32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE

YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

In 1940, since I had to join Ginling College right after I got back from America, I could only fly from Hongkong to Chungking by plane. The regulation of the aviation company was very strict that I was allowed to take not more than 33 pounds of clothing along. So I had to leave the rest of my belongings at home. Unfortunately when Hongkong was occupied in 1941, my home, which was right next to Kai Tak Air Field was looted. All my precious collection of teaching materials were gone, and not a single thread was left!

Within the last six years, owing to the limitation of my income and teaching materials, I had suffered badly on the material side. However, I had gained much more self confidence than ever. I could proceed my teaching smoothly and had improved my teaching method year after year. I had tried to use all kinds of local products to make household <sup>furnishings</sup> (decorative objects) and household wares. During winter and summer vacations, every year, I had experiences of conducting groups of <sup>Ginling</sup> ~~women~~ students to put up educational exhibitions and demonstrations, in which we usually used home decoration, children's food & clothing, home-made toys, children's nutrition, etc. as our subjects. Most of these exhibitions were put up in rural social service centers. We had gained excellent criticism everytime.

After three years hard working, my health began to degenerate, yet I could not rest even during my pregnancy. I had to work & teach on the wares day when I gave birth of my first child. Continuously <sup>teaching after 28 days of confinement</sup> ~~work~~ for another year, my health was getting worse, so I had to leave the heavy teaching post in 1944. After a few months resting, I felt better again. Then, I continued to take charge of another educational program of China Nutritional Aid work. During the next two years, I worked with Miss Yang Ming Hsin, my Yenching classmate, to publish series of pamphlets called "Children's Nutrition". Besides, I had tried to give series of lectures on nutrition and conduct demonstrations of cookery and also the consultation service for mothers in Chungking. Until the end of the war, I came back to Canton & began to teach in Lingnan University again.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

When the Japanese first bombed the city of Tientsin in 1937 I was in the town and had seen everything about the cruelty of the Japs. Since then I had never left Tientsin. I used to travel between Peiping and Tientsin once a month and even two times to Shanghai during the Japanese occupation. I have seen so many types of Japs during the time of War.

31. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR? \_\_\_\_\_

Upto Pearl Harbor I was in Peiping teaching & editing the Yen-ching Journal of Social Studies, due to the reluctance on the part of the University after to let me go. After the Pearl Harbor, as I have just explained, I went into the interior & started Yen-ching again in cooperation with a group of people. I also wrote a number of articles during this period, besides teaching & directing the affairs of the college of Public Affairs.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE

YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

I was not interned or imprisoned after the Pearl Harbor when Yenching was forcibly closed. I was ~~was~~ only politely watched for three months. This was a most miraculous escape. I will not give the reasons as to why. I went thru a number of risks when I started to come to the Interior in ~~early~~ Spring 1942, not to say anything about the hardships I went thru. My trip took place at about the same time as the first bombing of Tokyo in order to forestall the use of China's coastal airplane base by the Americans. Japanese started an offensive along the Chekiang-Kiangse Railroad. The Japanese were therefore following my footsteps rather closely. I was constantly exposed to bombing on all my way to the interior, & narrowly escaped death several times. The most spectacular escape of death took place near the Fuyang and Hangchow border, where I was besieged & machinegunned by the Japanese for over half an hour when I was finally rescued by the Chinese guerrillas. I considered my life as being lost when suddenly the Chinese soldier came to my rescue. It was an episode full of dramatic features, thrill, & inspiration.

29. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR? \_\_\_\_\_

In the beginning of the war while Yenching is still going on,  
I was teaching in the physics Department. After Dec. 8th, 1941,  
I went to the interior part of China in governmental insti-  
tutions. When Yenching reopened in Chengtu, I joined Yen-  
ching and teach in the physics department again. From then  
on until the V-J day. After the V-J day, Yenching University  
at Chengtu is planning to move back to Peiping. I then  
helped in the rehabilitation work. On account of the  
travelling difficulties, many books and equipment were

30. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC?

hindered at Sian. It is only in the Spring of 1948, I went to Sian by plane. After repacking and sorting I then spent one month in Sian to get these things ~~to~~ transported by plane from Sian to Peiping. The total tonnage was 3 ~~ton~~ tons. Under the present difficulties in communication to transport 3 tons of non-war material is really not a easy business.

