YEN HING FOREIGN COMMUNITY

Plan for the Conservation and Administration of the Combined Financial Resources
of the Group

Chief Objectives:

1. Providing for the necessary living expenses of all by pooling of funds.
2. Adopting standards of living, insuring reasonable comfort and adequate nourishment, as a guide to personal expenditure.
3. Convenience and efficiency in local administration.
4. Facility in reporting in due course costs and obligations to the University Trustees and the Treasurers of the Mission Boards concerned.
5. Prevention of the difficulties which would ultimately be met if a scheme of distribution of funds by individual loans is adopted, when members of the group are separated at different times and in far distant places.

Having in mind the above named objectives the following plan is proposed:

1. A Finance Committee, consisting of Miss Cockingham, Mr. Payne, and one member elected by the group shall be charged with the administration of the finances of the plan, subject to the direction of the group as a whole.
2. At the first opportune date the Finance Committee shall secure, by a general census, information as to the funds in local currency in the hands of each individual in the group as of February 1st.
 - a. The funds which each individual is to report should be the net balance after the settlement of bills payable and bills receivable which represent immediate obligations.
 - b. If the individual feels that there is any question as to his legal claim or moral right to the use of any part of the funds in his hands Feb. 1st, the final decision as to the use of such funds must rest with the individual rather than the group. In doubtful cases the Executive Committee may be consulted.
3. After the census is completed all individuals will be expected to transfer to the Finance Committee all the funds which they have severally reported. When the resources are thus pooled, the decision as to their use rests with the whole group. The group will decide on:
 - a. The monthly allowance for each individual's maintenance.
 - b. The amount to be placed in a general Reserve Fund to provide for contingencies mentioned below.
 - c. The maximum amount which it considers right and wise to place in a Community Chest for the needs of the general community outside the group.
4. The Finance Committee will issue receipts for all funds placed in the common pool, reckon and record the several amounts in U.S. currency at the exchange rate of , and give each individual credit for the amount received.
5. The Finance Committee will pay out each month to each member of the group the amounts decided upon for monthly maintenance. These amounts will also be recorded in U. S. currency at the exchange rate adopted. At the end of each month each individual shall report to the Finance Committee the total of his or her own maintenance during the month covered by supplies already in hand and paid for before Feb. 1st. The Finance Committee will make corresponding reductions in the maintenance payments for the ensuing month.
6. For each individual or head of a family the Finance Committee will open an account for the record of all transactions.
7. Notes -- 1) In this and the following sections the supporting organizations, Yen-hing University and the Mission Boards, will, for convenience, be spoken of collectively as "The Boards".

0359

2) Included in the Plan are two classes of persons which, for convenience, may be called groups A and B.

Group A. Persons who are regular employees of the Boards, and whose salaries, if in hand, would meet present needs.

Group B. Persons who are not connected with any of these Boards, or, if connected, receive partial salaries insufficient to meet their present needs.

