We feel very grateful to Mr. Harmon for this kindly service, which not only

relieves the members of the faculty those mornings, but also gives the students a chance to hear something fresh from one whom they do not see every day.

Hospital and Dispensary Work :

Dr. Balme writes as follows :—“ Hospital and dispensary work have been carried on during the past year amidst greater encouragement, but under conditions of greater difficulty, than ever before, owing to the increasing numbers who have sought medical relief, and the sad lack of accommodation for them. From the commencement of the spring work it was found necessary to arrange for men and women to be seen on alternate days, instead of both sexes coming daily as heretofore, but in spite of this change the Dispensary attendances show an increase over all previous years, as the appended figures will prove. The three departments (Medical, Surgical, and Ophthalmic) have been in the hands of Drs. Schultz, Balme, and Neal respectively, while Dr. Wu has rendered efficient help, the Drug-room and Pharmaceutical Laboratory being in charge of Dr. Fleming.

It is amongst the in-patients, however, that the lack of adequate accommodation has been so acutely felt, as will be only too apparent when we state that during the past year we have actually had to turn away more patients than we could admit. In one day alone fifteen needy ones had to be refused admittance, and when it is remembered that many of these patients travel fifty to one hundred miles in the hope of obtaining relief, it will at once be seen what hardship this refusal inflicts. Cases not actually needing operation, but which would be greatly benefited by proper in-patient treatment have almost without exception had to be refused, and many of those whom operation alone would save have been kept waiting so long for a bed that they have had to return home disappointed. It is needless to add with what joy we await the erection of the new wards next year, and the

opportunity of providing adequate accommodation and efficient nursing for the patients, and thorough clinical instruction for the students.

The cases admitted have been almost wholly surgical, practically all the eye patients being treated as out-patients, even those who had to be operated upon, and very few medical cases having been admitted to the wards. The willingness of these surgical cases to submit to operative treatment bears good testimony to the confidence which has been established by the surgical work of previous years.

The senior students have for the first time been responsible for the surgical dressings this year, and the work they have done has on the whole been very gratifying; whilst the presence of Miss Logan, who has superintended the nursing of all female patients and given general oversight to the domestic arrangements of the hospital, has been an enormous help and relief. An attempt was made in the spring to systematize the evangelistic work amongst the patients. In addition to the work carried on so faithfully by the evangelist, Gospel services have been held every evening for the in-patients, a series of lessons on the Life and Teaching of Jesus Christ being followed. Every member of the staff and several of the students have helped in this effort, so that it has been found possible to divide the patients into three groups each evening. By these services, and by means of the daily bedside teaching, every patient has heard something of the Truth, and there have been many encouraging signs of that Truth being received and responded to. Many a poor man and woman has returned home able to read or repeat some simple hymn or text, and giving evidence of a sincere acceptance of its teaching.

The total attendance during 1913 was over 31,000, as compared with 24,336 in 1912 and 15,621 in 1911, showing a steady growth from year to year.

Medical Statistics :

The Medical Statistics for 1913 are as follows :

Surgical Dispensary :

New Patients 4,336, divided as follows :			
Male	3,152
Female	1,184
			4,336
Return Visits 6,238, divided as follows :			
Male	4,076
Female	2,162
			6,238
			10,574

Medical Dispensary :

New Patients 6,830, divided as follows :			
Male	4,061
Female	2,769
			6,830
Return Visits 7,774, divided as follows :			
Male	4,762
Female	3,012
			7,774
			14,604

Eye Dispensary :

New Patients 2,373, divided as follows :			
Male	1,700
Female	673
			2,373
Return Visits, male and female	3,454
			5,827
Total attendance at all dispensaries			31,005
Hospital In-Patients			205
Operations, General Anaesthetic 171; Local Anaesthetic or Nil 658			829
Out-calls			123

Conclusion :

In conclusion we would most heartily thank the Baptist Missionary Society for its generous support of the Union Medical College during the past year both in money and in men, and all other friends who have helped us either by gifts or by their sympathy and their prayers. We look forward to the future with great hope, but also with great misgiving unless in the immediate future measures are taken for so

reinforcing us that we shall be able to carry on this growing work without the constant fear of some one breaking down under the strain.

We earnestly hope that the University Council, to whom this report is made, will sanction our application for a second surgeon, as they have already approved of our request for a physiologist. It is a physical impossibility for one man to carry on all the surgical work and do the necessary didactic and clinical teaching as it should be done. It is also of the greatest importance that a competent foreign teacher of Anatomy be appointed to the College, in view of the permission which has just been granted by the Government for the carrying on of dissection in medical schools, and we would urgently request the Council to allow us to appeal for such a man.

We also hope the Council will approve of a second nurse being appointed to work in the new wards, so that not only may the actual nursing be well done, but men and women may be trained up to carry on this branch of hospital work.

Finally we need greatly large and generous appropriations for the thorough equipment of the new buildings with steam heating plant, water and electricity besides the ordinary bedding, clothing, etc., and in the near future we shall have to have a new dormitory to accommodate the increasing number of students. Our laboratories, too, must be still further equipped and enlarged, a department upon which we lay great stress in the training of our students.

JAMES BOYD NEAL, M.D.

ISSUED BY THE UNIVERSITY COUNCIL

Shanghai:
PRINTED AT PRESBYTERIAN MISSION PRESS.

REV. C. W. MATEER, D.D.

Calvin Wilson Mateer was born in Pennsylvania, U.S.A., on January 9th, 1836. He came to China in 1863 and spent the whole of his long missionary life in the province of Shantung. He will be chiefly remembered as the pioneer of Christian education in North China. In 1864 he founded a Boys' School at Tengchowfu, and twenty years later—in 1884—this school was recognised by the Board of Presbyterian Missions as a College. After a further period of twenty years this College was removed to Weihsien, and, with the addition of the pupils of the English Baptist High School at Tsingchowfu, became the present Union College of Arts and Science. At this time Dr. Mateer had retired from the presidency of the College for some years, but he continued to take the deepest interest in its progress, and from the founding of the Union in 1904 till his death in 1908 was the senior member of the University Council.

Of his many-sided activities it is needless to speak. He was distinguished alike as a preacher, a translator and a scholar, and the present College is his best memorial. Of him it is indeed true, "He, being dead, yet speaketh". It is most appropriate, therefore, that his face should appear as the frontispiece to the Register of the Shantung Christian University, with which his name will always be indissolubly connected.

THE UNIVERSITY COUNCIL.

and later under that of Dr. W. M. Hayes, has sent its graduates into many of the provinces of China as teachers and evangelists. The fact, together with the text-books prepared by Dr. Mateer, Dr. Hayes, and other members of the faculty, has made the college widely known as an institution where a thorough Christian and scientific education is given. The Tsingchow High School, for many years under the charge of Rev. S. Couling, M.A., assisted by Mrs. Couling, has been characterized by high ideals, strict discipline, and thorough instruction.

These two institutions were united in 1904 to form the College of Arts and Science, the buildings being erected by the Presbyterian Mission, both Missions being represented on the teaching staff.

As indicated in the Basis of Union, the aim of the College is, "To give a liberal education of a distinctively Christian character to young men, chiefly from Christian families." As a result of these principles there are at present studying in this institution 200 young men of college grade (there being no preparatory department), who with few exceptions are Christian.

Comparatively few of these young men stop short of graduation to engage in commercial pursuits. There exists a strong ambition to win the diploma and afterward to live for spiritual and intellectual aims as pastors, evangelists, teachers, or literary assistants. It is highly gratifying that no considerable proportion of them have successfully discharged the responsibility of leadership for which they were trained.

The Gotch-Robinson Union Theological College originated in the Theological Training Institute commenced in 1885, in rented premises at Tsingchowfu, by the Rev. J. S. Whitewright of the English Baptist Mission.

After a five years' course six students were ordained pastors, of whom three still remain in active service, honoured

by all who know them for their many years of faithful work. In 1887 a Training School for elementary school teachers was added. In 1893 the institution was transferred to its present home in the southern part of the city, and considerably enlarged. New buildings to accommodate sixty-four students, with chapel and museum, were erected by the generosity of Mr. and Mrs. Edward Robinson of Bristol, in memory of their parents Dr. Gotch and Mr. Elisha Robinson of the same city. The institution continued to prepare students for the English Baptist Mission till 1905 when it became a union institution. During the whole period from 1885 to 1905 over a hundred students passed through the College. Thirty-one were trained as pastors or evangelists, of whom six are deceased and twenty-two are still in active service. Thirty-seven were trained as school teachers, of whom twenty are still serving the Mission in that capacity. Thirty-three others received irregular courses, chiefly as lay-preachers.

In the Presbyterian Mission, previous to the establishment of the Union Theological College, candidates for the ministry were taught for the most part in Chefoo and Tengchow, the earlier classes being in charge of Drs. Nevius, Corbett, Mateer, and Mills. In later years the classes were held at Weihsien and Ichowfu, as well as at the above named stations, and Drs. Hayes, Bergen, W. P. Chalfant, and Elterich, also took prominent parts. This method was continued for some twenty years, in the course of which five classes, with a total of twenty-seven students, most of whom had taken a full or partial course in the Tengchow College, were thus instructed. The greater number of these students are now in the active ministry, or work closely allied thereto.

In the beginning of 1905 the Gotch-Robinson College entered upon the third stage of its existence by the union of the two Missions in higher educational work, and became one of the constituent colleges of the Shantung Christian University.

The College has two departments, viz : the Theological Department and the Normal School. The aim of the former "is to provide theological training for pastors and evangelists in accordance with evangelical truth". The Normal School is for the training of school teachers and provides, for those who need it, a course of study preparatory to the theological course. There is also provided a Bible Institute course for lay preachers and other Christian workers.

The Union Medical College. There has been medical teaching in Shantung for a number of years by physicians of the English Baptist and American Presbyterian Missions. In 1890, Dr. Neal finished four years of instruction, supplemented by two years of hospital work, of a class of three men. This was the first of a series of eight classes, within all some forty students, that have been trained by Dr. Johnson, Dr. Neal, Dr. Paterson and Dr. Watson, at Ichowfu, Tsinan, Tsowping, and Tsingchowfu. The last two of these classes were carried on as union peripatetic classes of the Union Medical College, pending the erection of the college buildings. The Union Medical College was formed in 1906, as the Medical Department of the Shantung Christian University, by the union of the English Baptist and American Presbyterian Missions. A grant having been made by the trustees of the Arthington Fund, a site was purchased in Tsinan in 1908. On March 15th, 1910, students were received into the partially completed buildings and teaching was begun. On April 17th, 1911, the formal opening took place in the presence of the governor and high officials of the province. The College is a union institution and is under the joint control of the two uniting Missions, through the University Council. It is confidently anticipated, however, that other protestant Missions in Shantung, and possibly in some of the adjoining provinces, will share in this union undertaking for the training of Christian doctors for China.

The aim and policy of the College is, "To give a medical education, under distinctively Christian influences, to young men chiefly from Christian families." In accordance with this aim, every effort will be made to maintain the distinctively Christian character with which the Institution starts out, and it will be the endeavor of those in charge to turn out not only well trained doctors, but earnest Christian men as well. At the same time young men from non-Christian families are admitted, provided that they are able to meet the entrance requirements, are of good character, and are willing to abide by the rules of the institution.

Plant.

The Arts College is situated on a commodious compound, the main building occupying a central place. This building is largely given up to recitation or lecture rooms, and meeting halls for Literary Societies, Y.M.C.A., and Student Volunteer Band. The Converse Science Hall is devoted to the study of chemistry, physics, geology, and biology. The laboratories, now four in number, are well-equipped with the necessary apparatus for under-graduate work, and in some degree for post-graduate study. In connection with the biological department there has been formed a zoological collection of several hundred specimens, illustrating the fauna of the province; also skeletons and other illustrative material for comparative anatomy. There is also a geological collection of about two thousand specimens, showing the typical Shantung rocks and also many fossils from the different strata of the province. A small observatory is situated in the College grounds containing a 10" telescope. There are dormitories, dining rooms, and kitchens for 400 students. In addition there are buildings devoted to the University Press and Workshop. Outside the compound is a small athletic field.

The Gotch-Robinson College is situated in the city of Tsingchowfu, with its front entrance on the main street, while

large open fields, the site of an ancient feudal palace of the Ming dynasty, lie on its western side. The College compound consists of three large courts, the buildings of which are built in semi-Chinese style. The first and outermost court comprises the Assembly Hall, the Normal School preparation room, and dormitories for the Bible Institute. Approached from the outer court is the central quadrangle, surrounded by class-rooms, laboratories, and dormitories for the Normal School. Beyond this quadrangle is the third court, built in 1904, containing theological students' dormitories and additional class-rooms. To the west of the compound are the professors' houses, and within easy reach is the recreation ground.

The plant of the Union Medical College and Hospital is situated in the south suburb of Tsinan, in the most rapidly growing section of the city. The College consists of a large three-storied building, providing ample accommodation for lecture rooms and laboratories for the practical study of anatomy, physiology, histology, bacteriology, and pathology. There are also special facilities for a thorough study of materia medica and practical pharmacy. The Hospital, which was added in 1914, is a large building erected in modern style, and comprising separate In-patient and Out-patient Departments. The former includes a central three-storey block, devoted to administrative purposes, operating plant, etc., and extensive two-storey wings on either side, containing both private and general wards, whilst a half-basement, of equal length with the whole building, gives ample room for the various domestic service departments. The Out-patient Dispensary consists of a central waiting room, providing seating accommodation for 250 patients, and with which are connected five consulting rooms and a commodious drug room. The building also contains two small operating theatres, a large surgery, and an ophthalmic dark room, whilst a second storey, above the waiting room, is set apart for infectious patients.

The Hospital is being fitted up on modern lines and will contain in all 100 beds. The Medical College plant also includes three foreign residences and three dormitories, with accommodation for forty-eight students, two students sharing each room. There is also a separate Students' Commons, containing a large dining room, recreation and reading rooms.

Religious Life.

The University, as its name implies, is a distinctly religious institution, and aims to infuse such a spirit of reverence and comradeship that all may find a congenial atmosphere of friendly intercourse and mutual helpfulness.

All students are expected to attend the regular College religious services, the Sunday services, and the mid-week prayer meeting.

The Y. M. C. A. is well established in each of the three Colleges, and students are encouraged to become members.

On Sundays the older students go out singly or in bands for evangelistic work, or to conduct services in country churches.

Students entering the University must give an undertaking to conform to all rules and regulations laid down by the Council or Faculties of the respective Colleges.

Departments.

Diplomas are granted by the University in the departments of Arts and Science, Theology, Medicine, and Normal Training. The diplomas are of two grades, viz: College Diplomas and Higher Diplomas, as follows:

College Diplomas.

1. The Diploma of Arts and Science for students who have completed the prescribed four years' course of study in the College of Arts and Science.

2. The Theological Diploma for students who have completed the prescribed course of study in Theology in the Gotch-Robinson College.

3. The Medical Diploma for students who have completed the prescribed course of study in Medicine in the Medical College.

4. The Normal School Diploma for students who have completed the prescribed course of study in the Normal School Department of the Gotch-Robinson College.

Higher Diplomas.

1. POST GRADUATE ARTS AND SCIENCE. A post graduate course in Chemistry is provided in the College of Arts and Science, and others are projected in Chinese Literature, Mathematics, Physics, Biology, Philosophy, History, and Economics, in which students may take the Higher Diploma of the University.

2. ARTS AND THEOLOGY. Higher Diplomas are granted to students who, having previously obtained the College Diploma of Arts and Science, or Normal School Diploma, have also completed the course of study required for graduation in Theology.

3. ARTS AND MEDICINE. Higher Diplomas are granted to students who, having previously obtained the College Diploma of Arts and Science, have also completed the course of study required for graduation in Medicine,

COLLEGE OF ARTS AND SCIENCE.

FACULTY AND INSTRUCTORS.

- REV. WILLIAM P. CHALFANT, A.M., D.D. (Lafayette), Acting-President; Comparative Religion, Apologetics.
 REV. H. W. LUCE, M.A. (Yale), History, Pedagogy, Life of Christ. (Absent.)
 MR. WANG HSI EN (王錫恩), B.A. (Tengchow), Physics.
 MR. GAH WEI CHANG (葛維常), B.A. (S. C. U.), Physics, Mathematics.
 MR. H. S. COUSENS, B.A. (Oxon), Zoology. (Absent.)
 REV. WANG GI DJEH (王繼澤), B.A. (S. C. U.), Chemistry, Experimental Physics.
 MR. E. J. ELLISON, B.Sc., Hons. in Chemistry (Liverpool), Chemistry, O. T. History.
 REV. J. J. HERRIN, M.A. (Chicago), Ph.D. (Halle-Wittenberg), Economics, English.
 MR. SAMUEL J. MILLS, B.A. (Lafayette), Psychology, Pedagogy, English.

The above constitute the Faculty.

- MR. WU SHU SHENG (吳述聖) B.A. (S. C. U.), Mathematics, Astronomy.
 MR. TIEN HSI CHING (田義經), B.A. (S. C. U.), Mathematics, Life of Christ.
 MR. FENG CHWEN SIU (馮純修), B.A. (S. C. U.), Elementary Chemistry.
 REV. LI DAO HWEI (李道輝), B.A. (Tengchow), Life of Christ.
 MR. DJOU YÜN LU (周雲路), B.A. (S. C. U.), Dean of Chinese Department; Chinese and Western History.
 MR. LIU FU DZENG (劉福增), B.A. (S. C. U.), Experimental Physics, Chemistry.
 MR. CHIN HWA TANG (秦華堂), B.A. (S. C. U.), Zoology, Botany, Western History.
 MR. DJANG TSWEN I (張存義), B.A. (S. C. U.), Geography, Geometry.
 MR. NIEH GIA GÜ (聶家駒), Chinese Classics.
 MR. WANG LU (王祿), Chinese Classics.
 MR. CARL S. RANKIN, C.E. (Lafayette), B.S. (Columbia), English, Language Study.
 REV. ALAN C. JUDD, M.A. (Oxon.), English, Language Study.
 MR. SUNG KWEI SHENG (宋達升), Chinese Classics.
 REV. H. P. LAIR, B.A. (Emporia), Language Study.
 MR. CHEN GIU KANG (陳晉康), Chinese Classics.

College Registrar: MR. E. J. ELLISON, assisted by MR. WANG GI DJEH.
 College Treasurer: MR. SAMUEL J. MILLS.
 College Steward: MR. LI HSÜEH MENG (李學孟), B.A. (S. C. U.)
 Instructors in Gymnastics and Physical Drill: MR. CARL S. RANKIN and MR. TING GWEI LIANG (丁國良).

ENTRANCE REQUIREMENTS.**I. Chinese Literature.**

1. An examination on Middle School Readers, i.e. 中學共和國讀本 [1915, Vol. I; 1916, Vol. I, II.] (Commercial Press), stress being laid on grammatical construction, explanation of phrases, translation into Mandarin, and the use of particles.

2. An essay, approximately 200 characters in length, with marks for penmanship.

II. Mathematics.

Two papers as follows:

1. Arithmetic and Algebra (as far as quadratics), 5 questions on each with twenty marks to each question.

2. Plane Geometry.

III. History, Western and Chinese.

One paper; 5 questions on each, with twenty marks to each question.

For 1915 questions in Chinese History will be taken from the text-books now used, but in Western History exclusively from the 西洋通史 (Commercial Press). For 1916 and later the questions in Western History will be taken from the above mentioned text-book, and in Chinese History from the 中學新體中國歷史 (Commercial Press).