Since 1942, to travel from the Japanese occupied area to free China is very difficult. I spent 4 months to get to Chengtu. I had a very hard time on the way in carrying with me my wife and three children. I used to follow a zig-zag path in order to get around the war zone. Sometimes I and my family have to sleep in in the open air in the farm field in the night. Sometime even worse is that I have to carry baggage and children to run for air raid alarm.

Then I was a part-time Lecturer in Chinese at Washington University. After I got my Ph.D. degree in Physics from Washington University, I was employed by the Massachusetts Institute of Technology as a research staff at its Radiation Laboratory. There I did some war research in developing Radar equipments for the U.S. Government.

WORK EXPERIENCE

26. WHAT DO YOU CONSIDER THE MOST IMPORTANT WORK YOU HAVE DONE SINCE LEAVING COLLEGE? \_\_\_\_\_

Assistant in the Department of Public Health, P.U.M.C. 1938-1941 Dec.

That position offered me the opportunity to become the Physician

in-charge to two Mission middle schools as well as to two rug

27. WHAT TYPE OF WORK WAS IT? \_\_\_\_\_ factories in Peiping.

~~The work dealt mainly with the maintenance of health of 1,500 school boys and 900 school girls, 400 plus men workers and 150 odd women and girl workers. It included administrative as well as professional work for this group of individuals. It was pioneering work in this locality at that time and I was kept at it from the summer of 1938 until Pearl Harbour. Since then I was forced into private practice.~~

31. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR? I was taken by the Japanese soon after Pearl Harbour for "Undesirable Thoughts" and kept by them for three days. Before I was released I was "requested" to signed a pledge not to leave Peiping for the duration of war. Thus, I remained in Peiping doing private practice during the entire period of the last world conflict.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

During the war I had contributed nothing to my country other than supporting fifteen members of my family and that of my wife's, if one could call that a contribution to a country. During this period I was able to carry on the responsibility in the beginning thru my practice alone. But as time dragged on the standard of living rose, the income from my profession could hardly catch up with it and I soon had to take up selling of motor car as an additional source of income. After V-J day, I was offered to help in taking over the Methodist Hospital and run it, which I gladly accepted. To this position I am holding to this day.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE

YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY

ACTIVITIES. Tried to organize anti-Japanese volunteer fighters in 1931 in north China, but found the activities under the ban of the Government. Even the effort in Shantung was handicapped by Government sabotage in 1937. Left Yenching in 1938 to engage myself in reconstructive measures toward our general resistance against Japan, but the Government did not allow the intellectuals to have direct contact with the masses, even in the

Northwest. Thus the three years among the Tibetans, trying to understand them and at

the same time to do anything possible to enlighten them. With my wife's assistance, the

first school for Tibetan girls was organized with friendly help from individuals. No

support from the Government. Thus the sacrifice of our four children's education for 9

years (being left in the Japanese-occupied area) did not bring us nearer towards

China's reconstruction, except some insight into the latent strength of the people and impotency of the Government. Two of our children were captured by the Japanese when they

tried to come out. Interned for a month but finally released to go back to Peiping.

I was driven out together with all other students of Yenching University during the Pearl Harbor accident of 1941, as the school was occupied by the Japanese. Then I went to St. Johns University Medical School in Shanghai in 1942. During 1943 spring, I escaped through the Japanese hands and went to Interior China with a group of students. As we just passed Hankow, we were captured by the Japanese soldiers, many of the students were shot. Our group was lucky and was spared. We were forced back to Shanghai. I then stayed in St. Johns Medical School for half year more and then I went to Chengtu again and this time I succeeded. Then I finished my medical study in The West China Union University Medical School in June of 1946 and I came to the country in September, 1946.

On the 1st part of Nov. 1945 when Japs were approaching Kueiyang from Kuangsi, we received an order that all women & children should evacuate at once. So my 4-month old baby & I had to separate from my husband. We had no idea where we were going, it was possible that we could not meet each other again. All the women & children were packed up in open trucks like sardines. And the winter was bitterly cold. We had a terrible & miserable time. We stopped at a small village along Chungking-Kueiyang highway. The sheltering place was just a roof and broken-down walls <sup>for the 1st few days.</sup> We could not but expose to the icy cold wind. It was lucky that my baby did not develop pneumonia. Then New Year came & the situation became better. I was so happy that I could return back to Tu-yin-Kuan & meet my husband again. He is here now studying Anatomy together with me.