- a. Members of Group A who now, because of shortage of cash in hand, pay into the common funds less than their maintenance allowances will have such debits, together with other debits if there be such, not otherwise settled, reported to their Boards as charges against their salaries.
 - b. Members of Group B will have their accounts treated in the same way (in their case reported to the University Trustees) provided they deposit with the Finance Committee acceptable securities, or promissory notes, covering their respective deficits.
8. Members of Group A who now, because of surplus cash, pay into the common fund more than their maintenance allowances are considered as making loans to be repaid to them later, either by funds in the hands of the Finance Committee, or by their respective Boards with funds charged against the salaries of others (as in 7a).
 9. At the end of the operating period all accounts which cannot be settled locally shall be reported by the Finance Committee to the Treasurers of the Boards concerned, who will be expected to settle the accounts of persons for whom they are responsible. If in the final settlements there may be accounts to be settled among the Board treasurers, it is recommended that such settlements be effected through the University treasury in New York as a clearing house.
 10. When the group has decided upon the maximum amount of its funds to be used for the purpose, a new Community Chest shall be established. Funds (the total of which shall not exceed this maximum) for this Chest may be subscribed by individuals, either by designating for this purpose portions of the funds they have paid into the common fund, or, by borrowing from the common fund, provided their credit is satisfactory to the Executive Committee. Funds in the Community Chest shall be administered by a special committee elected for the purpose.
 11. The Reserve fund, established by the group, shall, at the end of the period, if not securable for other sources, be assessed equally upon all members of the group and recorded as a debit against their accounts. This fund shall be for the purpose of providing for necessary administrative expenses, or medical services, or other serious emergencies. Payments for medical service shall be authorized by a Medical Committee. Payments for other purposes shall be authorized by the Executive Committee. Besides these authorizations the general administration of the fund shall be by the Finance Committee.
 12. The operations of this Plan as affecting members of the Group whose personal financial relations are with the University -- especially members in a part-time or short-term basis -- will be clarified by a separate statement. Special questions involved should be referred to the Executive Committee.
 13. The Finance Committee is requested to report monthly to the group concerning the finances and general operation of the Plan.
 14. At the close of the operating period the present Financial Committee, or other persons elected for the purpose, should continue in office until all possible settlements of accounts have been effected.
 15. If sums from the Community Chest be paid out in the form of loans, these loans should be repaid to the Finance Committee. If the total of repaid loans, and the location at the time of contributors to the Chest make it practicable, pro rata amounts may be repaid to the contributors. Otherwise the Committee may transfer the funds to some charitable organization.
 16. This Plan may be revised by vote of the group. It is intended to be effective for the period during which the present common fund is sufficient for the maintenance of the group. If found expedient for a longer period, it may be extended or modified according to circumstances.

To the members of the Yenching Group:

I was just called to House 60 a few minutes ago on another errand and was told, quite incidently, that it is not necessary for us to move if we ~~have~~ have difficulties in finance or in finding places. He avers that ~~it~~ we misunderstood the notice a few days ago. He now says that they feared that it was inconvenient for us to live here because of the difficulties regarding gate passes and thought that we might prefer to live in the city. This is the latest bulletin at 2:45 this afternoon. If any other message comes, I will try to get it to you as soon as possible.

Yours sincerely,

H.S.G.

SALE OF PROPERTY AND PERSONAL EFFECTS. This was referred to in my last letter and I now have the following official announcement from Dr. Hoeppli's office:

"According to information from the Imperial Japanese Embassy, arrangements have now been completed by which enemy nationals may sell property and personal effects.

1. Applications should be filled in quadruplicate at the office of the Swiss representative, giving full details of the articles for sale and the price asked.
2. If the seller has a prospective buyer, the name and address of the buyer should be stated.
3. The applications will be transmitted by the Swiss representative to the Japanese Embassy for approval.
4. Sellers will then be notified how the actual sale may be handled, and what disposition is to be made of the proceeds!"

The American Committee was also told at the Japanese Embassy that "any article, regardless of value", should not be sold without permission.

INFORMATION TO MEMBERS OF THE YENCHING GROUP; 28 April, 1942

1. The next monthly meeting of the entire Group is called for Monday, May 4th, at 3:00 P.M. in House No. 57.
2. The Executive Committee expects to present at that meeting recommendations concerning certain revisions of financial policy and administration effective from May 1st, based on the changed source of support.
3. Since maintenance funds from Dr. Hoeppli's office are available today; and since the forms of monthly financial report and settlement for individuals may be affected by action taken at the general meeting on Monday, the end-of-April settlement with individuals will be postponed until a date subsequent to the Monthly Meeting.
4. The Executive Committee expects to recommend at the Monday meeting the continued maintenance of a general group fund to provide for administrative expenses, medical service, coal supply for next winter, and other possible emergency or group expenses; and therefore hereby makes a tentative suggestion that a sum of \$40.00 from the allowance of individuals maintaining residence at Yenching be held in reserve pending group decision at the Monday meeting.