IV. Geography.

One paper.

For the present two sets of questions will be prepared, one from Chapin's Geography, one from the 中華中學地理教科書. The Principals of the Middle Schools should early notify the Colleges which set of questions they prefer.

V. Scripture.

One paper.

In Old Testament History, 5 questions.

For 1915. On the period from Genesis to the Division of the Kingdom.

For 1916. On the period from Genesis to the Captivity.

In New Testament History, 5 questions on Mark and on Acts. It is hoped that by 1917 suitable Old and New Testament histories will have been prepared, and the questions should be taken from whatever histories are then decided upon.

VI. Elementary Science.

One paper.

Questions taken from the 初等理化教科書, Vol. I.

VII. English.

The examination will be on Tenney's English Lessons.

For 1915. Lesson 1-60.

For 1916. Lesson 1-100.

This subject is optional but candidates not presenting it for entrance examinations, or failing to pass therein, will not be taught English in the University. English therefore will not be reckoned among the subjects failing in which a candidate will not be accepted.

Entrance Examinations.

The examinations are held at the secondary schools, or Mission stations, toward the close of the calendar year and in the presence of a resident missionary. The papers are forwarded to the Registrar, College of Arts and Science, Weihien, Shantung, for examination by the Faculty.

A student failing in only one subject may be admitted to the class provided that the general average of his grades is not less than 66, but he must make up the condition at the end of the first college year.

The privilege of admission of students by certificate, and without examination, is granted to Middle Schools which comply with the requirements of the University Council, details of which may be obtained on application.

Advanced Standing.

Students will be received for advanced standing on the following conditions:—

1. Students seeking admittance to the second year are required to pass both the entrance examination and the examination of the first year.

2. Students seeking to enter classes above the first year, must be examined on the studies of the year previous to the one to which entrance is sought, and the examiners must fully satisfy themselves that the work in previous studies of the curriculum has been covered sufficiently to justify the student entering the said class.

Special Students.

Special students who wish to elect certain studies in the college are admitted on passing an examination on their ability to write a satisfactory Chinese essay. Their studies will be arranged in consultation with the Faculty, and a certificate will be given for work done, but in no case can they be granted a diploma of the college, unless they successfully pass in all the subjects required in the regular course.

THE CURRICULUM.

FIRST YEAR.

SPRING.		AUTUMN.	
Chinese Literature and Essays (on Saturdays) - - -	3	Chinese Literature and Essays (on Saturdays) - - -	3

Apologetics - - - - -	3	Comparative Religion - - -	3
English - - - - -	5	English - - - - -	5

Students not taking English have Chinese literature five times weekly.

Students who expect to enter the Theological College, and who do not take the fifth year, will study Logic instead of Comparative Religion.

Numerals refer to number of forty-five minute periods per week.

FEES AND REGULATIONS.

1. REGULAR AND MEDICAL STUDENTS.

(a) For regular students sent by the uniting Missions (viz. the English Baptist, Church of England, and American Presbyterian Missions in Shantung Province):—

\$24.00 Mexican per year. (Note:—This covers the cost of the student's food only, and, owing to the increasing cost of living, may possibly have to be increased in the near future. It is also to be noted that each of the Missions just mentioned pays \$35 to \$40 per year for each student sent by it, to cover the cost of tuition, over and above what the student pays for his board.)

(b) For medical students sent by the uniting Missions:—

\$34.00 Mexican per year, covering the cost of food and about $\frac{1}{4}$ of the student's tuition. (For these students, the remainder of the cost of tuition in each case is borne by the Mission which sends the student, and amounts to from \$25 to \$30.)

(c) For regular and medical students sent by *any other* Mission, either in or out of Shantung (including American Presbyterian, English Baptist, or Church of England Missions in other provinces):—

\$54.00 Mexican per year (\$24 for food, and \$30 toward tuition).

(d) For all other regular and medical students, whether independent or supported by individual missionaries:—

\$54.00 Mexican per year, (the same as for students in class "c").

2. SPECIAL STUDENTS.

All special students, whether independent, or sent by Missions or individuals, are required to pay a total of \$64.00 Mexican per year for board and tuition.

3. ENGLISH FEES.

Students who pay a total fee of less than \$54.00 Mexican per year (e.g., classes "a" and "b", section 1, where the students themselves pay only \$24 or \$34 per year), if they wish to study English, are required to pay an additional tuition fee of \$10.00 Mexican per year. This rule is in force at present, up to January 1st, 1916.

4. LABORATORY FEES.

Each student who uses any experimental, scientific laboratory of the College is required to pay a laboratory fee of \$1.00 Mexican per term for each experimental course which he takes. Thus, medical students, who take two experimental courses in Chemistry during one term, are required to pay \$2.00 Mexican per term, etc.

5. BREAKAGE FEES.

Each student who uses the experimental, scientific laboratories of the college, is required to deposit \$1.00 Mexican per term in each laboratory utilized, for a breakage fee. Any unused residue of this fee is returned to the student at the close of the term.

6. BATHROOM FEES.

Each student is required to pay a bathroom fee of 500 cash per term. (This fee is liable to change without notice.)

7. OTHER EXPENSES.

All incidental expenses and the cost of books are borne by the student himself. The amount necessary for text books varies in different cases, but a fair average is \$10.00 Mexican per year.

Examinations.

Semi-annual written examinations, taken by all the students, are held at the end of each term. Two, three,

or more written test examinations are held each term by each teacher with a view to keeping the student up to his work.

In the autumn, on three successive Saturdays, there are also general written examinations in arithmetic, algebra and geography. These examinations are taken by all students in the regular classes and are intended to keep these subjects fresh in the minds of the students during their whole course.

Dormitories.

Each dormitory room is usually occupied by two students and is furnished with heavy furniture, such as beds, table, stools, and clothes-boxes. All bedding and utensils, such as brooms, dust-pans and basins, are provided by the students themselves.

Religious Activities.

Students are required to attend morning and evening chapel, the Wednesday evening prayer meeting, and two services on the Sabbath. As will be seen from the course of study, all students receive regular religious instruction, based on the historical method, throughout the entire course.

The College Y. M. C. A. is a flourishing organization: membership and attendance at the meetings being voluntary. There are about one hundred and fifty members. In connection with the association is a plan for voluntary Bible study, nearly the whole college being enrolled, the students meeting in dormitory groups once a week for conference over the readings of the past days. These groups are led by students who meet once a week in the normal Bible classes conducted by two professors. Each Sunday a few students are sent out by the association for evangelistic work in neighboring villages or for preaching in the city chapel.

There is a large band of volunteers for the ministry, which meets once a week. The members of this band are

frequently addressed by experienced pastors on themes of practical and inspirational value to their coming life-work.

Literary Societies.

There are four of these, meeting each Saturday evening, and conducted by the students themselves. Every student is expected to be a member of one of them. Essays, orations, debates, and practice in parliamentary usage, are features of these societies.

The annual literary contest takes place at the end of the Spring term.

Physical Drill.

All students are required to take military drill for forty minutes daily (excepting Saturday and Sunday). There are also competitive sports and gymnastic exercises. One day in the Spring of each year is set apart as a general field day for athletic contests.

Students' Council.

This organization, which received its inspiration from the Revolution of 1911, has charge of minor matters of government and discipline. It has the sanction of the Faculty, which body reviews the minutes of the Council once a term. The organization has produced an increased sense of unity and of moral responsibility, and is a great asset to the college life.

Other disciplinary rules and regulations are printed in detail in Chinese, a copy of which may be obtained on request.

THEOLOGICAL COLLEGE AND NORMAL SCHOOL.

FACULTY AND INSTRUCTORS.

REV. J. PERCY BRUCE, M.A., President.
 REV. W. M. HAYES, D.D.
 REV. E. W. BURT, M.A.
 REV. WILLIAM P. CHALFANT, M.A., D.D. (Absent—Acting President
 of the Arts College).
 REV. GEORGE FISK, B.D.
 REV. SWEN PENG-SIANG, Graduate of Gwang Deh Shu Yuen, B.D.
 REV. LIU YEN-TING, B.A., B.D.
 MR. H. G. WHITCHER, B.Sc. (Absent.)

The above constitute the Faculty.

MR. CHEN GI-SHIEN, Graduate of Gwang Deh Shu Yuen.
 MR. GI CHENG-DJI, B.A.
 MR. NIEH CHENG-SIN, B.A.
 MR. HOU NO, Gungsheng.
 MR. LI SUE-TANG, Siutsai.
 MR. LIU TSING-TIEN, Gymnastic Instructor.
 MR. FENG WEN-SIU, B.A.

THEOLOGICAL DEPARTMENT.

Entrance Requirements.

1. Students wishing to enter the Theological department must have a letter of recommendation—in the case of Baptist students, from the Provincial Conference or from the Shantung Baptist Union; and in the case of Presbyterian students, from the Station or Presbytery to which they belong.

2. Except as provided in the next paragraph, students entering this department must be graduates of the College of Arts and Science, or of the Normal School department of this College, or an equivalent.

3. Graduates of the Normal School must take, in addition, a special preparatory course of one year before entering the Theological Department. See below.

4. Other students who have exceptional gifts and sufficient Chinese Scholarship may be received on the recommendation of the Station to which they belong. Such students will be examined by the faculty as to their ability to take this course, on the completion of which they will receive a diploma showing the work done.

Course of Study.

The length of the theological course is three years, each year comprising two terms of sixteen weeks each. The following is the course of study:—

FIRST YEAR.

SPRING TERM.	AUTUMN TERM.
Life of Christ and Introduction to Synoptic Gospels.	Life of Paul and Introduction to the Pauline Epistles.
Exegesis of Exodus and Leviticus with Introduction to Pentateuch.	Introduction to, and Exegesis of Psalms.
Systematic Theology.	Systematic Theology.
Homiletics.	Church History.
Greek Testament.	Greek Testament.
English Bible.	English Bible.
Sermon Criticism. Singing.	Sermon Criticism. Singing.

SECOND YEAR.

SPRING TERM.	AUTUMN TERM.
Exegesis of Romans.	Exegesis of Philippians and Colossians, with Introduction to Cath. Ep. (except John's).
Exegesis of Isaiah.	Synoptical Lectures on Books of Wisdom.
Systematic Theology.	Systematic Theology.
Church History.	History of Missions.
Greek Testament.	Comparative Religion.
English Bible.	Greek Testament.
Sermon Criticism. Singing.	English Bible.
	Sermon Criticism. Singing.

THIRD YEAR.

SPRING TERM.	AUTUMN TERM.
Exegesis of Hebrews.	Exegesis of John's Gospel and Introduction to Johannine Books.
Synoptical Lectures on the earlier Prophetic Books.	Synoptical Lectures on the later Prophetic Books.
Systematic Theology.	Systematic Theology.
Apologetics.	Pastoral Theology.
Greek Testament.	Greek Testament.
English Bible.	English Bible.
Sermon Criticism. Singing.	Sermon Criticism. Singing.

Regulations.

Students are expected to defray their own travelling expenses to and from college, and to contribute as far as they are able, towards defraying the cost of their board, text-books, stationery, and other expenses of their course.

As students are received into this department in the confidence that they are actuated by an earnest desire to serve the church and win men to Christ, it is assumed that they will seize every opportunity to preach the Gospel to the heathen, and as far as can be arranged conduct services in the churches of the two Missions.

The special preparatory course for graduates of the Normal School entering this department is as follows:—

SPRING TERM.	AUTUMN TERM.
5. Messianic Prophecy.	5. First Epistle of Peter.
5. Greek and English.	5. Greek and English.
5. Logic and Psychology.	5. Logic and Psychology.
3. Ethics.	2. Chinese Grammar and Com-
2. Chinese Grammar and Com-	position.
position.	1. Essays.
1. Essays.	3. Astronomy.
3. Spherical Geometry and Trig-	2. Geology.
onometry.	

The fees and regulations for students taking this course are as given below for the Normal School department.

Bible Institute Course.

Provided that there are vacancies, and subject to the following provisions, students may be received for a course of Biblical instruction as set out below. Students taking this course must be not less than twenty-three years of age (Chinese reckoning), must be able to read fluently the Old and New Testaments in Mandarin, understand an Easy Wen-li text-book, and show some familiarity with Old and New Testament History. The following is the course of study:—

FIRST YEAR.

SPRING TERM.

5. Old Test. History (Pentateuch).
5. Apostolic History.
2. Philosophy of the Plan of Salvation.
3. Hints for Preachers (Baller).

AUTUMN.

5. Old Test. History (to Solomon).
5. Life of Christ.
5. Evidences of Christianity.

SECOND YEAR.

SPRING TERM.

5. Old Test. History (to Captivity).
5. New Testament Exegesis.
5. Elementary Theology.

AUTUMN TERM.

5. Old Test. History (to end).
5. John's Gospel.
5. Elementary Theology and Comparative Religion.

THIRD YEAR.

SPRING TERM.

5. Exodus and Leviticus.
5. Romans.
5. Natural Theology.
- Sermon outlines.

AUTUMN TERM.

5. Psalms (selected).
5. Hebrews.
5. Ethics.
- Sermon outlines.

The fees and regulations for students taking this course are as given below for the Normal School department.

NORMAL SCHOOL DEPARTMENT.

Entrance Requirements.

These are the same as for the College of Arts and Science.

Course of Study.

The Normal School course is for two years, each year comprising two terms of eighteen weeks each. The following is the course of study:—

FIRST YEAR.

5. Life of Christ and Apostolic History.
5. Chinese writing and composition.
5. Geometry.
2. Practical Physics.
2. Physiology and Hygiene.
5. Pedagogy: Normal Teaching of Primary School subjects; Theory of Teaching; History of Education, etc.
2. Drawing (Freehand).
5. English (if already learned).
- Singing.
- Drill and Games.

SECOND YEAR.

5. Expository Lectures on old Testament History.
5. Chinese writing and composition.
5. Western History.
2. Practical Physics.
2. Practical Chemistry.
5. Pedagogy: As first year, with Normal Criticism Classes in Primary School.
2. Drawing (Freehand and blackboard).
5. English (if already learned).
- Singing.
- Drill and Games.

Fees and Regulations.

All students must defray the whole cost of their board.

All fees must be paid at the time of enrollment at the beginning of each term.

Text-books and all stationery must be provided by the student.

Cases of special financial difficulty must be provided for by each of the Uniting Missions.

Students must defray their own travelling expenses, provide their own clothing, and refund the cost of any damage which may be done to college furniture, apparatus, etc.

Except in very urgent cases students cannot be allowed to return home during term time.

There are two literary societies in the school, conducted by the students themselves, providing practice in public speaking, debating, parliamentary usage. All students are expected to join one or other of these societies.

Gymnastic exercises and athletics are arranged for, in which all students are expected to take part.

MEDICAL COLLEGE.**FACULTY AND INSTRUCTORS.**

JAMES BOYD NEAL, M.A., M.D., President.
 HAROLD BALME, F.R.C.S. (Eng.), D.P.H. (Lond.).
 W. M. SCHULTZ, B.A., M.D.
 WILLIAM FIEMING, M.B., CH.B., F.R.C.S. (Edin.), D.T.M. (L'pool.).
 WU CHAO-SIANG (武兆祥)

ASSOCIATE PROFESSORS.

C. F. JOHNSON, M.D.

Besides the teaching force already arranged for, it is confidently expected that other qualified medical men, belonging to neighboring stations, will consent to give short courses of instruction to the students.

Entrance Requirements.

The same entrance requirements, either by certificate or examination, are required for the Arts College at Weihsien, for the Normal School at Tsingchowfu, and for the Medical College at Tsiuanfu.

Graduates of the College of Arts and Science may enter the second year of the Medical Course and, on graduation, receive the higher diploma of the University.

Course of Study.

The curriculum, which consists of a six years course, is divided into two parts as follows:—

I. One year of scientific study, in the Union College of Arts and Science at Weihsien, in the following subjects:

1. Physics—Experimental Lectures and Laboratory work.
2. Chemistry—Gillison's whole volume, Laboratory work in Inorganic Chemistry.
3. Biology—elementary.
4. Botany—elementary.
5. Psychology—elementary.

II. Five years of purely professional work, in the Union Medical College in Tsinan. The studies to be pursued in this course are as follows:

FIRST YEAR.

FIRST TERM.

Anatomy—First part.
Physiology.
Normal Histology—Laboratory.
Pharmaceutical Chemistry—Laboratory.

SECOND TERM.

Anatomy—Second part.
Physiology.
Normal Histology—Laboratory.
Physiological Chemistry—Laboratory.
Dissection of Animals.

SECOND YEAR.

FIRST TERM.

Anatomy—Special.
Embryology.
Physiology.
Pharmacy—Practical work.
Materia Medica.
Physiological Laboratory.
Bandaging.

SECOND TERM.

Anatomy—Surgical.
Pathology—General.
Practice of Medicine.
Pharmacy—Practical work.
Materia Medica, Therapeutics and Toxicology.
Hygiene.

THIRD YEAR.

FIRST TERM.

Practice of Medicine.
Surgery—General.
Therapeutics.
Diseases of the Eye.
Pathology—Special.
Pathological Histology.
Physical Diagnosis.
Clinic.

SECOND TERM.

Practice of Medicine.
Surgery—General.
Physical Diagnosis.
Dermatology.
Pathology—Special.
Clinical Laboratory—Blood, Urine.
Bacteriology, etc.
Laryngology and Otology.
Clinics.

FOURTH YEAR.

FIRST TERM.

Surgery—Special.
Obstetrics.
Gynecology.
Mental Diseases.
Ward Service.
Clinical Conferences.

SECOND TERM.

Surgery—Special.
Diseases of Children.
Medical Jurisprudence.
Clinical Conferences.
Ward Service.
Clinics.

FIFTH YEAR.

Medical Ethics, Ward Service, Clinical Conferences, Out-patient department, and other practical training.

Fees and Regulations.

Each student, during his five years residence in Tsinan, will be required to pay a tuition fee of five dollars per term (\$5 Mex.) in advance; there being two terms of approximately four months each in the year, making ten dollars Mexican per year. Each student sent by a Mission not participating in the Union, will be required to pay a tuition fee sufficient to cover the cost of his education, exclusive of plant and salaries of foreign teachers. This fee at present is fifteen dollars, Mexican, per term, or thirty dollars per year, payable in advance at the beginning of each term. These fees do not include board, books, travel, etc. Board costs in Tsinan, at present rates, three or four dollars a month. So it is estimated that, apart from travel, it will cost each student from sixty to seventy, or, in the case of students sent by Missions not participating in the Union, from eighty to ninety dollars per year for all expenses, including tuition, board, books, and incidentals.

For the year of preliminary scientific study in Weihsien, each student sent to the College from a Mission outside the Union will be required to pay a fee of \$54, inclusive of board. Students from the Missions participating in the Union will be required to pay a tuition fee of \$5 per term. They will also be required to provide the full cost of their board (\$25.00).

Dormitories will be furnished for the students; also kitchen accommodation. Students will be expected, however, to provide and make arrangements for their own food. All students will be expected to room in the dormitories, unless by special permission they are allowed to live outside of the College.

PRESIDENT'S REPORTS

FOR THE YEAR ENDING DEC. 31st, 1914.

1. COLLEGE OF ARTS AND SCIENCE.
2. THEOLOGICAL COLLEGE AND NORMAL SCHOOL.
3. MEDICAL COLLEGE.

COLLEGE OF ARTS AND SCIENCES.

REPORT FOR 1914.