In Sept. 1937, I was arrested and put in jail in Tientsin for three weeks. There I met many students of other universities. It was my wonderful experience that I had peace instead of worries. This should be ascribed to the fact that I personally had a strong religious faith and that Chinese people as a whole were fighting and suffering for the good cause.

My hardest time during the war was to deal with Japanese military officers as well as the officials of the puppet government. I wanted the school to go on yet I was not willing to cooperate with those groups. I was suspected for a certain period of time but at the end they thought I was an honest, <sup>stubborn</sup> ~~stubborn~~ yet harmless woman.

During the war, my father (Henry Chon) was taken in prison ~~in~~ by the Japanese. I was the one who had to send clothes to him. I was fourteen, then, and was scared by them (Japs). My Mother and brother did not get to send things to my father because whenever they went, the Japs always questioned. ~~I got~~ My father was in prison for half a year, and when he came out he lost 48 lbs. He was weak and was worried all the time; so he died one and a half years after he came out. We suffered a lot during the war, under the Japanese occupied, not only ~~the~~ materially ~~things of life~~ but also the psychologically ~~effects~~. I ~~don't~~ could stand all the hardships, but I can't get over the death of my father.

Welfare Advisor.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

1. When the Rural Institute took Tingfan County as its field. Staff of the Institute were appointed concurrently as the officials of the County Government. I like my experience as the Registration Clerk of the County Government for 40 days. I was probably the only returned student from the States who ~~also~~ took such a low post in China. My status and locus (at the gate of the yamen) helped me to understand more of the common people.
2. From the post of registration clerk I had the pleasure to be transferred to be the chief of a mountainous district, the inhabitants of which were mostly miao & yi, two ethnic groups. The post of the chief (chii chang) was also very low, but my eleven months of being a chii chang helped me to know more of the rural and frontier China.
3. With an interest in anthropology since college days and an experience in working with the miao and yi, I ventured to go to the Fan and Lolo regions in the western part of Szechwan. (See my English report, "The Black River Communal Politics" in the Journal of the West China Border Research Society, Chengtu.)

29. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR? I was in Amoy Fukien, and being a

principal of Amoy Girls' Middle <sup>school</sup> during the war. Amoy was one of the Japanese

occupied districts. How could I work under the Japanese severity in order to

keep our school, teachers students and equipment, from injury? It is the most

wonderful miracle of God that I have ever seen in my life. It is certainly a

long story to tell. But I will try to tell it as concisely as possible in the

next page.

30. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC?

Eight months before the Pearl Harbour was bombed, one could easily predict by the atmosphere of the Pacific Ocean that the war between United States and Japan would be coming pretty soon. I was worry about the security of my school, a Christian high school, if the war actually come. Then God promised me by saying, "I the Lord do keep it, I will water it every moment, lest any hurt it, I will keep it night and day." (Isaiah 27:3) When war came, all the Christian schools were taken by the Japanese and reorganized to be Japanese controlled and supported schools. So did ours. I was then trying to run away from the occupied distrect to Free China, because I thought that God didn't keep His promise as I saw there were wolfs in my school. But God didn't allow me to run away. Now His idea is higher than mine. He captured and made me surrender to cooperate with Him in order to fulfil His promise. How could I oppose God? I did surrender to Him and let He tell me whatever He wanted me to do. For four years I humbly worked under God's will. I have the privilege to see that God fulfilled His promise through my cooperation. When the Japanese wanted to move the school equipments, such as piano, microscope, sewing machine, etc., to other places, God gave me the wisdom and bravery to persuade them not to do so. As the Christian program was not allowed in school, we secretly holded our prayer meeting and special service of faculty and students in our school. The spiritual life was even more abundant than before the war. We have hundred of strdents and teachers became Christian under such disagreeable situation. Although we were often warned by the Japanese authority, God was our fortress, whom we should fear? Glory be unto the Lord!

8. Numerous articles in various Chinese journals and papers.

32. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC? THESE EXPERIENCES NEED NOT BE LIMITED TO MILITARY ACTIVITIES.

Although not been captured and interned by the Japanese, our sneaking away in a most clandestinely cautious way gave us enough tense feeling of fear, when we left Peiping for Changsha at the end of Sept. 1937, for there had been close watching and thorough searching by the Japanese with threatening at all the city gates of Peiping and all the railway stations in Peiping and Tientsin. I had a narrow escape from the first Japanese bombing of Changsha in Nov. 1937, because no air-raid alarm was sounded ahead. In 1938, Aug. 28th, when the Japs. bombed Kunning the first time, my bed room roof was blown off, just very fortunately happened when I went to Hong Kong to get my family up, so a very lucky miss again. In 1941, when the Japanese bombed Kunning very badly several times ~~in the~~ my family & I were very close to the spots where the bombs fell, we were saved only by sheer luck and chance in shallow open dugouts over the hill slopes in the suburb. In 1942, when I went with the Chinese guerrillas to do some field <sup>geographical</sup> research in the unsettled frontier regions between Yunnan and Burma, I had some most thrilling experiences among the shans and ~~Kachins~~ <sup>(Kachins)</sup>, such as the unconscious biting by the leeches - I found many times my socks or my shirts on the back were soaked with blood, when I took off in the evening after a day's riding of horses - without the slightest feeling of being bitten by these blood-suckers, in spite of the cautious protection by wearing long boots and leggings, etc. We travelled and worked most of the time in pouring rains, so almost every night we had to dry up our blankets over the fire place before we ~~could~~ <sup>went</sup> to sleep. Some times our food supplies ran short, so we had to be contented by taking Congee porridges and wild young shoots only. The road was muddy and slippery that our pack animals often rolled down the precipitous slopes or tumbled down into the torrential mountain streams. Sometimes we were so close to the front that enemy firing suddenly gave us great unexpected shocks and ~~kept us quiet for few days in the jungle and rain.~~

Bombing in Kweiyang, from 1939-1942, is a daily experience, especially in summer times.

The most horrible period is during the Japanese invasion of Southwest China in 1944 winter,

the government plans to devastate the capital of Kweichow. All communication lines and

transportation facilities <sup>were</sup> blockaded by marshal laws and other disasters, the college, students <sup>K.M.</sup>

and faculty members, discarded all their belongings walked up to Chunking in the cold

winter, when the highway all way thru was <sup>full of</sup> lined by our defending soldiers moving

from Northwest to Kweichow and Kwangsi, at the same time, the roads on mountains were

frozen. Imagine how difficult we faculty members, with different ages of children, experienced

in such a migration.

29. WHERE WERE YOU AND WHAT DID YOU DO DURING THE WAR? During the war I  
was in Kiangsi and kept on my school open  
in free lands but not very far from the  
war front. I moved my school eight times  
with my refugee faculty and refugee  
students. Right after the war I took the risk  
of great danger and followed the 58th Army  
into Nanchang with the aim of recovering our  
property and to rebuild our school. My  
Bishop<sup>Ward</sup> and my mission were so pleased by  
our work and gave me this chance to come  
over for a refreshment.

30. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC?

For this item you can read from my report.  
This information blank was sent to my husband Mr. Jen-chi Chang who has gone back home but may come over again some time ~~this~~ August. Since I am one of the China Christian Colleges Alumnae so I fill it and send back with my report.

## REPORT OF THE BALDWIN SCHOOL FOR GIRLS

When the war conditions made it necessary to leave Nanchang, Baldwin school moved first to Yuntsen, then to Szechuen and finally to Yutu. Prior to the fall of Kanchow our enrollment increased yearly. The spirit of the school was excellent, and we preserved the scholastic standards of pre-war years. Eighty percent of our graduates who took college entrance examination passed. Almost one hundred percent of our graduates were Christians. Those who worked after graduation gained the confidence and trust of their colleagues. Our student body received in their daily diet soy bean milk so that our nutritional standard among war-time schools was considered the best in Kiangsi. The Minister of Education on his visit to our school rewarded us for our good care. More than 80% of our teachers were Christians. Although they received only half the salary of teachers elsewhere, they put their whole heart into the work, with the exception of several teachers of long standing, most of our faculty were alumnae and college graduates. For several years there were four on our faculty holding the degree of M.A. Two of our teachers, Miss Lois Wang and Ai Kuang Hsiao, received a prize from our Provincial Government for superior work accomplished. I myself received a prize for my "Ten years' Principalship in Baldwin School".