The history of the College during the past year has been uneventful. On December 28th we graduated 96 men, of whom 53 were members of the old Sixth Class, and 43 were members of the Fourth Class. Several other students finished the course but have to make up certain conditions before receiving their diplomas. All the graduates are professing Christians.

A pleasant feature of the graduating ceremonies was the presentation (on behalf of the British and Foreign Bible Society) of a beautifully bound copy of the Bible to each graduate. The task of placing these graduates is an unusually difficult one, owing to the fact that there are very few requests for teachers or evangelists because of the universal demand for retrenchment caused by the European war.

Composition of the Student Body.

At the end of the Autumn Term, just closed, the student body was made up as follows:—

Class.	A. P. M.	E. B. M.	S. P. G.	Other Missions.	Non-Christian.	Total.
(Graduating) 6th	25	29	0	0	0	54
(Graduating) 4th	24	14	4	5	0	47
3rd	31	15	2	1	0	49
2nd	32	11	3	0	0	46
1st	26	13	0	1	2	42
Elective ...	8	6	0	13	25	52
Medicals ...	6	0	0	3	0	9
	152	88	9	23	27	299

From this table it will appear that nearly 91% of the student body are Christians, including half of the much discussed Elective Class. I may add that nearly all the remainder have applied for baptism.

Candidates for the Ministry.

We are glad to be able to report that ten or eleven of the graduating class, or say ten (10%) per cent. of the whole number, signified their desire to study for the ministry. Of the Baptists who applied, three were accepted by the Association. Of the Presbyterians, one was taken under the care of the Weihsien Presbytery and two others were placed on probation as evangelists for one year. One of our most valued young professors, also a graduate of this College, Mr. Têng Ging-sui, has decided to go to Tsingchowfu to study Theology.

Changes in the Faculty.

At the beginning of the autumn term we were glad to welcome back to the College Mr. Samuel J. Mills, from the Y. M. C. A. work in Tsinanfu. Since the close of the term we have been further cheered by the arrival of Mr. and Mrs. H. P. Lair who will probably be permanently assigned to the College. Mr. Lair was for three years connected with the Syrian Protestant College of Beirut. We are also glad to learn that the English Baptist Mission has appointed Mr. and Mrs. Comerford to the College staff.

We have suffered a severe loss in the death of Mr. Wang Han-san, who was taken on as a member of the teaching staff from the Class of 1913. He developed lung disease in the early summer and died in the late autumn, at his home near Taianfu. He was a man of scholarship and ability, of gentle spirit and of sterling Christian character. He was a candidate for Holy orders in the Anglican Church.

At the end of the autumn term we dispensed with the services of Mr. Li Huei-ch'un and Mr. Liu Yü-feng. The latter was one of our senior professors. These losses are not as serious as they would otherwise be, owing to the fact

that our last extra class under the old curriculum has graduated, leaving the number of classes to be taught reduced by so much.

Government and Discipline.

The conduct of the student body throughout the year has been excellent. There have been few cases of discipline and most of these were for minor offenses and were attended to by the Student Self-Government Council without coming to the attention of the Faculty. We are glad to record once more, our opinion that the Self-government Council is an unqualified success. The Faculty gives it strong backing and its minutes are submitted to the Faculty from time to time.

The Printing-press and Shop.

In response to the action of the Council, the press has been reduced to the barest needs of the University. Indeed English printing can hardly be done at all. Mr. Mills has been placed in charge of it. We have not yet been able to sell the machinery.

The shop is doing the usual useful work in making repairs and apparatus. It is under the direction of Mr. Feng Chwen-hsiu and Mr. Chandler, assisted by Mr. Ellison and Mr. Wang Gi-djei, separated and placed on a sound basis.

Health of the Students.

The health of the student body has been good throughout the year. Several boys were sent home with tuberculosis and there has been the usual daily quota of ailments to be looked after at the dispensary.

Military and athletic drill are compulsory. The track meet in the Spring was a great success, attracting hundreds of spectators and attended by the government schools of the city as well as by the local magistrate and other officials.

Religious Life of the College.

The religious tone of the College is very encouraging. The attendance at the Y. M. C. A. and Student Volunteer meetings has been much better than last year. Following a visit of Mr. Dadisman of the Y. M. C. A. in the Spring term, that organization took up systematic work in the surrounding villages. They have also been conducting night classes for Mission employees, as well as Sabbath Bible-classes for their fellow-students.

They have also rendered valuable service at the Presbyterian headquarters in Weih sien city. Twenty of the Elective Class and all the Chinese literature teachers have applied for baptism.

New Students.

The number of students who have just sat for our entrance examinations was not quite as large as last year and about the same proportion failed.

A table of results is herewith subjoined :

School.	Number Sitting.	Passed.	Received on Certificate.	Totals.
College Electives	23	10	0	10
Weih sien	6	1	5	6
Tsinanfu	6	0	3	3
Tsingchowfu	8	6	0	6
Beichen	3	2	0	2
Tsouping	3	2	0	2
Tsingtau	4	2	3	5
Tengchowfu	7	7	0	7
Taianfu	3	0	0	0
Pingyin	2	1	0	1
Sinyangchow (Honan) ...	1	0	0	0
	<u>66</u>	<u>31</u>	<u>11</u>	<u>42</u>

Making allowances for students taking the medical course, we can hardly expect more than 35 in the regular incoming class, and 250 students altogether. The fee for elective students has been raised from \$54 to \$64 per year.

The New Curriculum.

The Faculty has given a great deal of time and thought throughout the year to the proposed new curriculum. We have long perceived that our students spend too many hours a day in the class-room, averaging about 30 periods per week as compared with about 24 periods in other colleges in China and from 18 to 20 periods in American colleges.

We hope to introduce the modern system of "Major" subjects to be undertaken by the student in accordance with his tastes and qualifications. The new curriculum is now in the hands of the University Council.

Recommendations.

In last year's report we recommended that an effort be made to strengthen our instruction in Chinese literature. We have now placed this department under the supervision of Mr. Chou Yun-lu, as dean. There has been marked improvement already in the work of both students and teachers. Of course the root of the trouble lies back in the Middle and Primary schools.

It was decided by the Council that last year's recommendation calling for the establishment of post-graduate courses is, on account of lack of men and means, at present impracticable. There is a growing demand for just such courses fitting men for useful vocations in life, and it is to be hoped that such post-graduate courses may be organized as soon as possible.

Our Chinese friends criticize us because of the immaturity of our fourth year men. The reason is that the grade of our College still lacks from one to two years of the theoretical College standard. The only remedy is to advance our entrance requirements, throwing more and more of the lower branches back into the Middle Schools where they really belong. This can only be done in full consultation with the

• Middle Schools, and it is to be hoped that another step in this direction may soon be taken.

With humble acknowledgment of God's mercy and guidance throughout the year, I am,

On behalf of the Faculty of the Arts College,

Yours fraternally,

WM. P. CHALFANT, *Acting President.*

WEIHSIEN, January 16, 1915.

THE GOTCH-ROBINSON THEOLOGICAL COLLEGE.

REPORT FOR 1914.

We may perhaps be permitted to begin our report with a grateful acknowledgment of the valued services of the Acting-President from the Spring of 1912 to the end of the Spring term in 1914. The excellent tone now prevailing in the College is an unmistakable testimony to the efficiency and acceptance with which Mr. Burt has filled that office.

We desire also to express our sympathy with our sister College in the resignation of their president Dr. Bergen. From the time of the first meeting in 1901 of the joint committee to devise plans for co-operation in Shantung educational work, it has been our privilege to witness the labours of our friend in the cause of union, and often have we been both helped and humbled by his untiring devotion and self-abnegation. We shall miss his loving companionship and counsel, and we earnestly pray that, even if he be not permitted to return to China, he may long be spared with restored health to serve the cause he loves in his own land.

In our own college we are glad to record that, almost for the first time in our history, we have on our staff four missionary teachers. This means not less work for any one of us, but that we have been able to take a larger share in the work of the Normal School. We deeply regret that we are still deprived of the help and fellowship of our colleague Dr. Chalfant, who was appointed temporarily to the Arts College in the absence of Dr. Bergen. It is very desirable that we should have two representatives of the Presbyterian Mission on our staff, and we trust that the arrangements to be made for the Arts College may permit of our friend returning to us and to the work for which he is pre-eminently fitted.

The year 1914 began with a total of 130 students, and closed with 121, with an average attendance of 125, distributed as follows:—

Theological Department	23
Normal School	82
Bible Institute	17

From the Theological Department eleven students, a record number, have graduated this year. Of these, 8 are Presbyterians of whom five have been called to pastorates in the Weihsien, Tsinan, Tsining, and Chu Cheng fields; and the other three have been appointed evangelists in the Ichowfu, Yihsien, and Chefoo districts. Of the three Baptist students graduating this year one has been appointed Missionary of the Chinese Baptist Home Missionary Society, and is working at Puchi an important city between Choutsun and Tsinan; and the other two have been called to pastorates in the Northern and Southern Associations of the Baptist Church.

A noteworthy feature in the class-work of the year is the introduction of New Testament Greek into our course. It is too soon yet to speak of results, but Mr. Burt who has taught this subject has found the experiment distinctly encouraging. Coming to the subject as they did without any previous knowledge of the Greek alphabet or grammar, and without the help of the English language as a medium, the students naturally found their progress slow and difficult; but those who persevered have had their reward in a thorough mastery—by the inductive method—of the first three chapters of the gospel of St. John. We look forward with keen anticipation to the future development of this branch of our work.

The rest of the studies in this department have followed the same lines as in previous years. They include:—Church History (to the Reformation) and Homiletics under Dr. Hayes; New Testament Exegesis under Dr. Hayes and Mr. Burt; Old Testament Exegesis and Biblical Theology under Messrs. Burt and Bruce. Mrs. Hayes also took a class in

English New Testament. Two Sermon-Criticism classes have been held weekly, conducted by the above mentioned three members of the staff in turn. We have to confess that the quality of preaching is not as high as we could wish. While some students show marked ability, others are lacking both in originality of treatment and power of illustration. We trust, however, that this is only a passing phase.

In the Normal School this year there is also a record number of graduates, namely 47. The increase is due in part to the recent change in the curriculum, by which the standard of entrance has been raised and the length of the course reduced to two years. The average attendance for the year is 53 in the senior class and 32 in the junior.

The revised curriculum has been faithfully adhered to throughout the year. Chemistry and Physics with laboratory instruction have been in charge of Mr. Fisk with the assistance of Messrs. Chen and Gi. Astronomy has been taught by Dr. Hayes; Psychology and Logic by Messrs. Swen and Feng; and Scripture by Messrs. Burt and Liu. Blackboard Drawing and Practising Classes in Pedagogy, including a special class on the methods of teaching elementary school subjects, have continued to be a prominent feature of the course. The whole of this branch of the work has been under Mr. Fisk's guidance who has himself given the lectures on the Theory and Practice of Teaching.

In obedience to the instructions of the Council all students in this department have this year had the opportunity of studying English. We are glad to report that the result of our first year's experience is encouraging. The study in itself is an education in a direction all the more needful now that the study of Chinese literature is relegated to a subordinate position. We believe also that if the preparatory work in the middle schools is developed, and the continuation of its study in our colleges is on right lines, the knowledge of English we shall be able to give to our students will be valuable to them,

not merely as a commercial asset, but as opening the door to wider knowledge that would otherwise be possible.

In the Bible Institute department the work has followed the authorized curriculum, and has been almost wholly in the hands of Mr. Liu whose work in this direction has been specially valuable.

Dr. Hayes has continued his literary work with the same indefatigable energy as in previous years. The tale for 1914 includes the revision of his books on Homiletics, and Church History and the "Philosophy of the Plan of Salvation," the last-named having now reached its fifth edition. In addition to these the Presbyterian Catechism and Hymnal have been revised and the latter enlarged.

We gratefully record that the year has been marked by an excellent spirit pervading the whole college. Students have given a ready obedience to their teachers both in the classroom and out. In the Normal school the tone is perceptibly higher than in former years. This doubtless is due to the fact that the students, instead of coming in the majority of cases from the elementary schools, now come to us from the middle schools with all the advantage which the habits of discipline there formed mean for them in the later stages of their education.

But the spirit prevailing throughout the college is due in large measure to the series of services conducted by Mr. Goforth in the City Church during the Spring term. Accounts of these meetings have been published in the *Chinese Recorder* and elsewhere and it is not necessary to repeat what has already been said more fully than is here possible. But we cannot refrain from expressing our gratitude to God for the permanent benefit received, as evidenced in the tone of the student life in all departments which we find now existing. The meetings were followed up and the work deepened by a series of special Bible Studies every evening for the remainder of the term, by Dr. Hayes and Mr. Burt. Dr. Hayes' subject

was the Book of Judges and Mr. Burt's the Death and Resurrection of our Lord, including a detailed exposition of the Seven Words from the Cross. This work imposed a heavy additional strain upon our brethren but it was cheerfully borne in view of the undoubted good that was achieved. One marked result of the meetings was seen in the quickened fervour of the students in their Sunday evangelistic work both in the city and in the surrounding villages.

We must not close our report without reference to the Fund raised for the removal of the College to the capital at Tsinan. We would again record our thanks to the generous donors who have made this step possible. The fund now stands at £6,700, and £1,300 only is needed to complete the sum for which we are appealing. We have no doubt that had it not been for the war now raging in Europe this sum would have been raised by now. We are thankful that even with the money now in hand the forward movement so long contemplated can at least be begun.

The review of the year calls for deep gratitude. Especially do we desire to record our thankfulness for the peace and quietness in which we have been permitted to pursue our task, notwithstanding the fact that the war in the distant West has come so close to our own doors. It can hardly be expected that this, perhaps the greatest event in the history of centuries, can leave us wholly unaffected. We who for the ten years of our union work have had to adjust ourselves to so many new situations, startling in the suddenness of their development, may now have to face new problems of which as yet we cannot even form a guess. None the less we go forward confidently and with high hopes knowing that He who has led us in these past years with such unmistakable signs of His over-ruling hand will "still lead on."

UNION MEDICAL COLLEGE.

REPORT FOR 1914.

The chief interest of the past year, aside from the regular work of the institution, has been the erection of the new buildings which were provided for in the grant by the Baptist Missionary Society of London of six thousand pounds sterling, and the gift of a thousand dollars gold from Mrs. Keator of Philadelphia.

With the former sum we have erected a new Hospital, with accommodations for a hundred patients, which will be ready for occupancy we hope next June, and a commodious Out-patient Department, which will be occupied early in the year, besides laying the foundations for an additional dwelling house to be occupied by Dr. and Mrs. Fleming: with the latter sum of a thousand dollars gold we have erected a Dining and Reading Room for the students, which is a great addition to their comfort.

All the above buildings will be described more in detail in the report which we hope to issue in the middle of next year, after the formal dedication of the buildings has taken place, and after the new Hospital and Out-Patient Department have become part of our working plant.

Notwithstanding the great amount of building which has been going on all through the year, and the dislocation involved in the tearing down of our old O. P. building and a number of rooms formerly occupied by patients, the regular work has proceeded from day to day much as in former years. By renting a Chinese house outside and transferring our daily medical work to that place we were enabled to continue that as usual, and by giving up two of the rooms in the college building to women patients, in addition to the two rooms on the ground floor already given up to men patients, we have been able to continue our in-patient work, though greatly hampered for room.

During the year a steam heating plant has been installed in the College Building, which adds immensely to the comfort of all who have to work or live in the building. Never have we enjoyed such comfort in cold weather as we have had since the steam was turned on. From our experience with this heating plant we are very much in hopes we shall be able to install a similar heating plant in the new Hospital building before another winter comes on, though at present the money is not in sight.

In September Miss Logan began the regular training of a class of three young women in nursing, all of them graduates of the Girls' High School in Tsingchowfu. They, together with Miss Logan, occupy two rooms on the top floor of the college building, which insures this building being used to its utmost capacity until we can move into the new hospital quarters. The three girls are very nice young women, who seem to be doing well in their studies and in their daily work, and who will be a great addition to our staff.

The College Department.

As intimated above, while the medical work has been more or less hampered by the building operations, the regular work of training the medical students has gone on as of old. For the first time in the history of the institution there have been five regular classes under instruction. The second year class, however, consisting as it does of only two men, has not been carried on as a separate class, except in one or two instances, but has received its instruction with the first year men and with the third year boys. This has somewhat reduced the labor and virtually made the number of classes only four. With the opening of the spring term a new class of twenty-three young men entered, all of whom had spent a year in preliminary study in Weihsien or had graduated there in the Arts Department. This influx just doubled our

numbers, bringing our total enrollment up to 46. During the year three of these newcomers, for one and another reason, have dropped out, so that we close the year with 43 on our rolls, of whom we hope to graduate the first class early in January. The senior class consists of seven students but how many of these will succeed in passing the final tests remains to be seen.

Owing to the large size of the incoming class it was necessary to divide it into two sections for work in the laboratories, so that throughout the year both the laboratory of histology and the laboratory of physiological chemistry have been in constant use, half of the class spending two hours and a half each morning in one or the other of these laboratories. In anatomy however they were taught together, and seem to have done very good work. On the whole we are pleased with the prospects of this new class, though two or three of them may have to be dropped at the end of this present term, owing to lack of mental ability, not to lack of application, as they all seem diligent enough in the prosecution of their studies.

The more advanced classes have all shown increased interest in their work, especially the senior and junior classes, who have been most useful in the daily medical and surgical work, and in the operating theater, and who seem to be developing a really serious medical spirit. The spirit and temper of the school, so far as appears on the surface, has been excellent, and we have not been compelled to exercise discipline in any case whatever.

The regular Y. M. C. A. has been kept up, and on Wednesday and Saturday mornings the students have again had the advantage of listening to a half hour talk by Rev. Frank Harmon, whom we have again to thank for the kindly interest he has thus displayed in the students. Some of the boys have taken a part regularly in the evening services in the wards and have shown an interest in the religious welfare of the patients.

So far we have been able to provide dormitory room for all the students without much trouble, especially since the completion of the new dining room and kitchen, which has relieved the pressure upon the two dormitories considerably, but as soon as our numbers run up over fifty, as is likely to be the case within the next year or two, we shall find it necessary to build an additional dormitory, for which we sincerely hope the funds may be forthcoming when the necessity arises.

We rejoice in being free from all trouble in connection with the food of the students, this vexatious matter being managed entirely by them and at their own expense, the management of the college having nothing whatever to do with it, except to provide kitchen and dining room quarters. Most of the students have arranged a mess and their food during the past autumn has cost them on the average 8,500 cash, equal to approximately three dollars Mexican, the total number in the mess being 38.

On the whole we feel very happy over the work with the students during the past year, despite the fact, which we recognise more and more clearly that the present staff of the school is quite inadequate to accomplish the work we wish to do. This defect however we look forward with confidence to seeing remedied in the near future.

Hospital and Out-Patient Department.

Notwithstanding the fact that we have been seeing daily patients in rented quarters, quite away from the more thickly built up part of the suburbs, the total of daily visits amounts to more than five thousand beyond the record of last year, namely 36,268, as compared with 31,005 in 1913. The record of new patients is however below last year's. The hospital record naturally is below that of 1914, owing to our cramped accommodations. Overleaf are the medical statistics for the year 1914:

Surgical Dispensary :

New patients 3,863, divided as follows ;

Male	2,758	
Female	1,105	3,863

Return visits, as follows ;

Male	11,804	
Female	3,923	15,727
		19,590

Medical Dispensary :

New patients 3,856, divided as follows ;

Male	2,213	
Female	1,643	3,856

Return visits, as follows ;

Male	3,467	
Female	2,115	5,582
		9,438

Eye Dispensary :

New patients 1,850, as follows :

Male	1,274	
Female	576	1,850

Return visits, male and female

		2,193	4,043
--	--	-------	-------

Skin Dispensary :

New patients 1,736, as follows :

Male	1,186	
Female	550	1,736

Return visits, male and female

		1,461	3,197
--	--	-------	-------

Total attendance at all dispensaries	36,268
--------------------------------------	-----	-----	--------

Hospital In-Patients	148
----------------------	-----	-----	-----	-----

Out-calls, approximate	60
------------------------	-----	-----	-----	----

Operations : Under general anesthetic	153
Local anesthetic, or nil	694

Respectfully submitted,

JAMES BOYD NEAL, *Dean.*

BASIS OF UNION IN EDUCATIONAL WORK IN SHANTUNG.

Adopted 1904. Amended 1909.

With grateful acknowledgement of God's goodness and mercy extended to us in the past, and with prayer for His continued blessing upon our work, we, the members of the American Presbyterian Mission and of the English Baptist Mission in Shantung agree to unite in organising three colleges, namely, an Arts College at Weihsien, a Theological College at Tsingchowfu, and a Medical College at Tsinanfu, subject to the provisions hereinafter set forth.

We also invite other evangelical Missions in Shantung or adjacent provinces to enter this Union, either fully or partially, subject to the same provisions.

ARTICLE I.—NAME.

The United Colleges shall be styled "The Shantung Christian University."

ARTICLE II.—AIM AND POLICY.

Section 1. The aim of the United Colleges shall be first and foremost the furtherance of the cause of Christ in China.

Section 2. The purpose of the Arts College shall be to give a liberal education of a distinctively Christian character to young men chiefly from Christian families.

Section 3. The purpose of the Theological College shall be to provide theological training for pastors and evangelists ; the instruction given therein shall be in accordance with evangelical truth.

Section 4. In connection with the Theological College there shall be a preparatory course of study for those who need it and a Normal School for training of elementary school

teachers. In so far as special denominational instruction is required, it shall be separately provided for by the respective Missions.

Section 5. The purpose of the Medical College shall be to give a medical education, under distinctively Christian influence, to young men chiefly from Christian families.

Section 6. Apart from the teaching of foreign languages, the medium of instruction in the University, shall be the Chinese language.

ARTICLE III.—MANAGEMENT.

The Colleges shall be under the management of a University Council, which shall be elected by the uniting Missions and responsible to them, and shall be under the ultimate control of the Home Boards and Societies of the said uniting Missions.

ARTICLE IV.—CONSTITUTION OF THE UNIVERSITY COUNCIL.

Section 1. The Council shall consist of representatives of (a) those Missions taking full share in the Union and (b) those Missions taking part share in the Union, as follows:

Each Mission taking full share in the Union, i.e., providing at least one foreign teacher, together with residence (see Article VII Section 4) in each of the three Colleges, taking its proportionate share in current expenses (see Article VIII Section 2), and providing for the increased cost of University property involved in its entering the Union (Article VII Section 5), shall appoint three members of the Council who shall serve for three years, one to retire annually and his place to be refilled. In the first election one shall be chosen for one year, one for two years, and one for three years.

Any Mission entering the Union in respect of two only of the constituent Colleges, i.e., providing at least one foreign

teacher, together with residence, in each of two Colleges, taking its proportionate share in the current expenses of the two Colleges and providing for the increased cost of property involved in its entering the Union, shall appoint two members of the Council.

Any Mission entering the Union in respect of one only of the constituent Colleges, i.e., providing at least one foreign teacher, together with residence in such College, taking its proportionate share of the current expenses of the College, and providing for the increased cost involved in its entering the Union, shall appoint one member of the Council.

In cases where it is so desired by the Mission entering the Union, or by the Council, a financial equivalent may be arranged for in lieu of a resident foreign teacher, such financial equivalent to be agreed upon in consultation with the Council.

Section 2. Members of the Council shall be entitled to vote only on matters directly pertaining to the colleges in respect of which the Missions appointing them enter the Union.

Section 3. The President of each College and two members of the Faculty, one Chinese and one foreign, elected annually by the Faculty as its representatives, shall be allowed to attend the meetings of the Council and vote on all matters coming before the Council, with the exception of appointments to teaching staff and estimates of University expenditure.

In the election of faculty representatives only members of the Faculty who have been on the field at least five years shall be eligible, and due regard shall be given to the desirability of the uniting Missions being equally represented.

Section 4. Whenever a member of the Council is absent on furlough, he shall be considered to have resigned, and his Mission shall at once elect a successor to complete his unexpired term.

ARTICLE V.—MEETINGS AND FUNCTIONS OF THE
UNIVERSITY COUNCIL.

Section 1. The Council shall meet for general business at least once a year.

Section 2. Two-thirds of the members of the Council shall constitute a quorum for the transaction of business, and no motion shall be declared carried unless two-thirds of the entire Council vote in the affirmative.

Section 3. Full minutes of all meetings of the Council, and all reports of work, shall be presented without delay to the Home Boards and Societies and to the secretaries of the Missions on the field.

Section 4. The Council shall elect all foreign members of the teaching staff, but the election of presidents shall be endorsed by the Home Boards and Societies. Candidates for positions on the teaching staff of the Theological College to be eligible must represent one of the communions participating in the said College, and their election on the teaching staff, before becoming final, must require confirmation by the Mission which they represent, in such manner as that body may elect, failing which their election shall be null.

Section 5. The Council shall consider and decide upon the curriculum of each College, which shall be submitted by its president on behalf of the Faculty.

Section 6. The Council shall consider and pass upon the estimates of college expenditure, which shall be prepared and presented by the Faculty of each College; shall determine the share to be borne by each Board and Society; and shall forward the estimates to the said Boards and Societies.

Section 7. The Council shall receive applications for entrance into the Educational Union, and shall enter into negotiations with the mission applying. Any preliminary agreement which they may arrange shall then be submitted to

the Mission concerned for their approval, as specified under Article IX.

Section 8. All the acts of the Council shall be subject to the review and control of the Home Boards and Societies.

ARTICLE VI.—TEACHING STAFF.

Section 1. The Teaching staff of the University shall consist of :

(a) The President and Professors of each college appointed by the Council and consulting the Faculty.

(b) Associate professors and lecturers appointed by the Council.

(c) Chinese instructors appointed by the President in consultation with the Faculty and subject to the endorsement of the Council.

Section 2. The Missions taking full share in the Union shall be, as far as possible, equally represented on the teaching staff of each college.

Section 3. No member of a Faculty shall be eligible for election by a Mission or a Church as its representative on the Council.

ARTICLE VII.—OWNERSHIP OF COLLEGE PROPERTY.

Section 1. The initial plant of the Arts College at Wehsien shall remain the property of the Board of Foreign Missions of the Presbyterian Church in the United States of America.

Section 2. The initial plant of the Theological College at Tsingchowfu shall remain the property of the Baptist Missionary Society in London.

Section 3. The initial plant of the Medical College at Tsinanfu shall remain the property of the Baptist Missionary Society in London.

Section 4. Each Board or Society shall provide residences for its own representatives on the Faculty, either by building its own houses or by payment of rent as may be arranged in consultation with the Council.

Section 5. While it is not made a condition of entrance into the Union that the uniting Missions should contribute to the cost of existing University property, plant, or equipment, nevertheless each Board or Society shall provide for the increased cost of such property as is involved by its entering the Union, the amount of this increased cost to be determined by the Council.

Section 6. Any additional property or plant which may be contributed to the respective colleges by any of the uniting Missions shall be vested in the Board or Society providing it.

Section 7. In case of any Mission withdrawing from the Union, the Board or Society owning the initial plant shall have the option of purchasing the property of the withdrawing Mission.

Section 8. Any endowment shall be vested in the Board or Society raising it, and the income thereof shall be applied to the expenses or equipment for which that Board or Society is responsible.

ARTICLE VIII.—FINANCE.

Section 1. The salaries of the foreign teachers shall ordinarily be paid by their respective Boards and Societies.

Section 2. The current expenses of each college shall be shared by the uniting Boards and Societies in proportion to the average number of students sent by each Mission. Current expenses shall be defined to include travelling expenses of Council and of Faculty in attendance on Council meetings, repairs and upkeep of apparatus, salaries of Chinese teachers, heat, light, attendance, and such other items as the Council may determine. All cost of repairs and upkeep of property shall be borne by the owner.

Section 3. The distribution of items of expense other than those already mentioned in this article, shall be determined by the Council.

Section 4. The uniting Missions, heartily approving the principle of self-support, urge the Council to extend its application as far as practicable.

ARTICLE IX.—ADMISSION TO THE EDUCATIONAL UNION.

A. Mission desirous of entering the Educational Union, with respect to any or all of its Colleges, shall make application for admission to the University Council, with which it shall negotiate a preliminary agreement that shall be submitted by the Council to those Missions which are members of the Union in respect of the College or Colleges with which it desires to unite. The approval of a majority of those Missions and of the Boards and Societies concerned shall be necessary for admission to the Union.

ARTICLE X.—AMENDMENTS.

Section 1. Amendments to the agreement may be made on the initiative either (a) of the University Council, (b) of any of the uniting Missions, or (c) of any of the Home Boards or Societies, provided that such amendments receive a three-fourth majority of the Council voting in the affirmative, the approval of three-fourths of the uniting Missions on the field, and finally the ratification of the Home Boards and Societies having a full share in the Union.

Section 2. In the event of any Mission desiring to withdraw from the Union, notice of not less than two years shall be given to the other Missions.

RULES OF PROCEDURE AND ORGANIZATION OF THE UNIVERSITY COUNCIL.

I. The officers of the Council shall be a chairman, a vice-chairman, and a secretary and treasurer in one person, who shall be elected annually.

The duties of the chairman and the vice-chairman shall be those usually pertaining to those offices.

The duties of the secretary and treasurer shall be to keep the records of the Council meetings, to forward the reports required by the Basis of Union to the Missions, to the Committee in London, and to the Board in New York; to issue notices at the instance of the chairman; to draw bills on the Home Societies, pay out to the college treasurers all monies required by the respective colleges, except personal allowances, co-ordinate the accounts, present them in one statement to the University Council at its annual meeting, and then forward them to New York and London.

II. There shall be one regular annual meeting of the Council the date of which shall be fixed at the previous annual meeting.

Special meetings of the Council may be called by the chairman upon the written request of half the number of members. A month's notice shall be given, specifying in writing the business to be considered, except in cases of emergency, and no other business shall be considered.

III. The following power and duties are recognized as belonging to the Council:

1. Those directly specified in Basis of Union.

(a) To elect all members of the teaching staff.

(b) To determine the curricula of the college.

(c) To pass upon estimates, apportion expenses between the Baptist and Presbyterian Societies, and to forward estimates to London and New York.

(d) To propose amendments to the Basis of Union.

2. The following implied powers:—

(e) To review the minutes of the formal meetings of the foreign teaching staff of each college.

(f) To audit the accounts of each college.

(g) To pass upon all general regulations devised by the faculties for the management of the institutions.

IV. The standing Committees of the Council shall be:—

1. A Finance Committee, which shall consist of two members. The duties of the Finance Committee shall be to receive and consider estimates, and if necessary confer with the faculties concerning them before the meeting of the Board; to present estimates to the Board; and, after appropriations have been made in London and New York, to authorize transfers within the total of the appropriations.

2. An Auditing Committee, which shall consist of two members. The duty of the Auditing Committee shall be to audit annually the accounts of each of the colleges.

V. The President of each college shall present annually in writing a report on the work of his institution for the past year, which shall be based upon individual reports from the professor in charge of each department as to his work and its results, and such a report shall also include a general report from the President relating to the quality of class work, religious life, moral tone, and physical health of the students, cases of discipline, prospective occupation of graduating class, and such other matters as the President may consider necessary.

The foreign teaching staff of each college shall appoint a registrar, whose duty shall be to keep records showing where the students come from, whether Christian or non-Christian, character and attainments while at college, their settlements after leaving it, and any other items which may seem desirable.

VI. Each institution shall have a local treasurer appointed by the University Council on the recommendation of the

Faculty, who shall keep the college accounts and be responsible for the same to the University Council.

VII. The permanent order of business for Council meetings shall be :—

1. Minutes of last meeting.
2. Election of officers.
3. Ad interim communications received by the secretary.
4. Report of Committees: (a) Standing; (b) Special.
5. Unfinished business.
6. New business.

Statement of the Facts and Causes of the Student Rebellion in the Arts College of the Shantung Christian University, June 12-13, 1915.

The Faculty of the Arts College feels that it is due them to make a statement in Chinese and English of the circumstances of the recent student rebellion which prevented the regular examinations at the close of the Spring term and resulted in the summary dismissal of the College.

The Chinese statement together with copies of the "Petition" of the student body and the set of secret rules adopted by the student body for the conduct of the "revolution" have already been sent to the homes or to the patrons of the students.

The Spring term opened in February with 208 students and things went as smoothly as usual except for trouble in connection with the food accounts. All the food money paid in by the students is handed over to them from time to time to be administered by a committee appointed by them from their own number and responsible to them. In the winter vacation it came to the knowledge of the Faculty that the Food Committee had been dishonest in administering these funds in the preceding term, especially in the way of lending the money out to fellow students.

The deficit thus created was found to be about \$700. It was felt by the Faculty to be absolutely necessary that the students eating from the common kitchen should be required to meet part, at least, of this deficit which they could, without the least hardship, do by exercising a little economy and, after thorough consultation with them and a careful exposition of the whole matter in the presence of the student body by the Treasurer and the senior Chinese teacher, it was decided that the students should undertake to meet \$300 of the deficit, the College undertaking to collect the out-standing debts or shoulder the inevitable shortage.

Many of the students felt that this was unjust, for various reasons or no reason at all. Toward the end of the term they represented that unless they had extra good food they could not stand the strain of examinations. The Faculty appointed a committee who carefully went into the matter with them and showed them that they had money and provisions enough to see them through without cutting down their allowance of food below the average of the term. The Faculty thereupon directed Mr. Mills the treasurer to inform the food committee that no more money could be advanced on that account. Although this matter of the kitchen account is not mentioned in the seventeen demands of the students' "Petition", it was

amply shown in the evidence that the report of the Food Committee precipitated the rebellion. That report was made to the student body on Friday, June 11, at 2 P. M. and that night a mass-meeting of the students was held in the church after prayers when the "Petition", already draughted, in the main, was adopted. Next morning, June 12, it was handed to the Acting President at morning prayers by the President of the Self-Government body, Mr. Wang Lien Yao, the students rising to acknowledge it as their own. The Teaching Staff met at 8:30, A. M., as usual, and the petition was read and found to be so preposterous in its demands and so arrogant in its tone that there was no alternative but to ignore it and prepare for the worst. It was in the form of an ultimatum which expired at 11 A. M.. At eleven o'clock the Teaching Staff met again and sent for the president of the Self-government society. He refused to come. We then sent Messrs. Rankin and Liu Fu Tseng to make sure that the message got to its destination. Meanwhile the students had met in the church. When our envoys arrived they found the doors guarded by students who denied them admittance. Mr. Rankin tried to force his way in and there was a scuffle, after which the teachers came away. The students then posted guards armed with sticks and by night the entire College was in their hands, including the bell-tower.

We made every possible effort, direct and indirect, to get into touch with the students, but in vain. No student was permitted to come to us and guards were stationed outside the houses of the Chinese teachers who became virtually prisoners. After dark, hostile demonstrations were made at the homes of certain of the Chinese teachers. At halfpast ten P. M., one of the Chinese teachers who had been attempting to secure the names of the leaders was set upon in his room and only saved from a beating by the presence of Mr. Judd who shielded him by standing in the door. However, the window was smashed in. Thereupon the foreign men of the compound were assembled and proceeded to the square north of the Main Building which was full of excited students many of them armed with heavy sticks and all yelling and reviling. Our appearance cowed them somewhat and we finally persuaded them to disperse. Early next morning (Sunday) the foreigners took the matter in hand and sent for the Magistrate and Military. A couple of deputies came out and sent their cards to the leaders who curtly refused to come

whereupon one of the men went back to the city and, late in the afternoon, the Magistrate and the Cominandant of the city garrison came out with some thirty soldiers and policemen. The Magistrate sent for the student leaders but they returned word that they were holding a meeting and could not come.

Shortly afterward they invited the Magistrate and the Acting President "but no others" to come down and "instruct them". The undersigned did not think it proper to go in response to such a summons but the Magistrate and Commandant went down and held a long conference with the students inviting them to air their grievances. Meanwhile we made out a list of sixteen of the ring-leaders who were summoned out of the church by the soldiers and placed under arrest. The Acting President then proceeded to the church and announced that the College was dismissed and that all students not detained must leave by nine o' clock next morning.

On Monday morning fourteen or fifteen more students were arrested so that, in all, about thirty were detained. It was decided that I should ask Mr. Ralph Wells and Mr. Wang Yuen Dei, resident members of the University Council, to constitute, with me, a committee of investigation.

We worked hard for two days examining not only the students but the Chinese members of the Faculty, thus gaining much light upon the whole situation.

It proved to be a thoroughly planned rebellion to which the leaders took care to commit the entire student body. It appeared that they had several grievances. All united in saying that the trouble over the kitchen account was the immediate occasion of the uprising but they had sundry complaints, of long standing, against certain members of the Faculty, foreign and Chinese. They were especially resentful against two or three of the Chinese teachers who have been accustomed, it seems, to scant their class-room work and to scold the students in unmeasured language. I may say that my attention was called, some months ago, to the fact that some of the Chinese teachers were in the habit of dismissing their classes prematurely and I took occasion to speak plainly on the subject at a meeting of the Teaching Staff after which there was much improvement but I feel that I might have done more along this line.

The real trouble is that the majority of the Chinese teachers have not the wide knowledge and the pedagogical ability to enlarge upon the text-book.

It abundantly appeared that one of the chief causes of the trouble was the delay in improving the curriculum. The students feel that the present four years' course is entirely inadequate. The Faculty of the Arts College has

been alive to this fact for two years past and has tried its best to secure the adoption of a revised curriculum but the matter is still in the committee stage in the Council.

The students also feel that two or three of the younger foreign teachers have been, in a few instances, too arbitrary in dealing with the students. Most of these complaints are based on mis-conceptions for the teachers were simply carrying out what the Faculty had ordered.

Back of all undoubtedly lay the disappointment and soreness created by the failure of so many of the last graduating class (95 men) to secure places or, at least, places with high pay. Some of the boys seem to have thought that it was of no use to go on to graduate but that it would be better to leave the College and, following the familiar anarchical impulse, to injure the institution as much as possible in doing so.

Allowing a day or two to elapse so as to permit personal feeling to subside as much as possible and to get further information, the entire Faculty met on June 18 and, by secret ballot, voted on the punishment to be meted out to the ringleaders. The result was that seventeen men were expelled and thirty-three suspended "for at least one year". In other words, more than a quarter of the student body are "sent down", among them being the best men in the College, especially in the Third and Fourth classes. The rest of the students will be permitted to return on the 9th of September on condition that they bring with them written guarantees from pastors or church officers promising good behavior and that they are ready to apologize to the Faculty.