It was during the Christmas vacation of 1944 while I was in Kanchow receiving medical attention that I first learned of the critical war situation and rushed back to the school to report what I had heard. We held our final examinations ahead of the original schedule in order to conclude the first semester's work and permit the students to go home earlier for the winter vacation. At the same time we packed our library and science laboratory apparatus and had them sent to friends' homes in the surrounding country-side.

Before Kanchow finally fell into enemy hands, refugees poured in an endless stream into the school building (the school is on the main highway). There were bitter winter days filled with relentless rain and sleet. To meet a desperate need we became temporarily a refugee station. There were about one thousand persons massed under our roof. Our furniture, in fact anything inflammable, was used for fuel. Babies were born and those who couldn't take it died. There were even a few cases of suicide. Thus Baldwin School became the stage for the setting of another tragic scene.

The other mission-operated organizations in Yutu evacuated. The women and children's Hospital moved to Lichuen; the Refugee Camp which was under the supervision of Pastor Hsu dissolved. For several reasons Baldwin could not and did not follow their example. To go only as far as Ningtu would have cost at least CNG\$10,000 per person, and the funds we had on hand would not permit this. Further more there seemed to be no reason why the Japs should want to come to Yutu which unlike Kanchow was not in line with any of their outposts. Miss Seech and I had agreed that, in case Yutu was threatened, Baldwin would take refuge only in the country away from any of the cities on the highway. Taking everything into consideration, we hid ourselves in the country fifty li from Yutu city.

As I have already stated we had a refugee camp in our school. I sent most of my young girls and teachers into the country. With our matron Mrs. Tang I remained until the Japs came to within 35 kilometers from Yutu when for one whole day we could hear the gun-fire of their artillery. All the people of Yutu with the exception of some refugees fled. The Principal of the Government Vocational School for Girls and I remained in the city to get some money and rice for the students and refugees whom we had already sent into the country. With gratitude to God I wish to here give a testimony of how He gives strength to His children. When I left Kanchow I was still in

a weak condition. To me will ever be a miracle that my weakness was turned into strength so that I was able to walk long distances and to climb mountains almost as high as Kuling. In bearing the responsibility for those helpless refugees and dependent students God gave me the needed strength. I praise Him for this.

It was the day before Chinese New Year that I arrived at our country place for the school. I found that the rice on hand was insufficient for immediate needs, so I started out in the rain clad in my rain clothes and wearing those hob-nail shoes worn by the country folk. I went from farm-house to farm-house borrowing rice. Thus we kept rice in the bowls of all of our school group.

In the country we continued to hold classes with forty eight refugee students and twelve teachers. In spite of several false alarms and threats (bandits and Japs), we were always under the unfailing protection of God. We had cooperation and patient understanding among teachers and students, and help from the local gentry and country folks.

While the school was carrying on in the country it became necessary for me to go to the seat of the Provincial Government at Ningtu to get money for our refugees and students. There were reports of banditry on the roads. Strong protest was raised by the teachers against my going alone, so my husband who held an important position in a Government organization was sent for to accompany me. We had to walk for two days before we reached the first bus station. We got the last bus to leave. Fortunately we had not arrived in time to take the one that had gone just ahead of ours. It was held up by bandits who robbed all and killed some of the passengers.

During the summer vacation of our school Kanchow was retaken and we moved back to Yutu city to clean scour repair and replace the furniture only one third of which had escaped destruction. All was a mess, but we did our best to get ready for the beginning of another school year.