Of course it has been impossible to draw fine distinctions and, probably, in a few cases, it will be felt that students have been punished too severely or have got off too lightly. But all were palpably guilty of insubordination in its worst and most dangerous form as will abundantly appear from a perusal of the English translation of the "Petition" and the code of secret "Rules" hereto attached. No halfway measures would suffice. I have had some acquaintance in past years with the Chinese mob spirit and I bear witness that the posture of affairs on the night of June 12 was perilous in the extreme. Not only were clubs brandished with yells of "Beat! Beat!" but several heavy stones were thrown one of which struck Mr. Wells upon the arm. It was a mercy that no one was injured and no valuable property destroyed.

I am

Yours fraternally,

Wm. P. Chalfant

Acting President

Translation of the students' petition.
(Grandiloquent preface omitted)

1. The Teaching staff should not arbitrarily expel students but should present the facts for the decision of the student body.
2. The Teaching staff should permit the students to have a share in deciding all matters in the College.
3. The Faculty (proper) should also allow the students to discuss matters with them.
4. The students should have the power to decide which teachers should be retained and which should be dismissed.
5. All the students are to be permitted to study English without extra fees.
6. In recitations a professor is not unreasonably to reprove a student.
7. Examination grades should be given with impartiality and in the case of test examinations marks should be read out and students should have the power to discuss and rectify them.
8. Athletics should be changed to proper military drill.
9. The curriculum should be improved in order to raise the standard of scholarship of the students and the students should have power to select what text-books they should use.
10. The students, along with the Council, should have power to elect the President of the College.
11. The students must have power to help in arranging the curriculum.
12. Post-graduate courses must be opened quickly in order to raise the standard and no extra tuition shall be charged therefor.
13. The Special Class shall be allowed to select subjects at will.
14. The students should not be compelled to ring the bell.
15. Mr. _____ is not to be permitted to usurp the power to exercise discipline and grant excuses. (Note. The teacher (a foreigner) in question, was appointed by the Faculty to grant excuses and, later, to be Chairman of the Discipline Committee and, apparently, did his work only too well!)
16. No delay is to be made as to the acceptance or rejection of petitions sent in by students to the Faculty.
17. The above articles must be decided upon between nine and eleven o' clock (June 12) and that time must not be exceeded.

Translation of the Code of Secret Rules
governing the " Revolution. "

1. Whoever reveals the secret measures now taken by the student body shall be treated " by force of arms " (" Wu li dwei dai ").
2. Any student who is unwilling to join the student body in the proposed measures shall be treated " by force of arms. "
3. If any student be expelled for this affair all the student body shall stand together.
4. If the Teaching Staff do not grant and sign the seventeen articles of the " Petition " they shall be treated " by force of arms. "
5. All shall strictly obey the orders of the student body on pain of treatment " by force of arms. "
6. If any student shall attend the examinations he shall be treated " by force of arms. "
7. No one shall prepare lessons from June 12 for one week (i. e. examination week).
8. If anyone do not attend the meetings of the student body he shall be treated " by force of arms. "
9. Anyone giving information as to who were elected to any post by this body shall be treated " by force of arms. "
10. Any teacher interfering with the student body shall first be reprovved and then, if he persevere, be treated " by force of arms. "
11. If after the student body shall have decided when they are to leave for home, any student stay behind, he shall be treated " by force of arms. "
12. If any student indulge in talk in the dormitories tending to dishearten the student body, he shall be treated " by force of arms. "
13. If any student elected to any post on this occasion refuse to serve or surreptitiously make his escape for home he shall be treated " by force of arms. "
14. Anyone having a valid reason for going home must get an excuse from the student body.
15. The student body will bear all expenses connected with this period of revolution.
16. In every place branch societies, each with a President, shall be formed and no one shall return to College without permission.
17. Every one disobeying these rules shall be locked in his room and treated like a prisoner.

The following is a list of the students "sent down":
 Seventeen men were "expelled forever"
 ("yung yuen gei chu"):

HISTORICAL NOTE.

The Shantung Christian University consists of three colleges at three important centres of the province, viz; **The College of Arts and Science at Weihsien, The Gotch-Robinson Union Theological College at Tsingchowfu, and The Union Medical College at Tsinanfu.**

While the Colleges of the University are at present established at these three centres, plans are in progress for concentrating the work of the University at the provincial capital, Tsinan, where the Medical College is already located. The property of the Colleges at Weihsien and Tsingchowfu is needed for other mission purposes. The union of the University work at Tsinan will form an epoch in the history of higher Christian education in Shantung, facilitating a wider educational union amongst the Missions of the province, leading to increased economy and efficiency, bringing us into contact with the most influential Chinese and placing us at the junction of the two important railways of the province.

The University was established by the American Presbyterian and English Baptist Missions, and is governed by a representative Council subject to the ultimate control of the home societies. Other Missions of Shantung and contiguous provinces are cordially invited to enter the Union, either wholly or in part, on terms of equality with the original uniting Missions. Some of the Missions are now negotiating with this in view, and it is hoped that ultimately our union may include all the Protestant Missions of the province.

The College of Arts and Science has been formed by a union of what was known for many years as the Tengchow College, situated at Tengchowfu, and the Tsingchow High School (Gwang Deh Shu Yüan) of Tsingchowfu. The Tengchow College, founded by the late Dr. C. W. Mateer, in 1864, which continued long under his direction as president,

and later under that of Dr. W. M. Hayes, has sent its graduates into many of the provinces of China as teachers and evangelists. The fact, together with the text-books prepared by Dr. Mateer, Dr. Hayes, and other members of the faculty, has made the College widely known as an institution where a thorough Christian and scientific education is given. The Tsingchow High School, for many years under the charge of Rev. S. Couling, M.A., assisted by Mrs. Couling, has been characterized by high ideals, strict discipline, and thorough instruction.

These two institutions were united in 1904 to form the College of Arts and Science, the buildings being erected by the Presbyterian Mission, both Missions being represented on the teaching staff.

As indicated in the Basis of Union, the aim of the College is, "To give a liberal education of a distinctively Christian character to young men, chiefly from Christian families." As a result of these principles there are at present studying in this institution 200 young men of college grade (there being no preparatory department), who with few exceptions are Christian.

Comparatively few of these young men stop short of graduation to engage in commercial pursuits. There exists a strong ambition to win the diploma and afterward to live for spiritual and intellectual aims as pastors, evangelists, teachers, or literary assistants. It is highly gratifying that no inconsiderable proportion of them have successfully discharged the responsibility of leadership for which they were trained.

The Gotch-Robinson Union Theological College originated in the Theological Training Institute commenced in 1885, in rented premises at Tsingchowfu, by the Rev. J. S. Whitewright of the English Baptist Mission.

After a five years' course six students were ordained pastors, of whom three still remain in active service, honoured

by all who know them for their many years of faithful work. In 1887 a Training School for elementary school teachers was added. In 1893 the institution was transferred to its present home in the southern part of the city, and considerably enlarged. New buildings to accommodate sixty-four students, with chapel and museum, were erected by the generosity of Mr. and Mrs. Edward Robinson of Bristol, in memory of their parents, Dr. Gotch and Mr. Elisha Robinson, of the same city. The institution continued to prepare students for the English Baptist Mission till 1905 when it became a union institution. During the whole period from 1885 to 1905 over a hundred students passed through the College. Thirty-one were trained as pastors or evangelists, of whom six are deceased and twenty-two are still in active service. Thirty-seven were trained as school teachers, of whom twenty are still serving the Mission in that capacity. Thirty-three others received irregular courses, chiefly as lay-preachers.

In the Presbyterian Mission, previous to the establishment of the Union Theological College, candidates for the ministry were taught for the most part in Chefoo and Tengchow, the earlier classes being in charge of Drs. Nevius, Corbett, Mateer, and Mills. In later years the classes were held at Weihsien and Ichowfu, as well as at the above named stations, and Drs. Hayes, Bergen, W. P. Chalfant, and Elterich, also took prominent parts. This method was continued for some twenty years, in the course of which five classes, with a total of twenty-seven students, most of whom had taken a full or partial course in the Tengchow College, were thus instructed. The greater number of these students are now in the active ministry, or work closely allied thereto.

In the beginning of 1905 the Gotch-Robinson College entered upon the third stage of its existence by the union of the two Missions in higher educational work, and became one of the constituent colleges of the Shantung Christian University.

The College has two departments, *viz.*, the Theological Department and the Normal School. The aim of the former is "To provide theological training for pastors and evangelists in accordance with evangelical truth." The Normal School is for the training of school teachers and provides, for those who need it, a course of study preparatory to the theological course. There is also provided a Bible Institute course for lay preachers and other Christian workers.

The Union Medical College. There has been medical teaching in Shantung for a number of years by physicians of the English Baptist and American Presbyterian Missions. In 1890, Dr. Neal finished four years of instruction, supplemented by two years of hospital work, of a class of three men. This was the first of a series of eight classes, with in all some forty students, that have been trained by Dr. Johnson, Dr. Neal, Dr. Paterson, and Dr. Watson, at Ichowfu, Tsinan, Tsowping, and Tsingchowfu. The last two of these classes were carried on as union peripatetic classes of the Union Medical College, pending the erection of the college buildings. The Union Medical College was formed in 1906, as the Medical Department of the Shantung Christian University, by the union of the English Baptist and American Presbyterian Missions. A grant having been made by the trustees of the Arthington Fund, a site was purchased in Tsinan in 1908. On March 15th, 1910, students were received into the partially completed buildings and teaching was begun. On April 17th, 1911, the formal opening took place in the presence of the governor and high officials of the province. The College is a union institution and is under the joint control of the two uniting Missions, through the University Council. It is confidently anticipated, however, that other protestant Missions in Shantung, and possibly in some of the adjoining provinces, will share in this union undertaking for the training of Christian doctors for China.

The aim and policy of the College is, "To give a medical education, under distinctively Christian influences, to young men chiefly from Christian families." In accordance with this aim, every effort will be made to maintain the distinctively Christian character with which the Institution starts out, and it will be the endeavor of those in charge to turn out not only well trained doctors, but earnest Christian men as well. At the same time young men from non-Christian families are admitted, provided that they are able to meet the entrance requirements, are of good character, and are willing to abide by the rules of the institution.

Plant.

The Arts College is situated on a commodious compound, the main building occupying a central place. This building is largely given up to recitation or lecture rooms, and meeting halls for Literary Societies, Y.M.C.A., and Student Volunteer Band. The Converse Science Hall is devoted to the study of chemistry, physics, geology, and biology. The laboratories, now four in number, are well-equipped with the necessary apparatus for under-graduate work, and in some degree for post-graduate study. In connection with the biological department there has been formed a zoological collection of several hundred specimens, illustrating the fauna of the province; also skeletons and other illustrative material for comparative anatomy. There is also a geological collection of about two thousand specimens, showing the typical Shantung rocks and also many fossils from the different strata of the province. A small observatory is situated in the College grounds containing a 10" telescope. There are dormitories, dining rooms, and kitchens for 400 students. In addition there are buildings devoted to the University Press and Workshop. Outside the compound is a small athletic field.

The Gotch-Robinson College is situated in the city of Tsingchowfu, with its front entrance on the main street, while

large open fields, the site of an ancient feudal palace of the Ming dynasty, lie on its western side. The College compound consists of three large courts, the buildings of which are built in semi-Chinese style. The first and outermost court comprises the Assembly Hall, the Normal School preparation room, and dormitories for the Bible Institute. Approached from the outer court is the central quadrangle, surrounded by class-rooms, laboratories, and dormitories for the Normal School. Beyond this quadrangle is the third court, built in 1904, containing theological students' dormitories and additional class-rooms. To the west of the compound are the professors' houses, and within easy reach is the recreation ground.

The plant of the Union Medical College and Hospital is situated in the south suburb of Tsinan, in the most rapidly growing section of the city. The College consists of a large three-storied building, providing ample accommodation for lecture rooms and laboratories for the practical study of anatomy, physiology, histology, bacteriology, and pathology. There are also special facilities for a thorough study of materia medica and practical pharmacy. The Hospital, which was added in 1914, is a large building erected in modern style, and comprising separate In-patient and Out-patient Departments. The former includes a central three-storey block, devoted to administrative purposes, operating plant, etc., and extensive two-storey wings on either side, containing both private and general wards, whilst a half-basement, of equal length with the whole building, gives ample room for the various domestic service departments. The Out-patient Dispensary consists of a central waiting room, providing seating accommodation for 250 patients, and with which are connected five consulting rooms and a commodious drug room. The building also contains two small operating theatres, a large surgery, and an ophthalmic dark room, whilst a second storey, above the waiting room, is set apart for infectious patients. The Hospital is fitted up on modern lines and contains in all

100 beds. The Medical College plant also includes three foreign residences and three dormitories, with accommodation for forty-eight students, two students sharing each room. There is also a separate Students' Commons, containing a large dining room, recreation and reading rooms.

It has already been stated in a preceding paragraph that plans are in progress for concentrating all the departments of the University at Tsinan. A magnificent site has been procured for this purpose adjoining the city and adjacent to the Medical College. Six professors' residences have already been erected, and the two Science Halls now in course of erection together with two dormitory blocks will, it is hoped, be completed by the end of the year 1916. The Medical College also is in process of enlargement by the addition of two wings to the present building and the erection of new dormitories with accommodation for an increase of sixty students.

Religious Life.

The University, as its name implies, is a distinctly religious institution, and aims to infuse such a spirit of reverence and comradeship that all may find a congenial atmosphere of friendly intercourse and mutual helpfulness.

All students are expected to attend the regular College religious services, the Sunday services, and the mid-week prayer meeting.

The Y. M. C. A. is well established in each of the three Colleges, and students are encouraged to become members.

On Sundays the older students go out singly or in bands for evangelistic work, or to conduct services in country churches.

Students entering the University must give an undertaking to conform to all rules and regulations laid down by the Council or Faculties of the respective Colleges.

Departments.

Diplomas are granted by the University in the departments of Arts and Science, Theology, Medicine, and Normal

Training. The diplomas are of two grades, *viz.*, College Diplomas and Higher Diplomas, as follows:

College Diplomas.

1. The Diploma of Arts and Science for students who have completed the prescribed four years' course of study in the College of Arts and Science.

2. The Theological Diploma for students who have completed the prescribed course of study in Theology in the Gotch-Robinson College.

3. The Medical Diploma for students who have completed the prescribed course of study in Medicine in the Medical College.

4. The Normal School Diploma for students who have completed the prescribed course of study in the Normal School Department of the Gotch-Robinson College.

Higher Diplomas.

1. POST GRADUATE ARTS AND SCIENCE. A post graduate course in Chemistry is provided in the College of Arts and Science, and others are projected in Chinese Literature, Mathematics, Physics, Biology, Philosophy, History, and Economics, in which students may take the Higher Diploma of the University.

2. ARTS AND THEOLOGY. Higher Diplomas are granted to students who, having previously obtained the College Diploma of Arts and Science, or Normal School Diploma, have also completed the course of study required for graduation in Theology.

3. ARTS AND MEDICINE. Higher Diplomas are granted to students who, having previously obtained the College Diploma of Arts and Science, have also completed the course of study required for graduation in Medicine.

COLLEGE OF ARTS AND SCIENCE.

FACULTY AND INSTRUCTORS.

- REV. LLEWELLYN JAMES DAVIS, B.A., Dean, English.
REV. H. W. LUCE, M.A., History, Life of Christ.
MR. WANG HSI EN (王錫恩), B.A., Physics, Astronomy.
MR. GAH WEI CHANG (葛維常), B.A., Physics, Mathematics.
MR. H. S. COUSENS, B.A., Zoology, (Absent).
REV. WANG GI DJEH (王繼澤), B.A., Chemistry, Experimental Physics.
MR. E. J. ELLISON, B.Sc., Hons. in Chemistry, Chemistry, O. T. History. (Absent.)
REV. J. J. HEEREN, M.A., Ph.D., Economics, History, English.
MR. SAMUEL J. MILLS, B.A., Psychology, Pedagogy, English, Gymnastics.
REV. J. W. HUNTER, Old Testament, Drawing, English.
MR. TIEN HSI CHING (田義經), B.A., Mathematics.
MR. CHIN HWA TANG (秦華堂), B.A., Zoology, Botany.
MR. NIEH GIA GÜ (聶家駒), 齋貢生, Chinese classics.
MR. WANG LU (王祿), 歲貢生, Chinese classics.
MR. SUNG KWEI SHENG (宋達升), 庚子辛丑併科舉人, Chinese classics.
REV. W. E. COMERFORD, Ethics, O. T. Teaching, English.
MR. PAN TIEN DJUEH (潘天爵), B.A., Chemistry.
- Librarian:* MR. WANG TIEN GANG (王天綱), B.A.
Registrar: REV. H. W. LUCE.
Assistant Registrar: MR. WANG GI DJEH.
Treasurer: REV. J. W. HUNTER.
Business Manager: MR. WANG TIEN CHÜ (王天衢), B.A.

ENTRANCE REQUIREMENTS.

I. Chinese Literature.

1. This examination is based on the 中學共和國體本 published by the Commercial Press. The 1916 Autumn examination will cover Vols. I. and II., and the 1917 Autumn examination will cover Vols. I., II., and III. Stress will be laid on grammatical construction, explanation of phrases, translation into Mandarin, and the use of particles.
2. An essay, approximately two hundred (200) characters in length, with marks for penmanship.

II. Mathematics.

Two papers as follows:

1. Arithmetic and Algebra (as far as and including quadratics), 5 questions on each with twenty marks to each question.

2. Plane Geometry.

In Arithmetic the questions will be made out on the basis of the books prepared by Dr. C. W. Mateer and Rev. Liu Gwang Djao, and on the New Scientific Series Arithmetic by Zee Zai Ziang, Ph. B., and Chin Fen, M.A., issued by the Commercial Press.

In Algebra the questions will be set on the basis of Dr. C. W. Mateer's and Rev. Liu Gwang Djao's Algebras.

In Geometry Dr. C. W. Mateer's and Rev. Liu Gwang Djao's books will be used.

III. History, Western and Chinese.

One paper; 5 questions on each, with twenty marks to each question.

The questions will be set according to the syllabus prepared at the Point Breeze Academy, Weihhsien.

IV. Geography.

One paper. For the 1916 Autumn examinations in Geography the questions set will be based on Chapin's Geography and the Middle School Geographies issued by the Commercial Press (商務印書館中學地理教科書), and the Chung Hua Book Company (中華中學地理教科書).

V. Scripture.

One paper. In both Old Testament and New Testament History the questions set will be based on the syllabus prepared by the Arts College. This syllabus may be obtained on application to the Registrar.

VI. Elementary Science.

One paper. For the 1916 Autumn examinations in Elementary Science the questions set will be based on the 初等理化教科書, Vol. I, published by Macmillan & Co., (Kelly and Walsh), and the 商務印書館中學物理教科書, New Scientific Series, published by the Commercial Press.

VII. English.

For the 1916 Autumn examinations [the questions set will be based on Tenney's English Lessons, and the Language Lessons, edited by Fong F. Sec and Zee Zung Zien, and published by the Commercial Press.

VIII. Hygiene.

The examination will be on the basis of the Primer of Sanitation (廣學會衛生學初階), translated by Miss D. C. Joynt and published by the Christian Literature Society.

In cases where two or more text-books are adopted as standards, the questions will be made out on subjects common to the books mentioned. (Council Minutes, January, 1916.)

Entrance certificates or entrance examinations admit either to the College Preparatory Class or the Medical Preparatory Class.

Entrance Examinations.

The entrance examinations are held at the secondary schools, or mission stations, on a fixed date toward the close of the calendar year. The papers are forwarded to the Registrar, College of Arts and Science, Weihsien, Shantung, for examination by the Faculty.

A student failing in one subject may be admitted to the College at the discretion of the Faculty.

The privilege of admission of students by certificate, without examination, is granted to middle schools which comply with the requirements of the University Council, details of which may be obtained on application.

Under no circumstances should students not belonging to the uniting missions, be sent with the hope of being admitted to the College unless definite arrangements have been made previously with the Dean.

All students are expected to be present at morning chapel on the day of opening. It should be particularly noted that under ordinary circumstances new students cannot be admitted later than two weeks after the opening of the term.

Special Students.

Special students who wish to elect certain studies in the College are admitted on passing an examination on their ability to write a satisfactory Chinese essay. Their studies will be arranged in consultation with the Faculty, and a certificate will be given for work done.

Student Expenses.

1. BOARD.

All students pay the entire cost of their board. Simple food has hitherto been provided in the College Commons at \$24.00 per school year, payable half-yearly in advance. It seems impossible to maintain so low a rate and it is probable that for the Fall term of 1916 more money will be required. Students who desire better food can secure it at restaurants in the neighborhood.

2. TUITION AND FEES.

(a) Tuition of Students sent by the Uniting Missions.

The tuition of students who are members of the regular College classes, sent by one of the uniting missions, is paid by the mission from which the student comes.

The tuition of prospective medical students is \$10.00 per year.

(b) Tuition of Students not sent by one of the Uniting Missions.

All students not sent by one of the uniting missions whether they be independent, or supported by individual missionaries, or sent by another mission, either in or out of Shantung (including American Presbyterian, English Baptist, or Church of England Missions in other provinces) pay a tuition fee of \$30.00 per year.

(c) Tuition of Special Students.

All special students, whether independent or sent by Missions or individuals, pay a tuition fee of \$40.00 per year.

(d) Laboratory Fees.

Each student who uses any scientific laboratory of the College is required to pay a laboratory fee of \$1.00 per term.

for each experimental course which he takes. He is also required to deposit \$1.00 per term in each laboratory used to cover laboratory breakage. Any unused portion of this deposit is returned at the close of the term.

(e) *General Breakage Deposit.*

A deposit of \$1.00 per year to cover general breakage is required of each student. At the close of the year any unused part of this deposit is returned.

(f) *Other Expenses.*

All incidental expenses and the cost of books are met by the student himself. The amount necessary for text books varies in different cases. A fair average is \$10.00 per year.

3. REFUNDS.

If a student leaves school, either on his own initiative or at the instance of the faculty, a proportionate part of money advanced for food will be returned at any time during the term. Tuition and fees will not be returned after the middle of the term.

Examinations.

Written examinations, taken by all the students, are held at the end of each term. Two, three, or more written test examinations are held each term, in each subject, by each teacher.

In the autumn, on three successive Saturdays, there are held general written examinations in Arithmetic, Algebra, and Geography. These examinations are taken by all students in the regular classes and are intended to keep these subjects fresh in the minds of the students during their whole course.

Dormitories.

Each dormitory room is usually occupied by two students, and is furnished with heavy furniture, such as beds, tables, stools and clothes boxes. All bedding and utensils, such as brooms, dust-pans, and basins, are provided by the students themselves.

Religious Activities.

Students are required to attend morning and evening chapel, the Wednesday evening prayer-meeting, and Church services on the Sabbath. As will be seen from the course of study, all students receive regular religious instruction throughout the entire course.

The College Y. M. C. A. is a flourishing organization. Membership and attendance at the meetings are voluntary. In connection with the Association is a plan for voluntary Bible study, nearly the whole college being enrolled. The students meet in dormitory groups once a week for conference over the readings of the past days. These groups are led by students who meet once a week in the normal Bible classes conducted by two Professors. Each Sunday a few students are sent out by the Association for evangelistic work in neighboring villages or for preaching in the city chapel.

There is a large band of volunteers for the ministry, which meets once a week. The members of this band are frequently addressed by experienced pastors on themes of practical and inspirational value to their future life-work.

Literary Societies.

The students themselves conduct two literary societies, of one of which every student is expected to be a member. Essays, orations, debates, and practice in parliamentary usage are regular features of these societies. An annual inter-society literary contest is held at the end of the spring term.

Physical Drill.

All students are required to take military drill three times a week in periods of forty minutes. There are also opportunities for competitive sports and gymnastic exercises. One day in the spring of each year is set apart as a general field day for athletic contests.

THEOLOGICAL COLLEGE AND NORMAL SCHOOL.

FACULTY AND INSTRUCTORS.

REV. E. W. BURT, M.A., Dean. (Absent.)
 REV. J. PERCY BRUCE, M.A., Acting Dean.

THEOLOGICAL DEPARTMENT.

Entrance Requirements.

1. Students wishing to enter the Theological department must have a letter of recommendation—in the case of Baptist students, from the Provincial Conference or from the Shan-tung Baptist Union; and in the case of Presbyterian students, from the Station or Presbytery to which they belong.

2. Two courses of study are arranged—a Higher and a Lower Course. Students entering for the Higher Course must be graduates of the School of Arts and Science, or an equivalent. Those entering for the Lower Course must have completed the three years' general course in the School of Arts and Science, or the Normal School Course with a special preparatory course of one year in addition, or an equivalent.

THEOLOGICAL COLLEGE.

29

3. Other students who have exceptional gifts and sufficient Chinese scholarship may be received on the recommendation of the Station to which they belong. Such students will be examined by the faculty as to their ability to take this course, on the completion of which they will receive a diploma showing the work done.

The two courses of study are as follows:—

FIRST YEAR—SPRING TERM.

Regulations.

1. Students are expected to defray their own travelling expenses to and from college, and to contribute, as far as they are able, towards defraying the cost of their board, text-books, stationery, and other expenses of their course.

2. As students are received into this department in the confidence that they are actuated by an earnest desire to serve the church and win men to Christ, it is assumed that they will seize every opportunity to preach the Gospel to the heathen, and as far as can be arranged conduct services in the churches of the two Missions.

3. The fees and regulations for graduates of the Normal School taking the special preparatory course with a view to entering this department are as given below for the Normal School department.

Bible Institute Course.

Provided that there are vacancies, and subject to the following provisions, students may be received for a course of Biblical instruction as set out below. Students taking this course must be not less than twenty-three years of age (Chinese reckoning), must be able to read fluently the Old and New Testaments in Mandarin, understand an Easy Wen-li text-book, and show some familiarity with Old and New Testament History. The following is the course of study:—

FIRST YEAR.

SPRING TERM.	AUTUMN TERM.
5. Old Test. History (Pentateuch).	5. Old Test. History (to Solomon).
5. Apostolic History.	5. Life of Christ.
2. Philosophy of the Plan of Salvation.	5. Evidences of Christianity.
3. Hints for Preachers (Ballar).	

SECOND YEAR.

SPRING TERM.	AUTUMN TERM.
5. Old Test. History (to Captivity).	5. Old Test. History (to end).
5. New Testament Exegesis.	5. John's Gospel.
5. Elementary Theology.	5. Elementary Theology and Comparative Religion.

THIRD YEAR.

SPRING TERM.	AUTUMN TERM.
5. Exodus and Leviticus.	5. Psalms (selected).
5. Romans.	5. Hebrews.
5. Natural Theology. Sermon outlines.	5. Ethics. Sermon outlines.

The fees and regulations for students taking this course are as given below for the Normal School department.

NORMAL SCHOOL DEPARTMENT.

Entrance Requirements.

These are the same as for the College of Arts and Science.

Curriculum.

The course of study is for two years following a preparatory year as in the Arts department. Each year comprises two terms of eighteen weeks each. The following is the course of study:—

FIRST YEAR.	
Spring.	Autumn.
Old Testament History ... 3	Old Testament History ... 3
Scripture Exposition (special class to assist in preaching) 2	Scripture Exposition (special class to assist in preaching) 2
Chinese Literature ... 4	Chinese Literature ... 4
Essays ... 1	Essays ... 1
Freehand and Mechanical Drawing ... 3	Blackboard Drawing ... 3
English ... 4	English ... 4

English ... 4	English .. 4
Practice and Criticism (including Sunday School method) 3	Practice and Criticism (including Sunday School method) 3
Blackboard Lessons (Criticism) 1	Blackboard Lessons (Criticism) 1
Singing ... 2	Singing .. 2
Drill ... 3	Drill ... 3

(Total 21 periods exclusive of Criticism, Singing, and Drill.)

Fees and Regulations.

- All students must defray the whole cost of their board.
- Fees must be paid at the time of enrollment at the beginning of each term.
- Text-books and stationery must be provided by the student.
- Cases of special financial difficulty must be provided for by each of the Uniting Missions.
- Students must defray their own travelling expenses, provide their own clothing, and refund the cost of any damage which may be done to college furniture, apparatus, etc.
- Except in urgent cases students cannot be allowed to return home during term time.
- There are two literary societies in the school, conducted by the students themselves, providing practice in public speaking, debating, parliamentary usage. All students are expected to join one or other of these societies.
- Gymnastic exercises and athletics are arranged for, in which all students are expected to take part.

MEDICAL COLLEGE.

FACULTY AND INSTRUCTORS.

JAMES BOYD NEAL, M.A., M.D., President.
HAROLD BALME, F.R.C.S., D.P.H.
W. M. SCHULTZ, B.A., M.D. (In America.)
WILLIAM FLEMING, M.B., CH.B., F.R.C.S., D.T.M.
C. K. ROYS, B.A., M.D.
WU CHAO-SIANG, (武兆祥).

ASSOCIATE PROFESSORS.

C. F. JOHNSON, M.D.

Besides the teaching force already arranged for, it is confidently expected that other qualified medical men, belonging to neighboring stations, will consent to give short courses of instruction to the students.

Entrance Requirements.

The same entrance requirements, either by certificate or examination, are required as for the Arts Department at Wehsien, for the Normal School at Tsingchowfu.

Graduates of the School of Arts and Science may enter the second year of the Medical Course and, on graduation, receive the higher diploma of the University.

Course of Study.

The curriculum, which consists of a six years' course, is divided into two parts as follows:—

I. One year of scientific study, in the Union College of Arts and Science at Wehsien, in the following subjects:

1. Physics—Experimental Lectures and Laboratory work.
2. Chemistry—Gillison's whole volume, Laboratory work in Inorganic Chemistry.
3. Biology—elementary.
4. Botany—elementary.
5. Psychology—elementary.

THE OUT-PATIENT DEPARTMENT, UNION MEDICAL COLLEGE.

II. Five years of purely professional work, in the Union Medical School in Tsinan. The studies to be pursued in this course are as follows:

FIRST YEAR.

FIRST TERM.

Anatomy—First part.
Physiology.
Normal Histology—Laboratory.
Pharmaceutical Chemistry—Laboratory.

SECOND TERM.

Anatomy—Second part.
Physiology.
Normal Histology—Laboratory.
Physiological Chemistry—Laboratory.
Dissection of Animals.

SECOND YEAR.

FIRST TERM.

Anatomy—Special.
Embryology.
Physiology.
Pharmacy—Practical work.
Materia Medica.
Physiological Laboratory.
Bandaging.

SECOND TERM.

Anatomy—Surgical.
Pathology—General.
Practice of Medicine.
Pharmacy—Practical work.
Materia Medica, Therapeutics and Toxicology.
Hygiene.

THIRD YEAR.

FIRST TERM.

Practice of Medicine.
Surgery—General.
Therapeutics.
Diseases of the Eye.
Pathology—Special.
Pathological Histology.
Physical Diagnosis.
Clinic.

SECOND TERM.

Practice of Medicine.
Surgery—General.
Physical Diagnosis.
Dermatology.
Pathology—Special.
Clinical Laboratory—Blood, Urine.
Bacteriology, etc.
Laryngology and Otology.
Clinics.

FOURTH YEAR.

FIRST TERM.

Surgery—Special.
Obstetrics.
Gynecology.
Mental Diseases.
Ward Service.
Clinical Conferences.

SECOND TERM.

Surgery—Special.
Diseases of Children.
Medical Jurisprudence.
Clinical Conferences.
Ward Service.
Clinics.

FIFTH YEAR.

Medical Ethics, Ward Service, Clinical Conferences, Out-patient Department, and other practical training.

Fees and Regulations.

Each student, during his five years' residence in Tsinan, will be required to pay a tuition fee of five dollars per term (\$5 Mex.) in advance ; there being two terms of approximately four months each in the year, making ten dollars Mexican per year. Each student sent by a Mission not participating in the union, will be required to pay a tuition fee sufficient to cover the cost of his education, exclusive of plant and salaries of foreign teachers. This fee at present is fifteen dollars, Mexican, per term, or thirty dollars per year, payable in advance at the beginning of each term. These fees do not include board, books, travel, etc. Board costs in Tsinan, at present rates, three or four dollars a month. So it is estimated that, apart from travel, it will cost each student from sixty to seventy, or, in the case of students sent by Missions not participating in the Union, from eighty to ninety dollars per year for all expenses, including tuition, board, books, and incidentals.

For the year of preliminary scientific study in Weih sien, each student sent to the College from a Mission outside the Union will be required to pay a fee of \$54, inclusive of board. Students from the Missions participating in the Union will be required to pay a tuition fee of \$5 per term. They will also be required to provide the full cost of their board (\$25.00).

Dormitories will be furnished for the students ; also kitchen accommodation. Students will be expected, however, to provide and make arrangements for their own food. All students will be expected to room in the dormitories, unless by special permission they are allowed to live outside of the College.

REPORTS FOR THE YEAR 1915.

1. COLLEGE OF ARTS AND SCIENCE.
2. THEOLOGICAL COLLEGE AND NORMAL SCHOOL.
3. MEDICAL COLLEGE.

THE COLLEGE OF ARTS AND SCIENCE.

The spring term of 1915 opened with 206 students whose religious affiliations were as follows: Shantung Presbyterian Mission, 114; English Baptist Mission, 55; Anglican Mission, 7; Missions outside the Union, 14; non-Christians, 16. The large decline in the number of students was partly owing to the fact that, in January last, we graduated a double class, the old Sixth and the new Fourth, aggregating 96 and received only 33 in the incoming First Class. Moreover, the entering Elective Class was smaller than usual.

The problem of locating the 96 graduates proved to be a very difficult one. Owing partly to war conditions, the demand of Missions for teachers fell off and efforts to locate the men in government schools or in business uniformly failed. Many of the graduates, we are glad to report, found positions by their own efforts in various places, including Manchuria. But there are still a few of them unemployed and, meanwhile, another class of twenty-three men has graduated. A number of last year's graduates accepted positions in their own Missions at comparatively small salaries so that the outcome has been advantageous to the local Missions and doubtless salutary to the students themselves, but there can be no doubt that the widespread disappointment growing out of the failure of so many men to secure lucrative positions was a large, if not the chief, factor in preparing the way for the student rebellion which so disastrously ended the spring term.

An account of the rebellion has been published in both Chinese and English for the information of those who are specially interested but it will suffice here to say that the immediate cause of the trouble was the discovery that the student committee which for several years had been administering the kitchen accounts had been dishonestly using the

funds at their disposal, especially in the way of lending money to their college friends. These irregularities were, it seems, generally known to the student body and the Faculty thought that it was but just that the student body should bear part, at least, of the resulting deficit by living a little more economically. Steps were taken with the apparent consent of the students to save a little money but there was much discontent. There was also dissatisfaction with the work of certain teachers. The result was that the students refused to attend the examinations at the end of the spring term and grew so violent that it was necessary for us to call in the local authorities to put an end to the disturbance. Seventeen students were expelled and thirty-three were suspended for at least one year. The rest were permitted to return in the autumn on condition that they signed a written apology. The University Council, at its next meeting, formally approved of the measures of discipline adopted by the Faculty and directed that no change should be made in these measures without the authority of the Council. Subsequently the Council changed the sentence of expulsion, in a certain case, to suspension for at least a year and, in two other cases, the sentence of suspension was fixed at three years. All the students placed under discipline were professing Christians and, numerically speaking, they were distributed in about the proportion of representation, among the several Missions.

In spite of the student rebellion, the autumn term opened with 113 students, being nearly as many as were entitled to return.

In pursuance of the action of the Council, two of the Chinese teachers were dropped from the College teaching staff before the opening of the autumn term. The Rev. W. E. Comerford of the English Baptist Mission entered upon his duties as teacher in the College at this time. The Rev. J. W. Hunter, of the Anglican Mission, formerly a valued teacher in the College, returned to take the place of the Rev. A. C.

Judd who went home on furlough. The Rev. E. J. Ellison of the English Baptist Mission went home on furlough near the end of the autumn term. We were cheered by the return from America of the Rev. and Mrs. H. W. Luce. The College and the University owe a great debt to Mr. Luce for his tireless and successful efforts in America to raise funds for building the new plant of the University at Tsinanfu.

We were glad to welcome two new missionaries to the teaching staff in the persons of Mr. Harold Harkness of Ontario, Canada, and Mr. William H. Adolph, Ph.D., of Philadelphia. They are specialists in Mechanical Engineering and Chemistry, respectively, and their arrival is most timely in view of the transfer of Mr. Chandler to the evangelistic work and the departure of Mr. Ellison.

The new curriculum referred to in last year's report has now been adopted. It comprises a five years' course with an introductory year which is to be relegated to the Middle Schools just as soon as they are prepared to take it over. Ultimately the first year may also fall to the Middle Schools. For the last two years the course is divided to suit different classes of minds and aims, into eight specialized courses to be known respectively as: 1. The Chinese Literature Course; 2. The Philosophy Course; 3. The History and Political Science Course; 4. The Foreign Language Course; 5. The Mathematics Course; 6. The Physics Course; 7. The Chemistry Course; 8. The Natural Science Course. This curriculum is already in operation as to the introductory year and it is to be further put in force in the coming spring term but the specialized courses can only be made effective as the strength of the teaching staff makes it possible.

We believe that in adopting this curriculum the College has taken a decided step in advance.

Steps have been taken towards organizing the whole student body into two societies which, under Faculty direction, shall take over the literary, oratorical and athletic ac-

tivities of the College with a view to creating interest and college spirit by means of friendly rivalry.

The religious interests of the institution suffered some setback from the student rebellion but, in the autumn term, returned largely to normal conditions. In the spring term we were favored by a visit from the Rev. Cheng Ching I, Secretary of the China Continuation Committee, who held helpful conferences with the students and made an inspiring address. In the middle of October we were visited by the Rev. Ding Li Mei, accompanied by the Rev. S. Ernest Stephens of the Southern Baptist Mission, Pingtu. Mr. Ding came primarily in the interests of the Student Volunteer Movement but the meetings held developed into general revival services. A number of students were led to think more seriously of studying for the Gospel ministry. These meetings were also the occasion of two of our younger teachers, Mr. Feng Chun Hsiu and Mr. Liu Fu Dzeng, deciding to go to Tsingchowfu to study for the ministry. In both cases serious financial sacrifices were made.

Our President Elect, Rev. L. J. Davies, arrived about the first of December and was given a cordial welcome. The undersigned is indebted to him for agreeing to take over the administration of the College before the end of the term, thus allowing the Acting President and his wife to return to Tsingchowfu to resume work in the Theological College.

In this connection I desire to express my deep appreciation of the manner in which the teaching staff of the Arts College, as a whole, Chinese and foreigners alike, have vied with each other in making the heavy task to which I was, two years and a half ago, so suddenly called, as light as it was possible to make it. I am glad to bear witness, also, to the fact that the relations between the students and the Acting President were, throughout the latter's administration, of the most cordial character. Even in reference to the try-

ing time of the rebellion there is little qualification to be made on this particular point.