Justice finally triumphed and now Nanchang is our again. While in Yutu we received information that the Japs had left Baldwin comparatively intact. In order to save as much as possible accompanied by Miss Ming Kuo-chun and at the risk of great danger I followed the 58th Army into Nanchang. On our way back to Nanchang when within about 70 li of the city we lost our way in No-man's-land where the roads were obscured by tall reeds. Instead of bearing to the west, by some mistake we moved in an opposite direction. We had lost our way and the sun was about to set. We sat down to rest and to consider what we should do. We arose to look out across the wide expanse where not a village or person was to be seen. Not far off we saw the reeds moving and noted a man walking along. We went to him and inquired the way to Nanchang. He said, "You are far out of your way. Instead of travelling east you should go toward the west." By a liberal promise of money we persuaded him to direct our way. He lead us to the right path by which we finally reached Nanchang.

On arrival at Nanchang we were not allowed to go at once to Baldwin. The Japanese army was being demilitarized in that area. We waited a fortnight and on the 26th of September were allowed to have two rooms in a dilapidated condition just inside our main gate. Our daily activities from then on consisted in salvaging what we could from soldiers. A thousand or more feet of the compound wall was gone. The electric light installation was completely looted away. Our running water system was ruined. We could not find any school furniture. Fortunately the school building (for classes)

was, comparatively speaking, in fairly good condition. A limited number of window panes were broken, the floors and ceiling needed some repair. About 90% of the panes in the dormitory building were gone; about 20 doors were removed and taken away; all door locks were stolen.

Our first task was to rebuild the compound wall as thievery was a daily and nightly occurrence. The next task was to repair the interior of the buildings and make some necessary furniture.

Due to a pressing demand, we began a temporary school with 180 students before our original student body arrived from Yutu. They arrived at the end of November and classes were in full swing. The enrollment reached 308.

After our arrival in Nanchang we members of the Methodist Mission organized a Property Committee of which I was asked to be the chairman. For nine weeks we interviewed military officers, wrote letters, discussed problems all with the aim of recovering as much Mission property as possible. The result is that a large part of our property has been vacated.

Further more I am glad to report that Baldwin was one of the fine private schools in Kiangsi to receive a reward from the Ministry of Education for excellent scholastic standing.

Our main future policy is to enlarge the student body and for two reasons.

1. To meet the educational demand of society.
2. For purely economic reasons. It is not economical to run a school on a small scale. In order to attain these objectives I have in mind two projects:

(a) Cooperation with the Provincial Nursing School. We will accept pre-nursing school students in Junior Middle School. Their expenses will be paid by the nursing school.

(b) Cooperation with the Provincial Government to organize simultaneously a school for Home Economics.

50. PLEASE TELL BRIEFLY ABOUT ANY UNUSUAL EXPERIENCES YOU HAVE HAD - FOR EXAMPLE: WERE YOU INTERNED, CAPTURED, BOMBED, ETC?

When Manchuria was invaded by the Japanese on Sept. 18, 1931, I was at Yenching University in Peiping. There I saw the student demonstrations which tried to force the Central Govt to resist the Japanese. The train on which my wife and two daughters were on was delayed for 48 hours by students refusing to get up from the railroad tracks until they were promised transportation to Nanking. In 1937 when we were conducting the first Ymca model camp for High School in Tsingtao, Shantung, China, we heard rumors that open warfare between the Chinese and Japanese had taken place near Peiping. The silence was so ominous that camp was broken up and I returned to Shanghai before Black Friday August 13<sup>th</sup>, moved my family from the area in which the Japanese had their barracks. Then I was sent to Pootungfu, 60 miles south of Marco Polo Bridge to ascertain to what extent the Ymca is needed for relief to both the civilian refugees and the wounded soldiers. Upon my return to Shanghai, our train was strafed by Japanese planes. Fortunately we had vacated the train and had taken to the fields nearby. On arrival in Shanghai and during the few days when I remained there I saw the Japanese planes bombing the city mercilessly and without any Chinese oppression. Later, Nov. 1937, after Shanghai surrounded I was sent to Hongkong as liaison member between occupied & free China. My chief duty was to help organize the Youth Emergency Program of the Ymca in Hongkong & Canton. While in Canton, I experienced the worst air-raids which occurred four to five times daily. The I had seen and witness is still very vivid. Fortunately I was never interned or questioned as I travelled between Hongkong & Shanghai. As fate would have it, I returned to Honolulu to see the sneak attack on Pearl Harbor on Dec. 7, 1941.