On January 10th, 1916, the College graduated a class of twenty-three men. At present writing, only three of these have secured positions. And this leads me to say, in conclusion, that the most pressing problem now confronting the Arts College is how to dispose of its output. The demand for teachers and evangelists on the part of the Missions is, in the nature of the case, limited and will be more so as distant and more backward fields begin to graduate their own men.

The Chinese are demanding the creation of technical courses but such courses require time and money to develop and render necessary a greatly increased foreign staff. Moreover, if these courses are superimposed on a full College course the time and expense of education will be seriously increased. If, on the other hand, as will be the strong tendency, the students are pushed too early into technical work, they may, indeed, the sooner be able to support themselves but they will lose much of the broadening effect of college education and that is precisely the feature of education most necessary for Chinese students at the present time. It will require all our wisdom and patience to meet this situation.

With thanks to God for strength and guidance in a very critical time.

I am, in behalf of the Faculty and Teaching Staff of the Arts College,

Yours fraternally,

WM. P. CHALFANT.

THE GOTCH-ROBINSON THEOLOGICAL COLLEGE.

Perhaps the chief characteristic of the year just closed has been its uneventfulness. The work of the teaching staff has been pursued quietly, steadily, and harmoniously, while the excellent spirit which prevailed among the students last year has, on the whole, been maintained. We are glad to welcome back our colleague, Dr. W. P. Chalfant, and to renew the happy fellowship of past years. At the end of the spring term we lost Mr. Fisk, who returned to England for his much needed furlough. His place has been taken by Mr. Garnier, who arrived in the early part of the autumn term.

Theological Department.

The number of students enrolled in the Theological Department was 31, the largest we have yet had. Of these a fair proportion were graduates of the Arts College. One student was compelled to leave on account of ill-health, and another, we regret to record, was lost to us by death. It is interesting to note that four of the students in this department are from outside provinces, and that in the ensuing year the number will be increased to six. One is from the Baptist Mission in Shansi, and a second from the same mission in Shensi; two are from the Presbyterian Mission in North Kiangsu, and the remaining two from the southern part of the same province. We rejoice in the widening influence of the institution, and trust that the service we are thus able to render our sister missions may prove helpful to them and to the churches in their fields.

The course of study during the year included Old and New Testament Exegesis, Church History, Comparative Religion, Biblical Theology, Greek, and English Bible. In New Testament Exegesis the class went through the first eight

chapters of the Epistle to the Romans in the spring, and the Epistle to the Ephesians in the autumn, both under Dr. Hayes. In Old Testament Mr. Burt took the class through the Exegesis of Isaiah, and Introductions to the Prophetical Books. The subjects in Theology under Mr. Bruce were Anthropology with the Doctrine of Sin in the spring, and the Person and Work of Christ in the autumn. Church History and Comparative Religion were taken by Dr. Hayes. Mr. Burt continued the class in Greek which he began last year, and a second class was started by Mr. Bruce. In the spring term Mr. Fisk taught two classes in English, one of which was on the inductive method with the Gospel of Mark as the text, following in the main the lines adopted by Dr. Harper in his Greek and Hebrew text books. In the autumn these two classes fell to Mr. Bruce until the arrival of Mr. Garnier who took the Mark class referred to above. On the whole the work of the students has been faithful. In the Theology class there has been a gratifying increase of independent thinking as evidenced in the greater readiness to ask questions and state difficulties. The teaching of Greek is still in its experimental stage. Some students find the subject very difficult while with others progress is fairly rapid. It is at least evident that it opens the mind of the student to methods of thought altogether new, and to that extent at any rate it must be of considerable value. Sermon criticism classes and singing have been continued as in former years.

Five students from this department have graduated this year. Han Chang Lin was one of the students who entered in 1910 following Pastor Ding's meetings in the Arts College at Weihsien. When within one term of finishing his course, owing to financial difficulties, he left and took a position as teacher in a mission school in Shansi, in which his work was mainly the teaching of theological subjects. The salary he received enabled him to overcome his difficulties and after three years he returned to finish his course. He now goes

back to the same post, in which his services are greatly valued. Of the other graduates two have been called to pastorates, and two have been appointed evangelists, all in Shantung.

In this connection it is of interest to report that one of the students who left in the preceding year, I Hsing Lin, has since his graduation proceeded to the United States and entered the Princeton Theological Seminary. It is a source of great gratification to us that the work done here has been accepted by that institution, and as a result Mr. I has been able to enter as a post-graduate student.

The number of entering students for the ensuing year is eleven, including two who have been professors of the Arts College. We are thankful for this evidence that the claims of the ministry are being increasingly realized by the brighter intellects in our churches.

Normal School.

In the Normal School the number of students in the leaving year was 29, of whom 24 received diplomas, and, in the junior year, 16. The class-work has followed the same lines as in the preceding year. The loss to this department by the furlough of Mr. Fisk is very great. It was hoped that his work would be taken up by Mr. Whitcher who had expected to return from furlough in the autumn. But the call of his country was not to be resisted, and Mr. Whitcher joined the British Army as a despatch rider. Our most earnest prayers go with him in his devotion and self-sacrifice. The difficulty thus created for us is very considerably lightened by the advent of Mr. Garnier who, it is hoped, will in the ensuing year take the whole of the pedagogic instruction.

The one year's special course of study prescribed by the Council has been provided for graduates of the Normal School desiring to enter the Theological Department, and a class of 12 students enrolled. The course included Geology, Astrono-

my, Ethics, Greek, English, Messianic Prophecy, and the First Epistle of Peter. Most of the students after completing this year of study have been appointed to evangelistic work for a year's trial, in order that they may both prove their gifts and gain experience, which will make their subsequent study of greater value to them.

Religious Life.

The active Christian work of the students on Sundays has been prosecuted with regularity and earnestness as in preceding years. A visit in the autumn term from Pastor Ding in connection with the Y. M. C. A. was very helpful.

Visitors.

In addition to the visit of Pastor Ding in the spring we were cheered by a visit of Dr. Sailer of the Presbyterian Board of Foreign Missions in New York. His keen interest in the work of the institution was much appreciated, and his suggestions and criticisms were of great value. We received a visit also from the Rev. Ch'eng Ching Yi whose addresses to the students and Faculty on the work of the Continuation Committee were both illuminating and inspiring. In the autumn we were favoured by a visit of Dr. Mackenzie and the Rev. G. MacRae of the Canadian Presbyterian Mission, which was of special interest in view of the contemplated union of that Mission with us in the University. From letters received since their visit we are hopeful that in the near future some decisive and practical steps may be taken towards the realization of our hopes.

We close the year with devout thankfulness that despite the war now raging in Europe, affecting so gravely the resources of one of the Missions represented in the institution, we have been enabled to carry on our work with no diminution of the support on which we depend. As we intimated in our report last year we still need the sum of £1,300 to com-

plete the fund appealed for for our buildings in Tsinan. We trust that among our many friends and helpers in God's work some may be found to contribute this sum and so relieve our minds from any uncertainty in this respect.

We look forward into the new year realizing that amid all the changes taking place in China and in the West, we can hardly expect but that we too will be called upon to face new experiences, but our trust to-day, as in the years of the past, is in the unchanging Lord whose we are and whom we serve.

J. PERCY BRUCE, *Dean.*

UNION MEDICAL COLLEGE.

Two outstanding events have combined to make the past year one of the most interesting and encouraging in the history of the institution,—the graduating of the first class who have completed the full course of medical study, and the completion and opening of the new hospital and out-patient dispensary.

At the close of 1914 there were seven students in the graduating class, but one of the number was unfortunately prevented by illness from sitting for the examination, whilst two of the remainder failed to come up to the required standard. There were thus four men to receive the first medical diplomas granted by the University; and, by a singular coincidence,—a happy augury, as we trust, for the widespread usefulness of the College in the future—these four men represented four separate Missions. Dr. Wang, who belongs to the American Presbyterian Mission, has since returned to Tengchowfu, whence we have received a very good account of him from Dr. Seymour; Dr. Guo, of the American Board Mission, and Dr. Gia, of the Methodist Episcopal Mission, are assisting in mission hospitals at Tehchow and Taianfu respectively; whilst Dr. Yang, of the Church of England Mission, remained here for another year as our first Surgical Interne.

Graduation Ceremony.

The Graduation Ceremony took place at the College on January 11th, in the presence of the Military Governors and the leading officials, in addition to a number of foreign visitors from the neighbourhood. Speeches were delivered by both the Governors, as well as by the Deans of the Arts and Theological Colleges, and the whole proceedings were marked by considerable enthusiasm. Later in the day General Chin, the Military Governor, gave expression to the great pleasure

which he had experienced at being present on such an occasion, and to the peculiar satisfaction with which he had noticed that the Medical College, unlike so many Chinese colleges, was requiring a fixed standard of educational efficiency from its graduates, and did not hesitate to fail such students as did not reach that standard.

College Department.

Owing to an alteration in the time of holding the final examinations, our second Graduation has also fallen within the last calendar year, and on this occasion nine students received their diplomas. Three of these were the men who failed to graduate a year ago, and who, after putting in a further term's work in the wards, came before the examiners at midsummer, and successfully passed the test. The remaining six formed the class of 1915, all of whom succeeded in getting through. The graduating exercises took place on December 30th, when, in addition to welcoming a large number of Chinese and foreign guests, we had the pleasure of listening to a very fine address from Rev. J. E. Williams, D.D., Vice-President of Nanking University, who paid us a special visit for the occasion.

Of the nine new graduates, three are hoping to stay on for another year as Internes, whilst all of the remainder are either engaged in Mission Hospital employ, or planning to take up such work.

During the absence of Dr. Neal on furlough, Dr. Schultz has acted as Dean of the College throughout the year. Thirteen students joined the new class at the commencement of the spring term, bringing our total number in residence to forty-six. The work which they have done has been, on the whole, quite satisfactory, and there has been a most gratifying absence of any serious breaches of College rules.

During the early part of the autumn term, a large Inter-collegiate Athletic Meet for Government schools in the prov-

ince was arranged by the Commissioner of Education, with the help of the Y. M. C. A. The meeting occupied two days, and took place at the Public Park, Tsinanfu, in the presence of an enormous crowd of students and others. Our students were allowed to enter the competition, and although so few in number as compared with most of the Government colleges, succeeded in carrying off a great number of distinctions, including the finals at Tennis and Basket Ball, and the first place in the 100 Yards, Half Mile, Mile Relay, Hurdles and High Jump. Of the special prizes given to individual competitors for the greatest aggregate number of points, the first, third and fourth places all fell to students from our College.

In connection with the athletic life of the students during the past year, we are especially indebted to Mr. E. T. Lazear for the help and encouragement which he has given them, including the preparation of a Basket Ball Court, and the coaching of all who wished to learn how to play that game. He also organised the Students' Tennis Tournament, which is now an annual feature in the College, and which was splendidly contested.

The Secretaries of the Tsinanfu Y. M. C. A. have again rendered valued assistance in spiritual work among the students, and in the counsel which they have given to the College Christian Association. As a result of the impressions gained from this close contact, Mr. Herschleb presented the faculty with a most illuminating report upon the religious life of the College, as he had seen it, pointing out in what respects the Y. M. C. A., leaders seemed to be lacking, and suggesting possible remedies.

Bible instruction has been regularly given on two mornings of the week by the Rev. F. Harmon, and a number of the students have also taken part in the evangelistic work of the hospital, as well as in other forms of Christian service.

Amidst so much that is encouraging, the College has sustained one of the greatest losses in its history, during this

past year, in the resignation of Dr. Schultz, who was obliged to return to America in December for domestic reasons. As a careful clinician and teacher, as an enthusiastic pathologist and investigator, but, above all, as a generous and unselfish friend to colleagues and students alike, Dr. Schultz has impressed himself in a unique manner upon the life of the College, and his resignation leaves a gap which it seems impossible to fill. He carries with him the warm affection and good wishes of everyone in the institution, and the earnest hope that he may yet be enabled to return to the position which he so successfully occupied.

We have had the pleasure of receiving a visit from the Medical Commission of the China Medical Board (Rockefeller Foundation), who spent a day investigating the work of the College and Hospital, and discussing plans for the furtherance of medical education in this country. Pending the publication of their report, nothing is as yet known as to their plans, but it has been a matter of extreme gratification that the Executive Committee and Council on Medical Education of the China Medical Missionary Association, at a special joint meeting held in April last, passed a unanimous resolution in favour of the maintenance and development of medical education through the medium of Mandarin, recommending our College as the one most suitable for such development.

Opening of the New Hospital.

The splendid new buildings, which have been erected and equipped at a cost of nearly nine thousand pounds sterling by the Baptist Missionary Society, were completed during the summer, and were formally opened on Monday, September 27th, by the Military Governor. A large company assembled for the occasion, and after a Reception had been held in the Out-Patient Department, and the various rooms inspected, the Governor led the party to the front door of the Hospital, which he proceeded to open with a silver key. The wards

and adjoining rooms having been duly visited and enthusiastically commented upon, the company gathered in a large ward on the ground floor, where the official proceedings were conducted. Similar receptions were held during the following days, for representatives of the chief colleges, the leading merchants, the Mohammedan community, and for the wives of the officials, etc., and at each of these gatherings the greatest appreciation and friendliness were shown on all sides.

The visit of the China Medical Board Commission, referred to above, also took place during that week, and it was a source of great satisfaction to hear their warm expressions of opinion on the Hospital, which they described as the best of its kind that they had seen anywhere in China.

A central heating plant and a hot and cold water system have been installed throughout the whole buildings by Mr. James Turner of Tientsin, and on November 1st patients were admitted for the first time to the new wards. It has not been possible to open all the available wards in the first instance, owing to the lack of trained helpers, but by next spring it is expected that everyone of the hundred beds will be in use.

With the opening of the new hospital, it was decided to commence regular training for male nurses. Although a high standard of entrance was required (Middle School Graduation certificate), there were between forty and fifty applicants, of whom twelve were selected to form the first class. They are now receiving instruction in Practical Nursing and Elementary Anatomy from Miss Logan and Dr. Wu, as well as doing all the nursing work in the male wards. They have made a most encouraging start and have shown no disinclination to perform the most menial of tasks. A fresh class of female nurses was also entered in the autumn term. The instruction of these classes, as well as the multitudinous duties connected with the matronship of the Hospital, devolve upon Miss Logan, who urgently needs the help of one or more foreign colleagues.

The new Out-patient Dispensary has been in working order since the beginning of June, and has proved an unqualified success. With the opening of these new premises it was decided to initiate a scale of charges, ordinary patients paying a fee of five cents for the first visit and twenty cash for each succeeding attendance. Better-class patients, who wish to be seen on arrival without waiting their turn with the rest, are charged one dollar (fifty cents for return visits); but anyone who asks to do so can still be seen gratuitously, if they are willing to wait until all the ordinary patients have been seen. This system has been established on the assumption that those to whom time is valuable would far rather pay a small fee than be kept waiting a long time for their turn; whilst, on the other hand, those who really cannot afford to pay even five cents for their treatment will not be seriously inconvenienced by a longer delay. In its practical working, this scheme has proved most successful, and at almost every clinic there are a few of the better class patients who pay the special fee, and a small company of the truly indigent who receive free treatment. It is an interesting fact that the Government Hospital in Tsinanfu, which also formerly attended all out-patients gratuitously, has recently followed suit with an almost identical triple system of charges.

As will be seen from the statistics below, this change has made no appreciable difference to the number of patients who have received medical attendance at the Out-patient Department during the past year, the total number of visits being 35,585 as compared with 36,268 in 1914. The In-patient statistics have exactly doubled this year, in spite of the fact that the new wards were only opened in November. The actual figures are as follows:—

MEDICAL STATISTICS FOR THE YEAR 1915.

Surgical Dispensary :

New patients 3,909, divided as follows;

Male	2,825	
Female	1,084	3,909

Return visits 13,560, divided as follows;

Male	9,021	
Female	4,539	13,560
		17,469

Medical and Skin Dispensary :

New patients 4,816, divided as follows;

Male	3,019	
Female	1,797	4,816

Return visits 7,627, divided as follows;

Male	5,118	
Female	2,509	7,627
		12,443

Eye Dispensary :

New Patients 1,646, divided as follows;

Male	1,211	
Female	435	1,646

Return visits 4,027, divided as follows;

Male	2,712	
Female	1,315	4,027
		5,673

Total attendance at all dispensaries...	35,585
Hospital in-patients—Men	200
Women and Children	96
				296
Out-calls, approximate	70
Operations under general anesthetic	214
" " local " or nil	650
				864

BASIS OF UNION IN EDUCATIONAL WORK IN SHANTUNG.

Adopted 1904. Amended 1909.

With grateful acknowledgement of God's goodness and mercy extended to us in the past, and with prayer for His continued blessing upon our work, we, the members of the American Presbyterian Mission and of the English Baptist Mission in Shantung agree to unite in organising three colleges, namely, an Arts College at Weihsien, a Theological College at Tsingchowfu, and a Medical College at Tsinanfu, subject to the provisions hereinafter set forth.

We also invite other evangelical Missions in Shantung or adjacent provinces to enter this Union, either fully or partially, subject to the same provisions.

ARTICLE I.—NAME.

The United Colleges shall be styled "The Shantung Christian University."

ARTICLE II.—AIM AND POLICY.

Section 1. The aim of the United Colleges shall be first and foremost the furtherance of the cause of Christ in China.

Section 2. The purpose of the Arts College shall be to give a liberal education of a distinctively Christian character to young men chiefly from Christian families.

Section 3. The purpose of the Theological College shall be to provide theological training for pastors and evangelists; and instruction given therein shall be in accordance with evangelical truth.

Section 4. In connection with the Theological College there shall be a preparatory course of study for those who need it and a Normal School for training of elementary school

teachers. In so far as special denominational instruction is required, it shall be separately provided for by the respective Missions.

Section 5. The purpose of the Medical College shall be to give a medical education, under distinctively Christian influence, to young men chiefly from Christian families.

Section 6. Apart from the teaching of foreign languages, the medium of instruction in the University shall be the Chinese language.

ARTICLE III.—MANAGEMENT.

The Colleges shall be under the management of a University Council, which shall be elected by the uniting Missions and responsible to them, and shall be under the ultimate control of the Home Boards and Societies of the said uniting Missions.

ARTICLE IV.—CONSTITUTION OF THE UNIVERSITY COUNCIL.

Section 1. The Council shall consist of representatives of (a) those Missions taking full share in the Union and (b) those Missions taking part share in the Union, as follows:

Each Mission taking full share in the Union, i.e., providing at least one foreign teacher, together with residence (see Article VII, Section 4) in each of the three Colleges, taking its proportionate share in current expenses (see Article VIII, Section 2), and providing for the increased cost of University property involved in its entering the Union (Article VII, Section 5), shall appoint three members of the Council who shall serve for three years, one to retire annually and his place to be refilled. In the first election one shall be chosen for one year, one for two years, and one for three years.

Any Mission entering the Union in respect of two only of the constituent Colleges, i.e., providing at least one foreign

teacher, together with residence, in each of two Colleges, taking its proportionate share in the current expenses of the two Colleges and providing for the increased cost of property involved in its entering the Union, shall appoint two members of the Council.

Any Mission entering the Union in respect of one only of the constituent Colleges, i.e., providing at least one foreign teacher, together with residence in such College, taking its proportionate share of the current expenses of the College, and providing for the increased cost involved in its entering the Union, shall appoint one member of the Council.

In cases where it is so desired by the Mission entering the Union, or by the Council, a financial equivalent may be arranged for in lieu of a resident foreign teacher, such financial equivalent to be agreed upon in consultation with the Council.

Section 2. Members of the Council shall be entitled to vote only on matters directly pertaining to the colleges in respect of which the Missions appointing them enter the Union.

Section 3. The President of each College and two members of the Faculty, one Chinese and one foreign, elected annually by the Faculty as its representatives, shall be allowed to attend the meetings of the Council and vote on all matters coming before the Council, with the exception of appointments to teaching staff and estimates of University expenditure.

In the election of faculty representatives only members of the Faculty who have been on the field at least five years shall be eligible, and due regard shall be given to the desirability of the uniting Missions being equally represented.

Section 4. Whenever a member of the Council is absent on furlough, he shall be considered to have resigned, and his Mission shall at once elect a successor to complete his unexpired term.

ARTICLE V.—MEETINGS AND FUNCTIONS OF THE UNIVERSITY COUNCIL.

Section 1. The Council shall meet for general business at least once a year.

Section 2. Two-thirds of the members of the Council shall constitute a quorum for the transaction of business, and no motion shall be declared carried unless two-thirds of the entire Council vote in the affirmative.

Section 3. Full minutes of all meetings of the Council, and all reports of work, shall be presented without delay to the Home Boards and Societies and to the secretaries of the Missions on the field.

Section 4. The Council shall elect all foreign members of the teaching staff, but the election of presidents shall be endorsed by the Home Boards and Societies. Candidates for positions on the teaching staff of the Theological College to be eligible must represent one of the communions participating in the said College, and their election on the teaching staff, before becoming final, must require confirmation by the Mission which they represent, in such manner as that body may elect, failing which their election shall be null.

Section 5. The Council shall consider and decide upon the curriculum of each College, which shall be submitted by its president on behalf of the Faculty.

Section 6. The Council shall consider and pass upon the estimates of college expenditure, which shall be prepared and presented by the Faculty of each College; shall determine the share to be borne by each Board and Society; and shall forward the estimates to the said Boards and Societies.

Section 7. The Council shall receive applications for entrance into the Educational Union, and shall enter into negotiations with the Mission applying. Any preliminary agreement which they may arrange shall then be submitted to

the Mission concerned for their approval, as specified under Article IX.

Section 8. All the acts of the Council shall be subject to the review and control of the Home Boards and Societies.

ARTICLE VI.—TEACHING STAFF.

Section 1. The Teaching Staff of the University shall consist of:—

(a) The President and Professors of each college appointed by the Council and constituting the Faculty.

(b) Associate professors and lecturers appointed by the Council.

(c) Chinese instructors appointed by the President in consultation with the Faculty and subject to the endorsement of the Council.

Section 2. The Missions taking full share in the Union shall be, as far as possible, equally represented on the teaching staff of each college.

Section 3. No member of a Faculty shall be eligible for election by a Mission or a Church as its representative on the Council.

ARTICLE VII.—OWNERSHIP OF COLLEGE PROPERTY.

Section 1. The initial plant of the Arts College at Weihhsien shall remain the property of the Board of Foreign Missions of the Presbyterian Church in the United States of America.

Section 2. The initial plant of the Theological College at Tsingchowfu shall remain the property of the Baptist Missionary Society in London.

Section 3. The initial plant of the Medical College at Tsinanfu shall remain the property of the Baptist Missionary Society in London.

Section 4. Each Board or Society shall provide residences for its own representatives on the Faculty, either by building its own houses or by payment of rent as may be arranged in consultation with the Council.

Section 5. While it is not made a condition of entrance into the Union that the uniting Missions should contribute to the cost of existing University property, plant, or equipment, nevertheless each Board or Society shall provide for the increased cost of such property as is involved by its entering the Union, the amount of this increased cost to be determined by the Council.

Section 6. Any additional property or plant which may be contributed to the respective colleges by any of the uniting Missions shall be vested in the Board or Society providing it.

Section 7. In case of any Mission withdrawing from the Union, the Board or Society owning the initial plant shall have the option of purchasing the property of the withdrawing Mission.

Section 8. Any endowment shall be vested in the Board or Society raising it, and the income thereof shall be applied to the expenses or equipment for which that Board or Society is responsible.

ARTICLE VIII.—FINANCE.

Section 1. The salaries of the foreign teachers shall ordinarily be paid by their respective Boards and Societies.

Section 2. The current expenses of each college shall be shared by the uniting Boards and Societies in proportion to the average number of students sent by each Mission. Current expenses shall be defined to include travelling expenses of Council and of Faculty in attendance on Council meetings, repairs and upkeep of apparatus, salaries of Chinese teachers, heat, light, attendance, and such other items as the Council may determine. All cost of repairs and upkeep of property shall be borne by the owner.

Section 3. The distribution of items of expense other than those already mentioned in this article, shall be determined by the Council.

Section 4. The uniting Missions, heartily approving the principle of self-support, urge the Council to extend its application as far as practicable.

ARTICLE IX.—ADMISSION TO THE EDUCATIONAL UNION.

A Mission desirous of entering the Educational Union, with respect to any or all of its Colleges, shall make application for admission to the University Council, with which it shall negotiate a preliminary agreement that shall be submitted by the Council to those Missions which are members of the Union in respect of the College or Colleges with which it desires to unite. The approval of a majority of those Missions and of the Boards and Societies concerned shall be necessary for admission to the Union.

ARTICLE X.—AMENDMENTS.

Section 1. Amendments to the agreement may be made on the initiative either (a) of the University Council, (b) of any of the uniting Missions, or (c) of any of the Home Boards or Societies, provided that such amendments receive a three-fourths majority of the Council voting in the affirmative, the approval of three-fourths of the uniting Missions on the field, and finally the ratification of the Home Boards and Societies having a full share in the Union.

Section 2. In the event of any Mission desiring to withdraw from the Union, notice of not less than two years shall be given to the other Missions.

RULES OF PROCEDURE AND ORGANIZATION
OF THE UNIVERSITY COUNCIL.

I. The officers of the Council shall be a chairman, a vice-chairman, and a secretary and treasurer in one person, who shall be elected annually.

The duties of the chairman and the vice-chairman shall be those usually pertaining to those offices.

The duties of the secretary and treasurer shall be to keep the records of the Council meetings, to forward the reports required by the Basis of Union to the Missions, to the Committee in London, and to the Board in New York; to issue notices at the instance of the chairman; to draw bills on the Home Societies, pay out to the college treasurers all monies required by the respective colleges, except personal allowances, co-ordinate the accounts, present them in one statement to the University Council at its annual meeting, and then forward them to New York and London.

II. There shall be one regular annual meeting of the Council the date of which shall be fixed at the previous annual meeting.

Special meetings of the Council may be called by the chairman upon the written request of half the number of members. A month's notice shall be given, specifying in writing the business to be considered, except in cases of emergency, and no other business shall be considered.

III. The following power and duties are recognized as belonging to the Council:

1. Those directly specified in Basis of Union.

(a) To elect all members of the teaching staff.

(b) To determine the curricula of the college.

(c) To pass upon estimates, apportion expenses between the Baptist and Presbyterian Societies, and to forward estimates to London and New York.

(d) To propose amendments to the Basis of Union.

2. The following implied powers :—

(e) To review the minutes of the formal meetings of the foreign teaching staff of each college.

(f) To audit the accounts of each college.

(g) To pass upon all general regulations devised by the faculties for the management of the institutions.

IV. The standing Committees of the Council shall be :—

1. A Finance Committee, which shall consist of two members. The duties of the Finance Committee shall be to receive and consider estimates, and if necessary confer with the faculties concerning them before the meeting of the Board ; to present estimates to the Board ; and after appropriations have been made in London and New York, to authorize transfers within the total of the appropriations.

2. An Auditing Committee, which shall consist of two members. The duty of the Auditing Committee shall be to audit annually the accounts of each of the colleges.

V. The President of each college shall present annually in writing a report on the work of his institution for the past year, which shall be based upon individual reports from the professor in charge of each department as to his work and its results, and such a report shall also include a general report from the President relating to the quality of class work, religious life, moral tone, and physical health of the students, cases of discipline, prospective occupation of graduating class, and such other matters as the President may consider necessary.

The foreign teaching staff of each college shall appoint a registrar, whose duty shall be to keep records showing where the students come from, whether Christian or non-Christian, character and attainments while at college, their settlements after leaving it, and any other items which may seem desirable.

VI. Each institution shall have a local treasurer appointed by the University Council on the recommendation of the

Faculty, who shall keep the college accounts and be responsible for the same to the University Council.

THE TSINANFU INSTITUTE

ANNUAL REPORT-1917

The work of the Tsinanfu Institute is a continuation of that commenced in Tsingchoufu in 1887 and is intended to influence on social, educational and evangelistic lines all sections of the community, but more especially people of the educated classes. Through its agencies it endeavours to enlighten and educate, to do away with misconceptions with regard to the civilization of the west, to explain the true nature of the Christian Faith and its results on individual and national life.

The Institute seeks to enlighten in all that makes for the progress and welfare of China, and to assist in bringing East and West together in friendly and helpful understanding. The work has been described by observers as "an attempt to awaken and educate the minds of men and women to a sense of the greatness of the universe, the oneness of mankind, the relationship of their own country to other countries, the proportionate wealth of different countries in physical products and the proportionate measure in which these products are being utilized, the mental and moral status of the different races of mankind, and a presentation of some of the causes which have operated for the uplift and degradation of mankind."

That the Institute has to some extent succeeded in attracting and interesting the Chinese people is evident from the fact that 3,400,000 visits have been paid to it since it was opened in 1905.

The educational museum of the Institute which has been described as containing "exhibits of civilization" is open daily free of charge, the visits during good weather being from six hundred to over a thousand every day. On special occasions there have been over five thousand visitors in one day. In the

various sections are exhibited natural history specimens, geographical globes and models, historical charts and diagrams, models and diagrams giving elementary instruction in physiography, geology and astronomy, models illustrating means of transport and communication, apparatus illustrating practical application of science, specimens of manufactures, models and diagrams on hygiene and prevention of disease—especially those diseases most prevalent in China, illustrations of the various races of mankind, also models and pictures of churches, asylums, hospitals and other institutions which are the direct products of Christianity.

The other buildings of the Institute consist of two Lecture Halls, the larger seating ^{five} four hundred, which is mainly used for lectures to students and others, the smaller in the centre of the buildings is used several times daily for evangelistic addresses; Reading Room and Library; Reception rooms for social work; Workshops and Assistants' rooms.

The sections on Hygiene and the Prevention of Disease, illustrated by models of disease-bearing insects, diagrams and letterpress, have attracted much attention, and there is reason to believe that they have been specially useful in stimulating thought and inquiry on these matters. It is not an uncommon thing to see people taking notes of the letterpress and diagrams. Models of afforestation have attracted keen attention and a recent model illustrating the suggestions made by western engineers for the regulation of the Yellow River also attracts great interest. The letterpress descriptions of the various exhibits are carefully read by large numbers, especially of the student class, and we believe that the teaching conveyed materially helps towards educating public opinion in right directions.

The special feature in the history of the Institute during 1917 is its amalgamation with the Shantung Christian University as its Extension Department. After the decision to move the Arts College from Weih sien and the Theological College from Tsingchoufu to the provincial capital it was arranged that the Institute become an integral part of the University, and in the autumn of 1917, on the removal of these colleges,

the arrangement came into force. The University now consists of four departments,-- Arts and Science, Medicine, Theology and Extension Departments.

Though the new arrangement has been in operation for a few months only, effective assistance has been given by professors, both foreign and Chinese, in the educational, evangelistic and social work of the Institute. Lectures given by several of the professors have been much appreciated by, large audiences and efficient help has been rendered by senior students in classes and in other ways.

Special interest has been shown by Chinese educational authorities. Representatives of educational boards have paid repeated visits and inquired carefully into the work carried on. Large numbers of students from the government colleges in the neighbourhood have visited the Institute as in former years.

Lectures on subjects of special value to Chinese have been continued during the spring and winter months, at least one lecture being given every week. Among the subjects were the value of Afforestation, Hygiene, Education in Western Countries, the Panama Canal, Boy Scouts, the History and Work of the Red Cross Society, etc., etc. Some of these lectures were repeated to different audiences throughout the city and suburbs.

In former years occasional lectures were given to women. This year it was decided to give a monthly lecture to women and girls, special invitations being sent to the government schools for girls. The first of this series on the Red Cross Society was attentively listened to by an audience of over three hundred. Some account of the efforts of ladies of the allied nations in China was given and specimens of work done by these foreign ladies were shown. These together with demonstrations of bandaging by nurses attached to the University Hospital aroused a good deal of interest. Lectures on the Red Cross Society have been given eight times in the city and suburbs.

Classes are held immediately after the lectures in the Institute for the benefit of any who desire further conversation on the subject of the lecture or who wish religious instruction.

In spite of adverse conditions the trade of Tsinanfu has grown rapidly during the last few years and special efforts have been made to get into closer touch with the mercantile community. Over two thousand visits were paid by members of the Chinese staff to shops, banks and other places of business, not fewer than six thousand people being met during these visits. In nearly all cases the assistants were received cordially. A number of receptions for the benefit of merchants and their employees were held, the attendances varying from fifty to three hundred at a time. At these receptions the guests were received in the main building, shown round the Institute in groups, and after refreshments a lecture was given, usually illustrated by lantern and cinematograph. We have been much indebted to friends for the loan of films of an educational character which have proved of great value on these occasions as well as for regular lecture work.

The Institute is situated near the Mohammedan quarter and every day there have been visitors from among our Mohammedan neighbours with whom relations tend steadily to improve. A visit paid by Dr. Zwemer, the celebrated Arabic scholar and missionary, to the leading Mohammedans and an address given them in the lecture hall were much appreciated.

That the work of the Institute continues to influence all sections of the community is shown by the record of the different classes of visitors. Parties of police have been brought by their officers for special visits, paying particular attention to the exhibits in the Hygiene section. Visits were paid on two occasions by a large party of military officers who had been called in from different parts of the province. On the second occasion ninety men attended a reception and lecture given for their benefit. As they were about to leave the commanding officer made a cordial speech saying that he hoped they would be better soldiers for what they had heard. Political conditions have lessened intercourse with officials but some acting officials as well as friends of the old regime have been visited in their homes. The total number of visits paid by men of the official class during the year amounted to 2031, visits from ladies of

the same class numbered 1779. A reception was recently held for the purpose of bringing together the principals and teachers of the government schools and the professors of the Shantung Christian University with the hope of inaugurating friendly relations between the University and government institutions. A club which has been formed among the Chinese members of the University staff which meets in the Institute has, as one of its objects, the furthering of good relations with government colleges.

The separate department for students of the government colleges, consisting of recreation room, reading room, class room, has been well used. Over 15,000 visits have been recorded for the year in this department.

The reading rooms, of which there are now four in the Institute and branches, have been in daily use. Numbers of books have also been bought by visitors, pamphlets on hygiene being in greater demand than formerly. Over 9,000 copies of Gospels were purchased, in most cases by pilgrims to the temples in the vicinity. These pilgrims, who visit the institution in large numbers, represent some of the best elements in Chinese life. Special arrangements were made during the great spring fair as in former years for the instruction of these people, many of whom show an inquiring spirit.

A number of additions have been made to the educational exhibits of the museum, the most important of these being a large case containing models illustrating the work of the Red Cross Society. This case contains over two hundred separate models, illustrating the beneficent efforts of Red Cross workers from the firing line to the convalescent home. This case attracts more attention than any other in the institute, it being no uncommon thing to see twenty to thirty people at a time standing round it. This case was placed in the institute in memory of a British soldier who in former years rendered service to the work of the institution.

Additions made to the exhibits in the commercial section have been of value, A number of the leading companies in

China have exhibition cases on view which are not only of educational value but of advantage to commerce.

Among the visitors of other nationalities than the Chinese were British, American, Danish, Belgian, French, Italian, Russian, Swedish, Serbian. Two hundred and twenty-five visits were paid by representatives of these nationalities. The greatest number of visits by foreigners came from the Japanese, the visitors representing all classes of the people. Numbers of the soldiers stationed on the railway have come from time to time and have been marked by their excellent behaviour. A party of twenty-four students from Osaka who were travelling in North China paid a prolonged visit. Much interest has been shown by these Japanese visitors who numbered during the year 4,736.

The number of visitors amounted to 383,808, of whom over 40,000 were women. Including attendances at lectures the total number was considerably over 400,000, the largest in the history of the Institute.

The work of the branch in the west suburbs has been developed by the placing of a reading room and a small recreation room in the front court. These have been well used. In the evenings, in addition to the regular evangelistic work, a special weekly lecture, similar to those above mentioned, has been held. This has been much appreciated by the people of the neighbourhood, the little lecture hall which seats a hundred and thirty having all seats occupied, occasionally all standing room being filled as well.

The branch institute for soldiers, situated near the garrison, has been well used by the men, the recreation room, reading room and lecture hall being open daily free of charge to all soldiers, civilians of the neighbourhood being also allowed the use of the buildings. On Wednesdays which is now the soldiers weekly holiday, the visits have been from fifty to three hundred in a day. Addresses have been given to soldiers throughout the year which were for the most part attentively listened to by the men. An encouraging feature of the work of this depart-

ment has been the steady improvement in the conduct of the soldiers who use this branch. Year by year their behaviour is markedly better; in their relations to those who work this branch the attitude of the garrison as a whole is gratifying. The conduct of the men has been distinctly good and they show appreciation for what is attempted on their behalf.

The difficulties and responsibilities of the work have been, on account of depletion of staff and financial stringency, greater than ever before in the history of the institute and its branches, but looking back on the year it is, on the whole, perhaps the best year we have ever had. The Chinese members of the staff have done specially good work and particular mention should be made of the efficient service of Mr. Liang En, B. Sc., who, on the completion of a university course in America, joined the staff at the beginning of the year.

The aim of the institute in all its departments is to help China and the Chinese people in the path of enlightenment and progress by showing the principles on which alone true progress can be made and maintained. To this end addresses are given daily in the central hall showing what Christianity has done and is doing for the world. 1644 such addresses were given during the year, which have been heard not only by people from the neighbourhood, but by visitors from other parts of this province and other provinces. The teaching given in all departments is of a positive and not of a negative character, full recognition being given to all that is good in Chinese institutions.

The events of the past three years have given greater emphasis than ever before in the world's history to the fact that material and intellectual advancement may be accompanied by deep moral debasement. Some among the Chinese are learning the lesson that neither material and intellectual advancement nor changes in form of government can save China, but that this can only be accomplished by the renovation of life and character that is brought by the influence of religion, not nominally believed in but obeyed and practised. To help towards the understanding of these truths is the chief aim and purpose of all that is attempted in the work of the Institute.

1.

Cheeloo university (Shantung Christian university)
Tsinan, China. School of medicine.

The School of medicine of the Shantung Christian university was established in 1909 by the English Baptist mission and the American Presbyterian mission North, the original buildings and hospital being erected from funds contributed by the English Baptist mission, and the institution being known at that time as the Union medical college. To this college the China medical board, in the year 1916, transferred three classes of

Cheeloo university (Shantung Christian university)
Tsinan, China. School of medicine. (Card 2)

students from the former Peking union medical college.

In 1916-17, on the recommendation of the Council of medical education of the China medical missionary association, the Medical department of the University of Nanking and the Hankow medical college also transferred their students to Tsinanfu, together with some of their professors, so that the present School of medicine now represents the amalgamation of the above institutions.
